activation similarity — layer 1/31

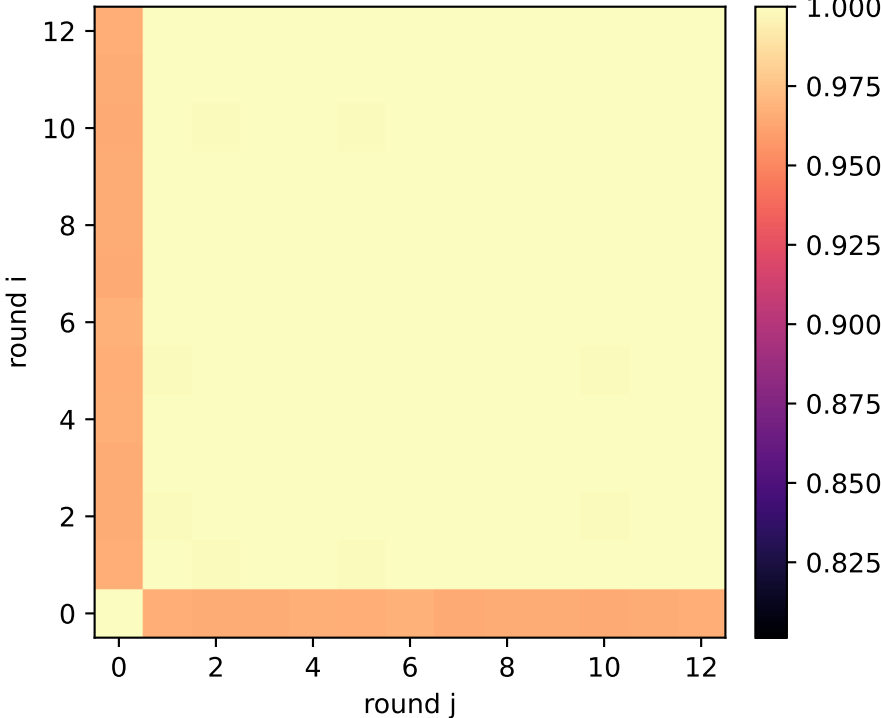

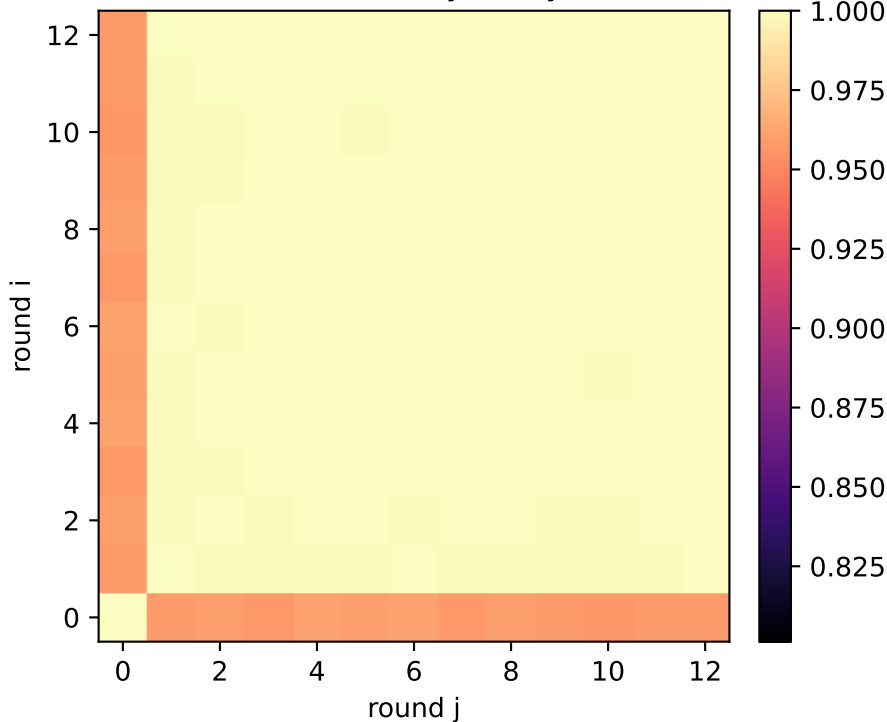

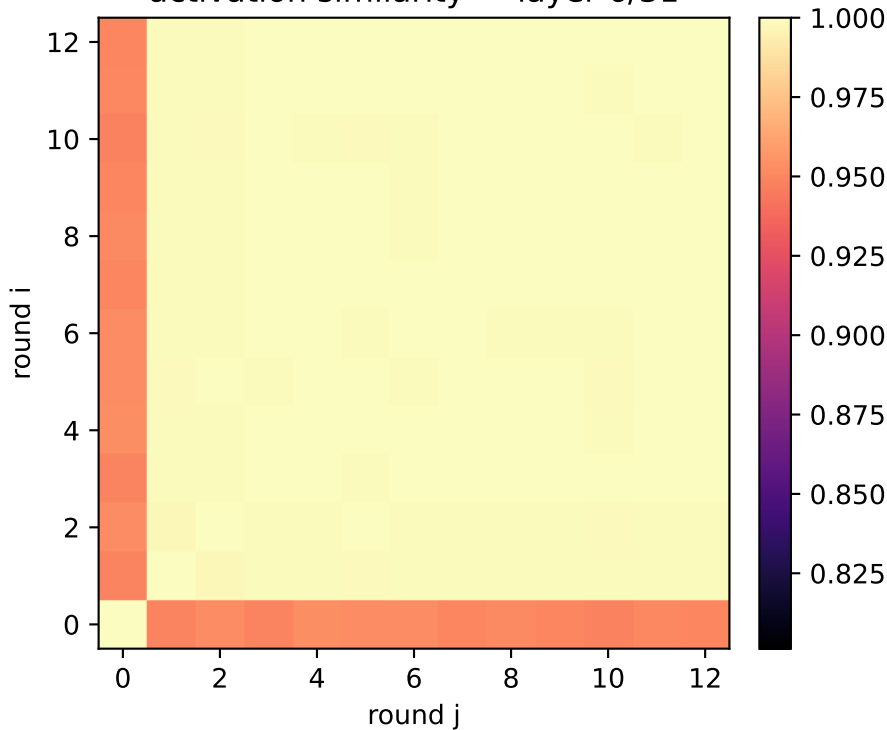

Heatmap visualization of the matrix A^j for $j=0$ to 12 . The x-axis is labeled "round j " and ranges from 0 to 12. The y-axis is unlabeled but ranges from 0 to 12. The matrix is mostly yellow, with a vertical orange band at $j=0$ and a horizontal orange band at $i=0$. The cell at $(0,0)$ is a lighter yellow.
