

Mutual theory of mind between LlamaInst & QwenInst in Codenames (neutral instructions; both role orderings). KLs are continuous, not a label.

Recovery: guesser's target-posterior mass

Coupling = guesser's ToM of spymaster
 $KL(guess|swap||guess|clean)$

Adaptivity = spymaster's ToM of guesser
 $KL(clue|B-found-X||clue|B-naive)$
