

Qwen layer 0 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

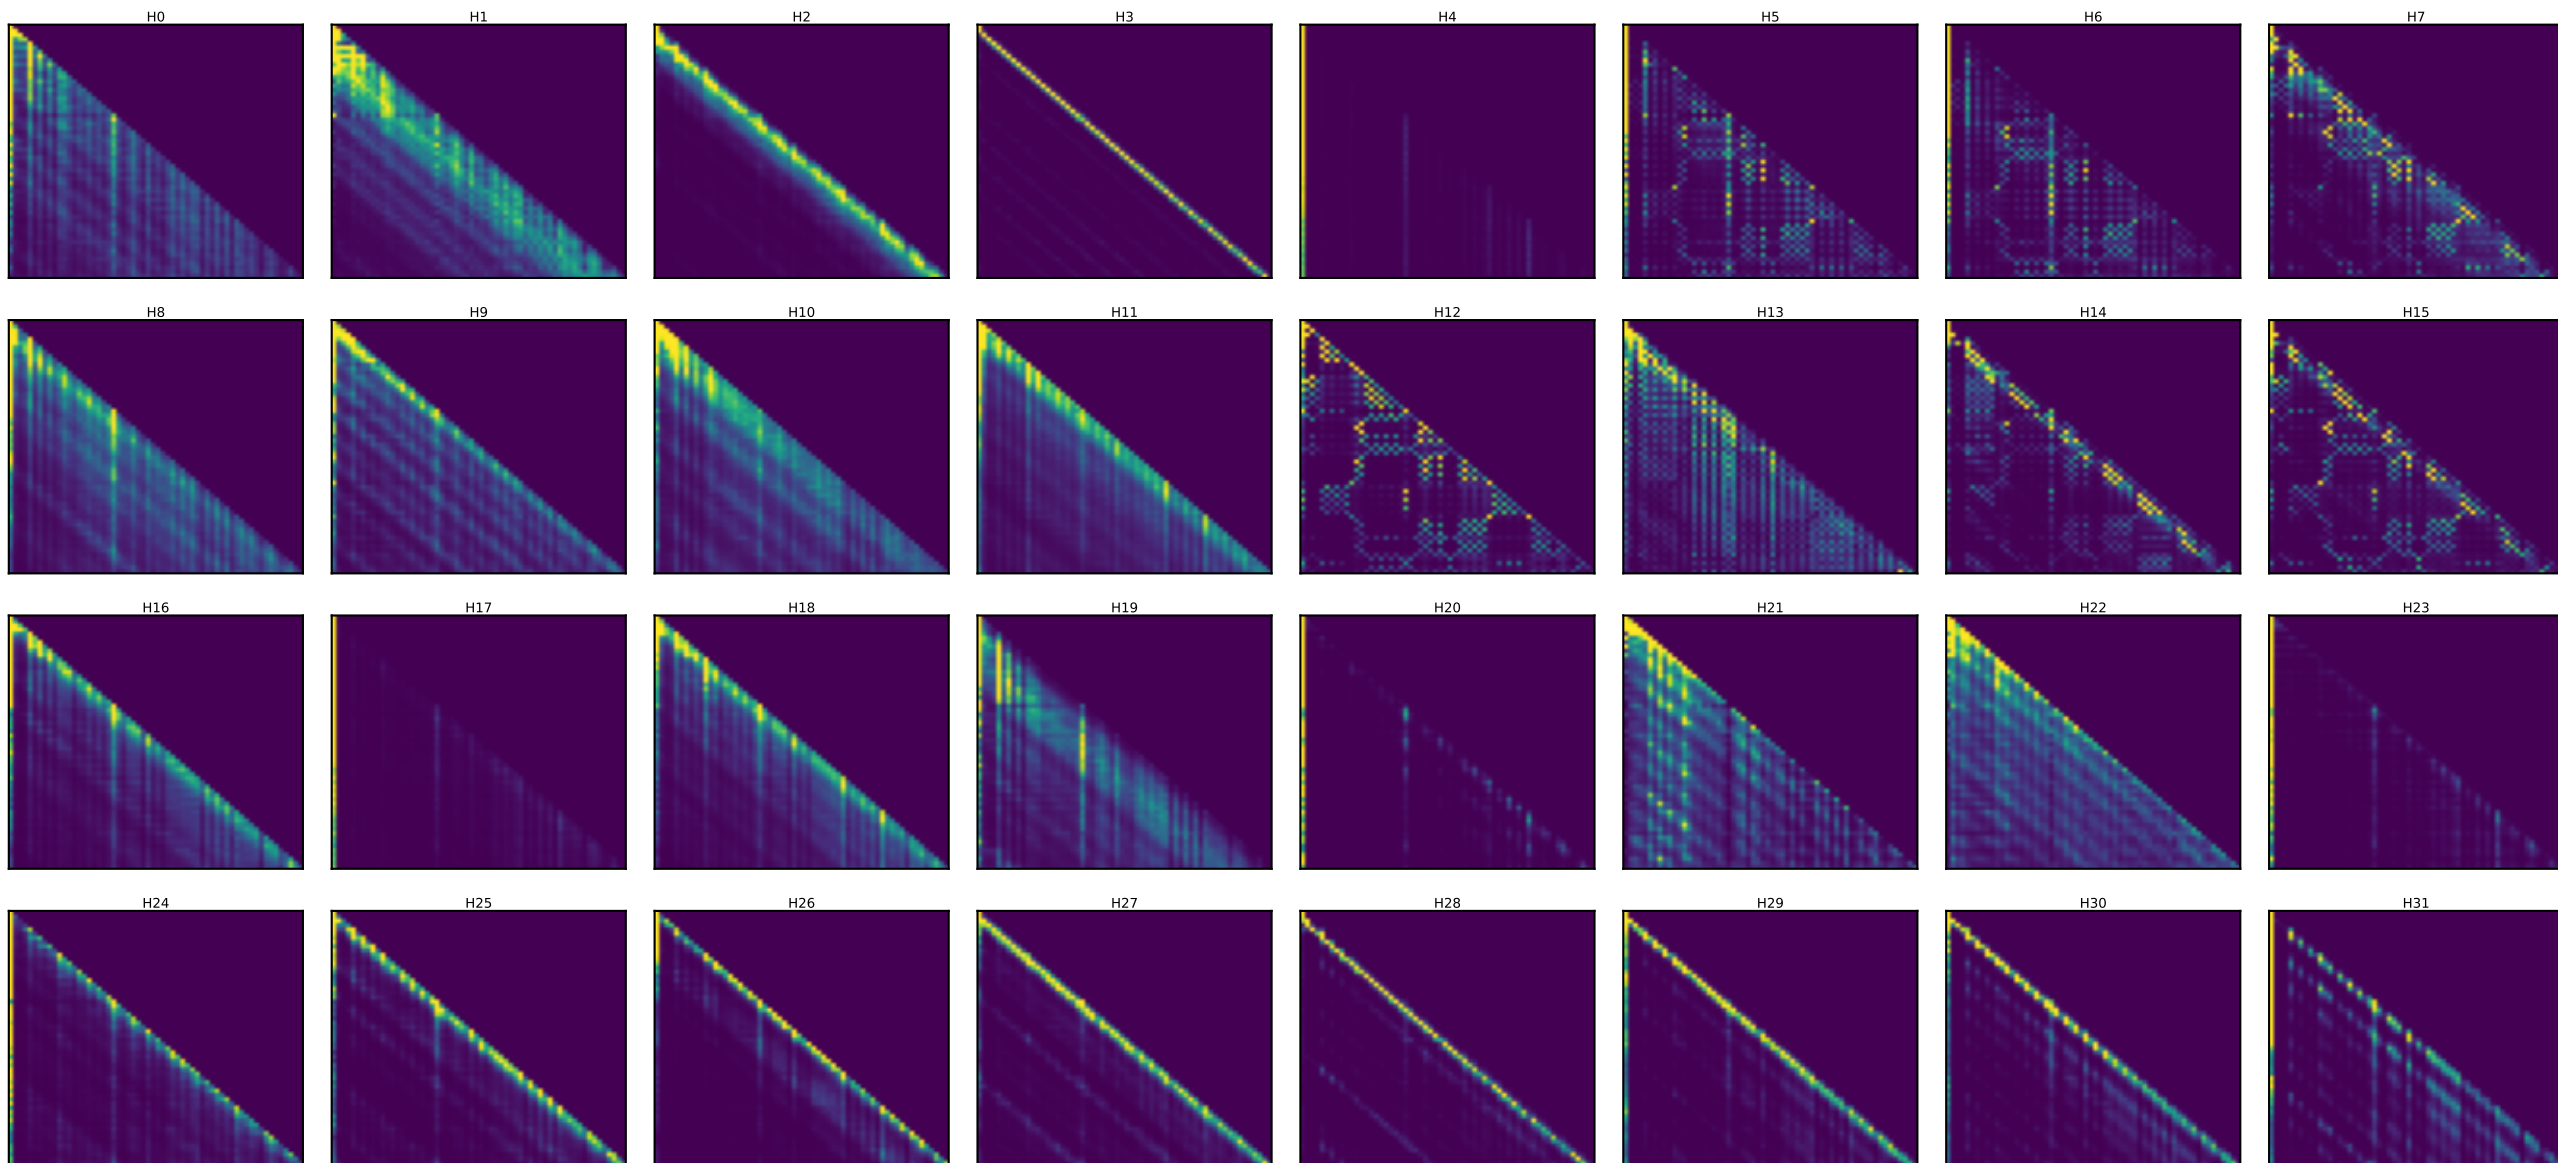

Qwen layer 1 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

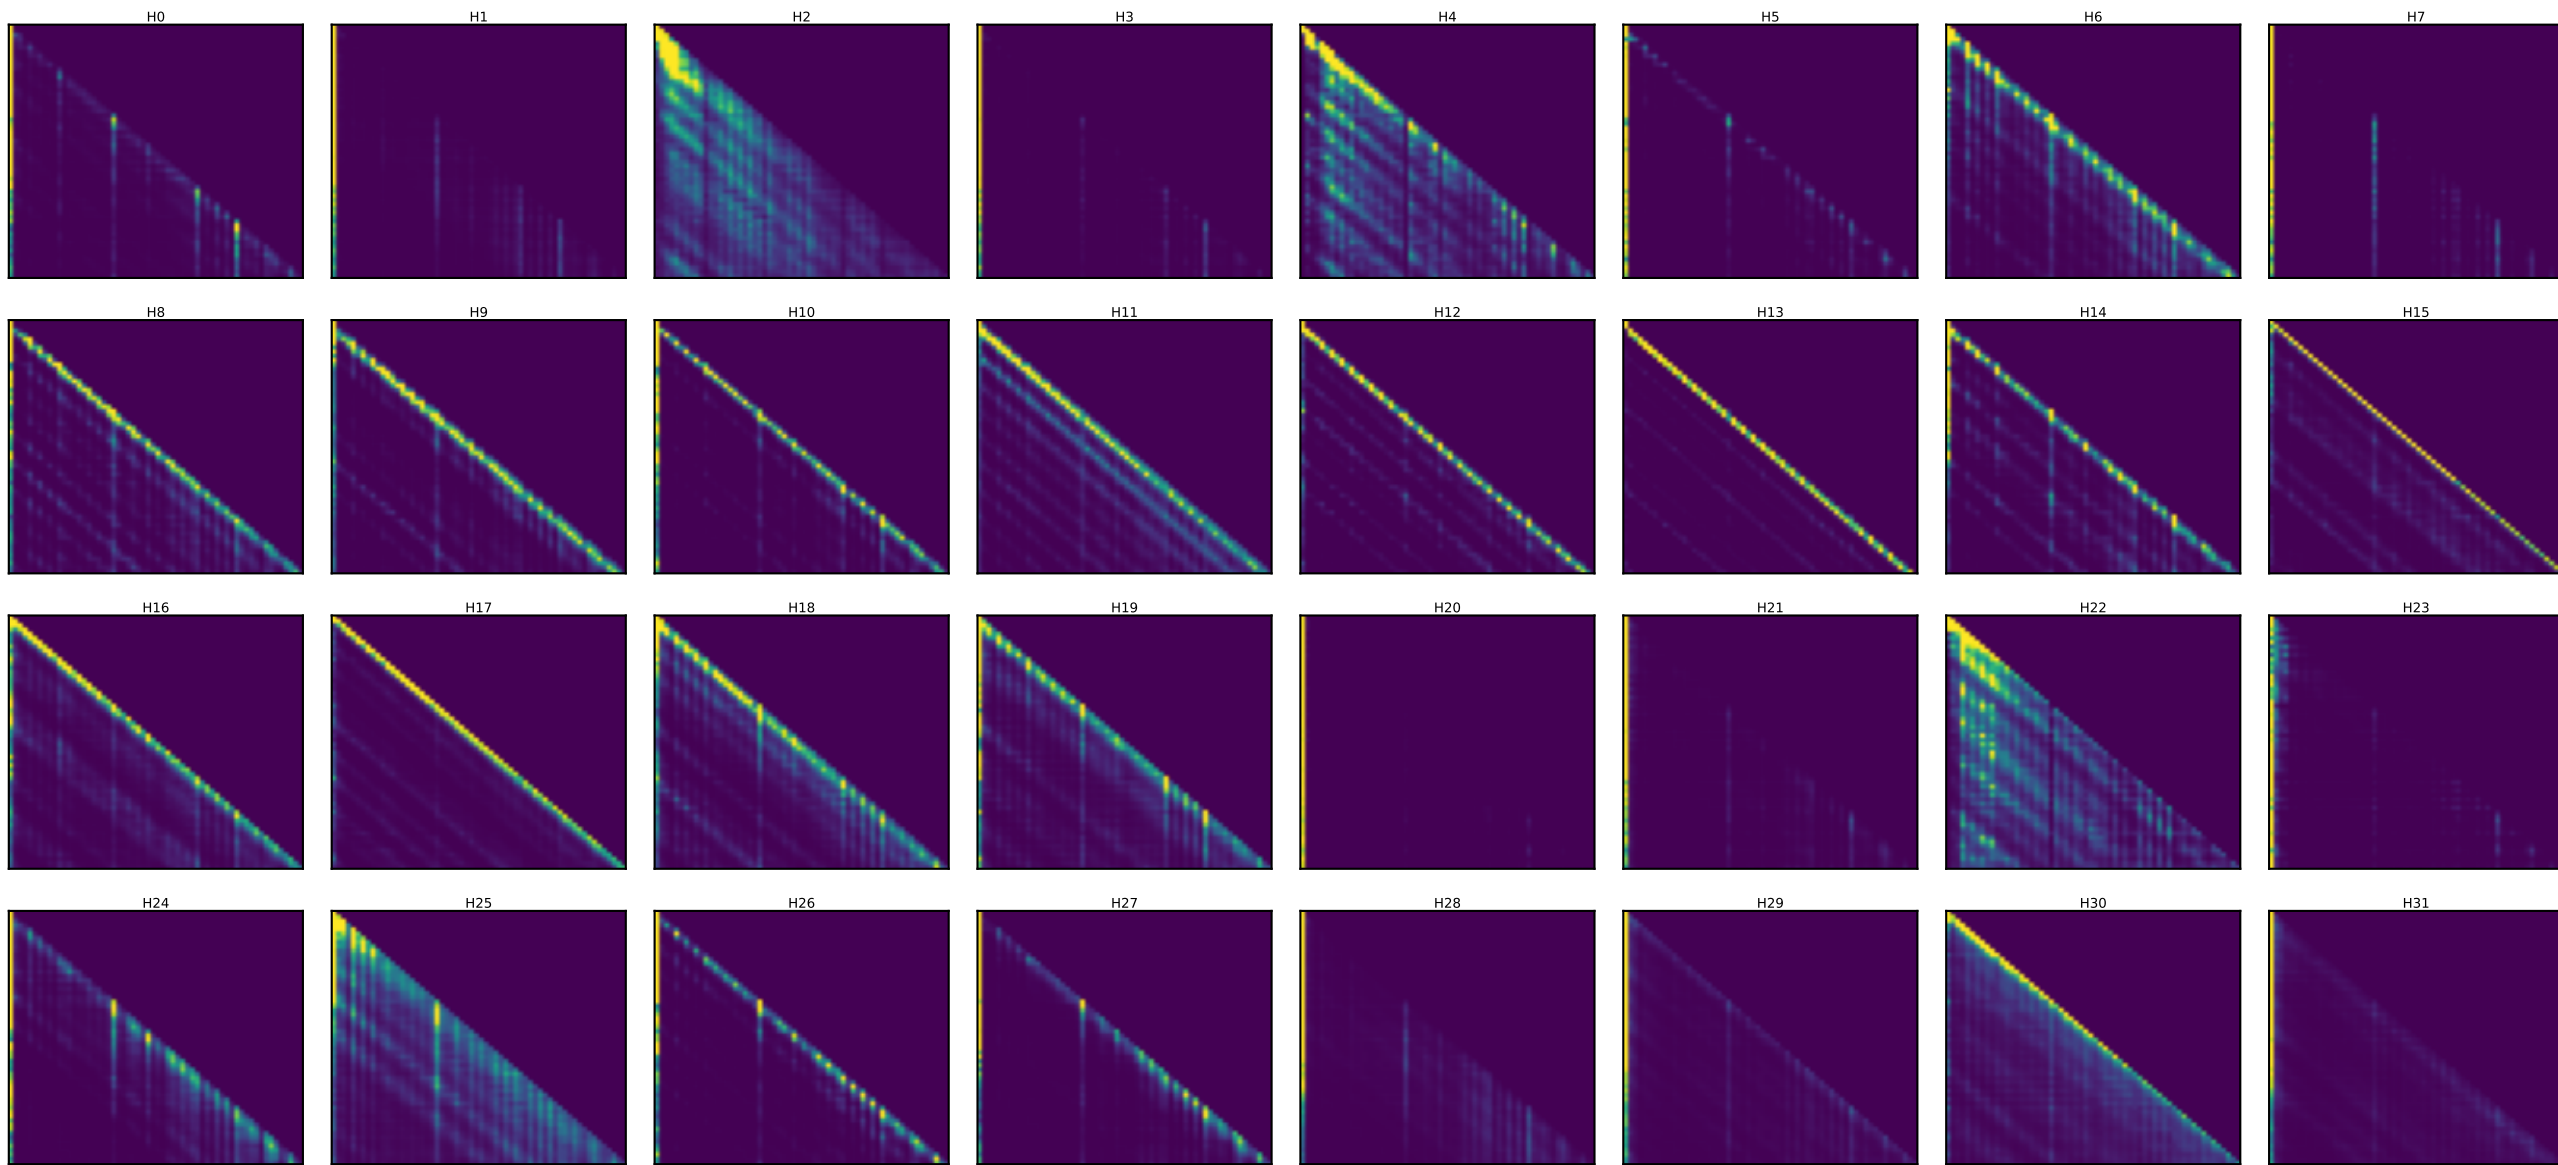

Qwen layer 2 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

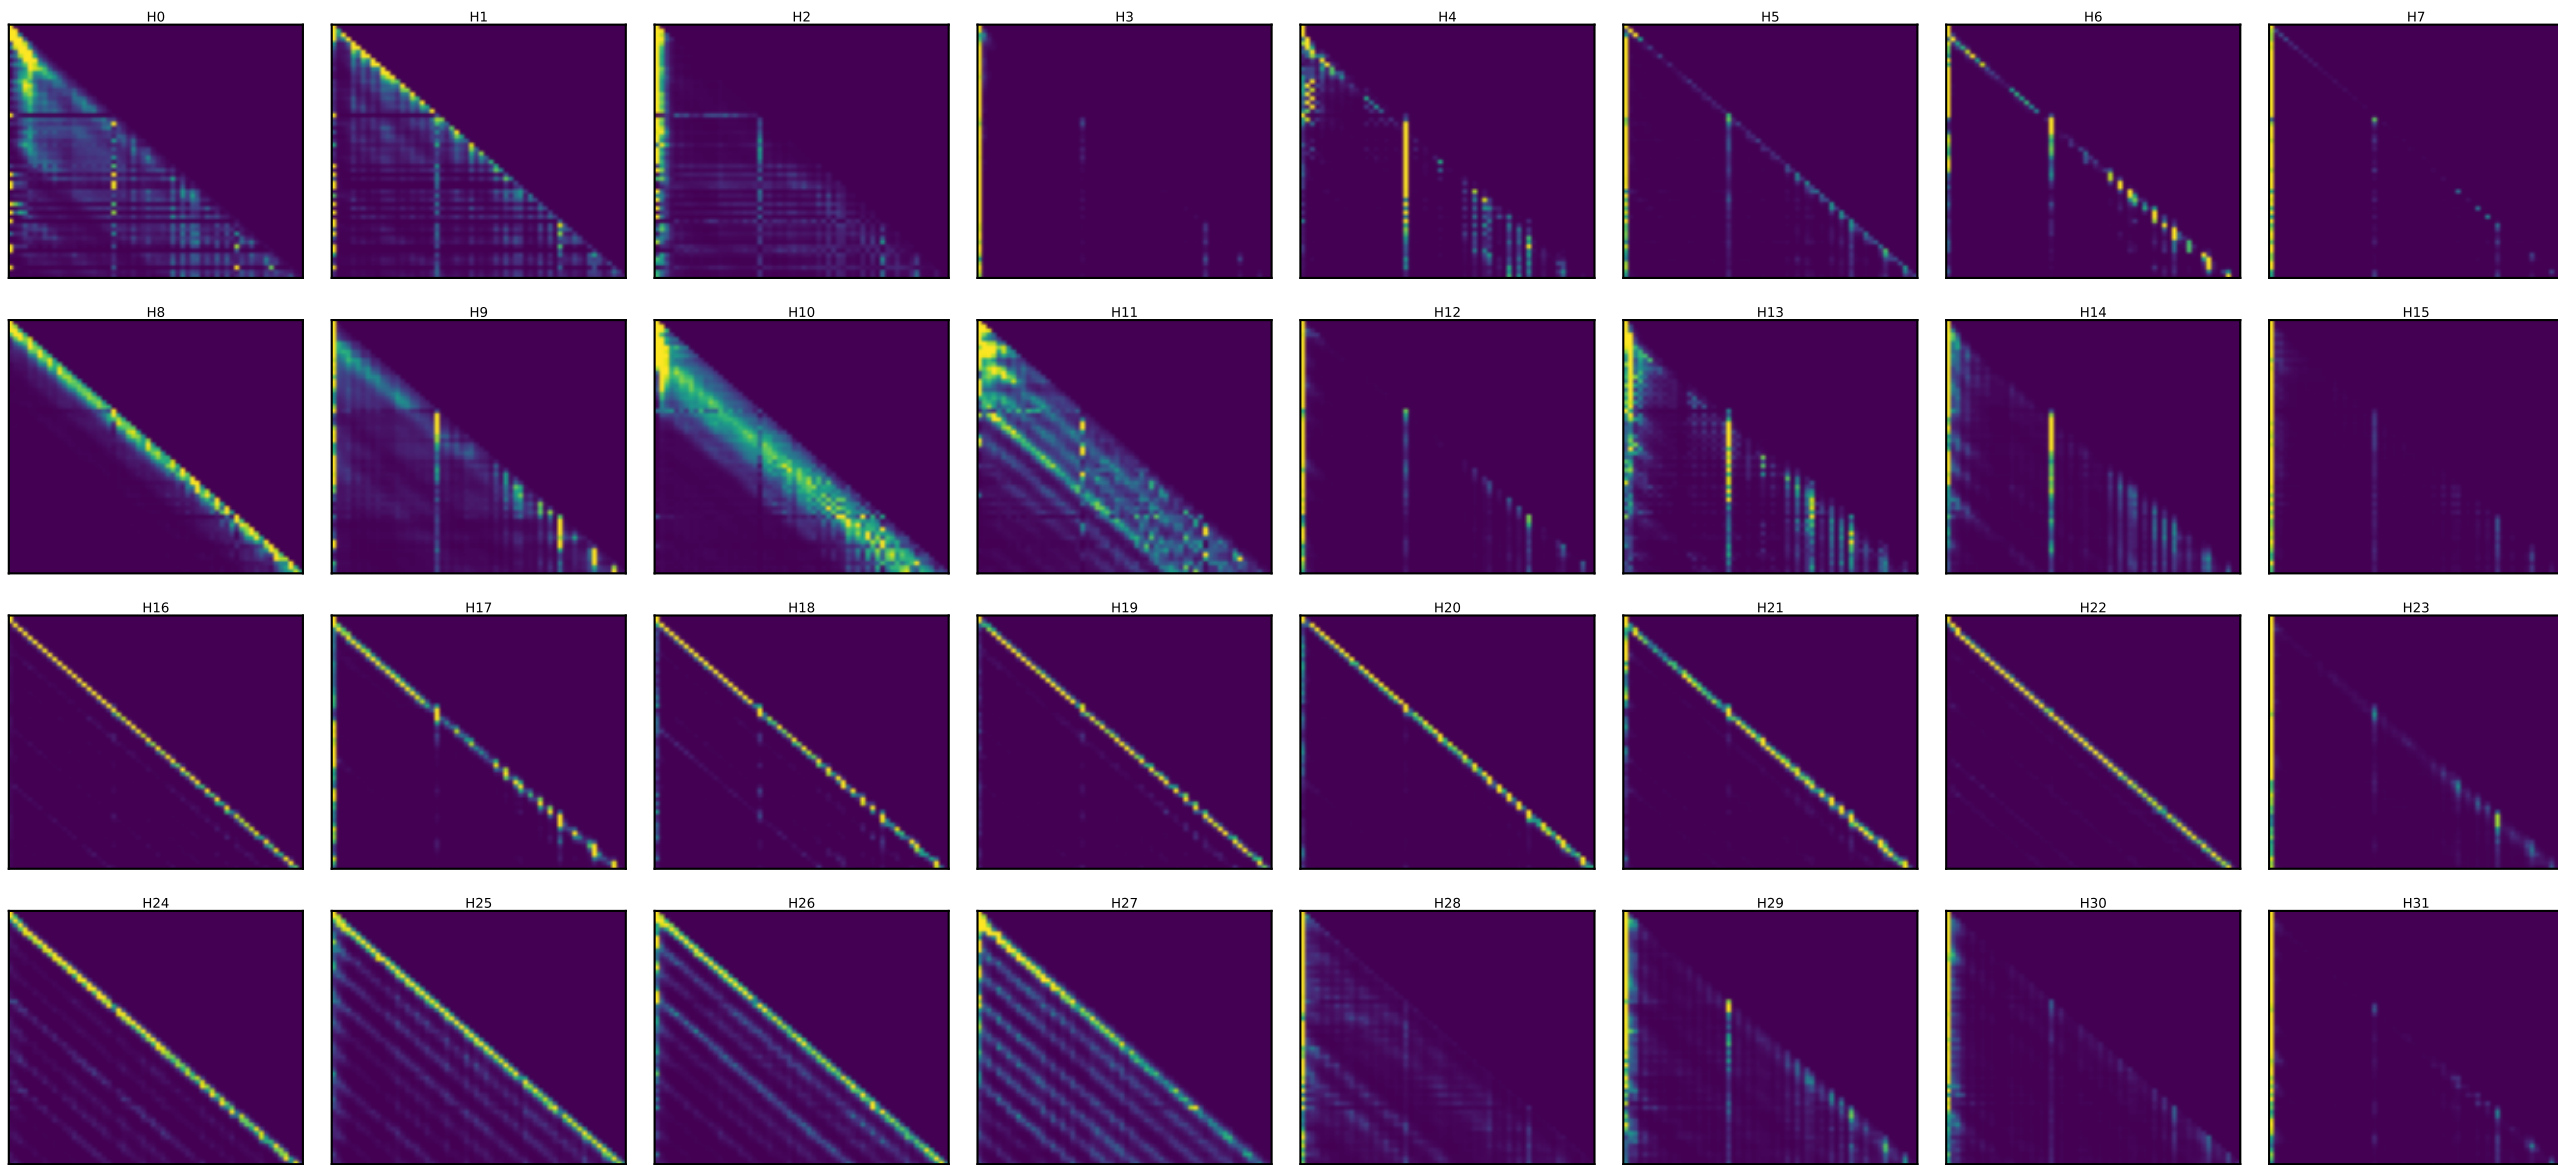

Qwen layer 3 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

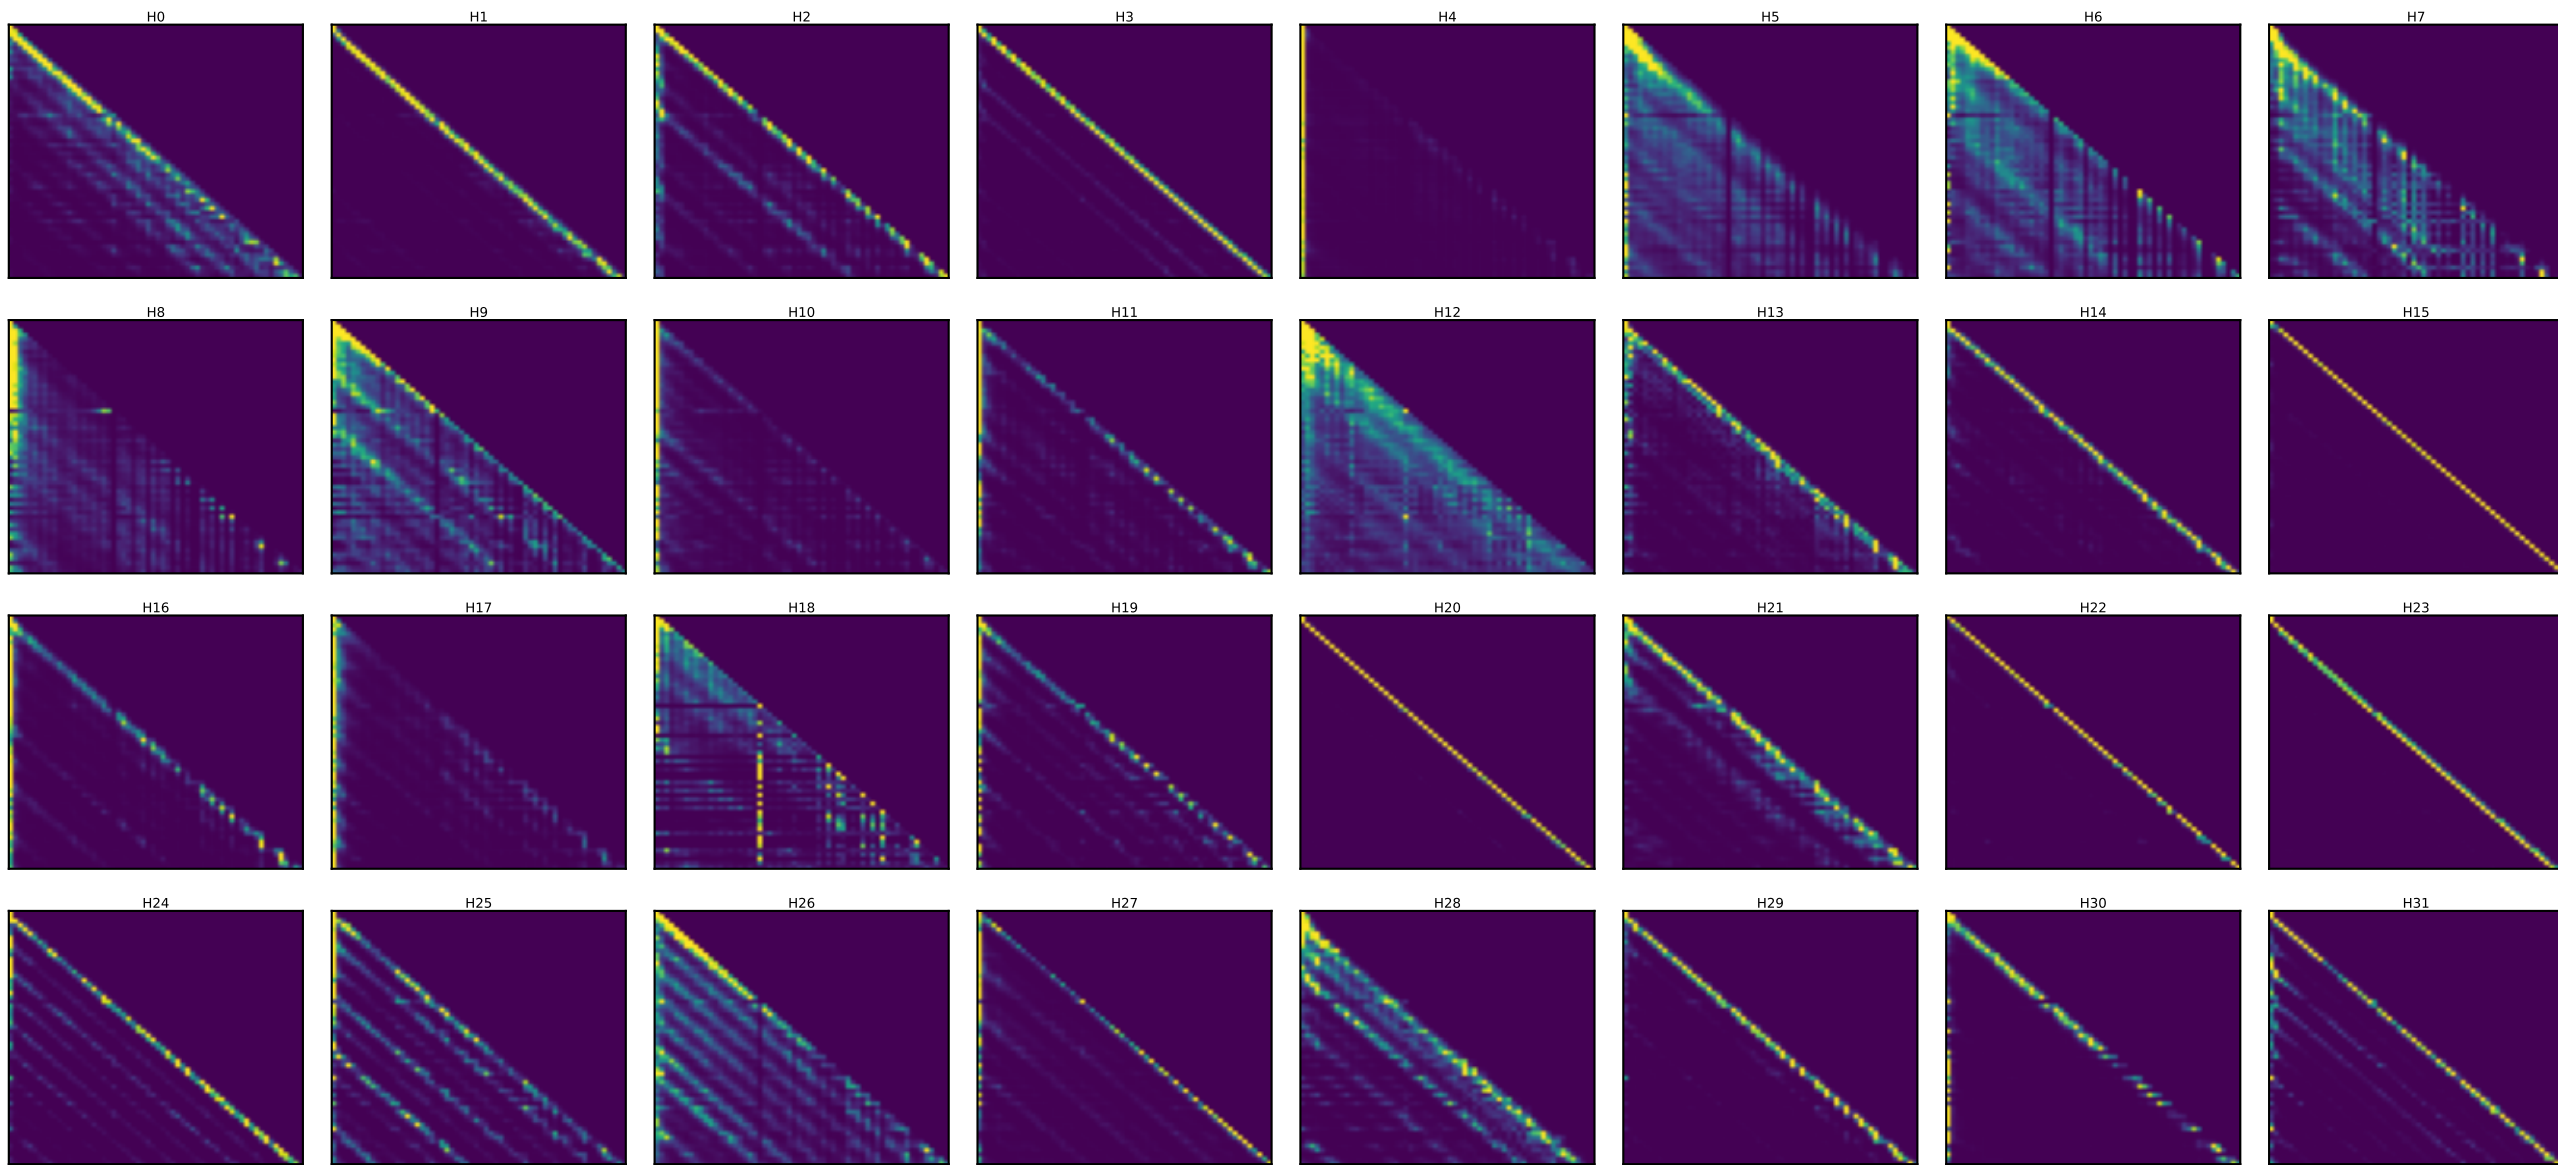

Qwen layer 4 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

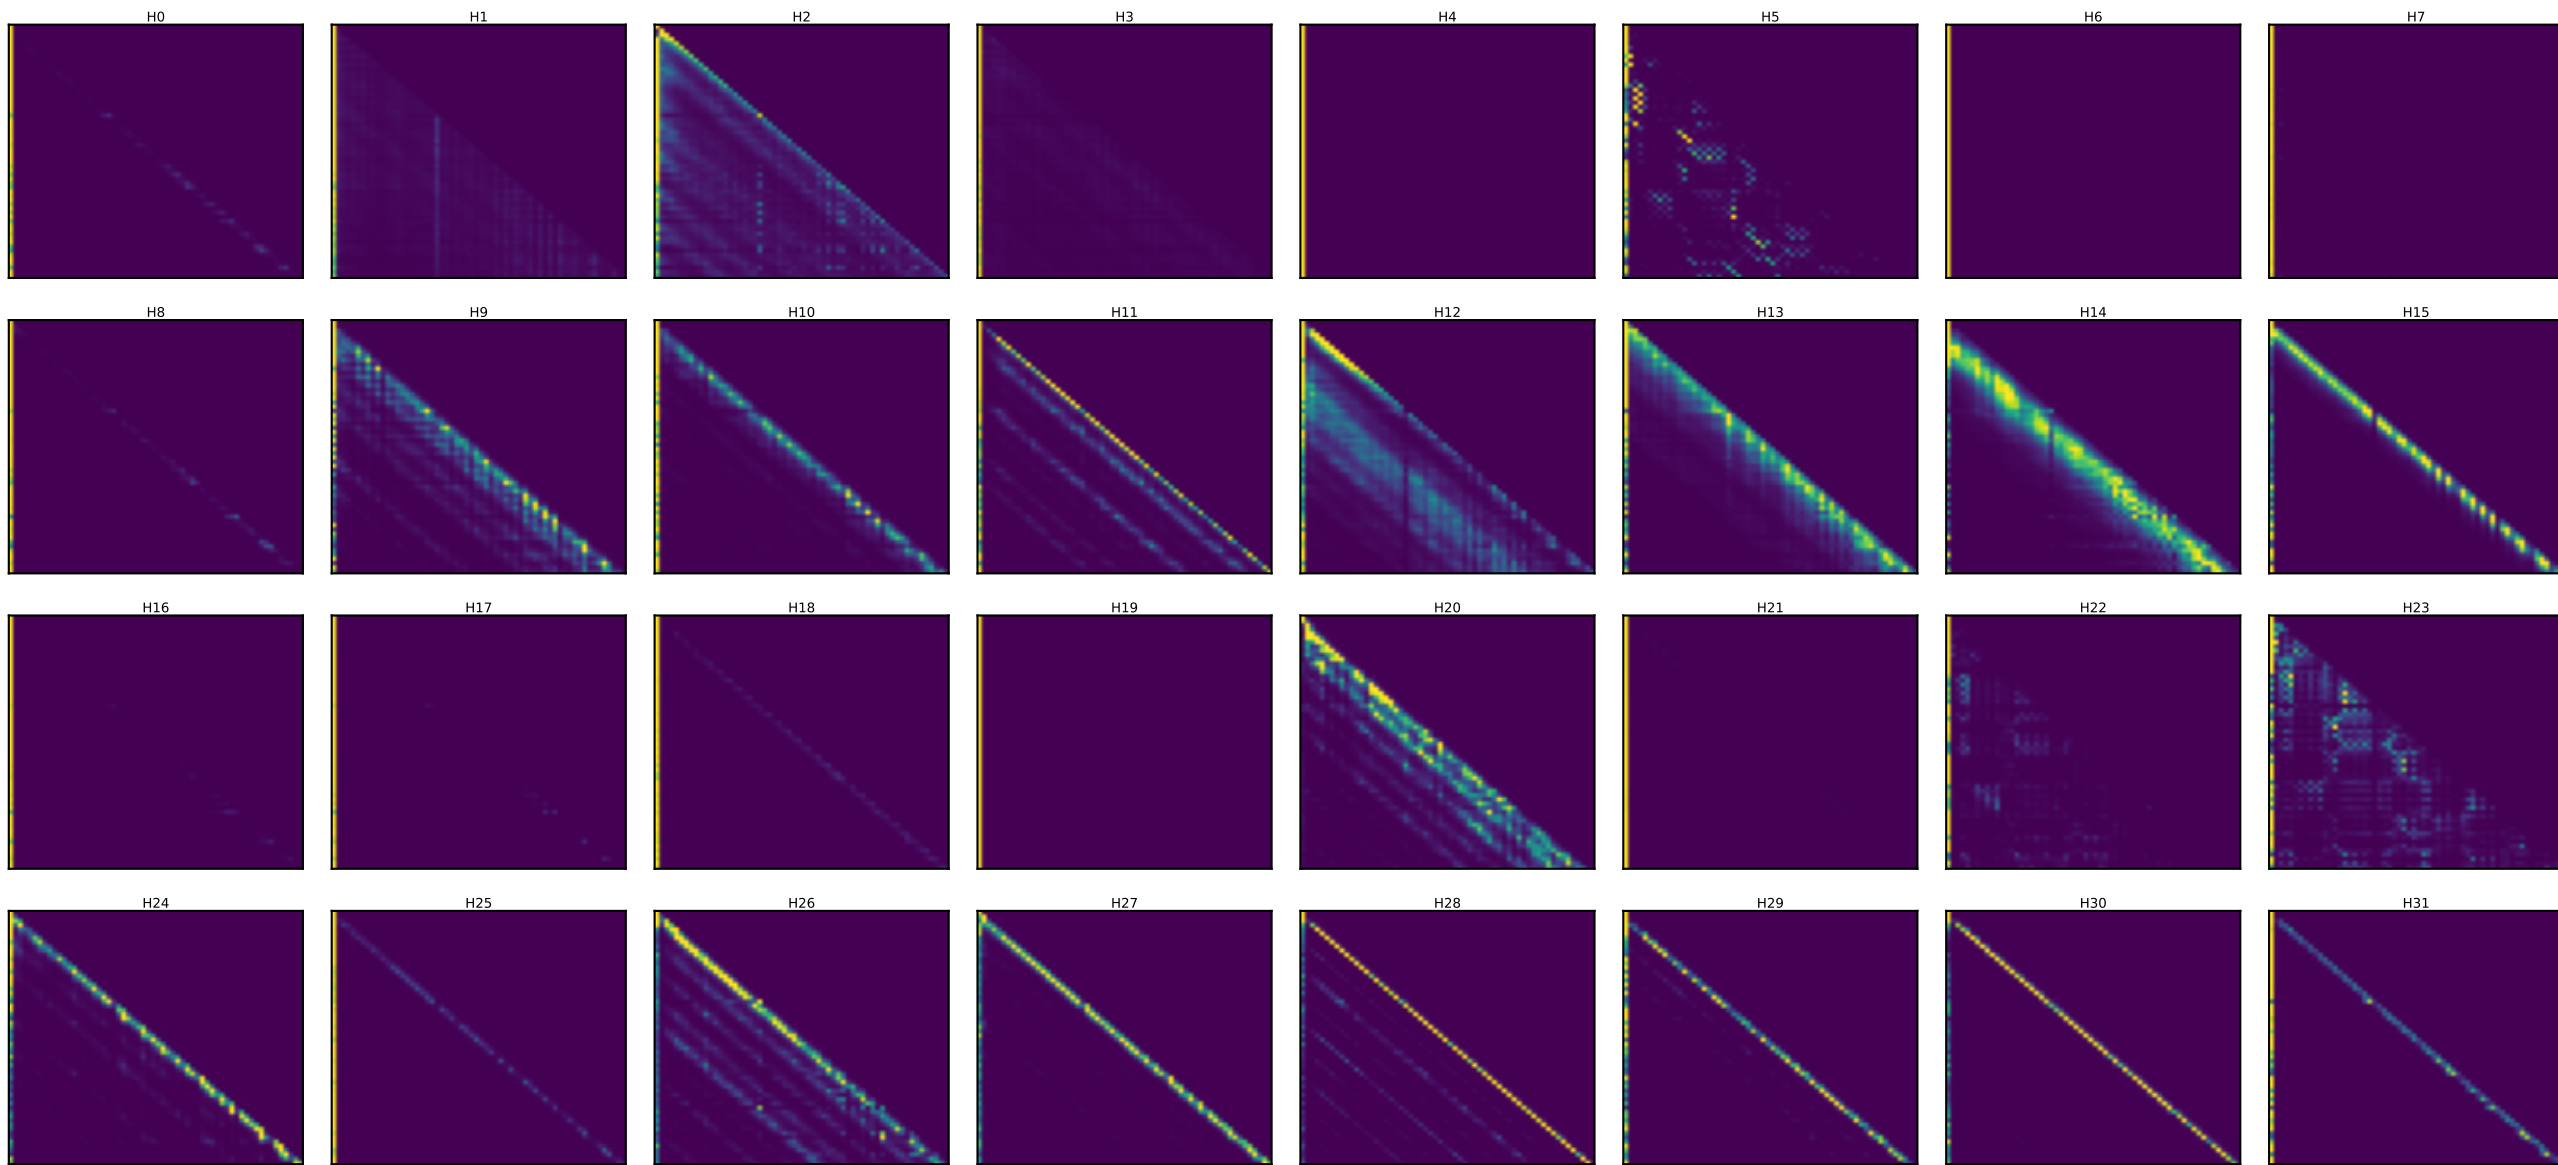

Qwen layer 5 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

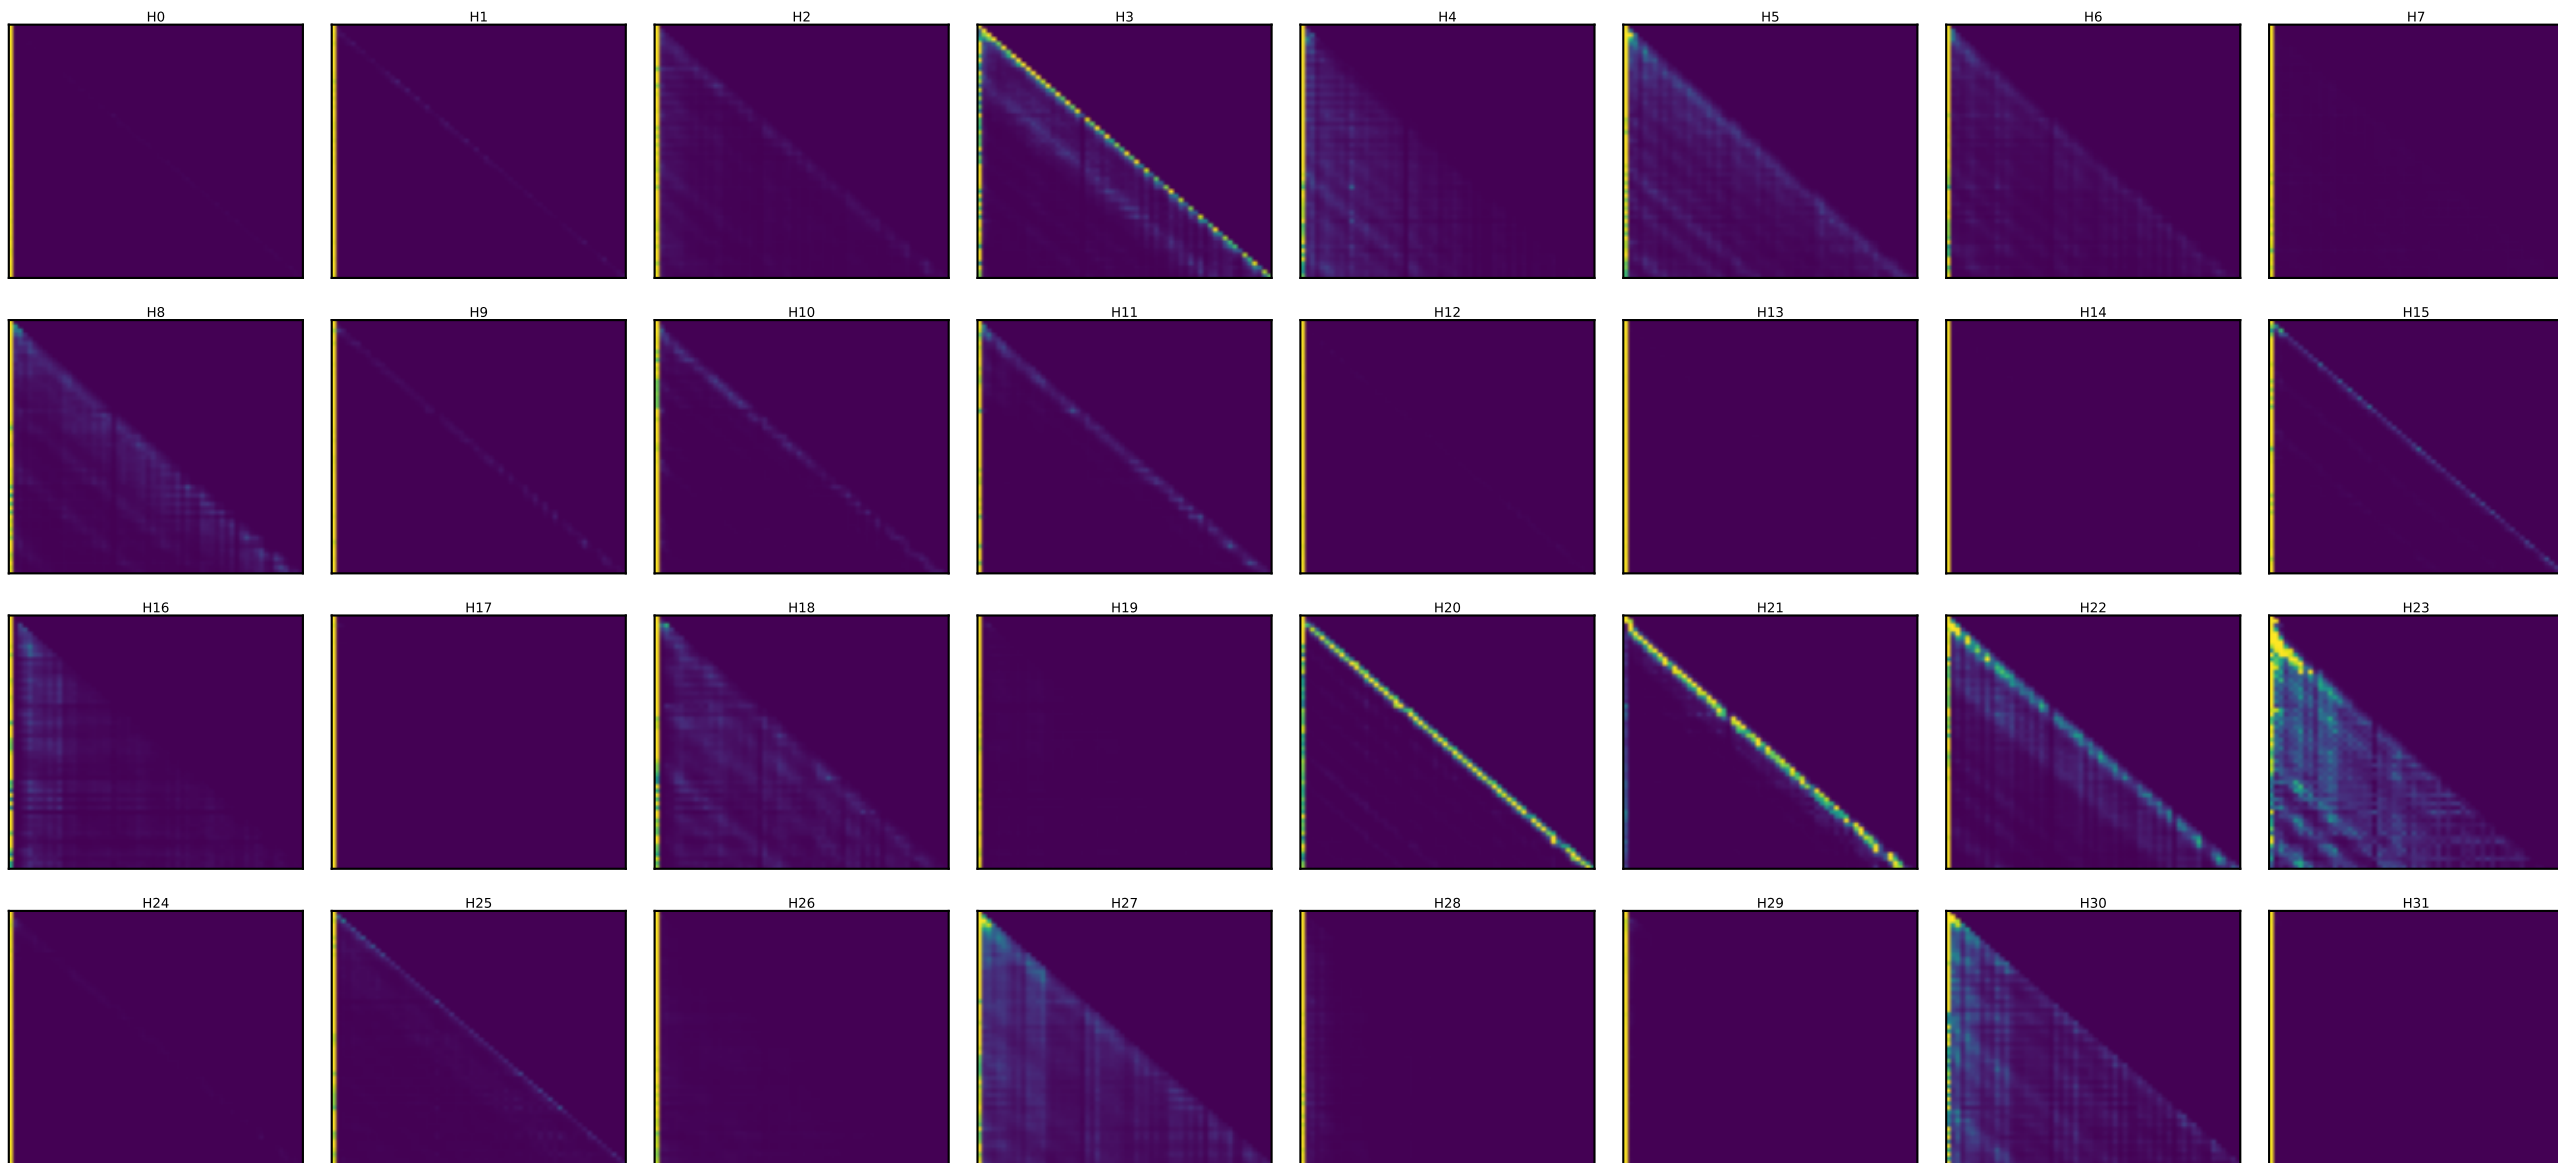

Qwen layer 6 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

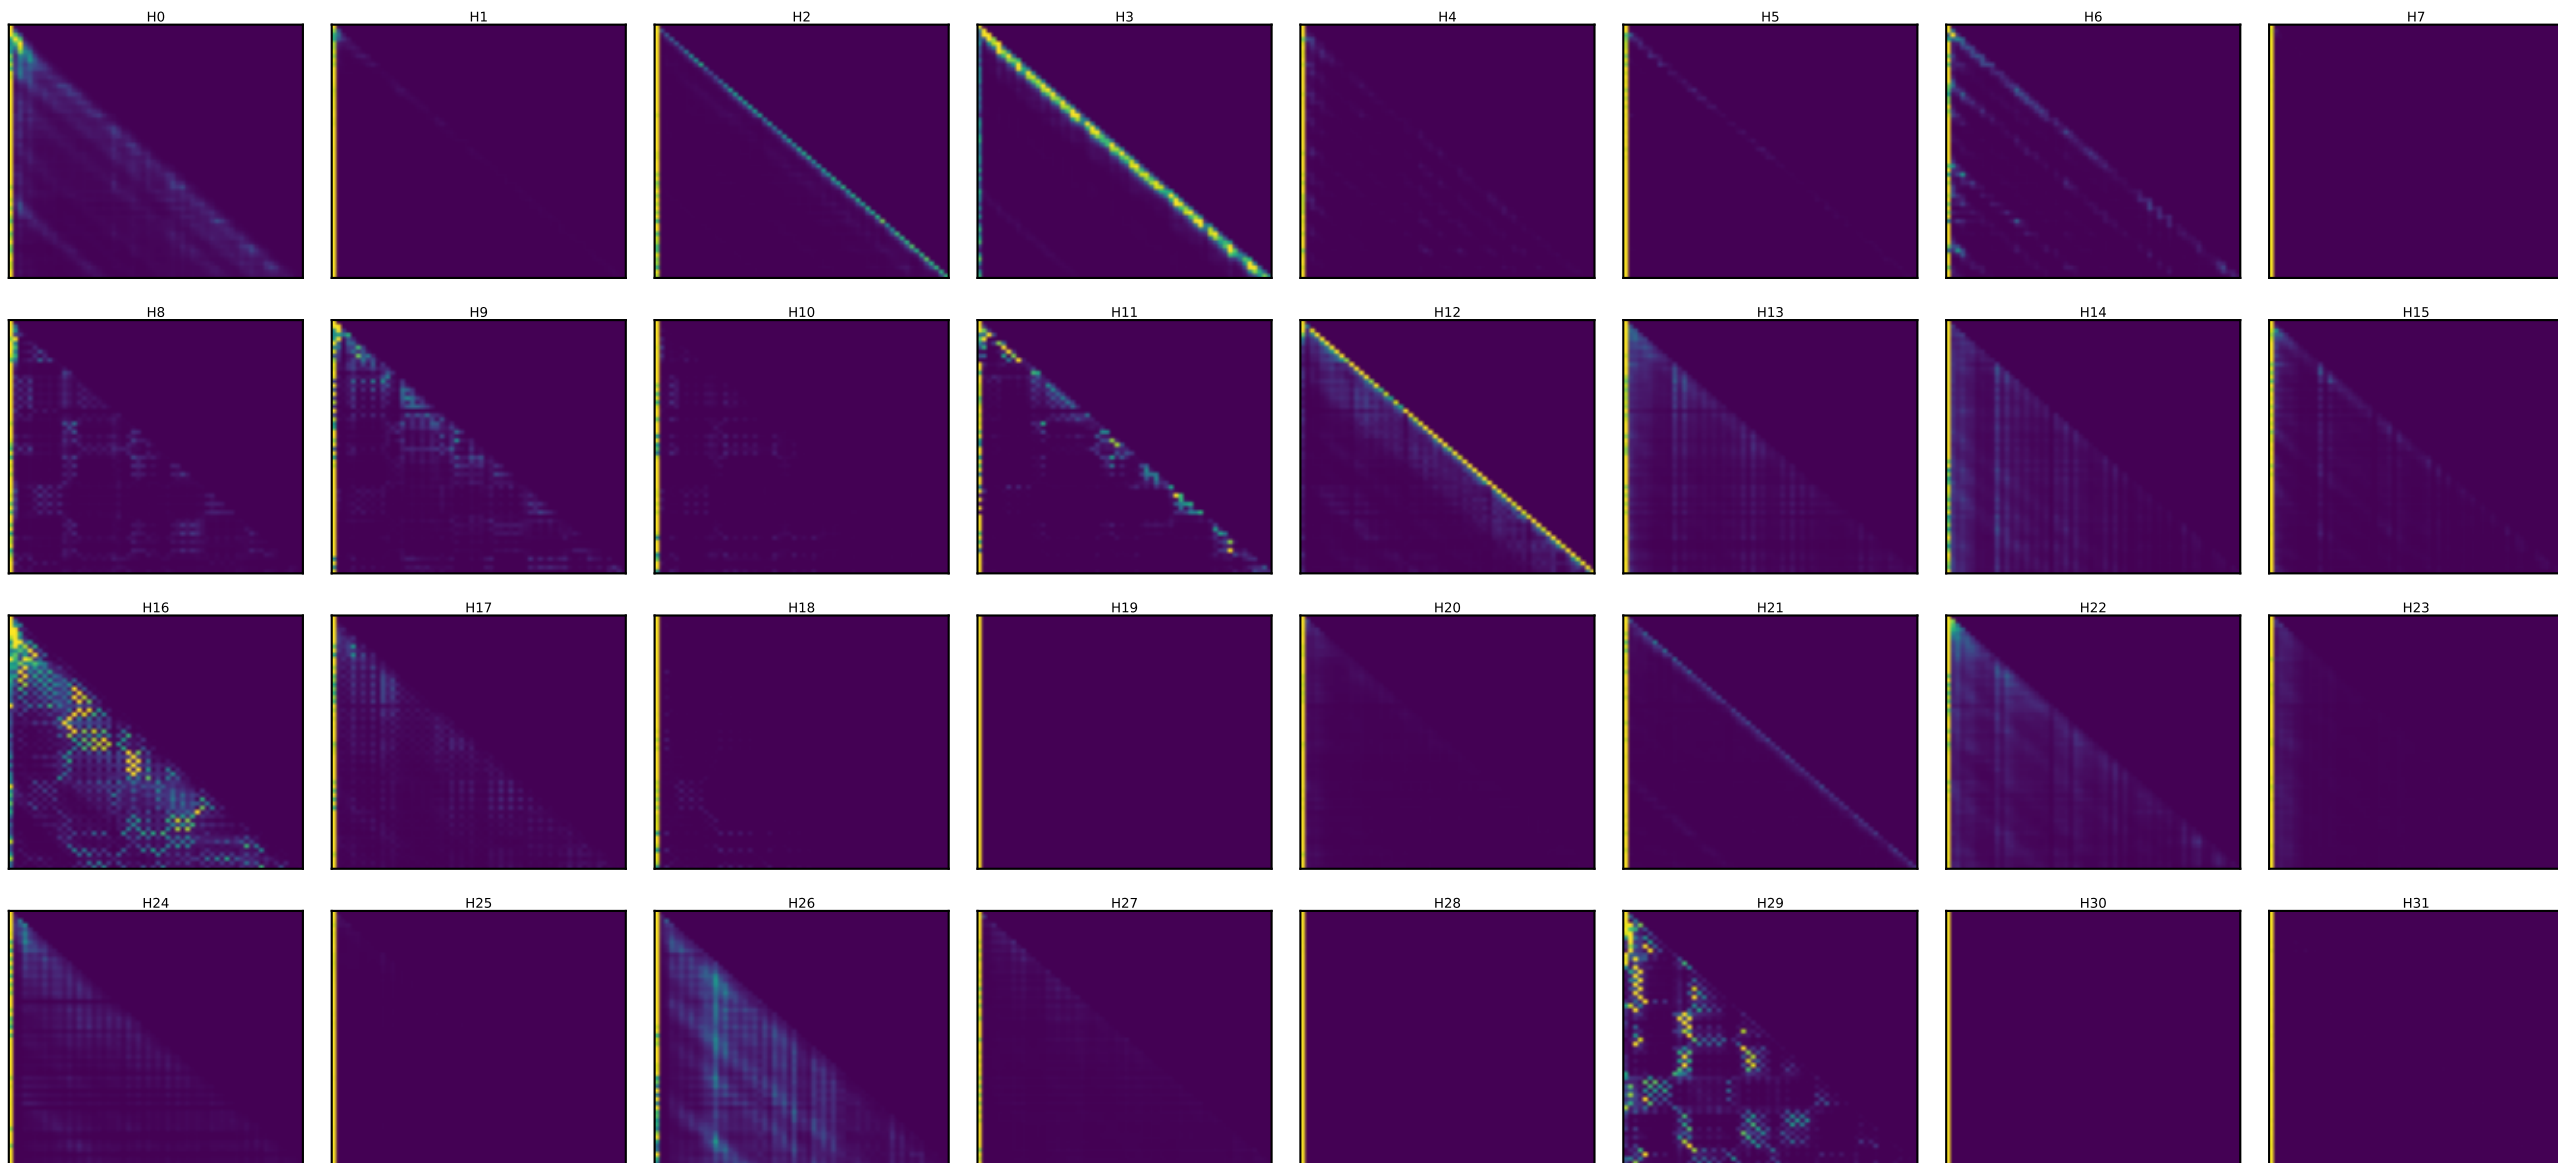

Qwen layer 7 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

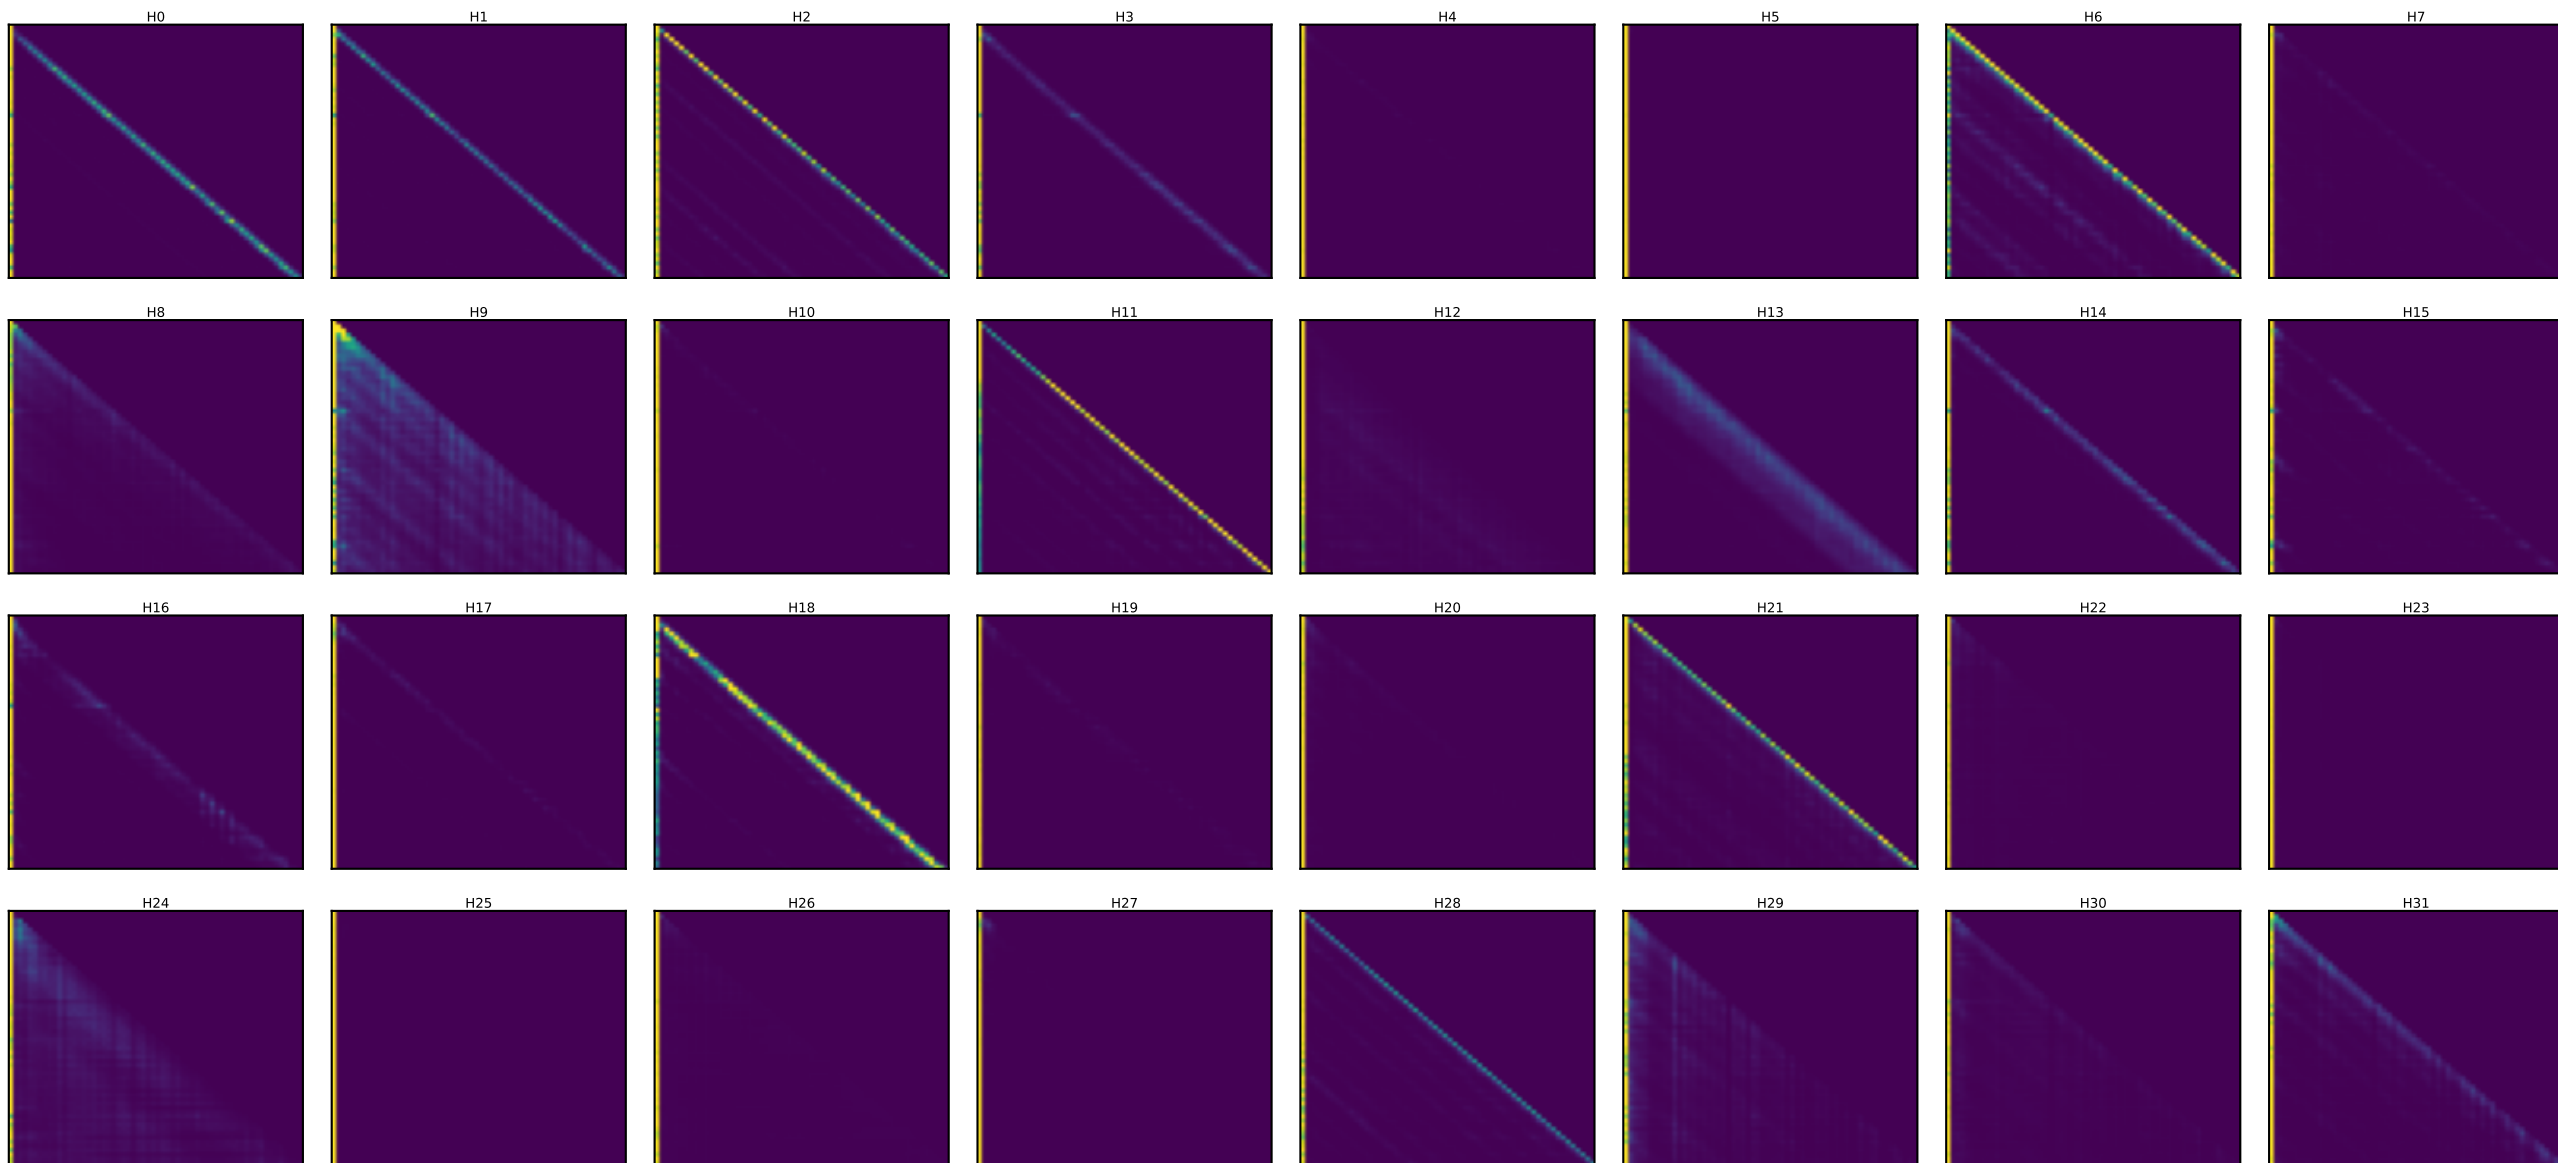

Qwen layer 8 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

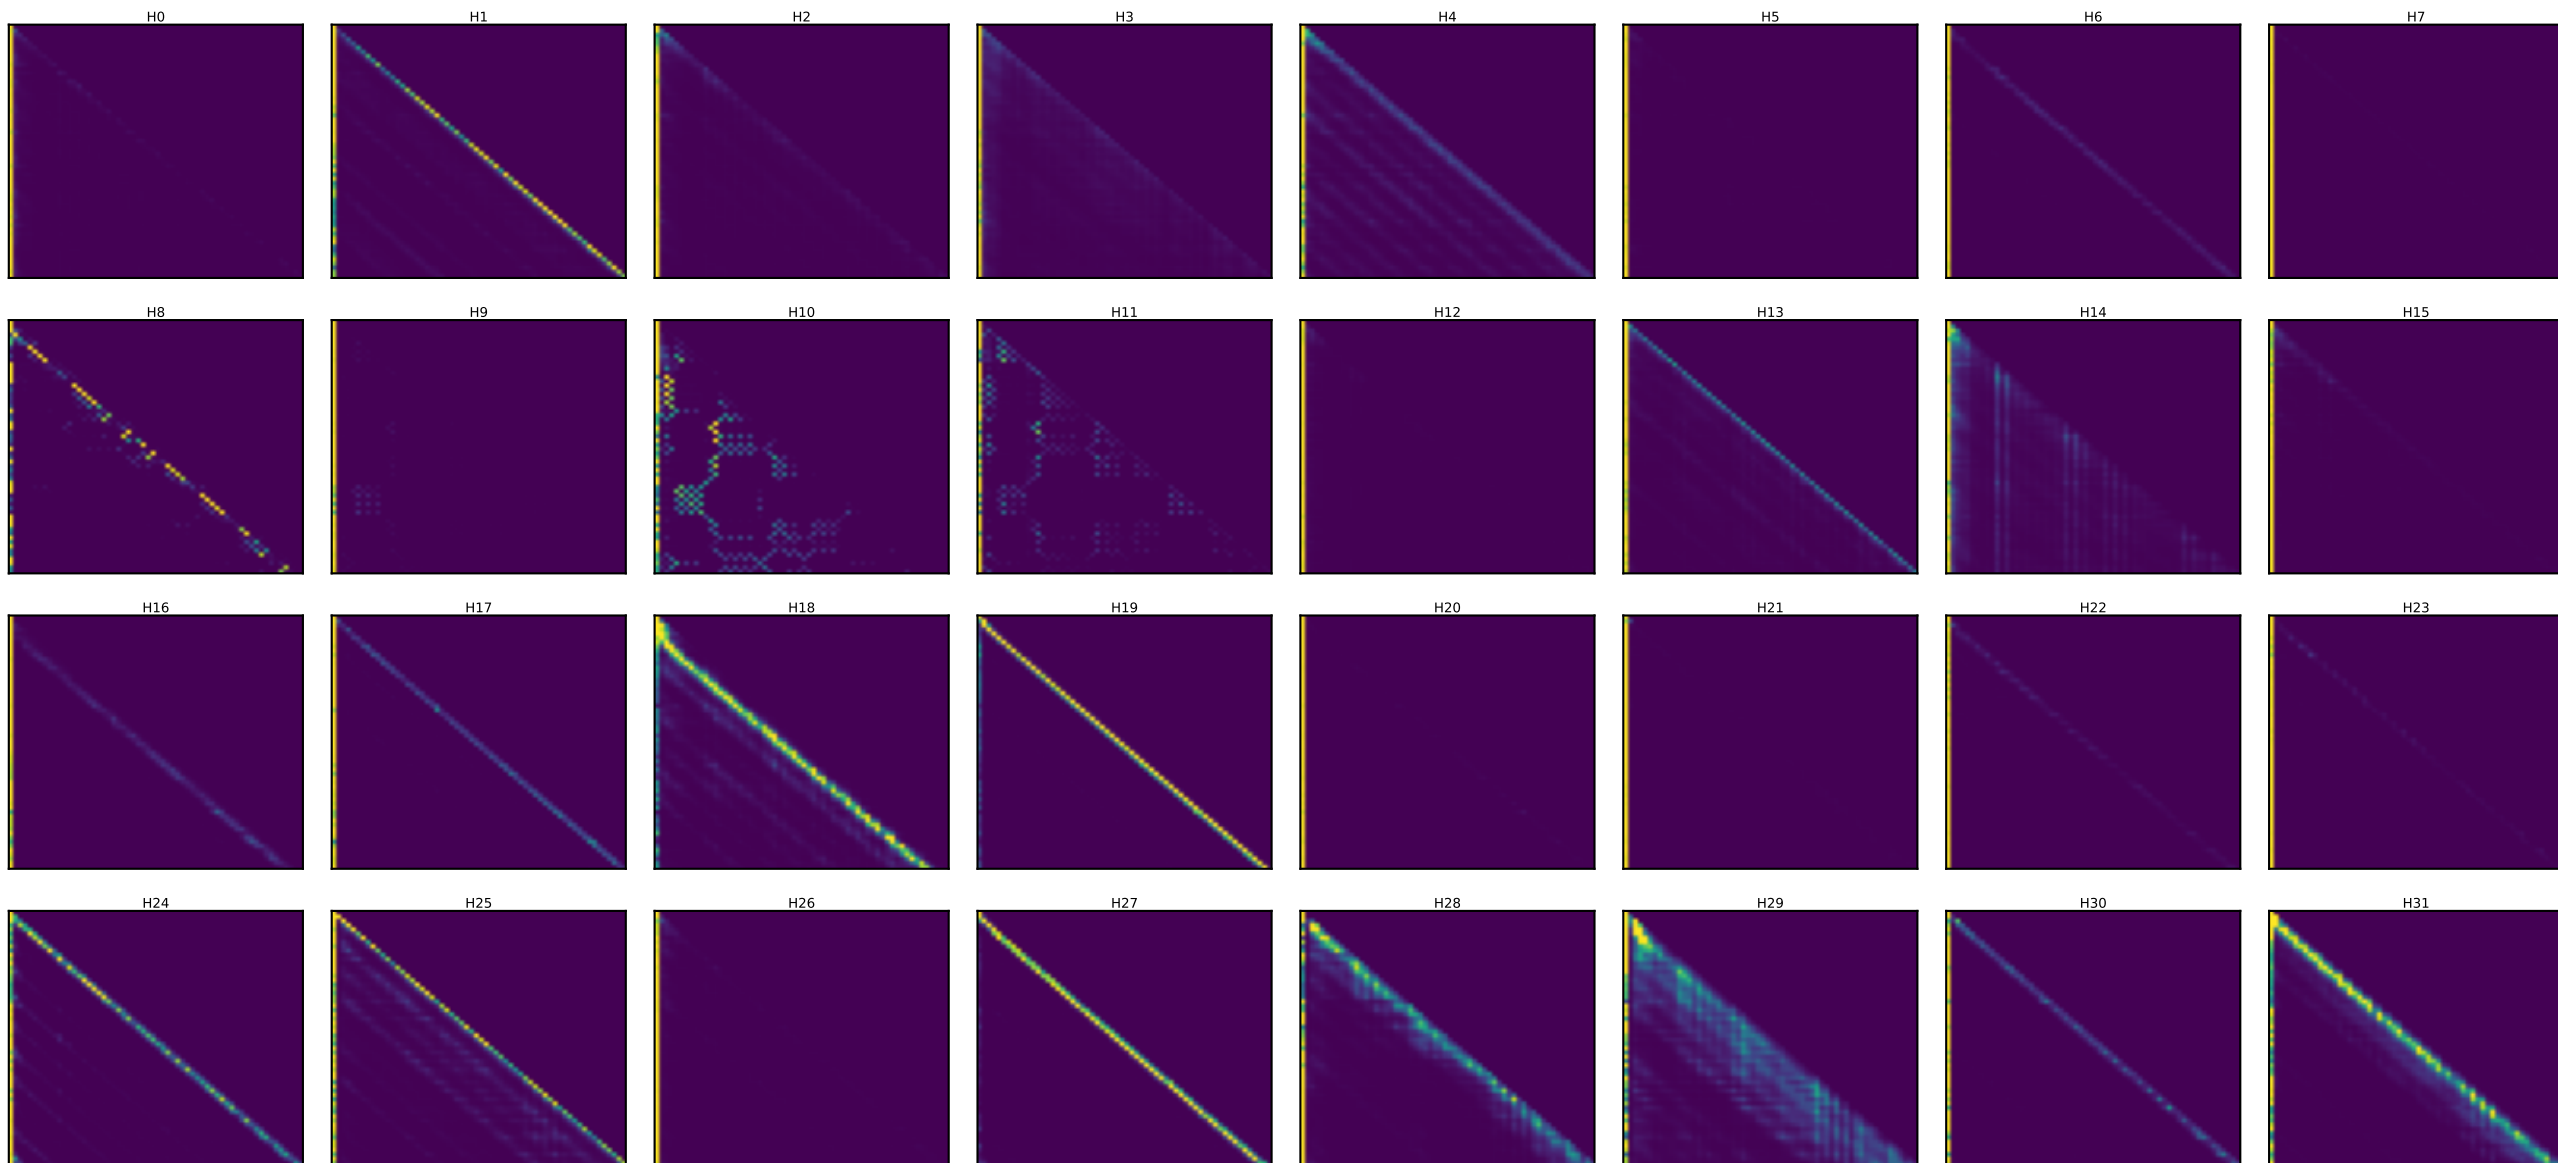

Qwen layer 9 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

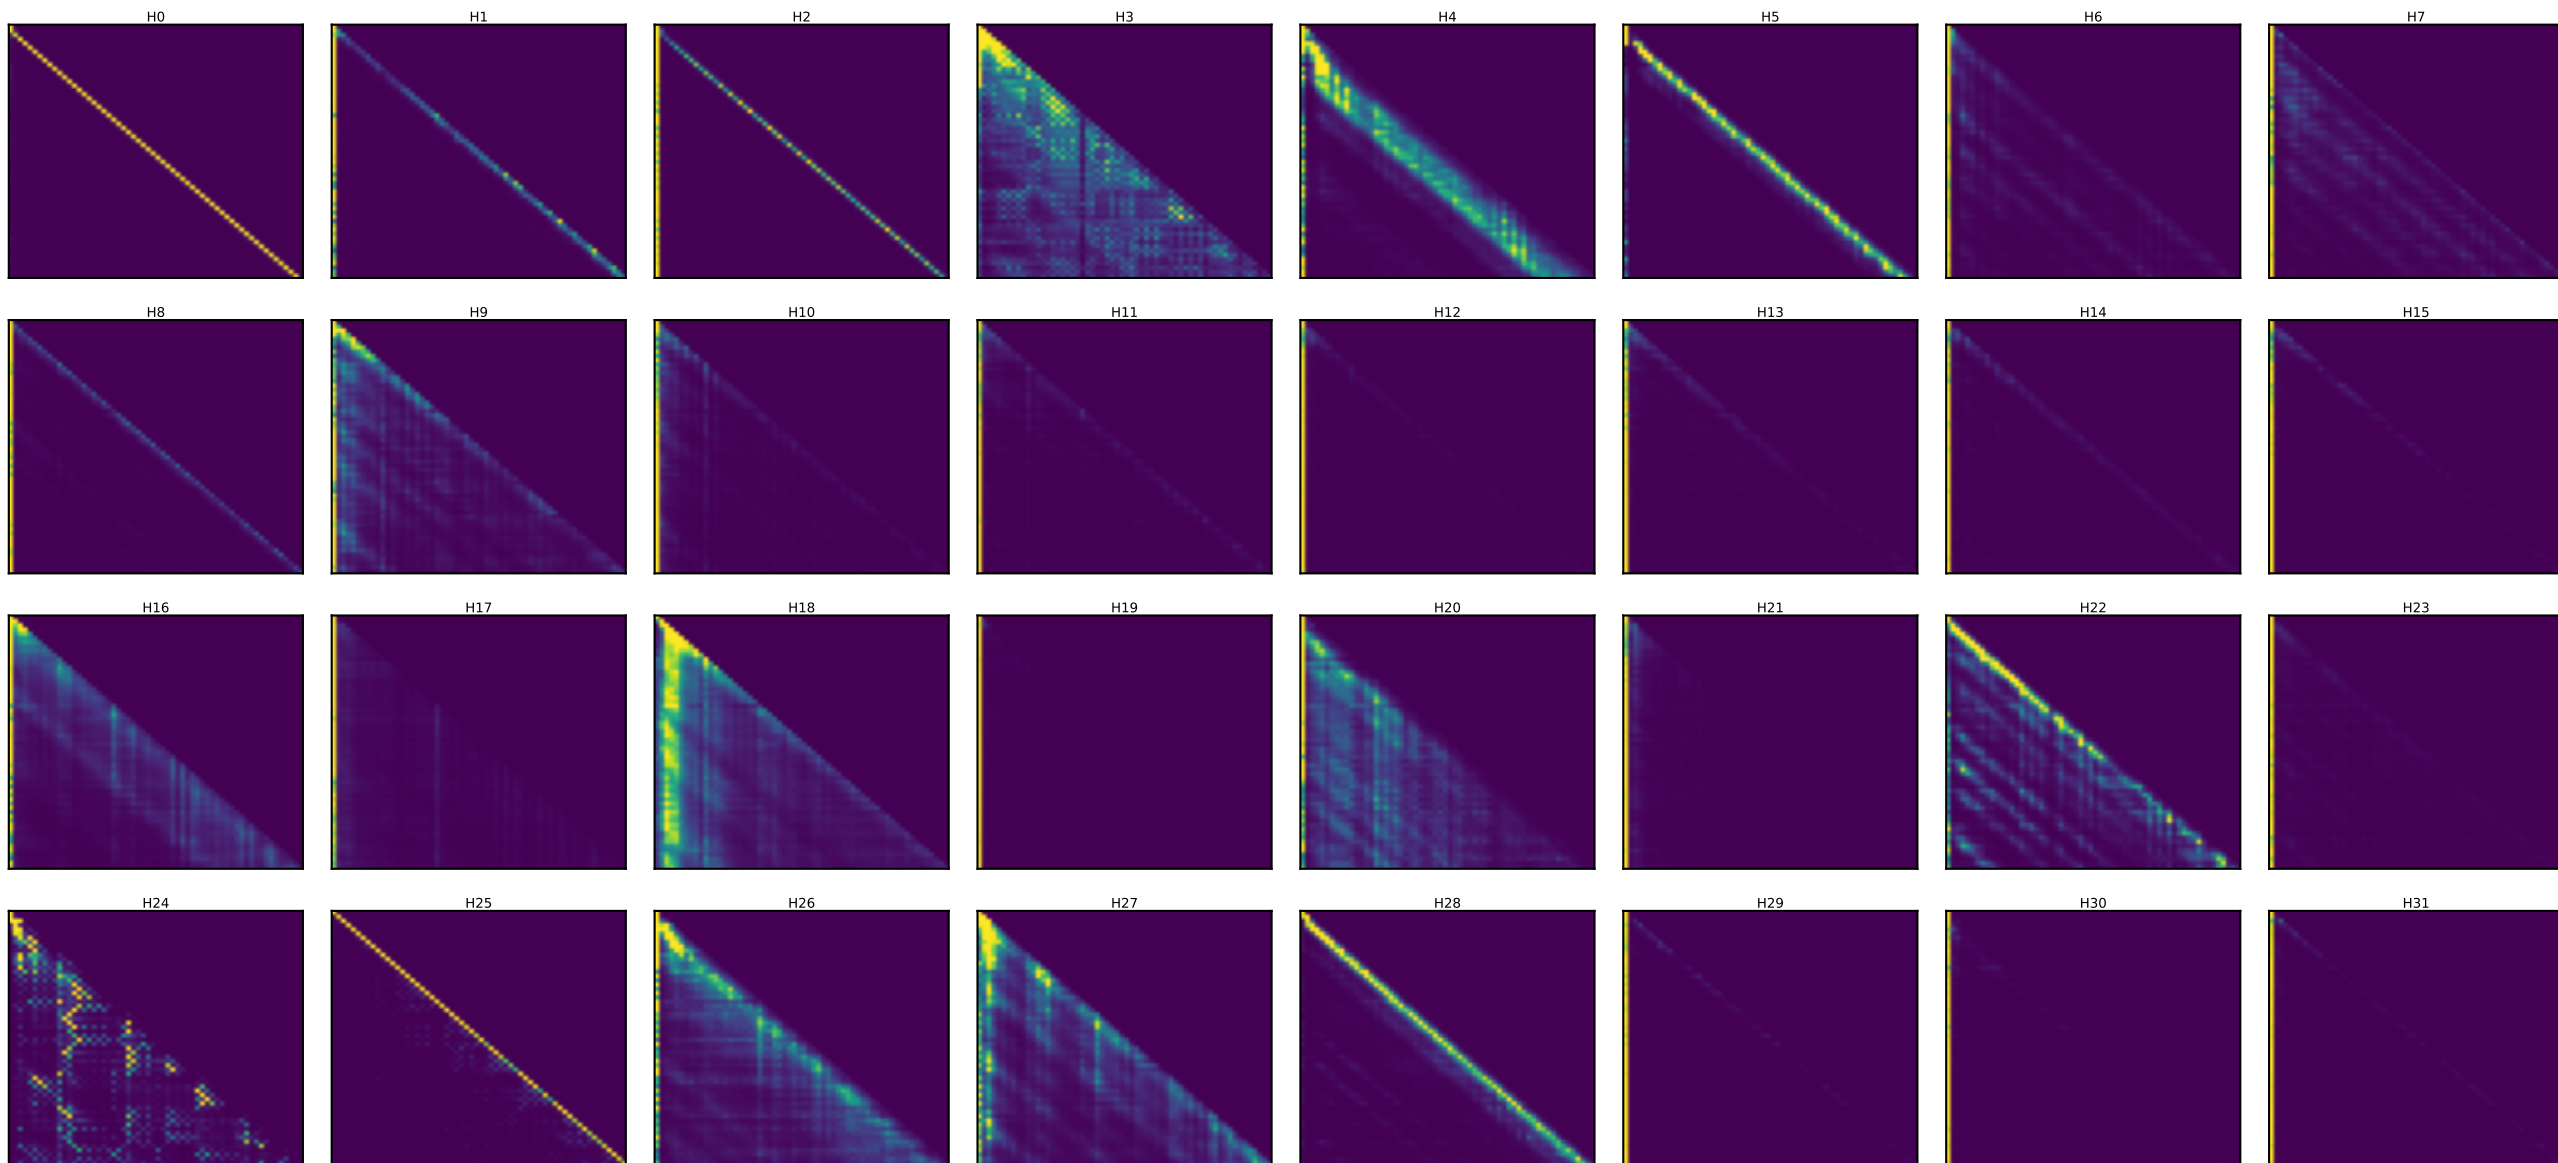

Qwen layer 10 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

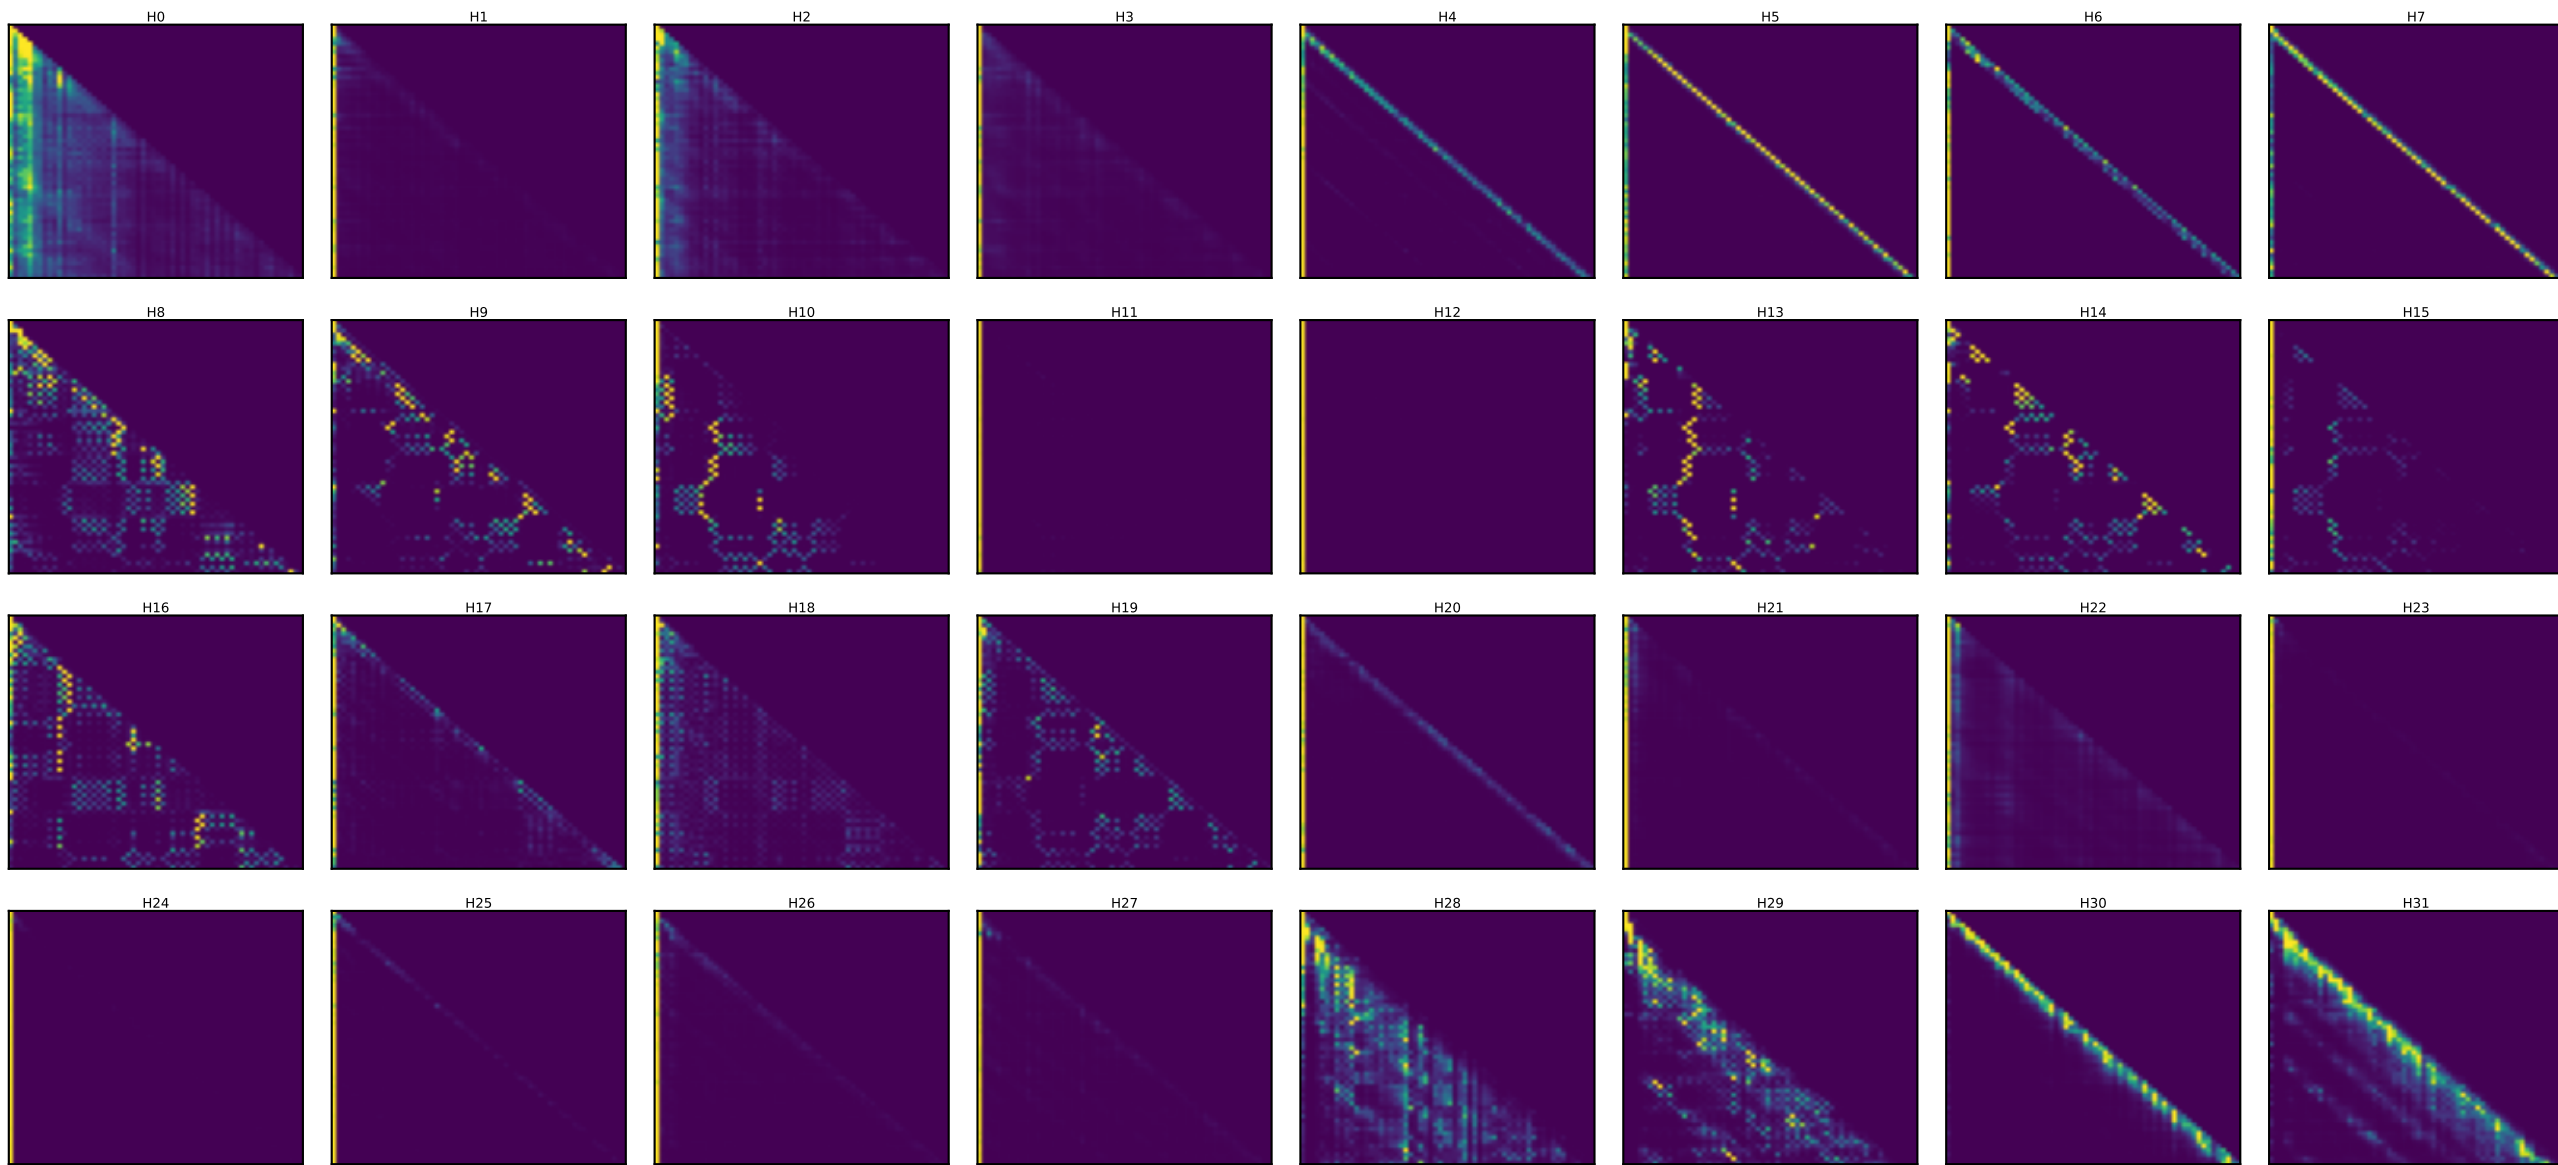

Qwen layer 11 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

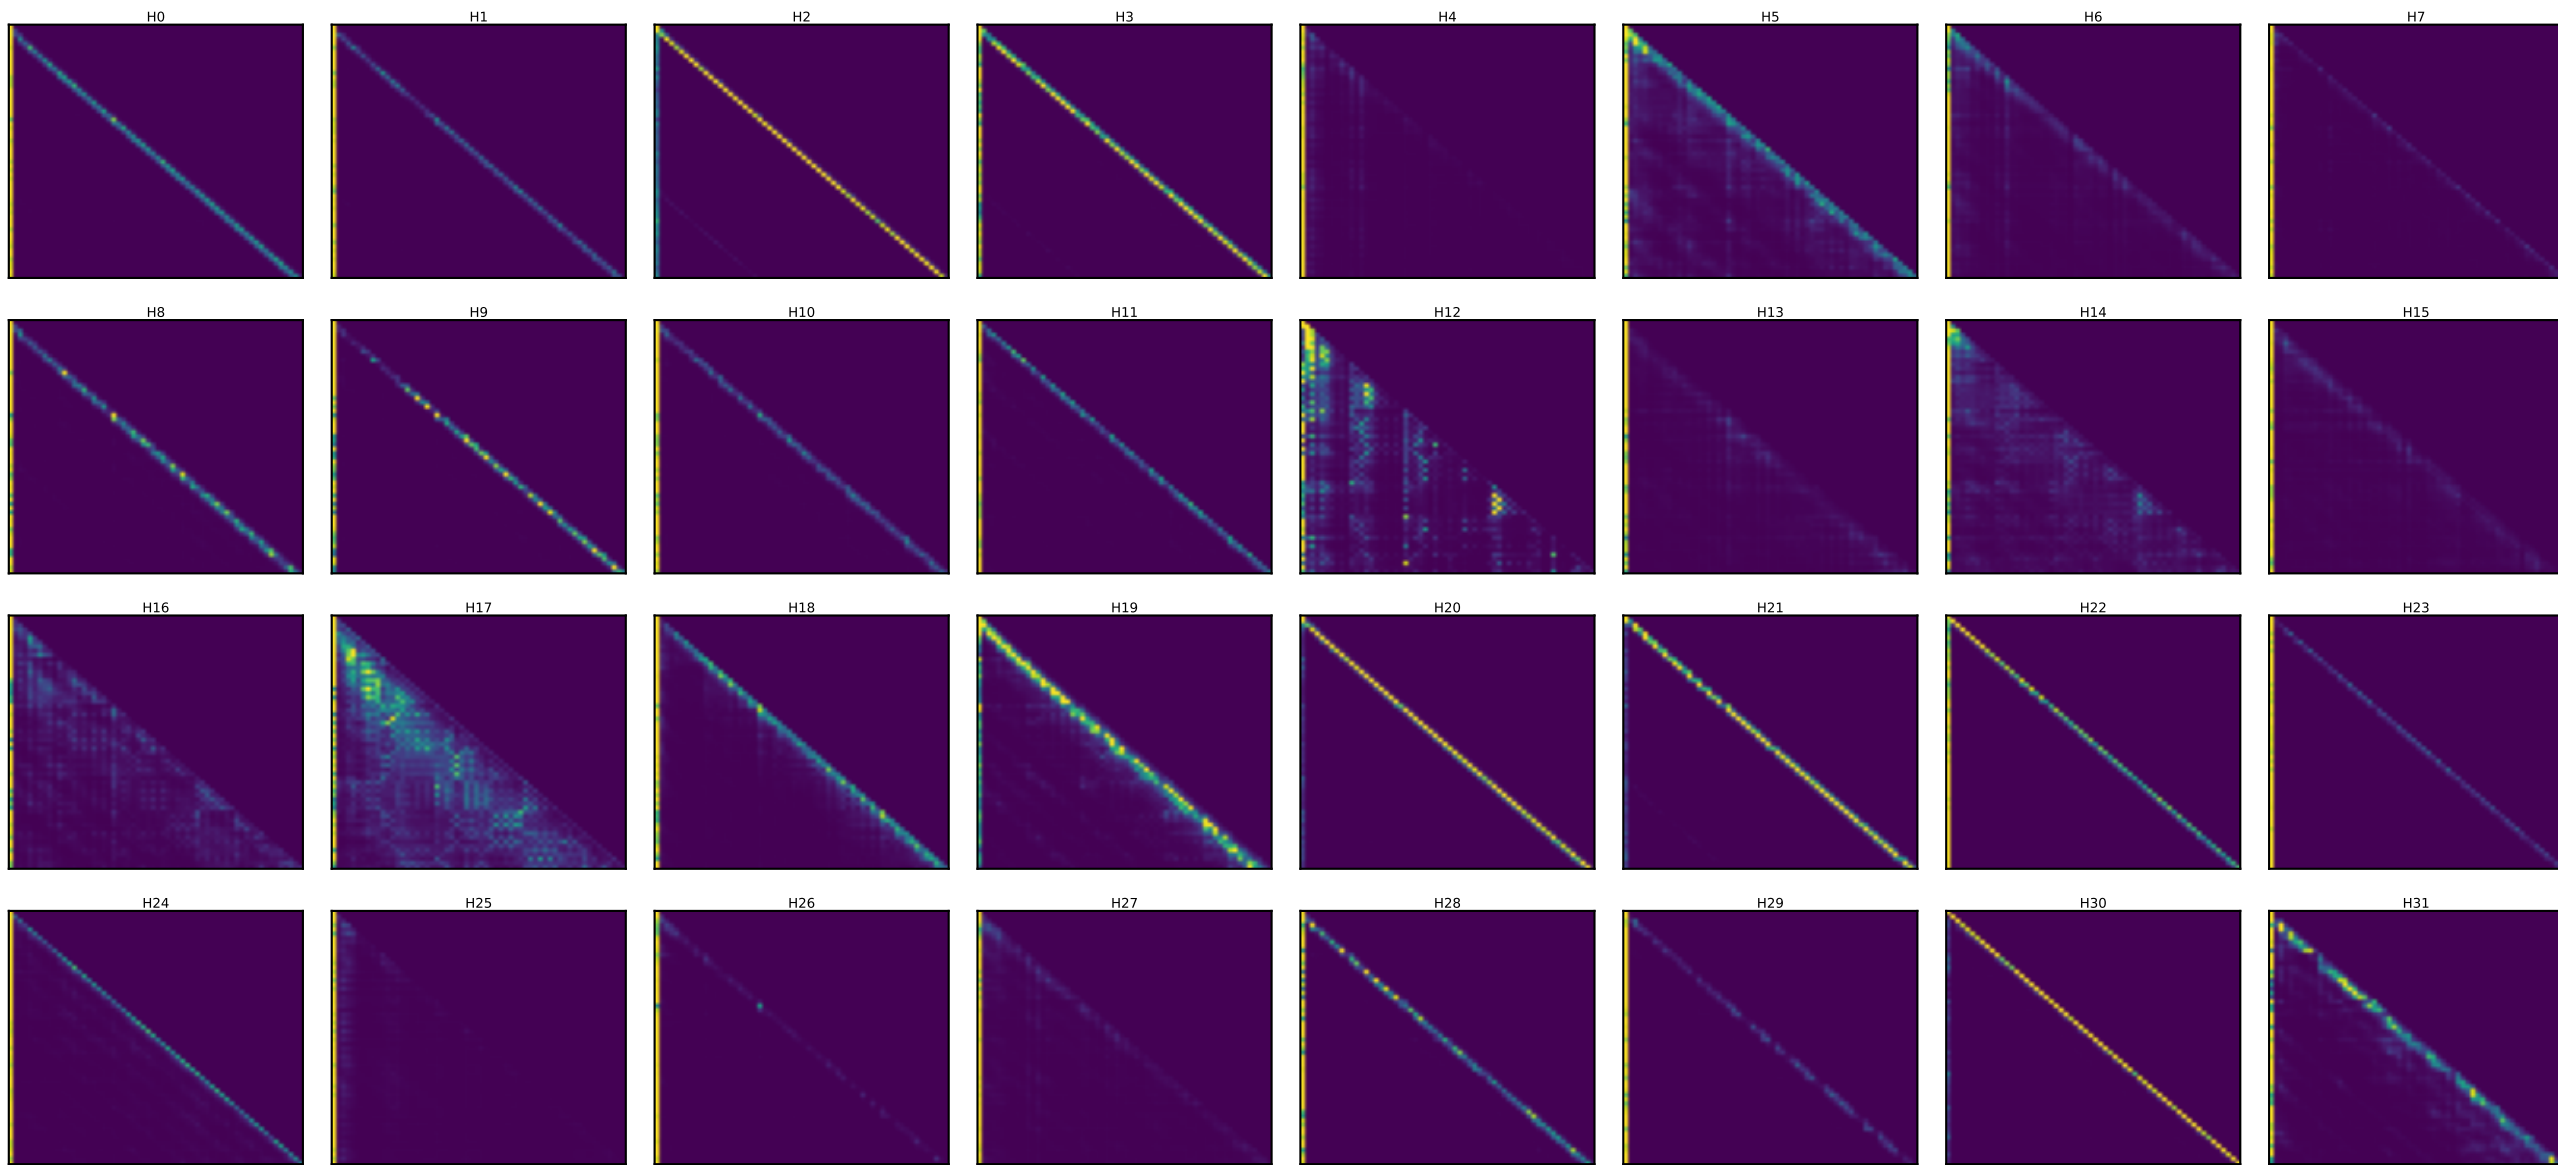

Qwen layer 12 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

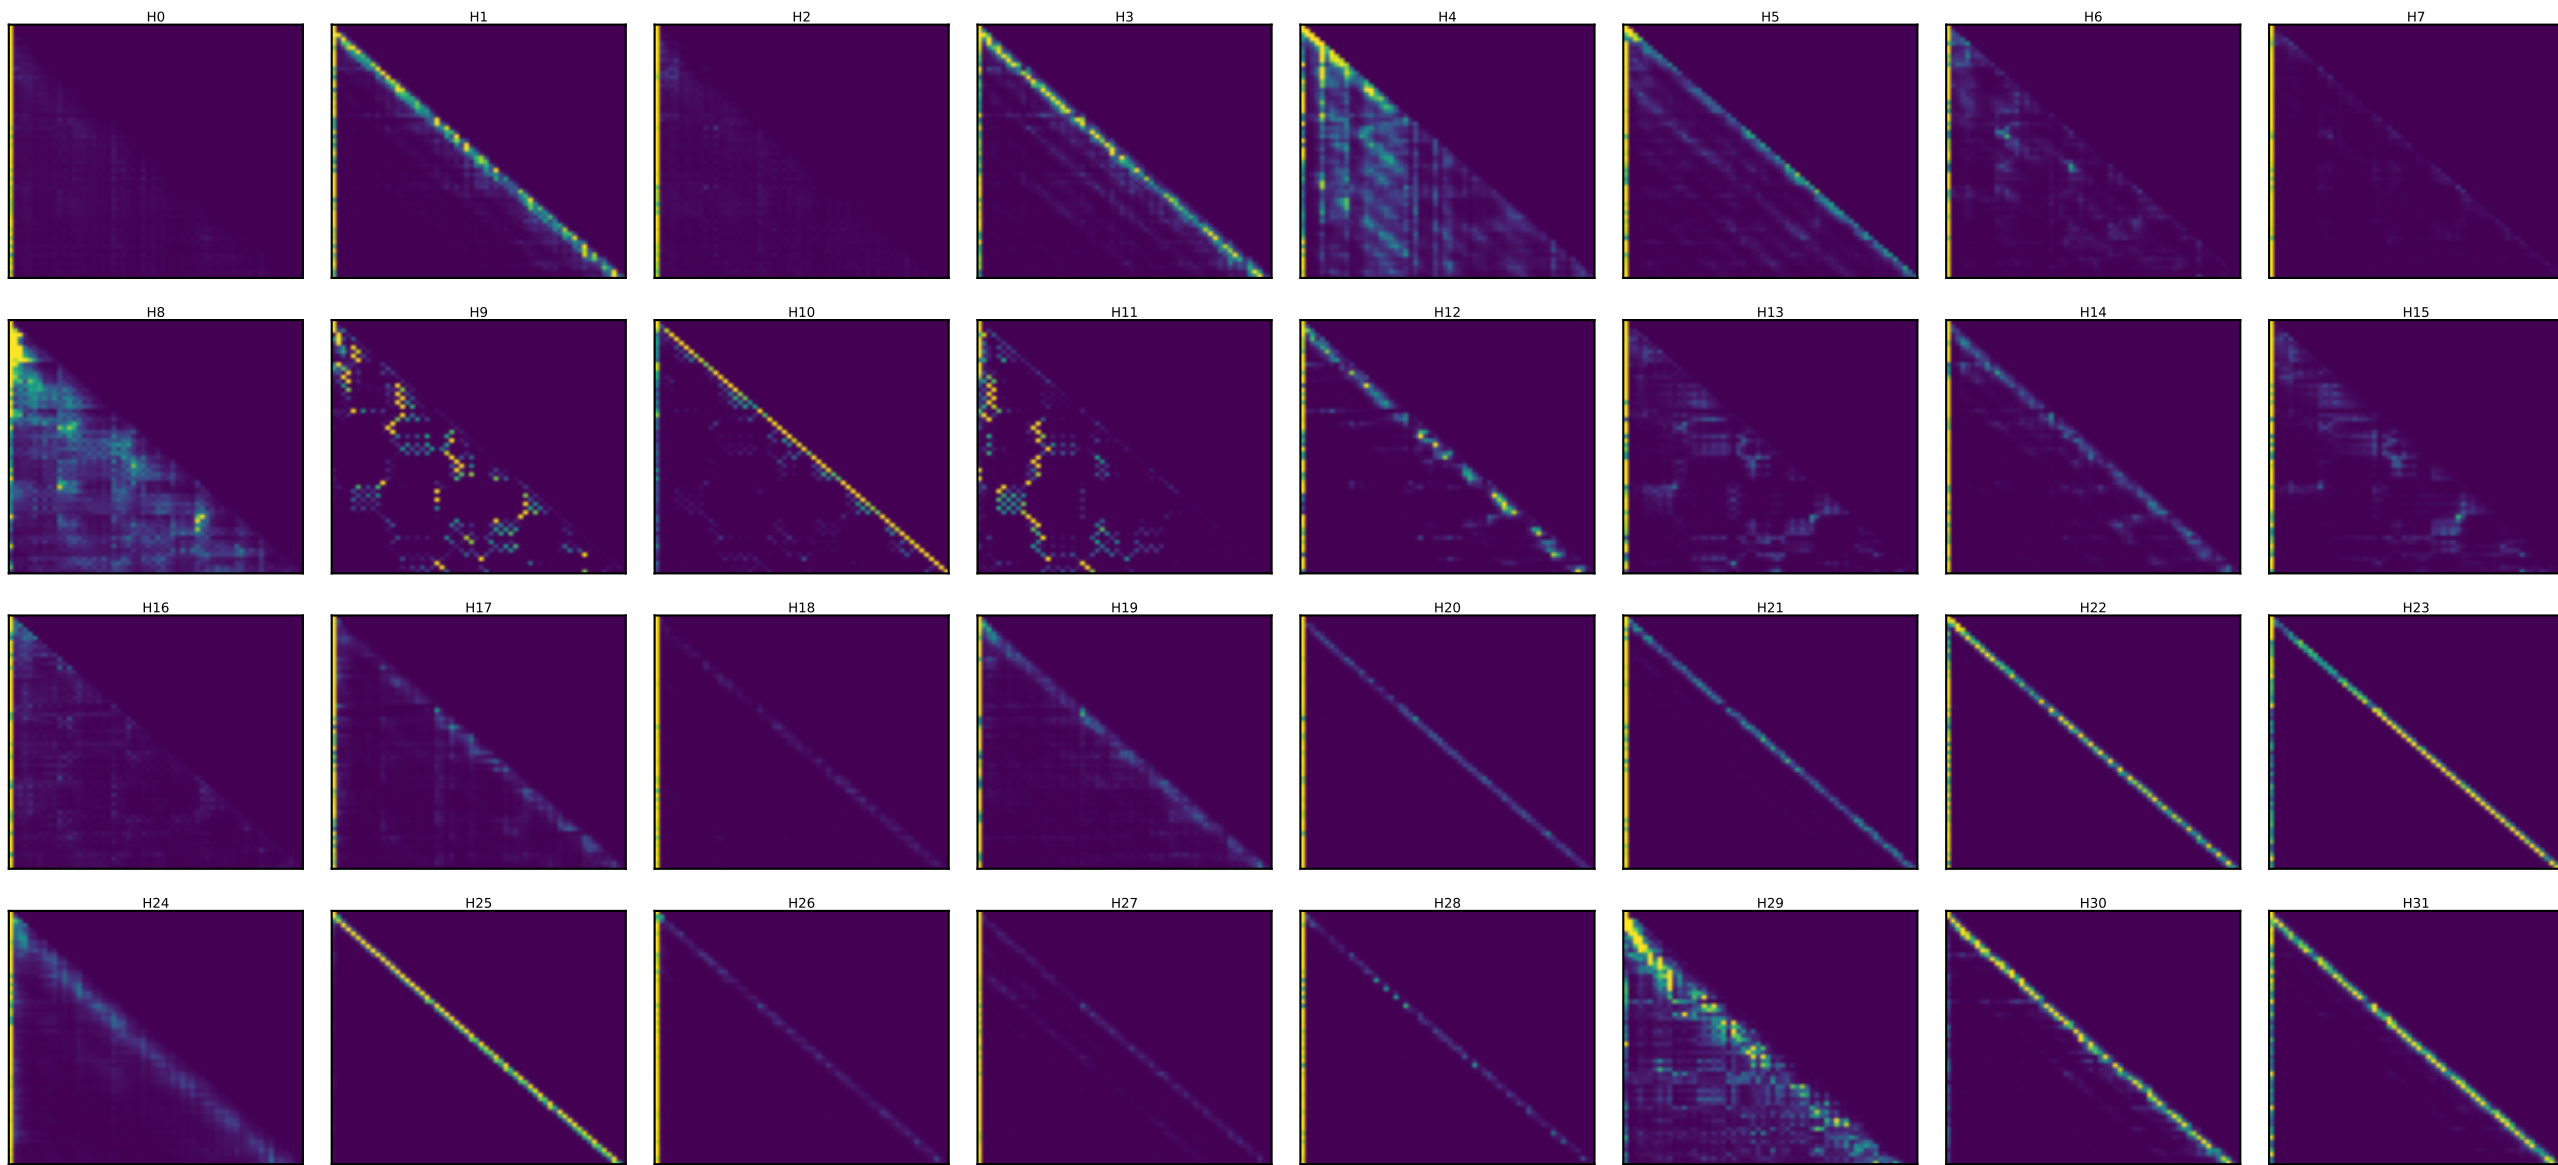

Qwen layer 13 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

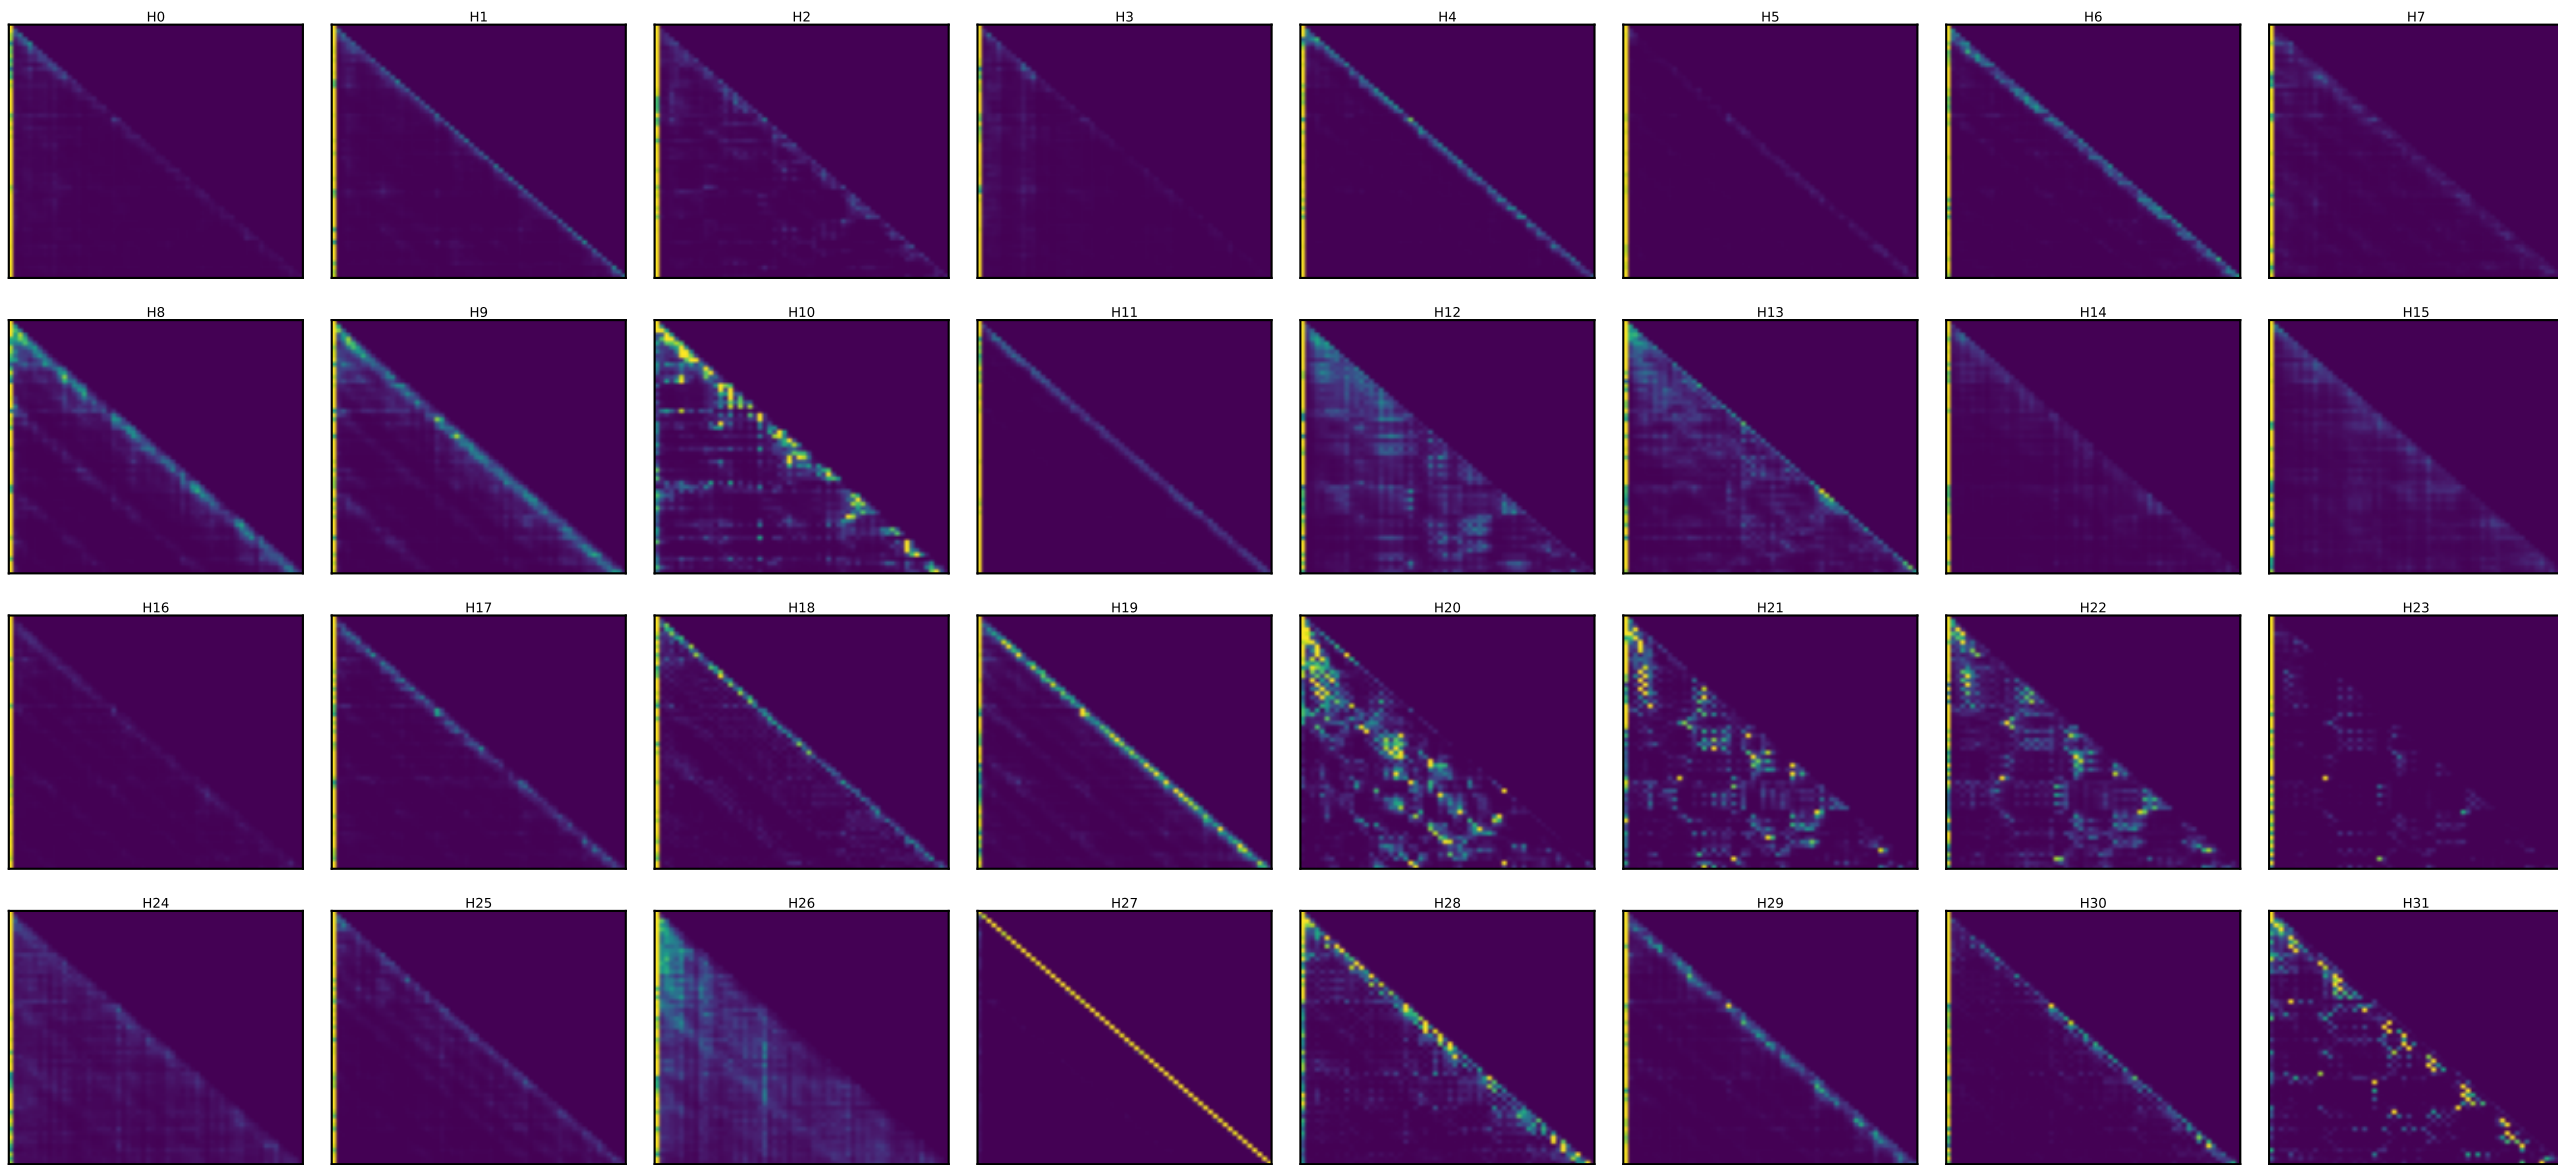

Qwen layer 14 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

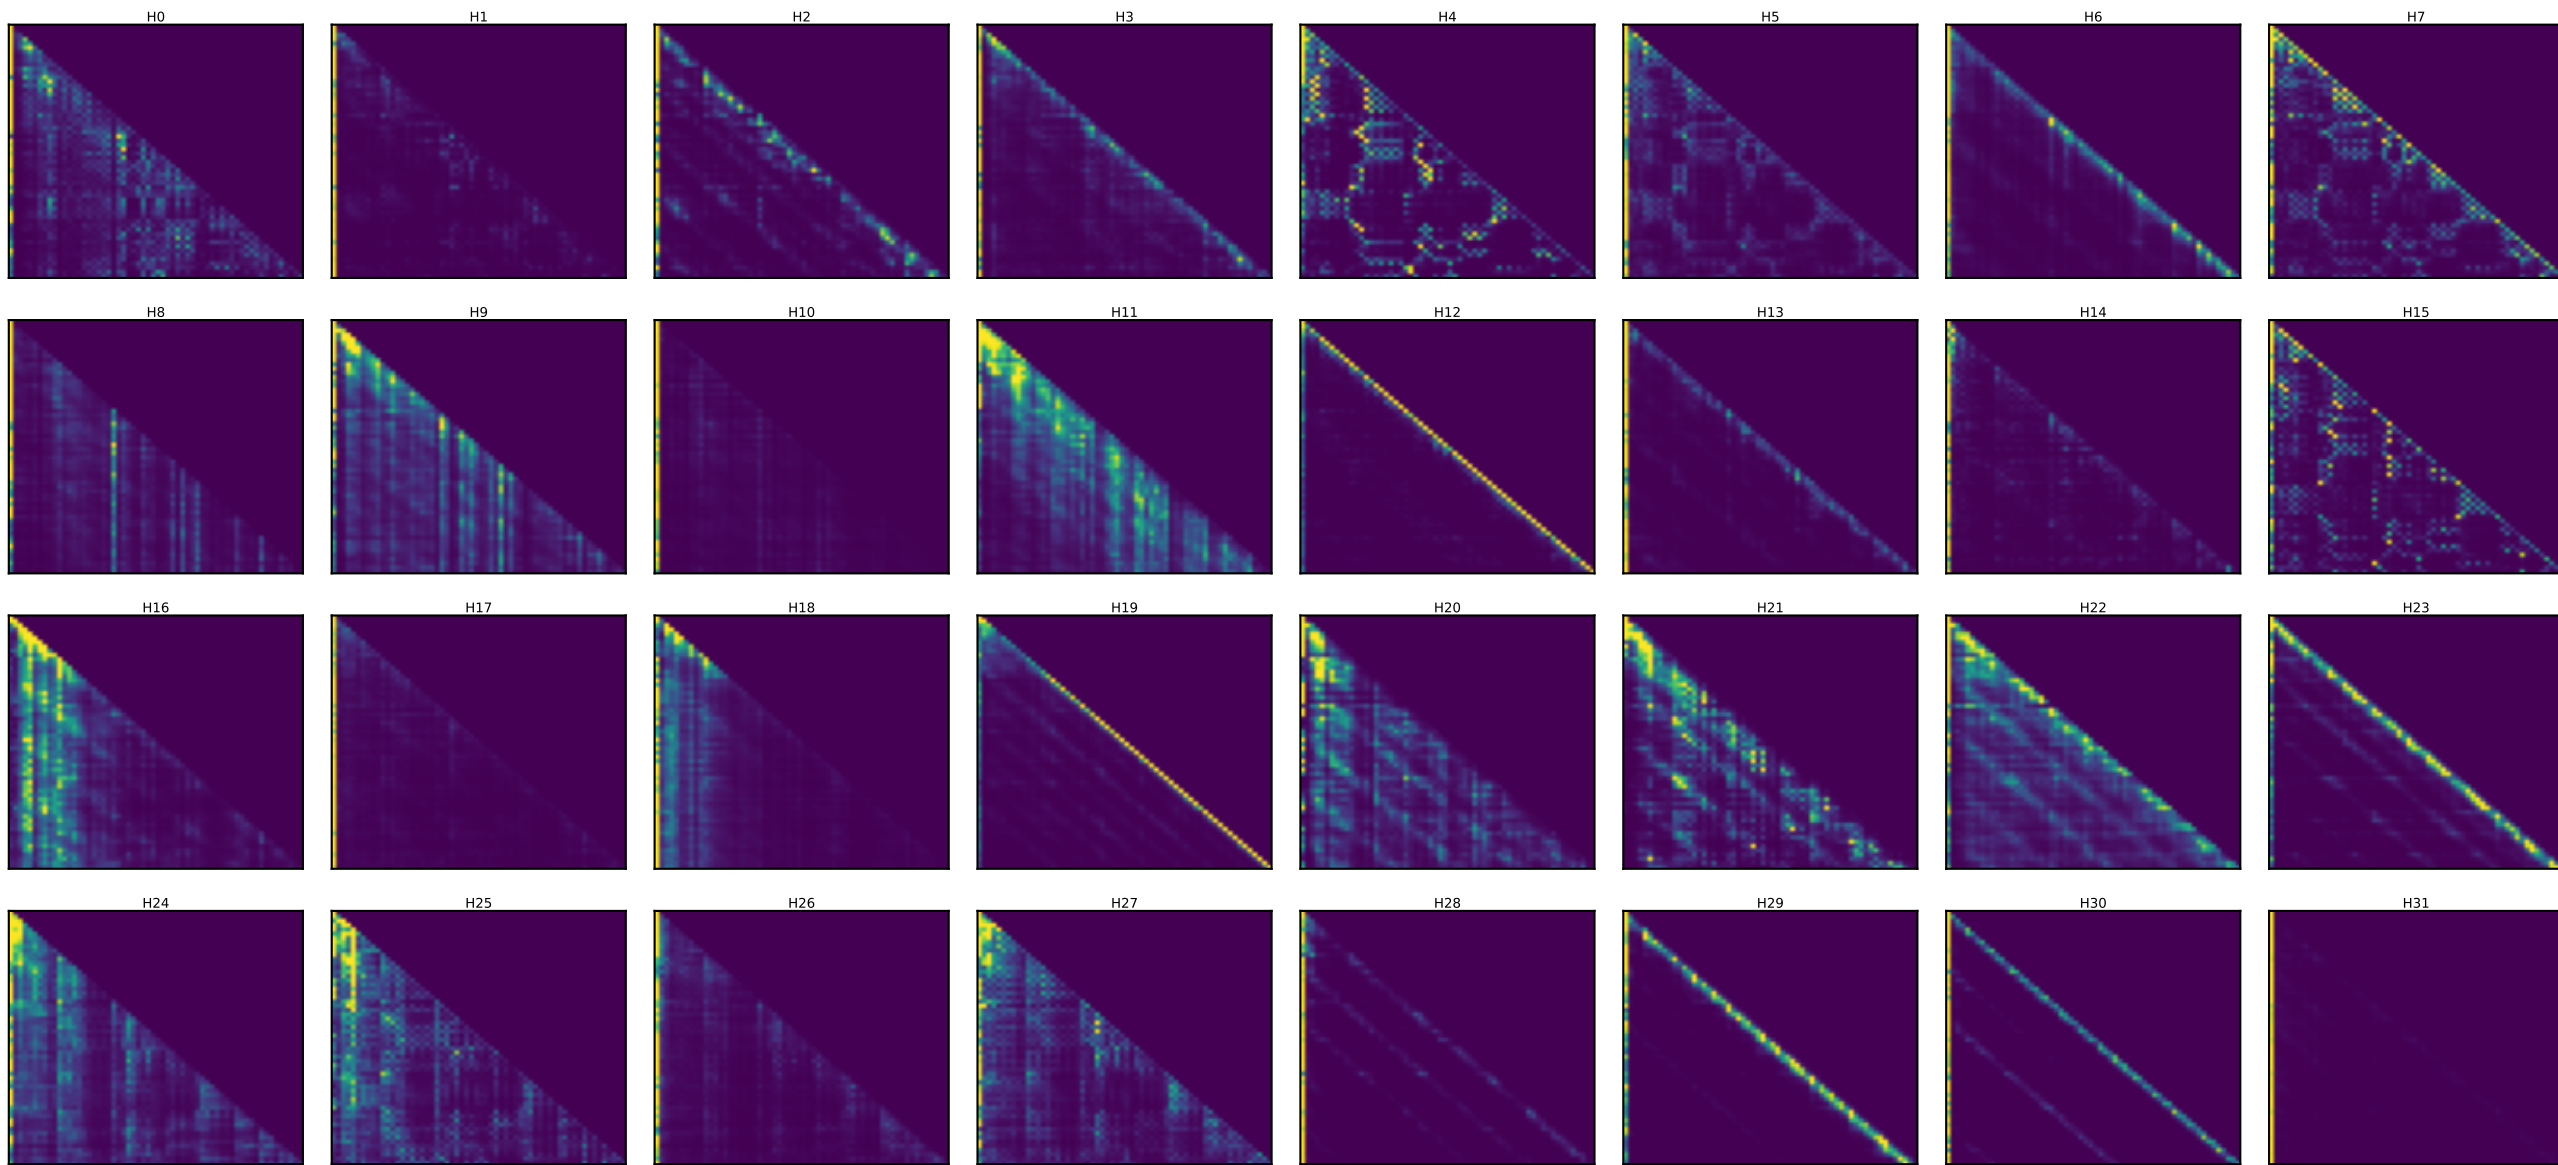

Qwen layer 15 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

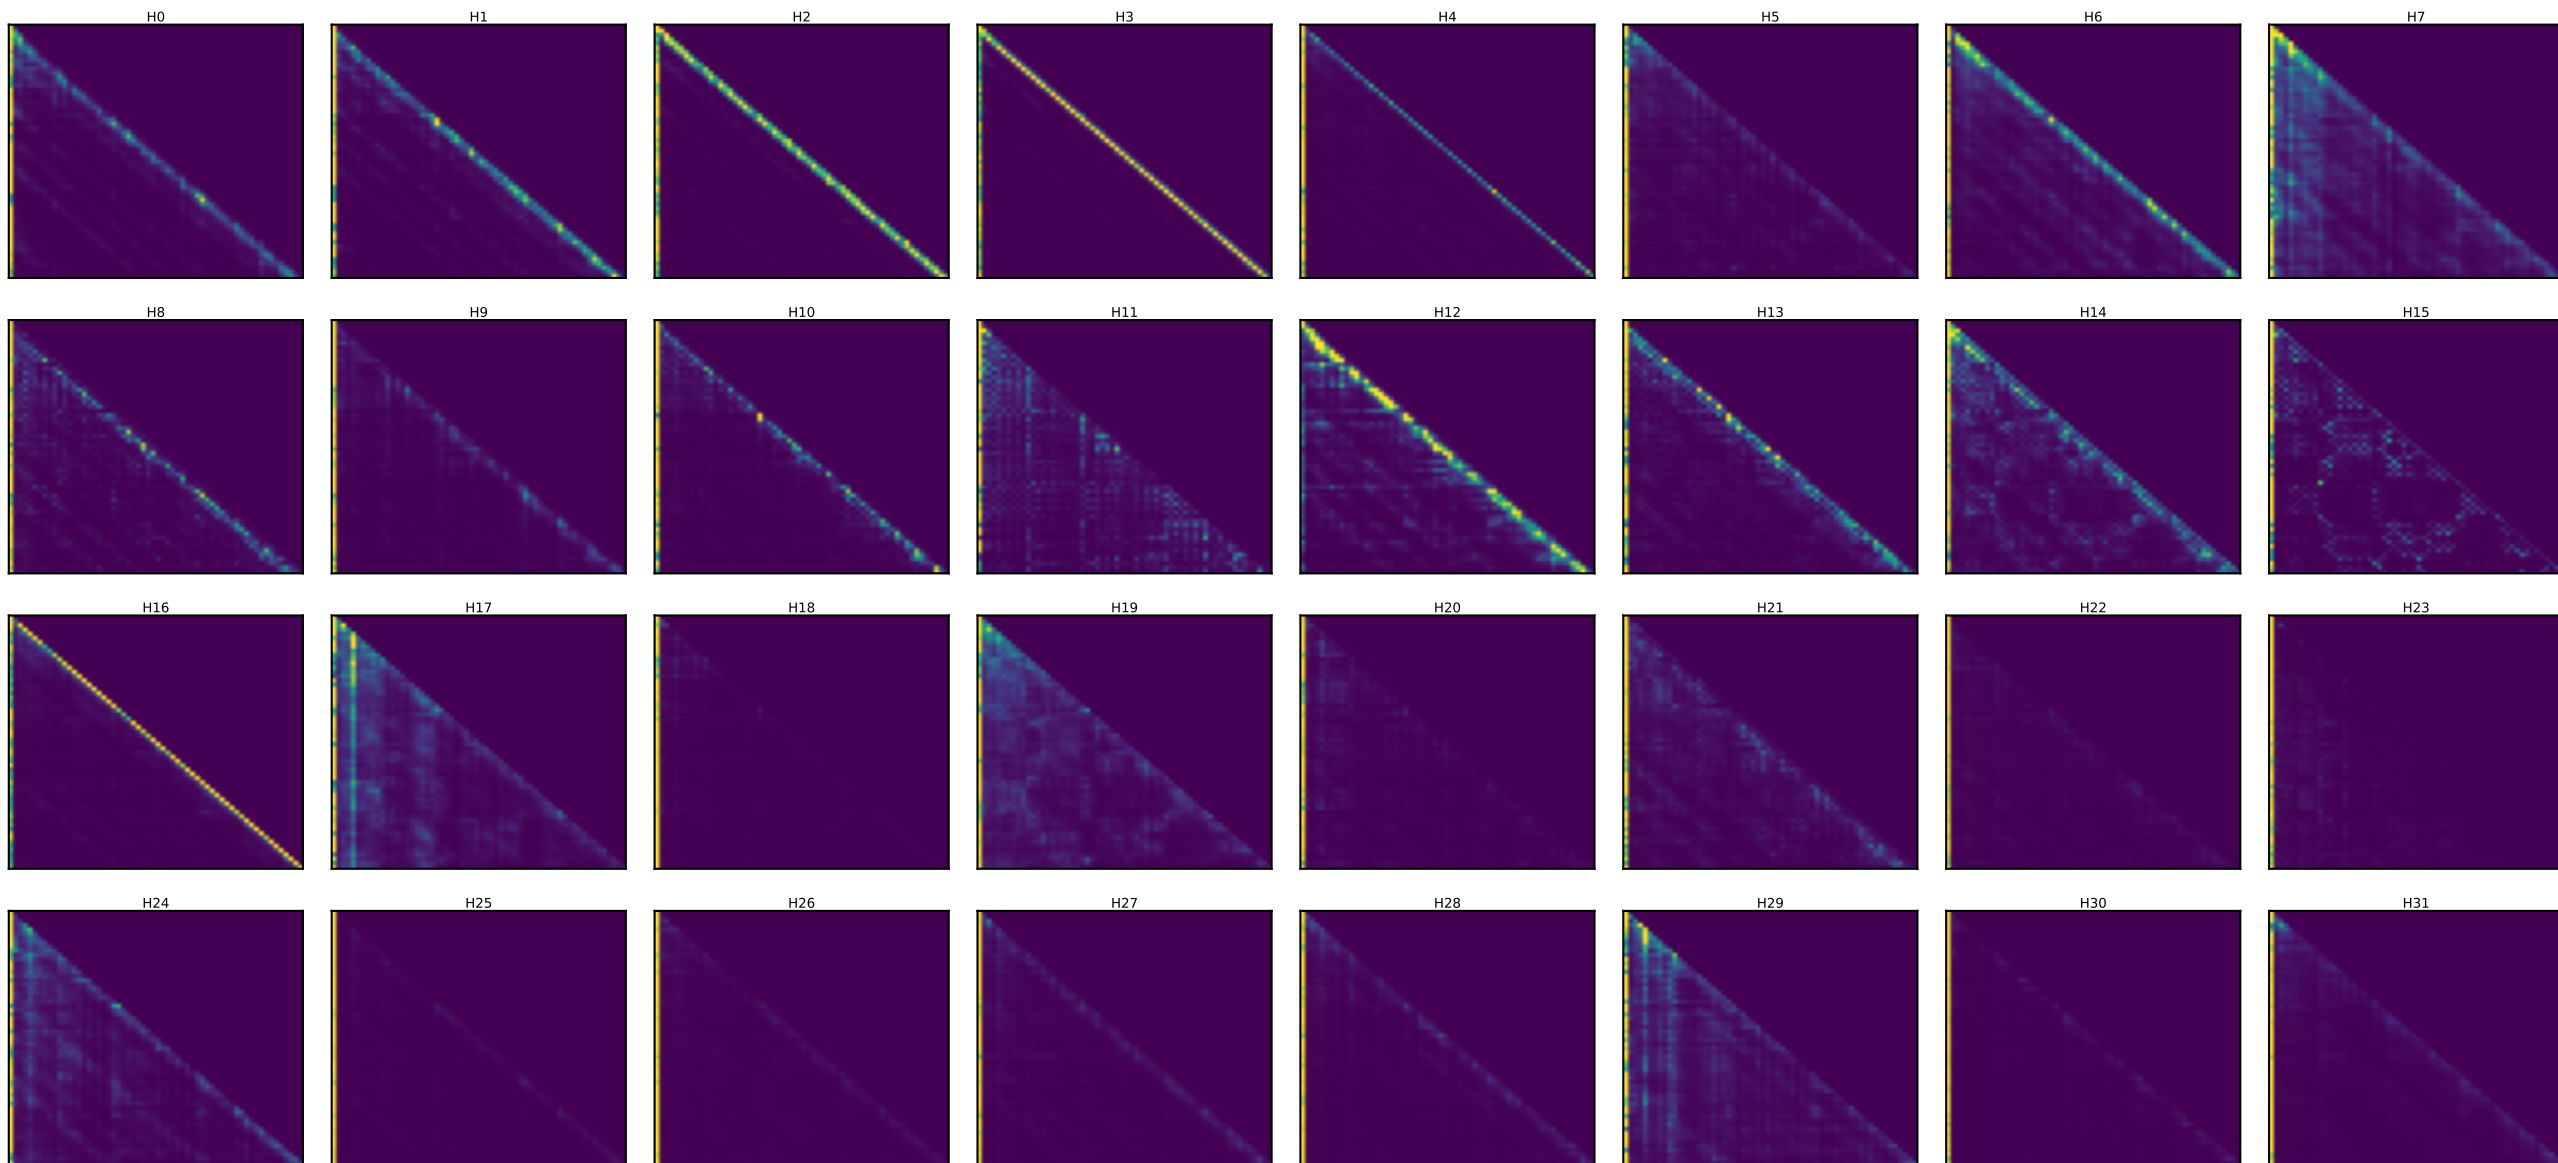

Qwen layer 16 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

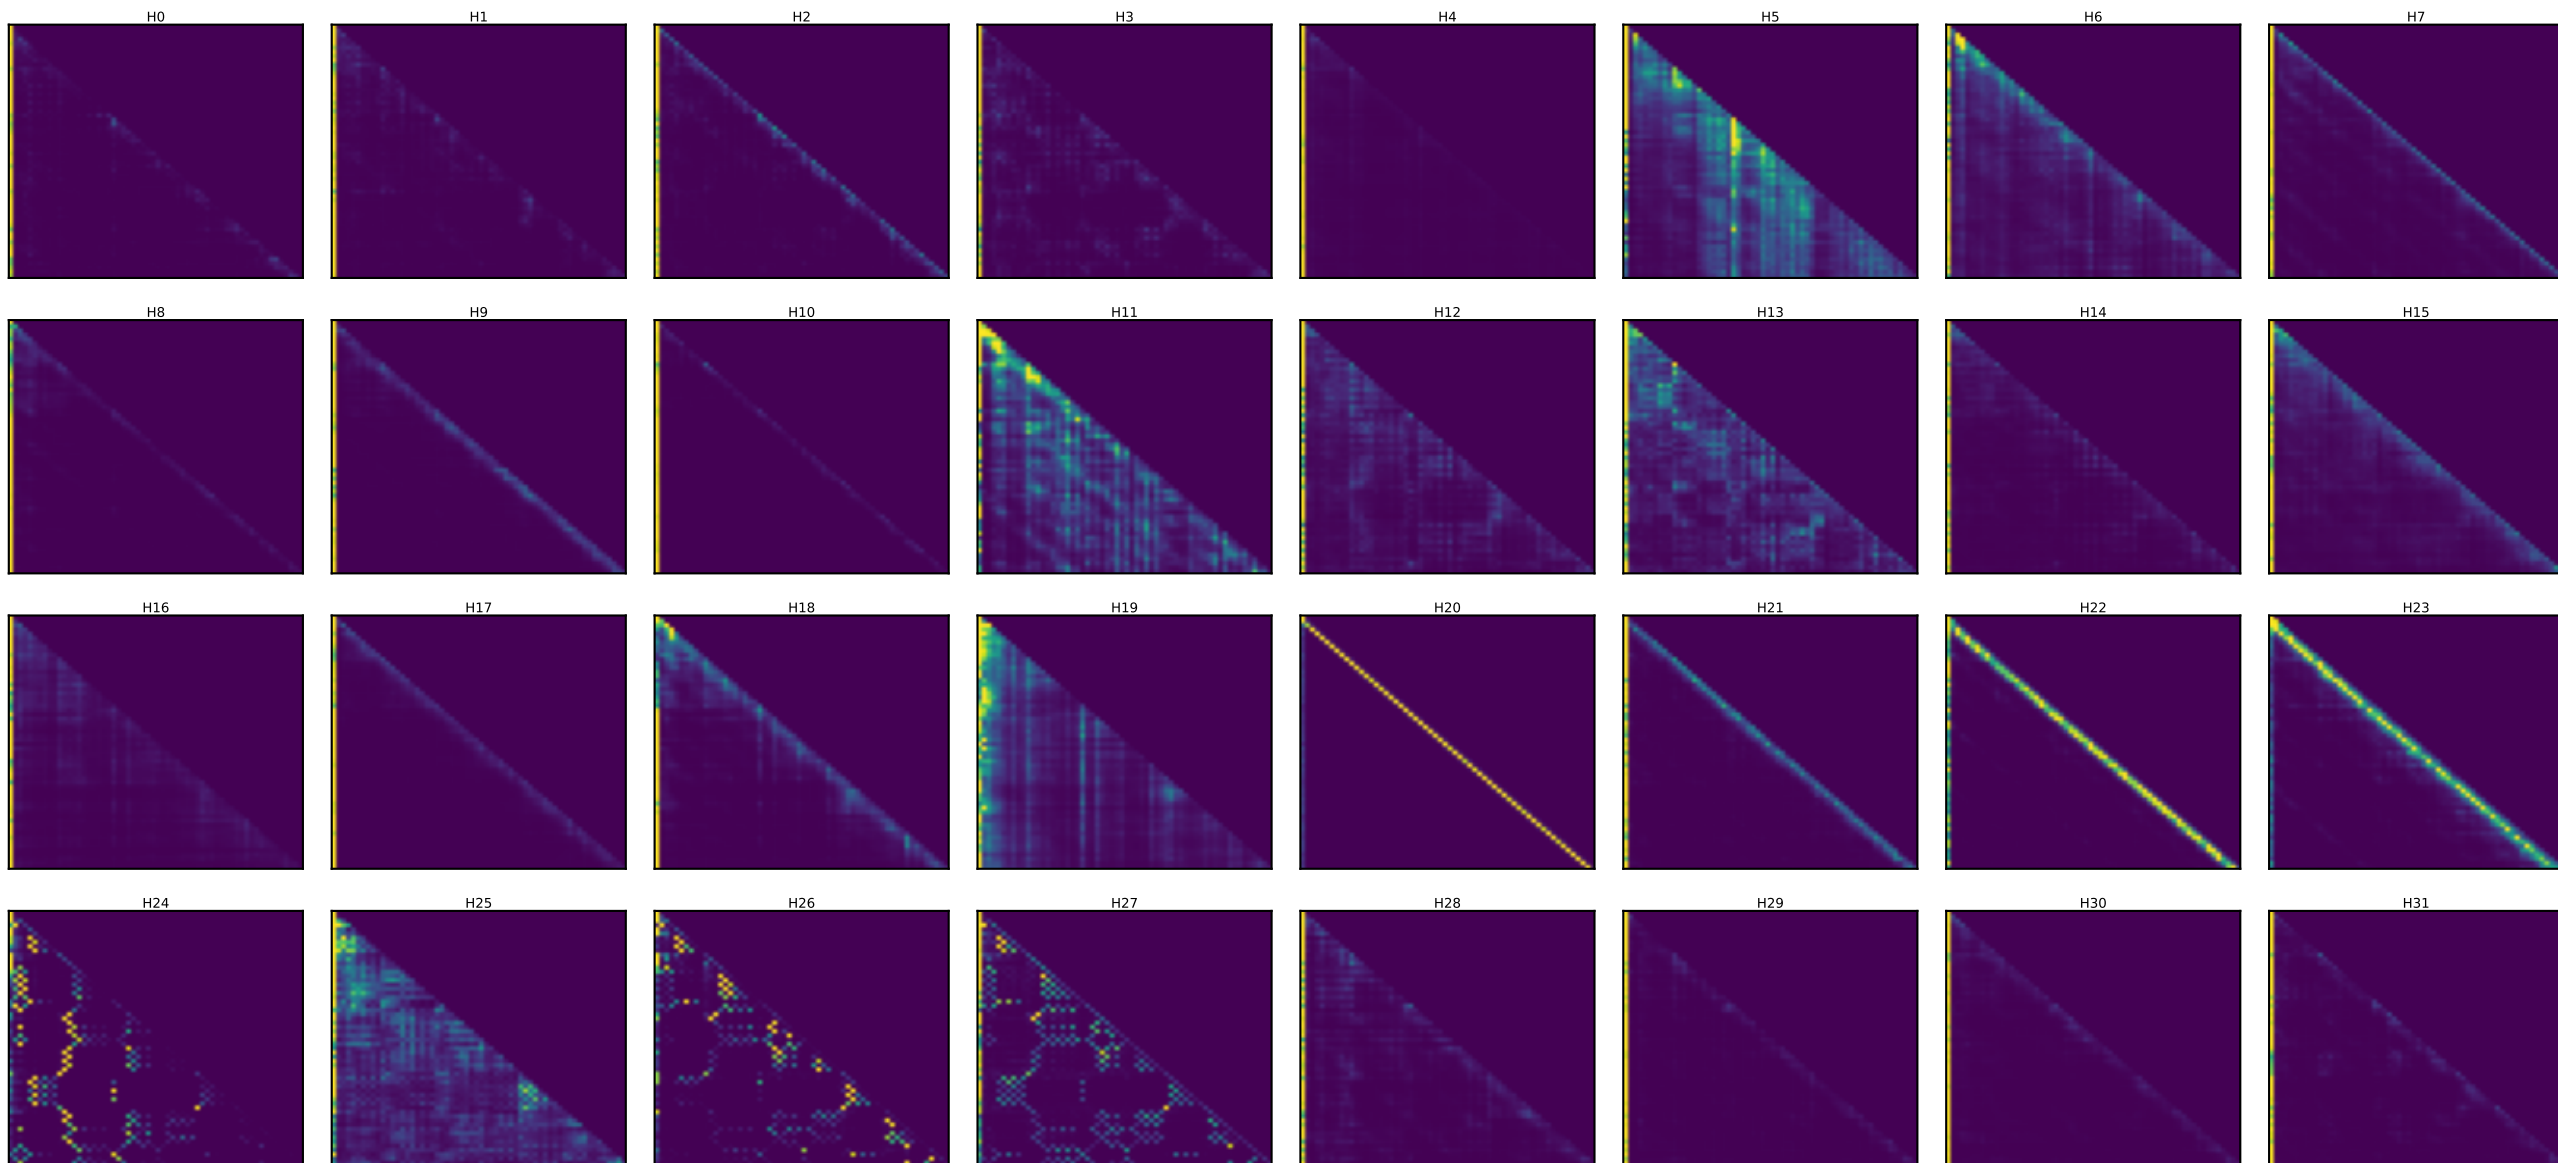

Qwen layer 17 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

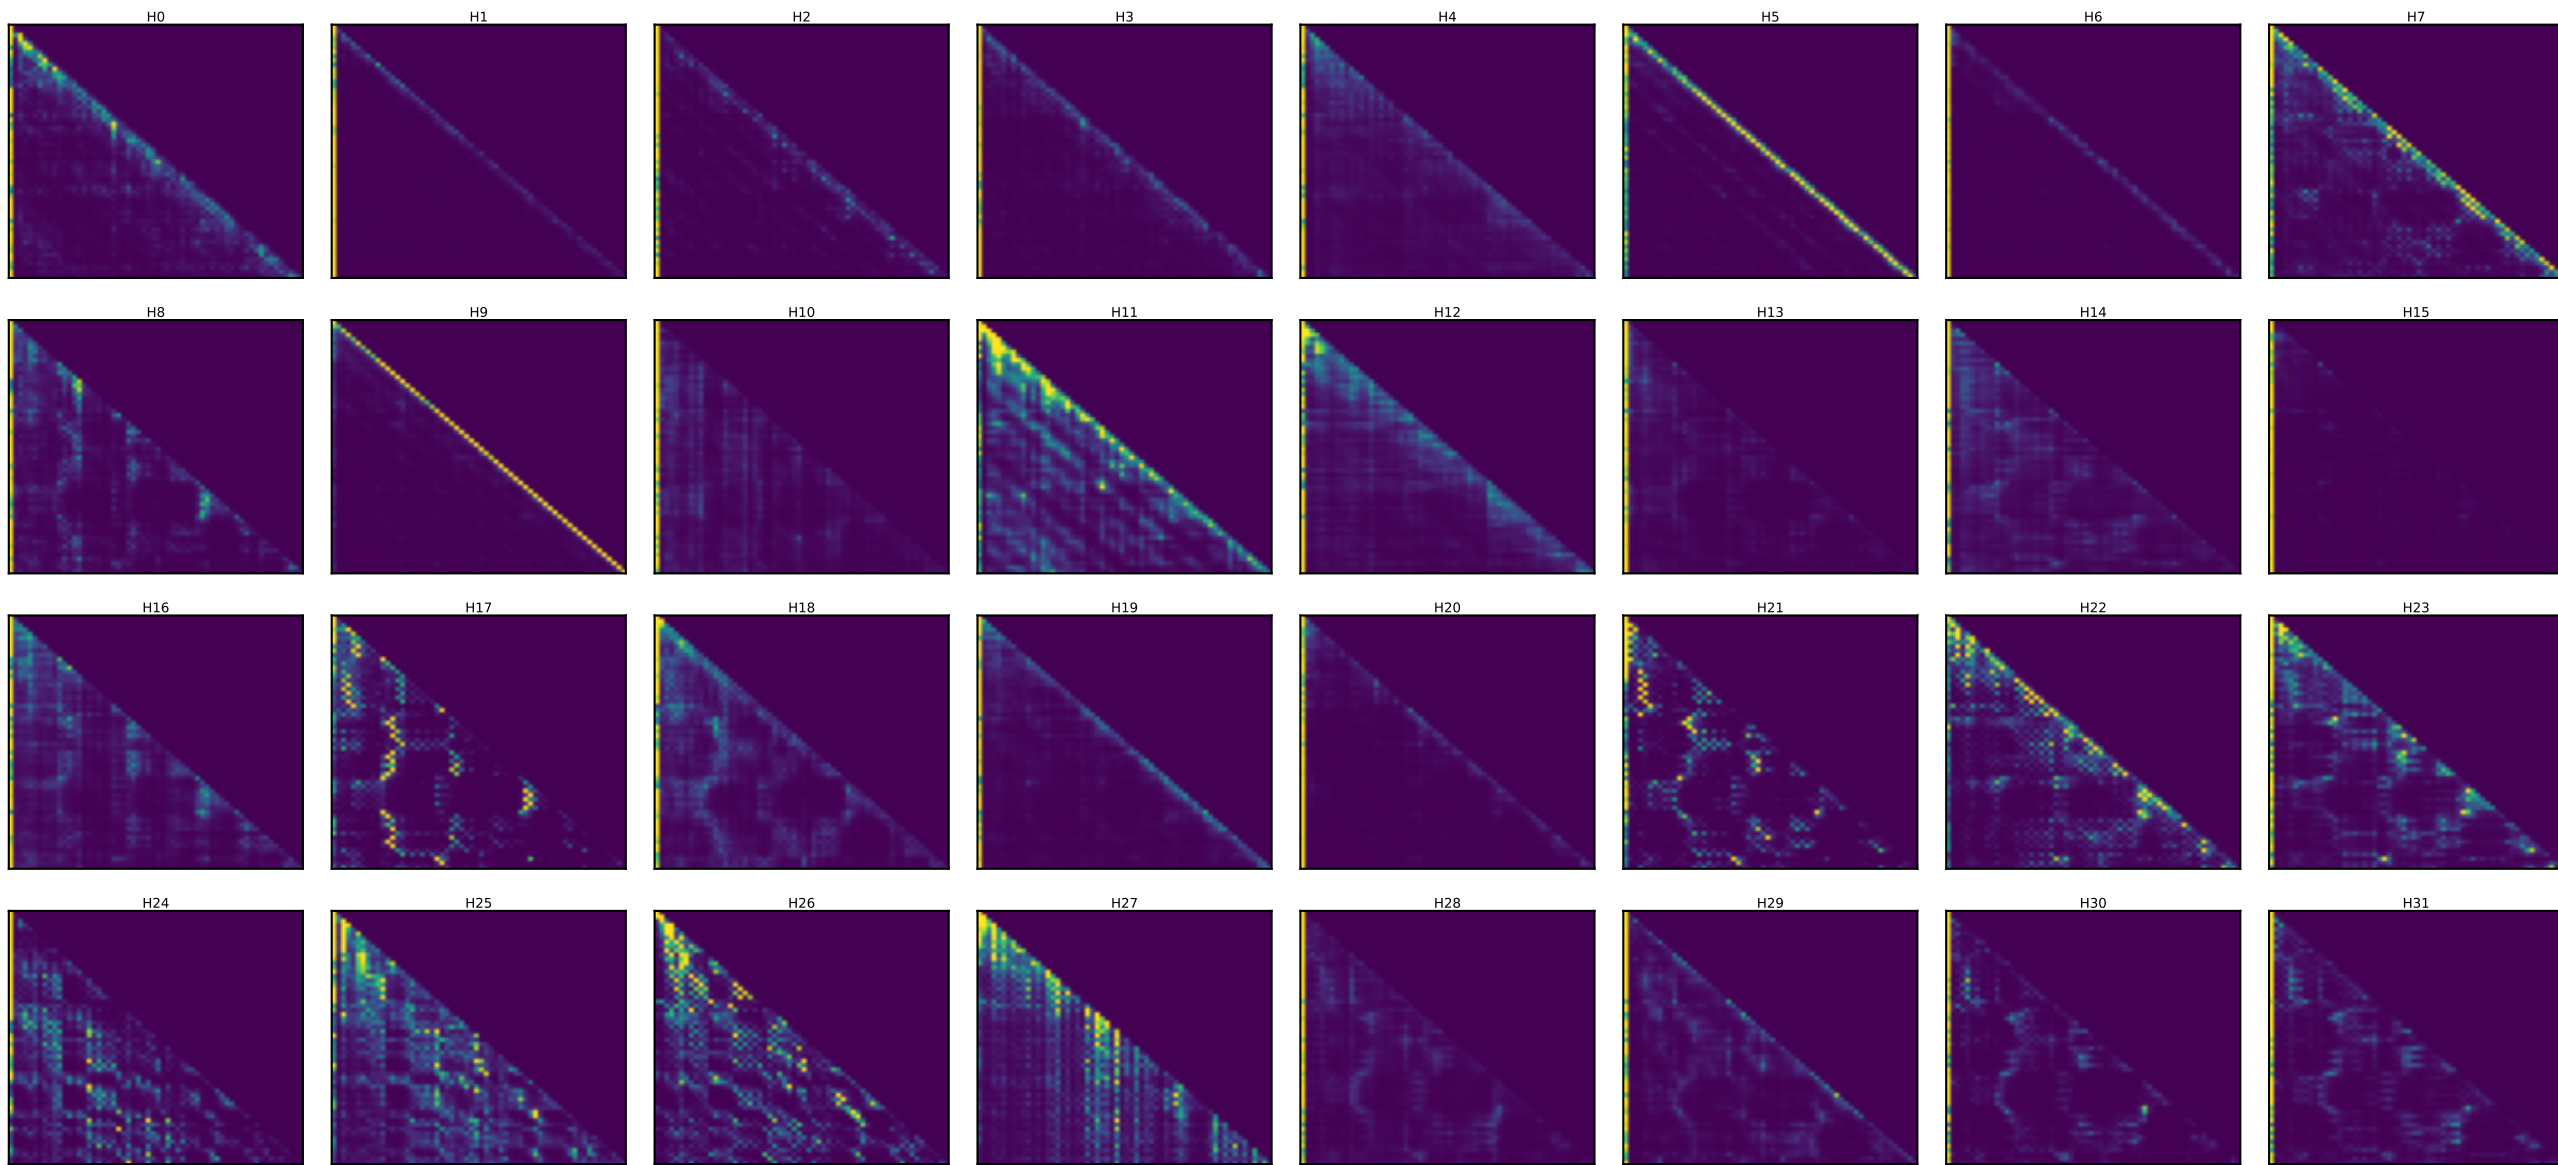

Qwen layer 18 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

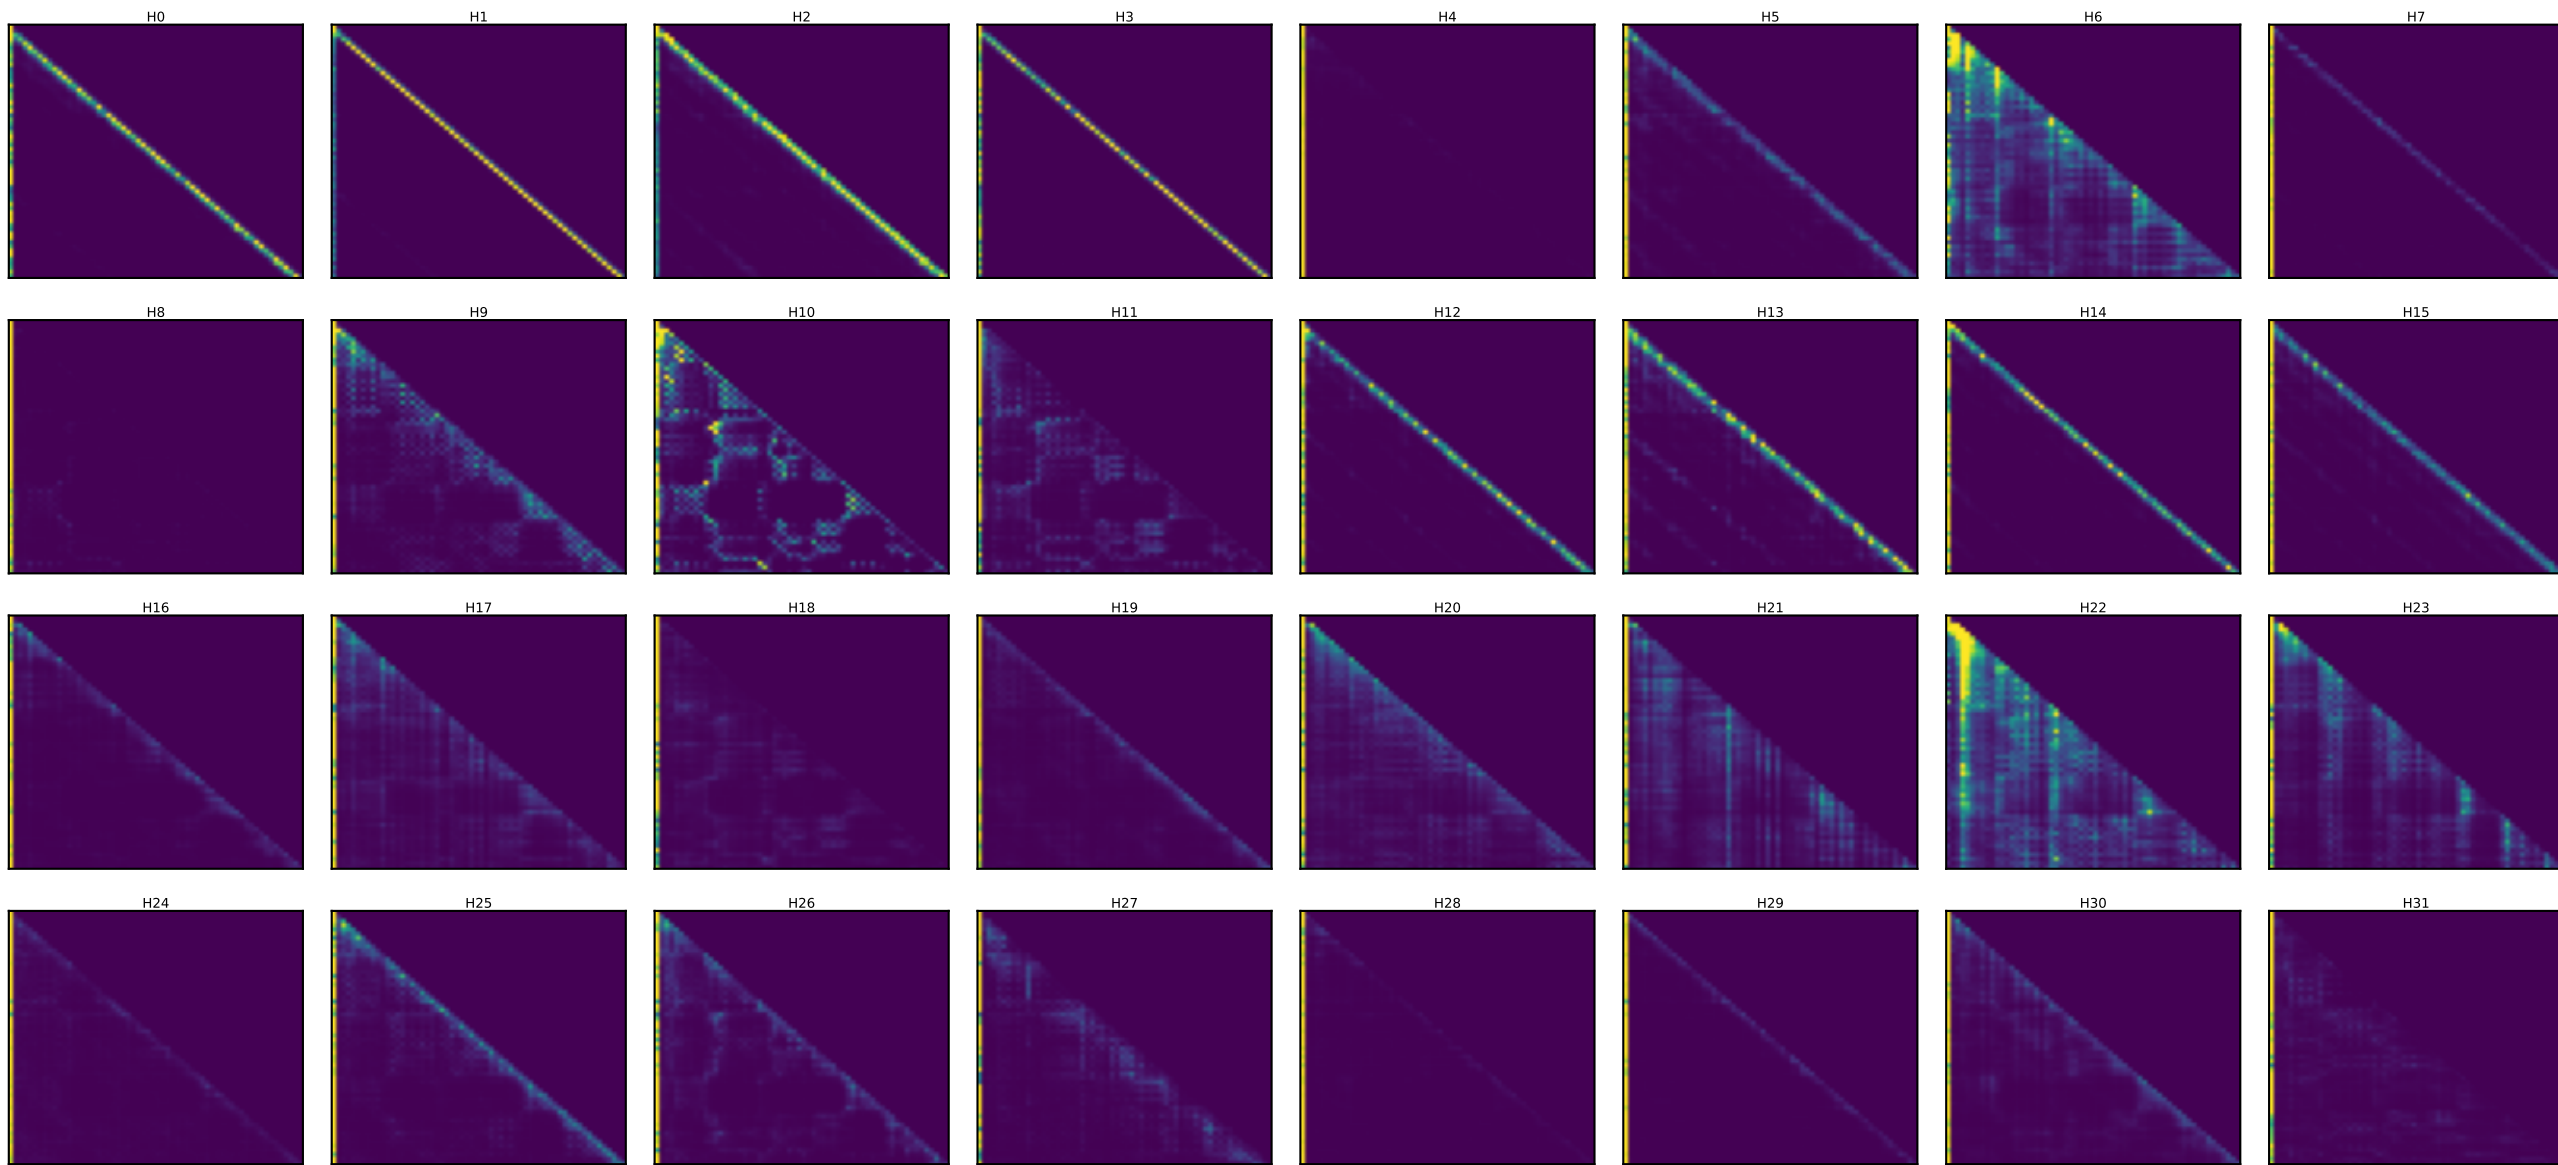

Qwen layer 19 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

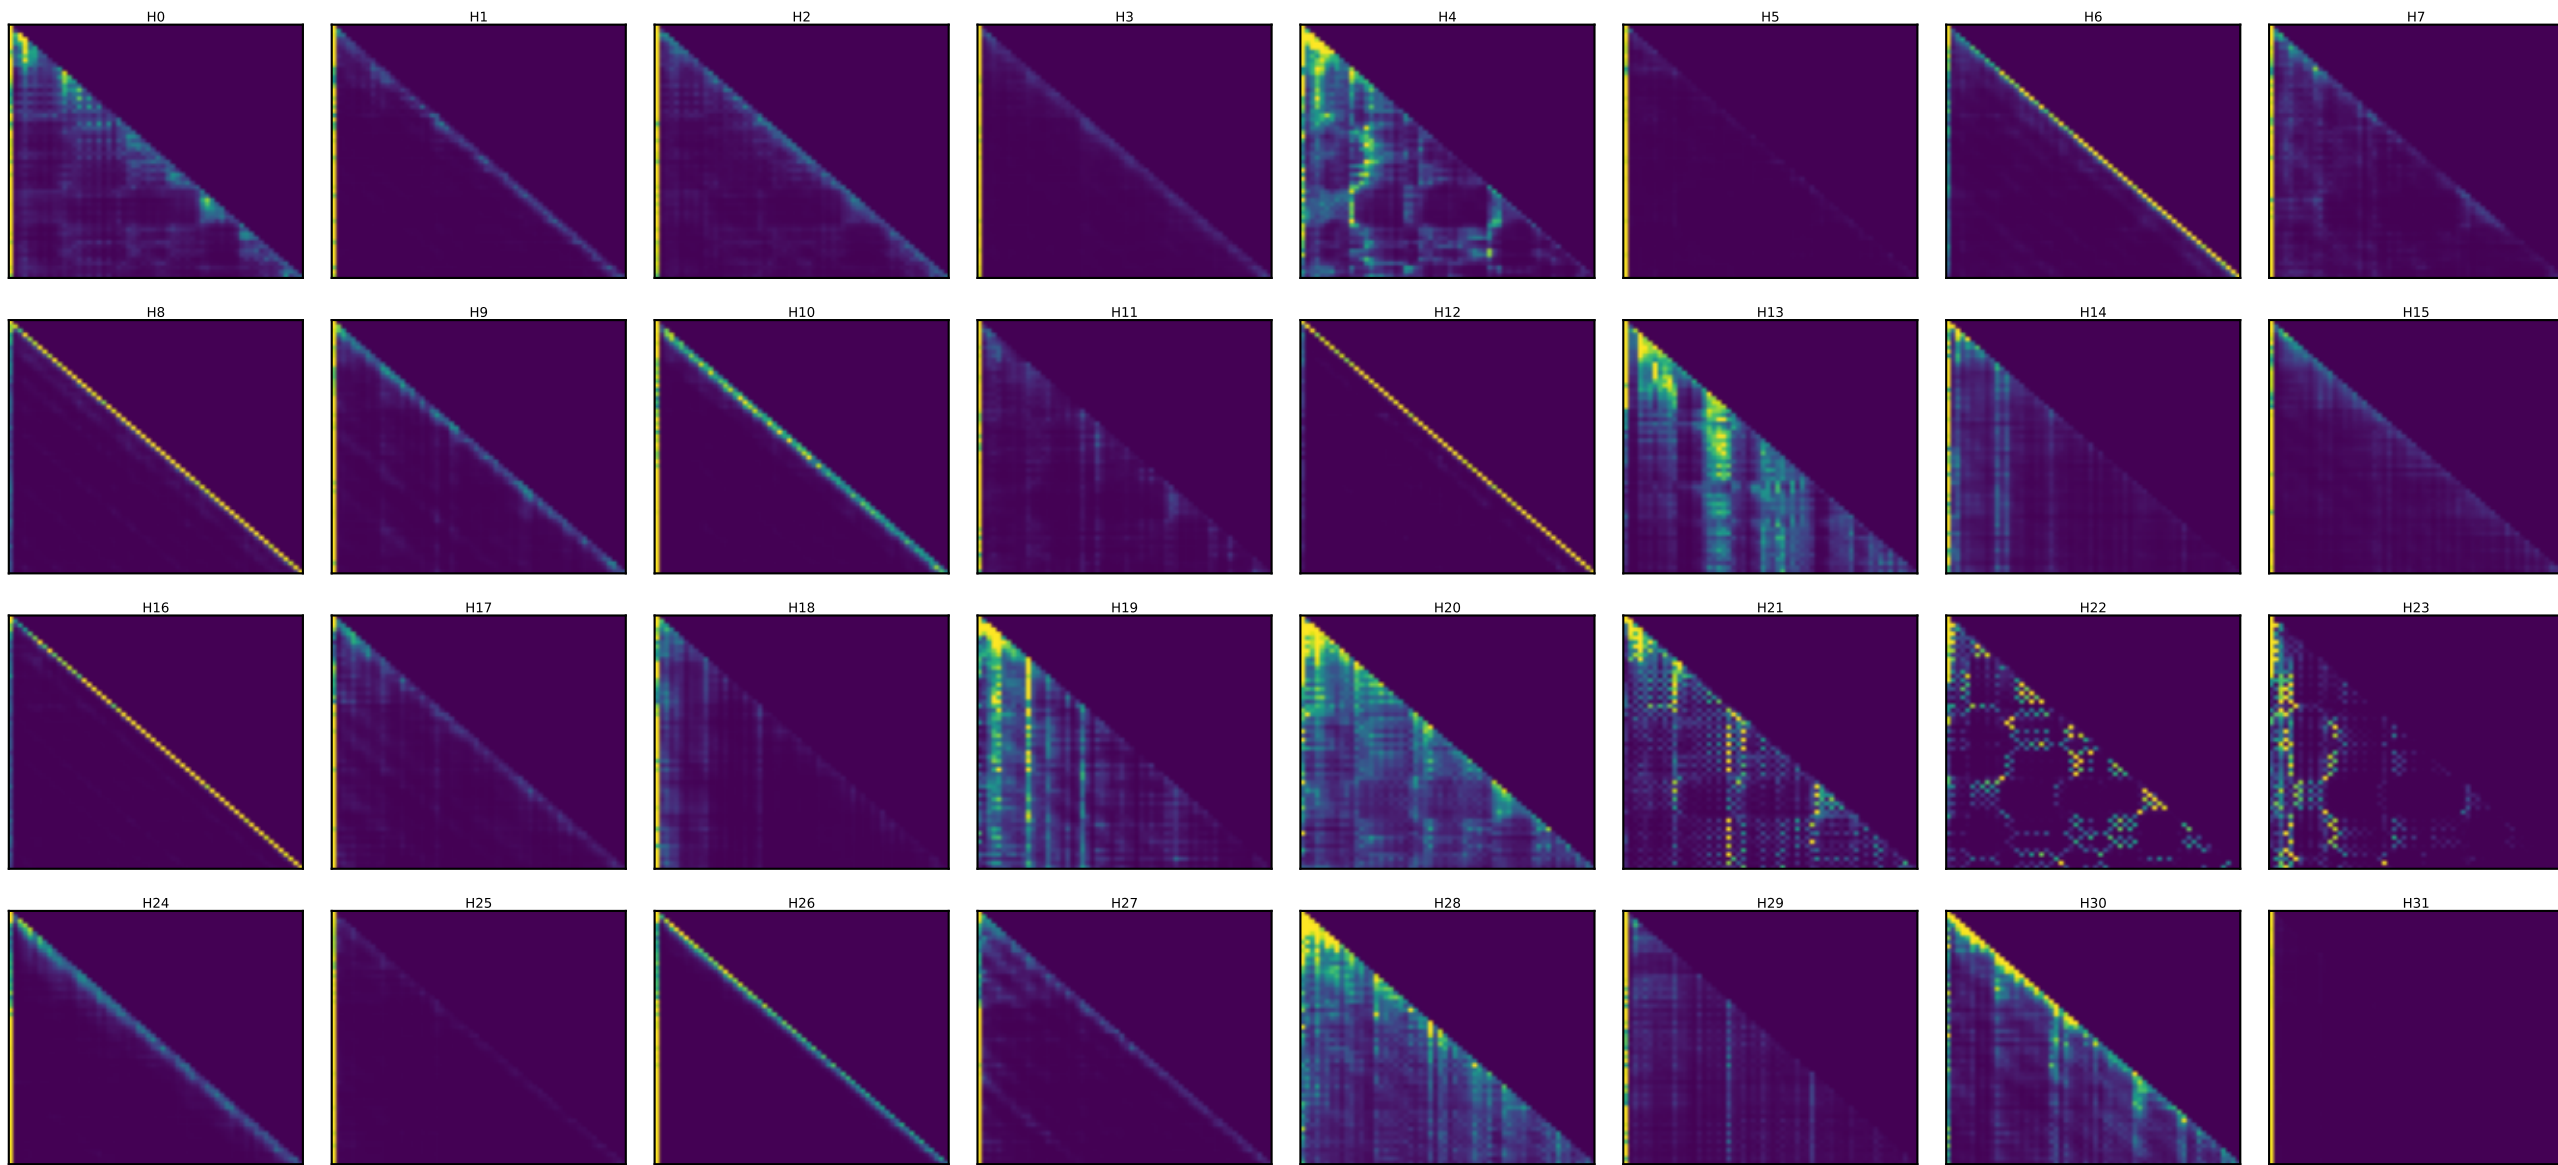

Qwen layer 20 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

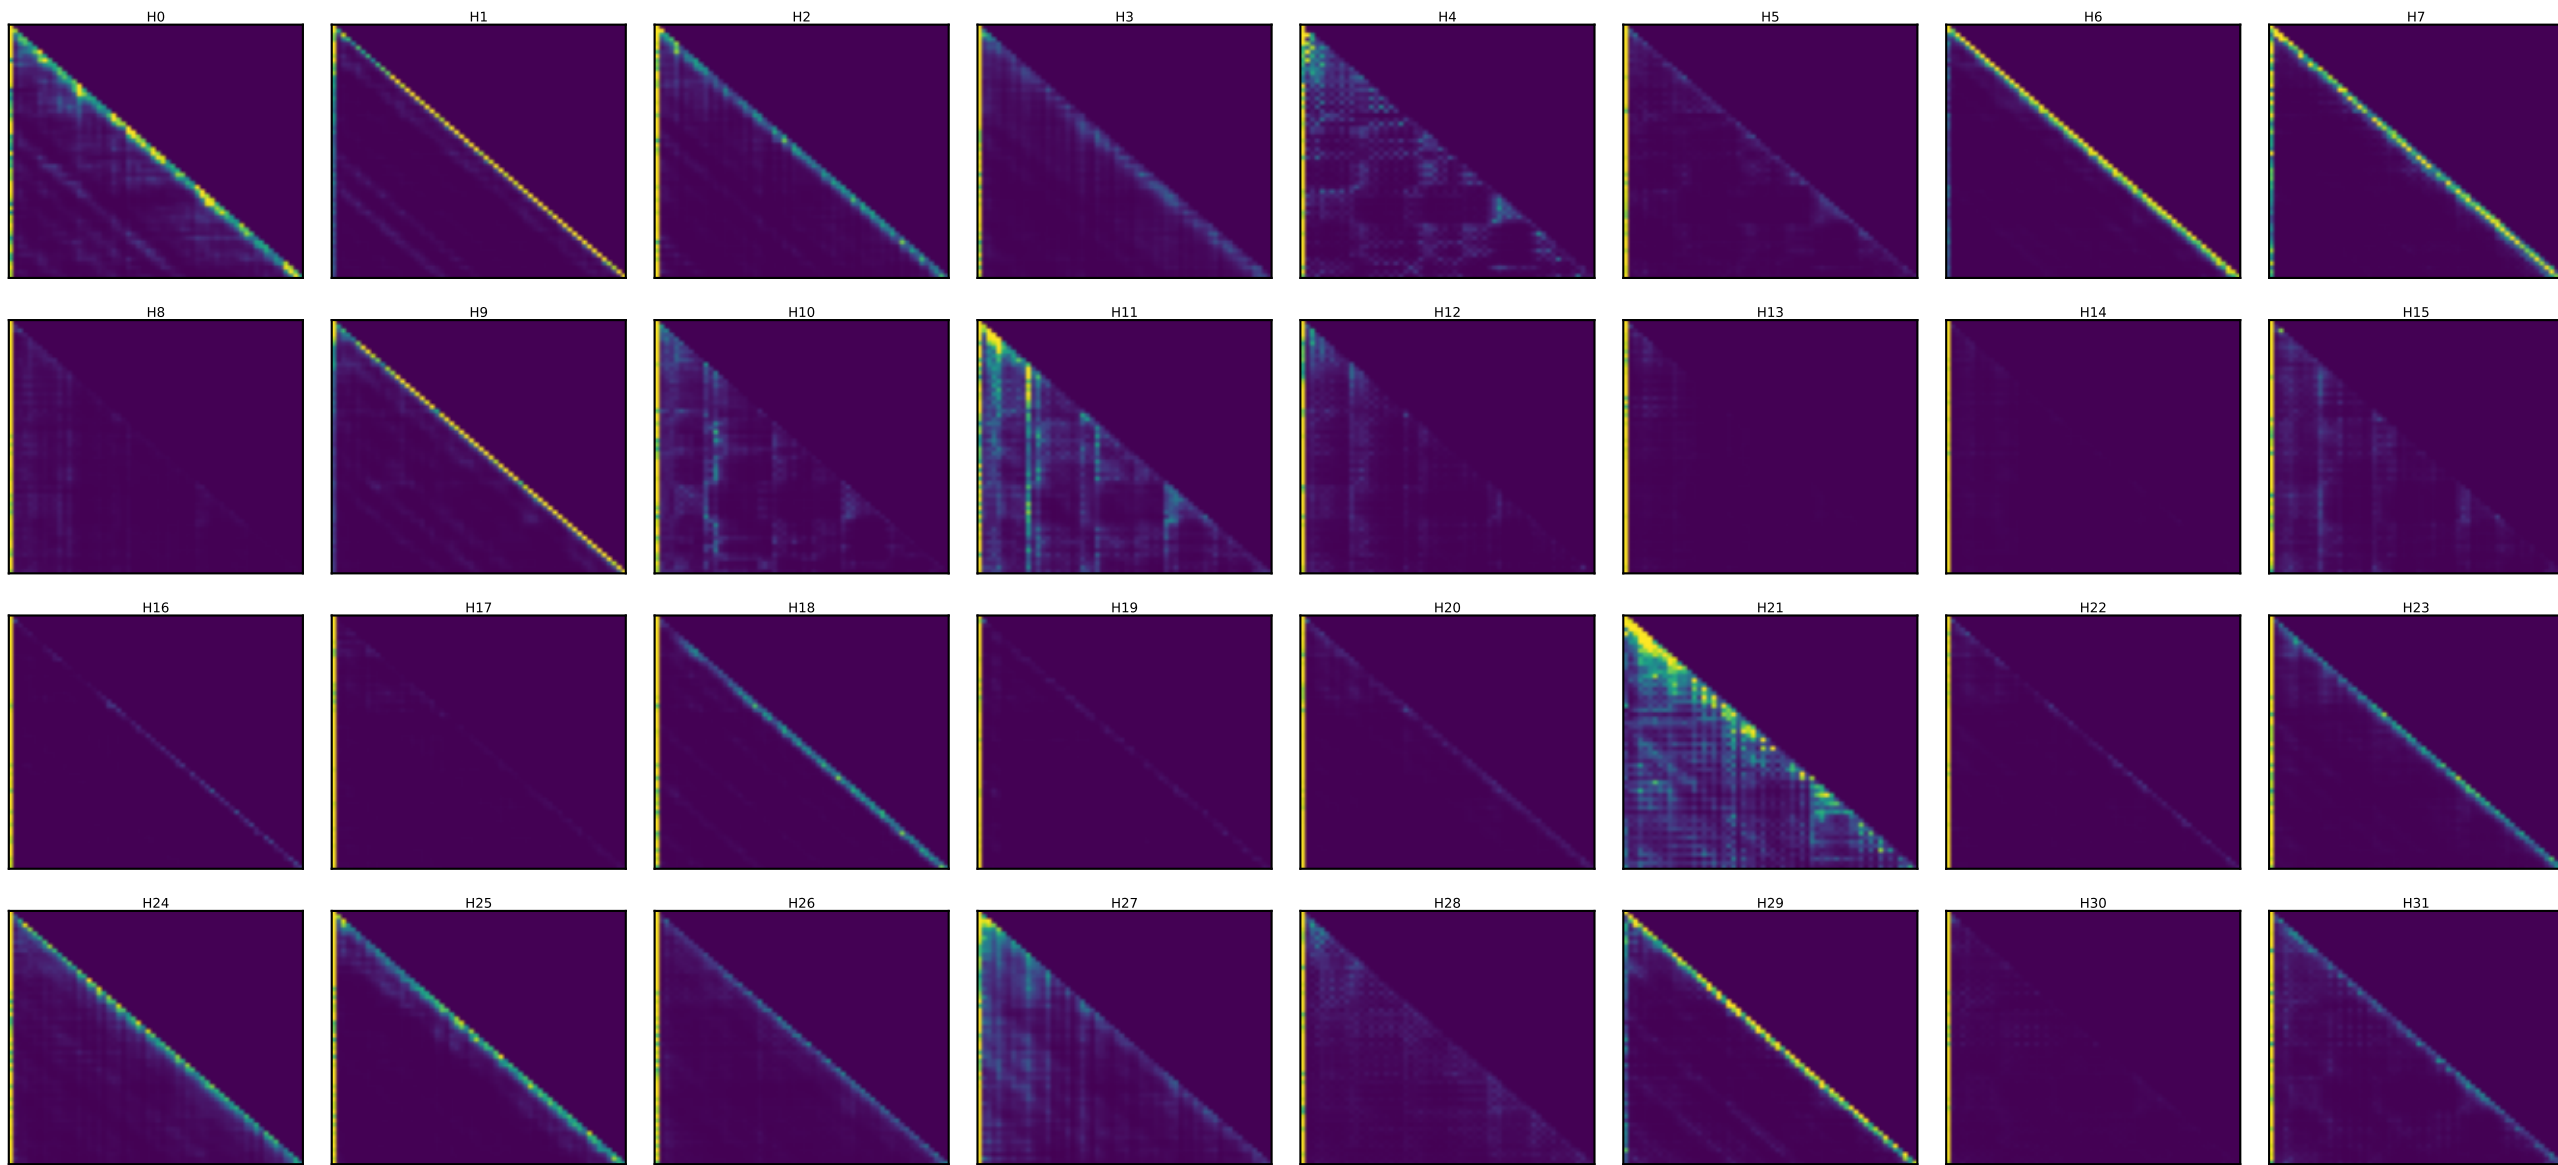

Qwen layer 21 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

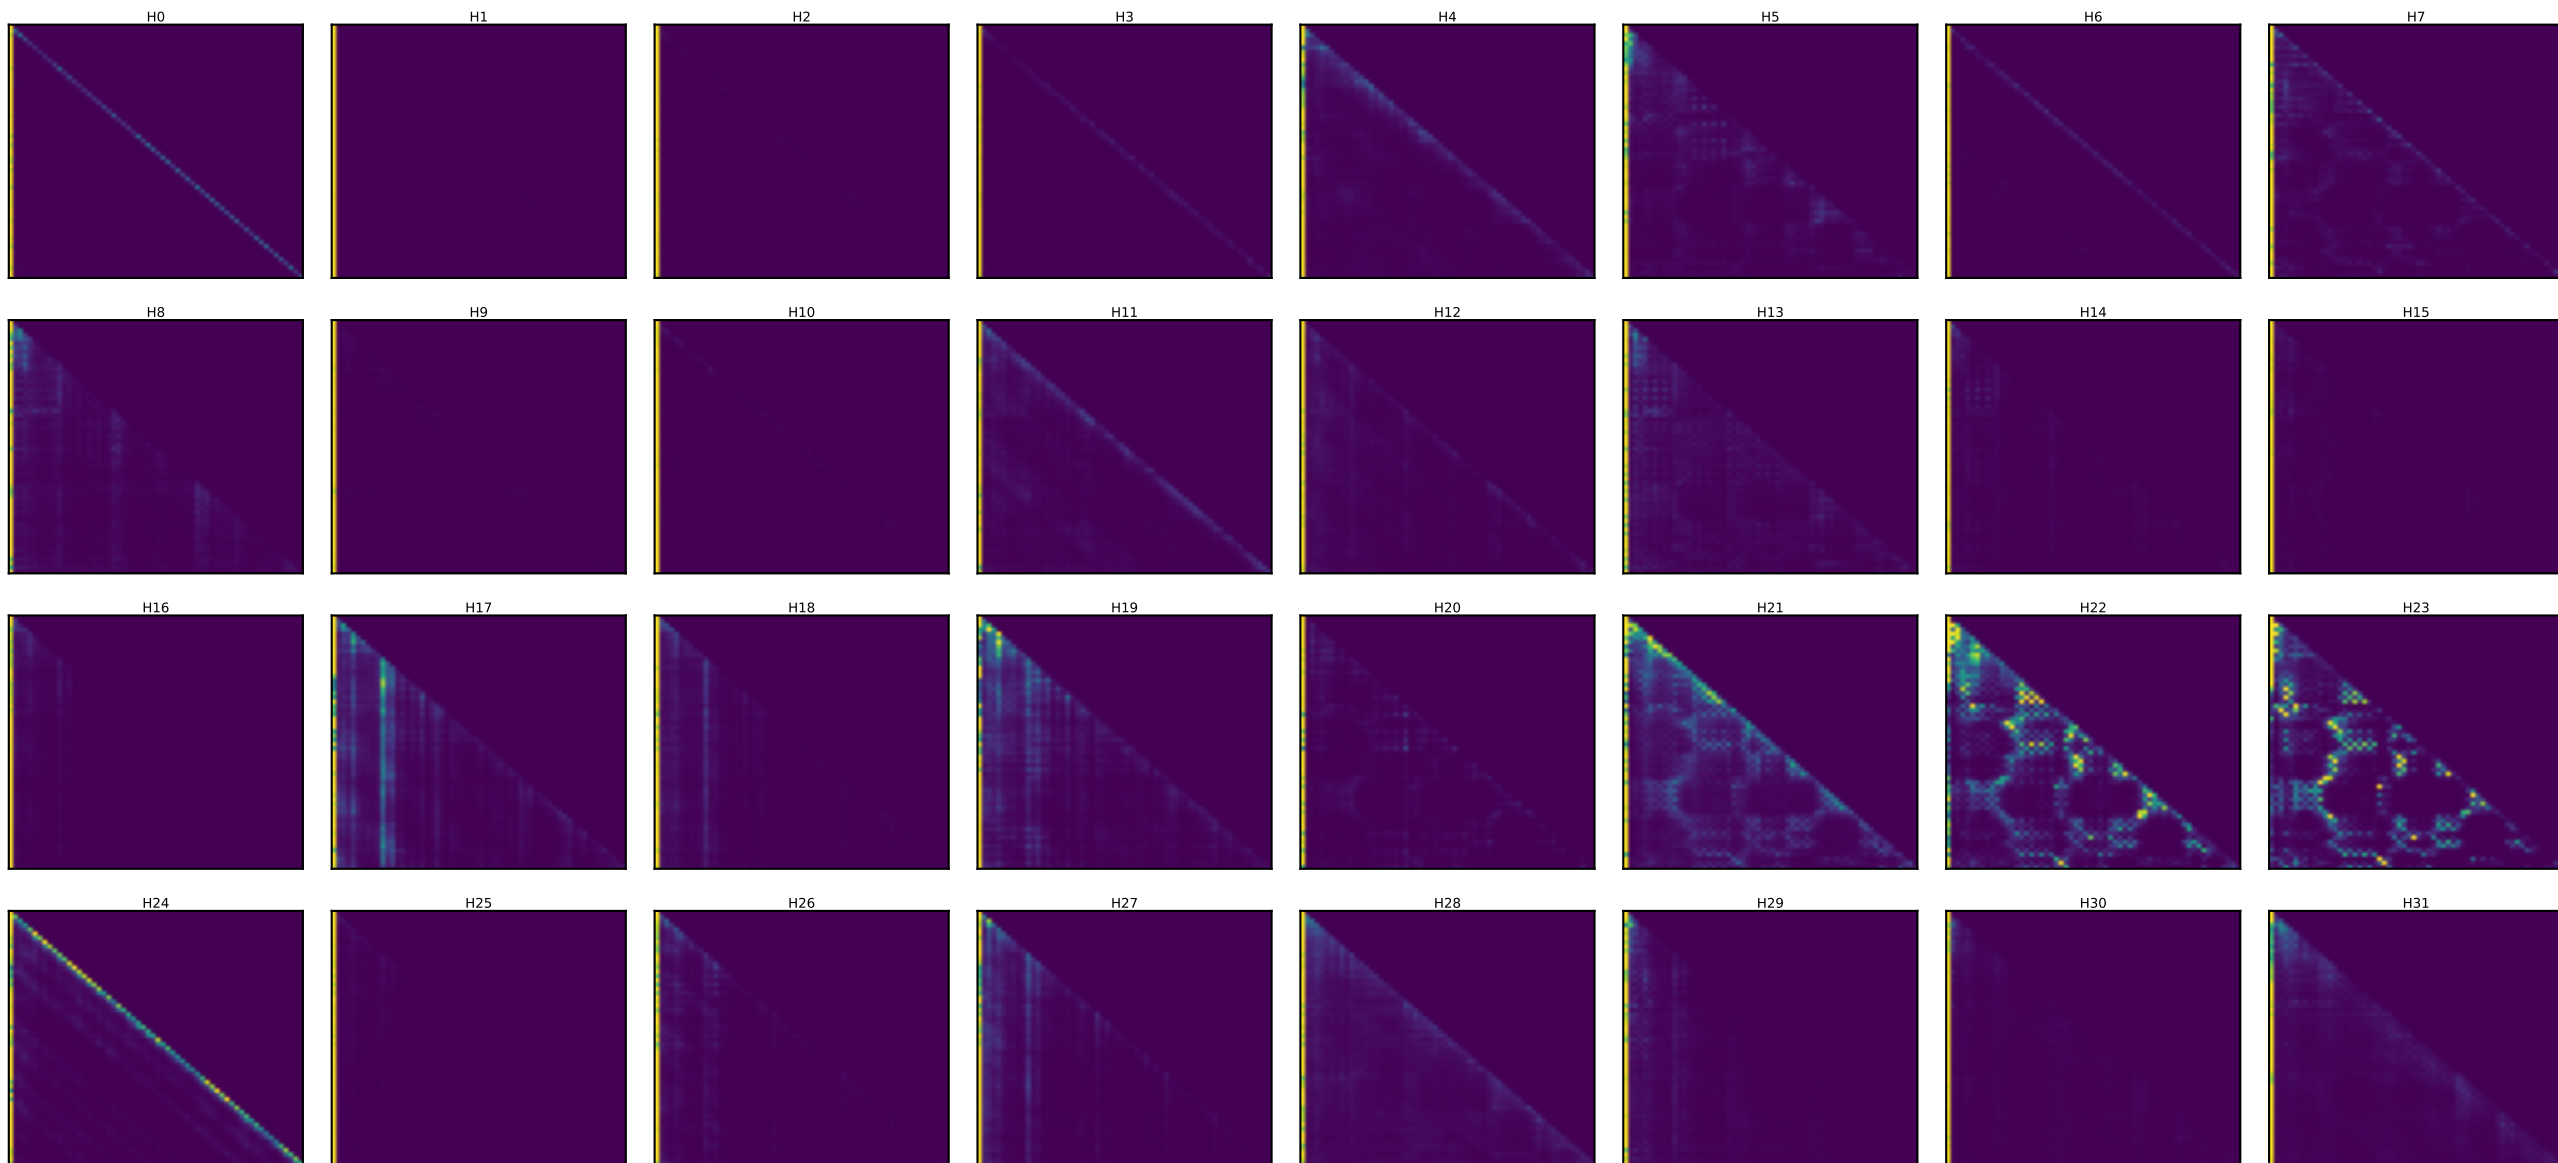

Qwen layer 22 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

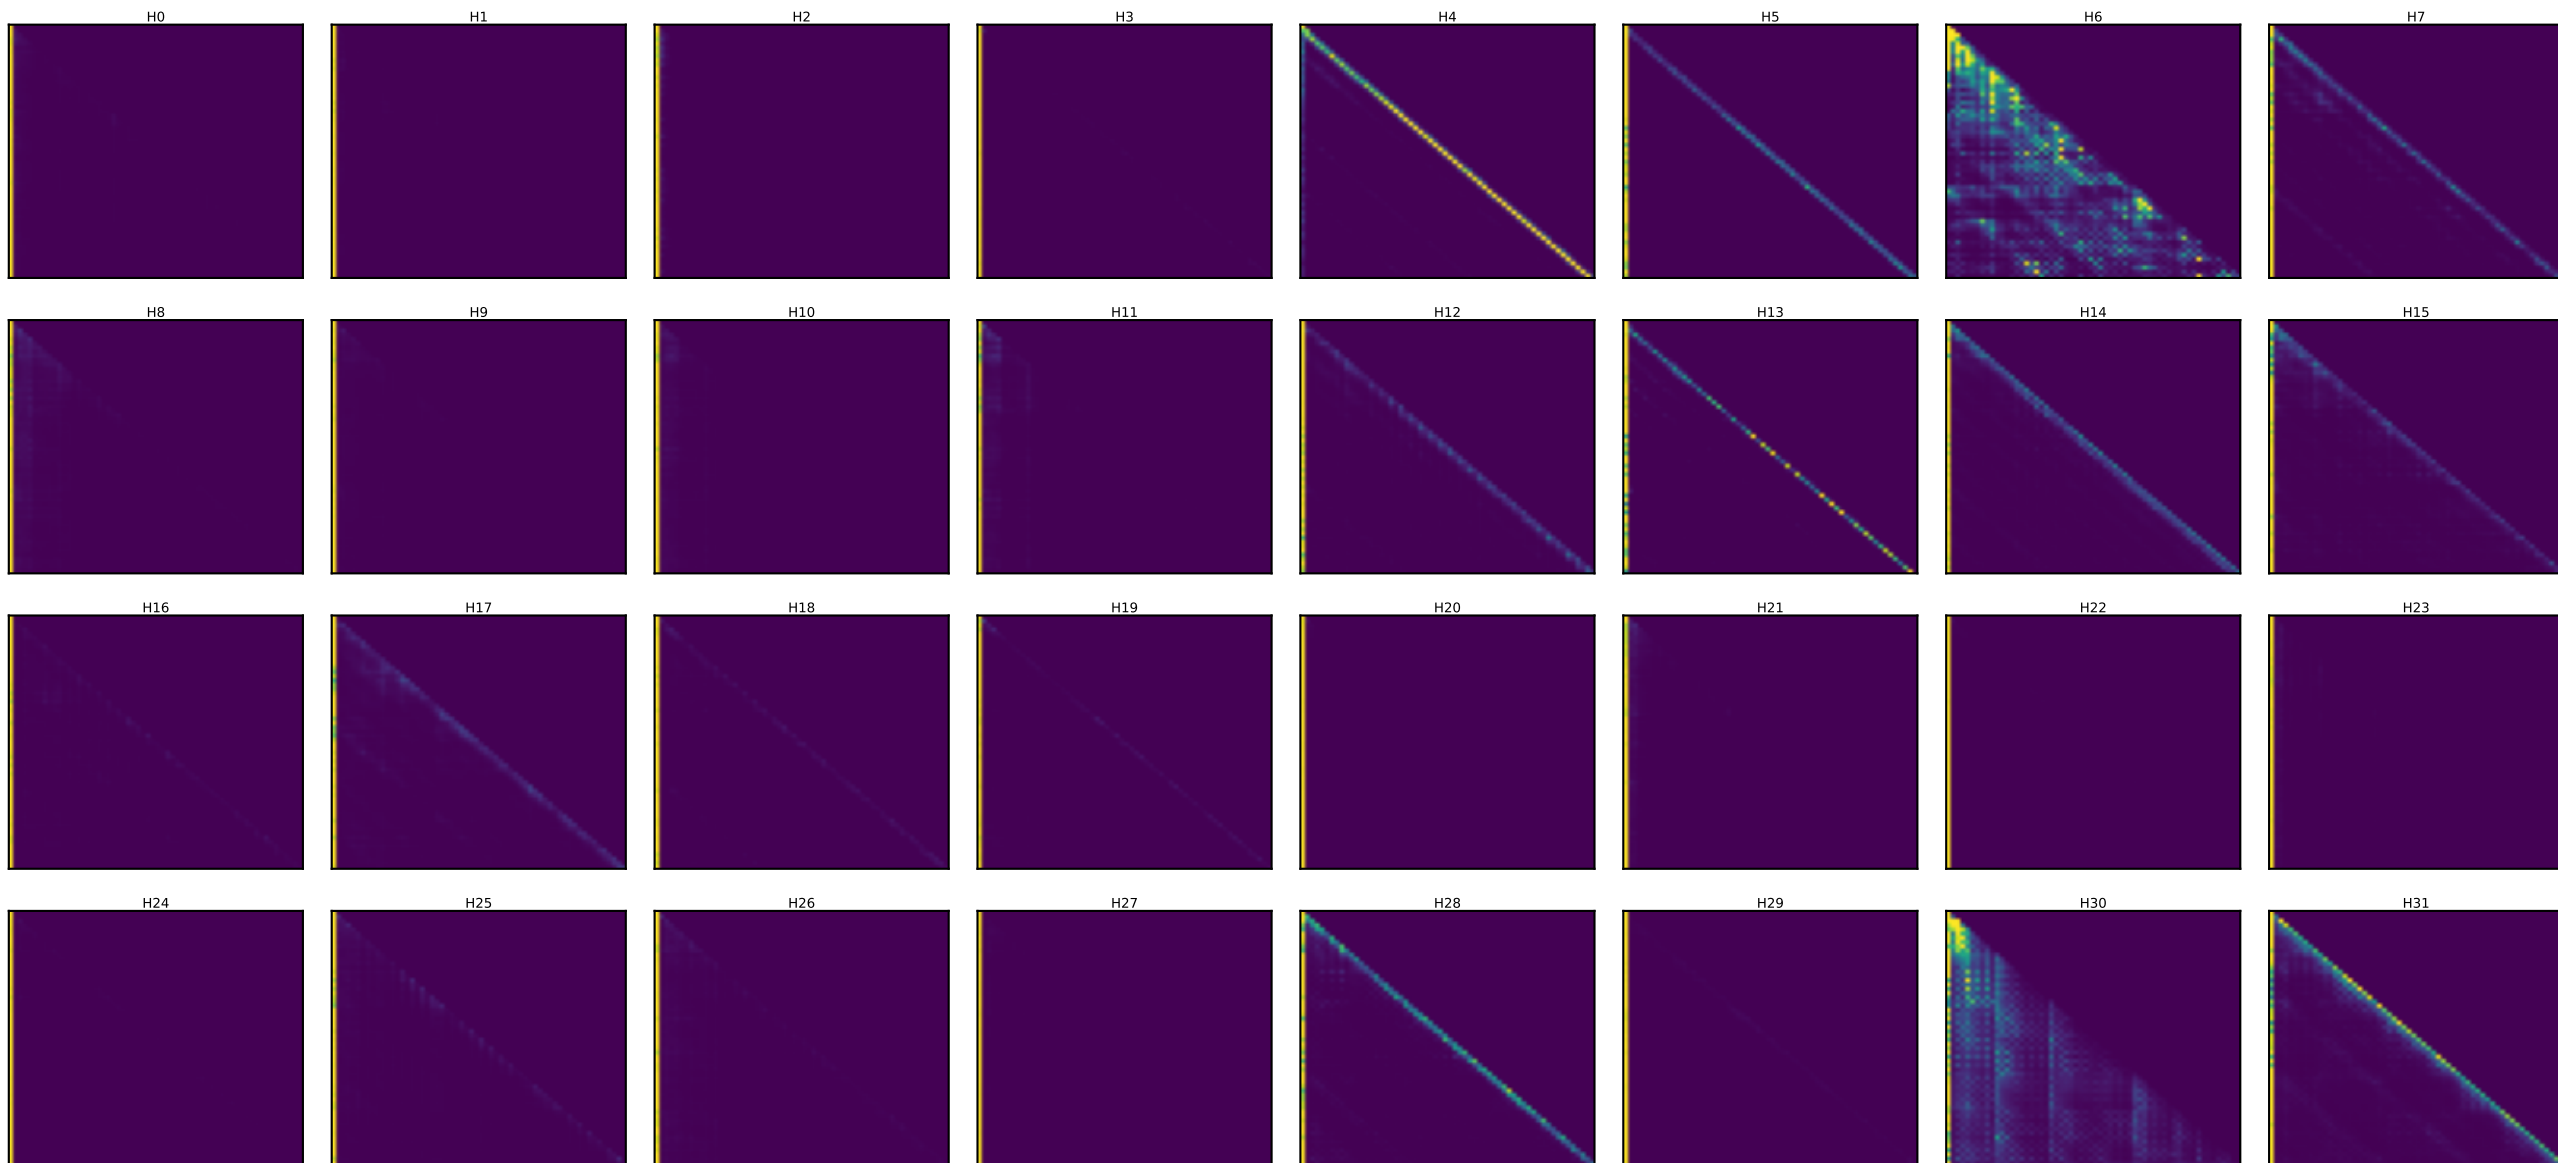

Qwen layer 23 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

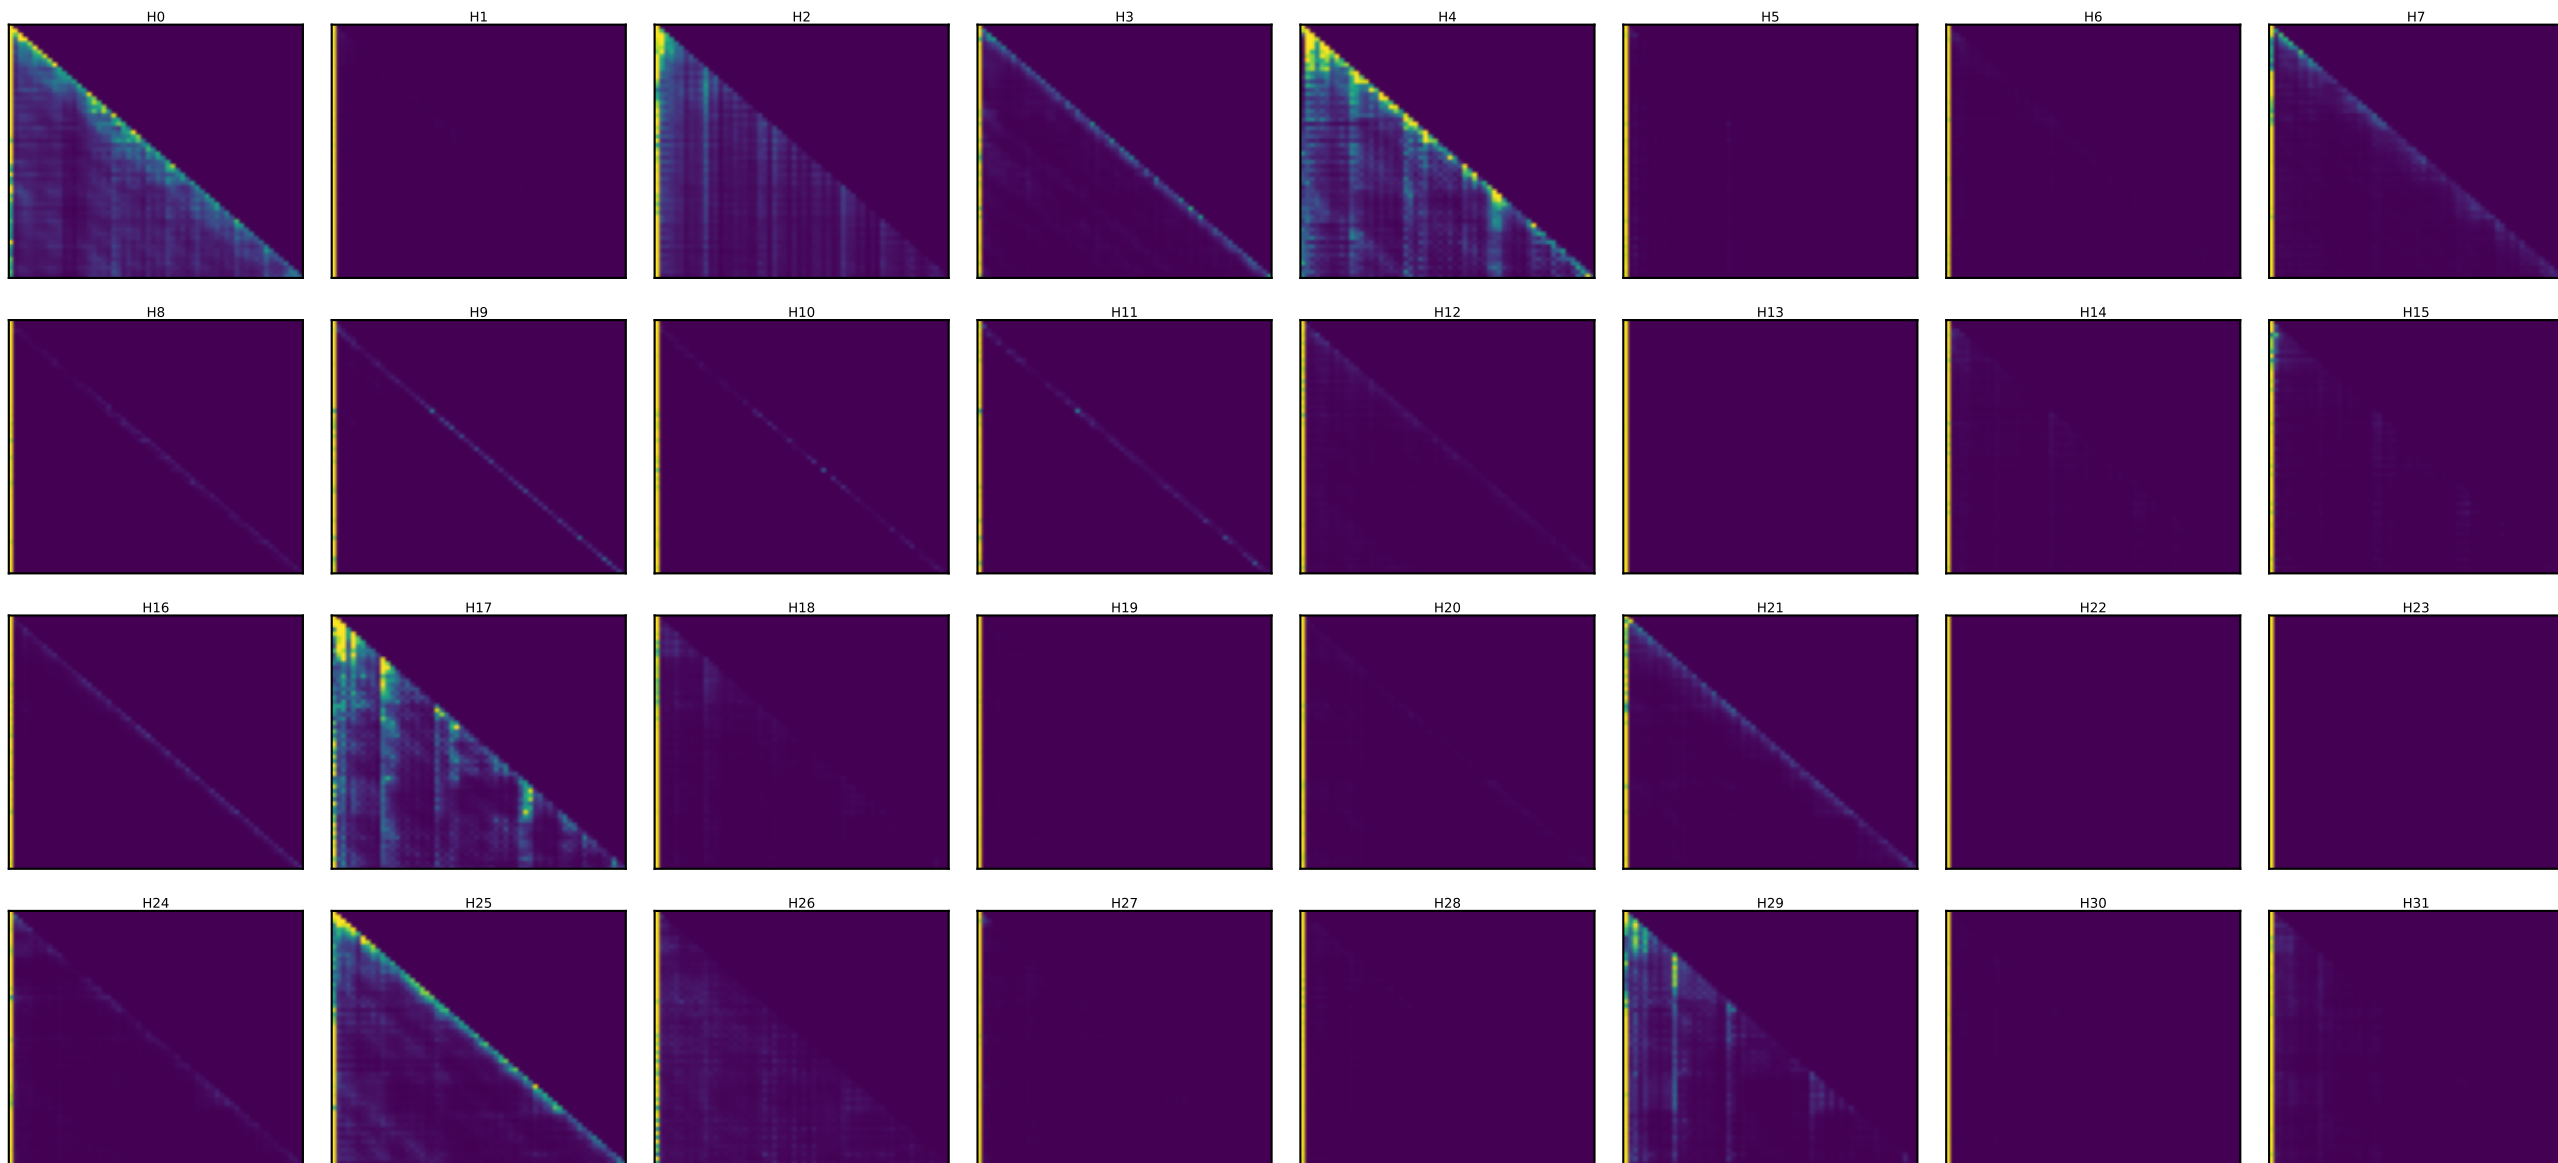

Qwen layer 24 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

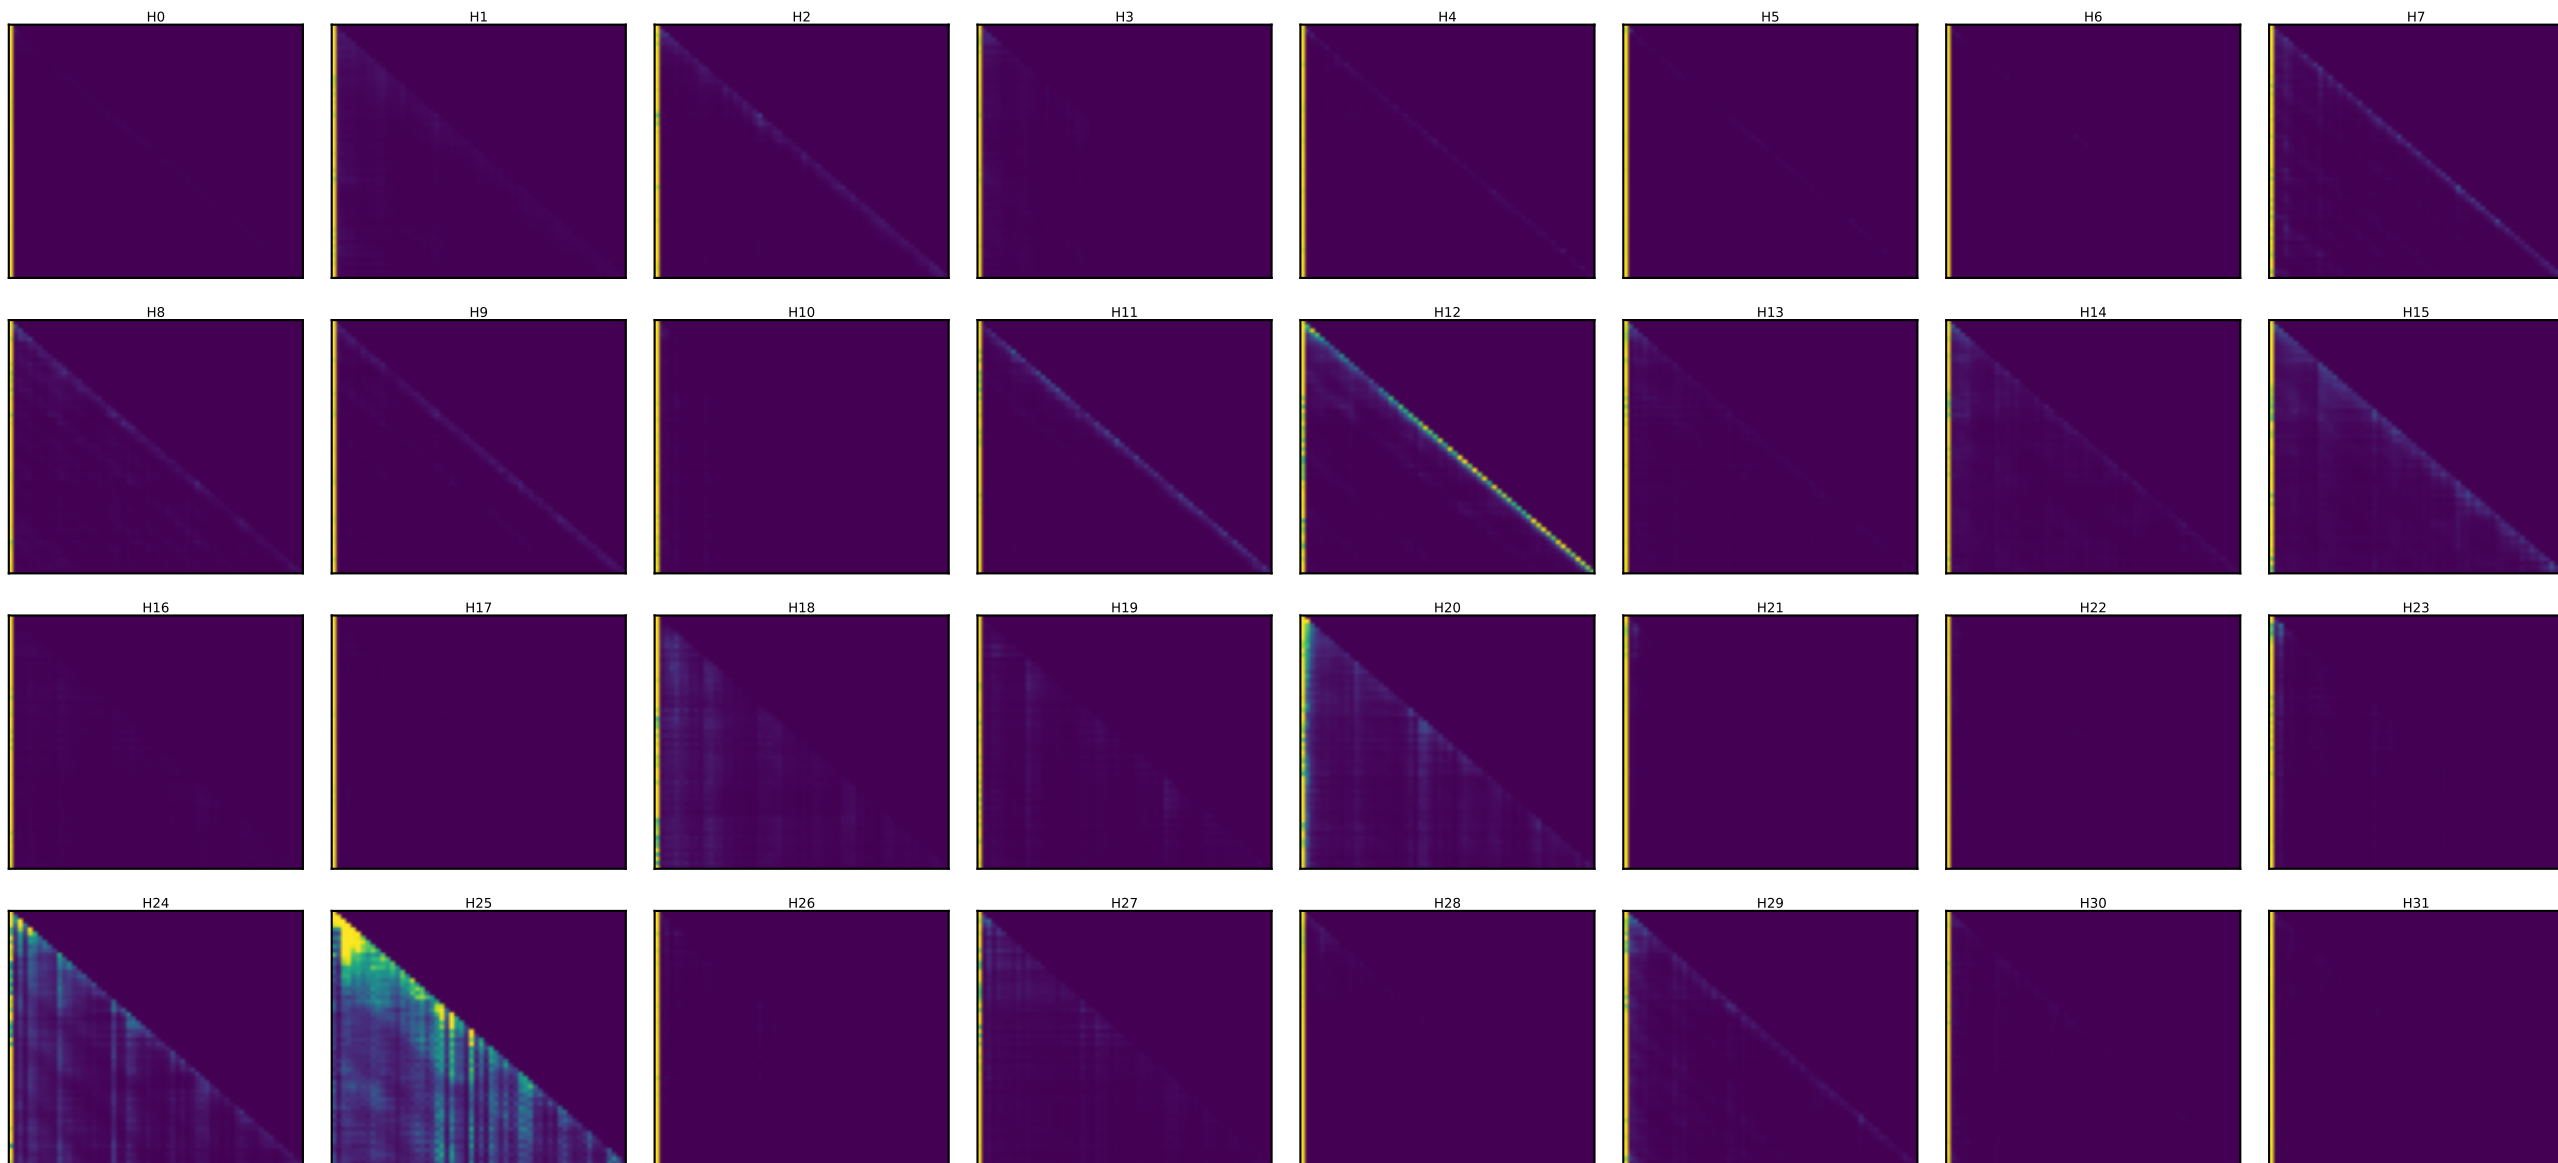

Qwen layer 25 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

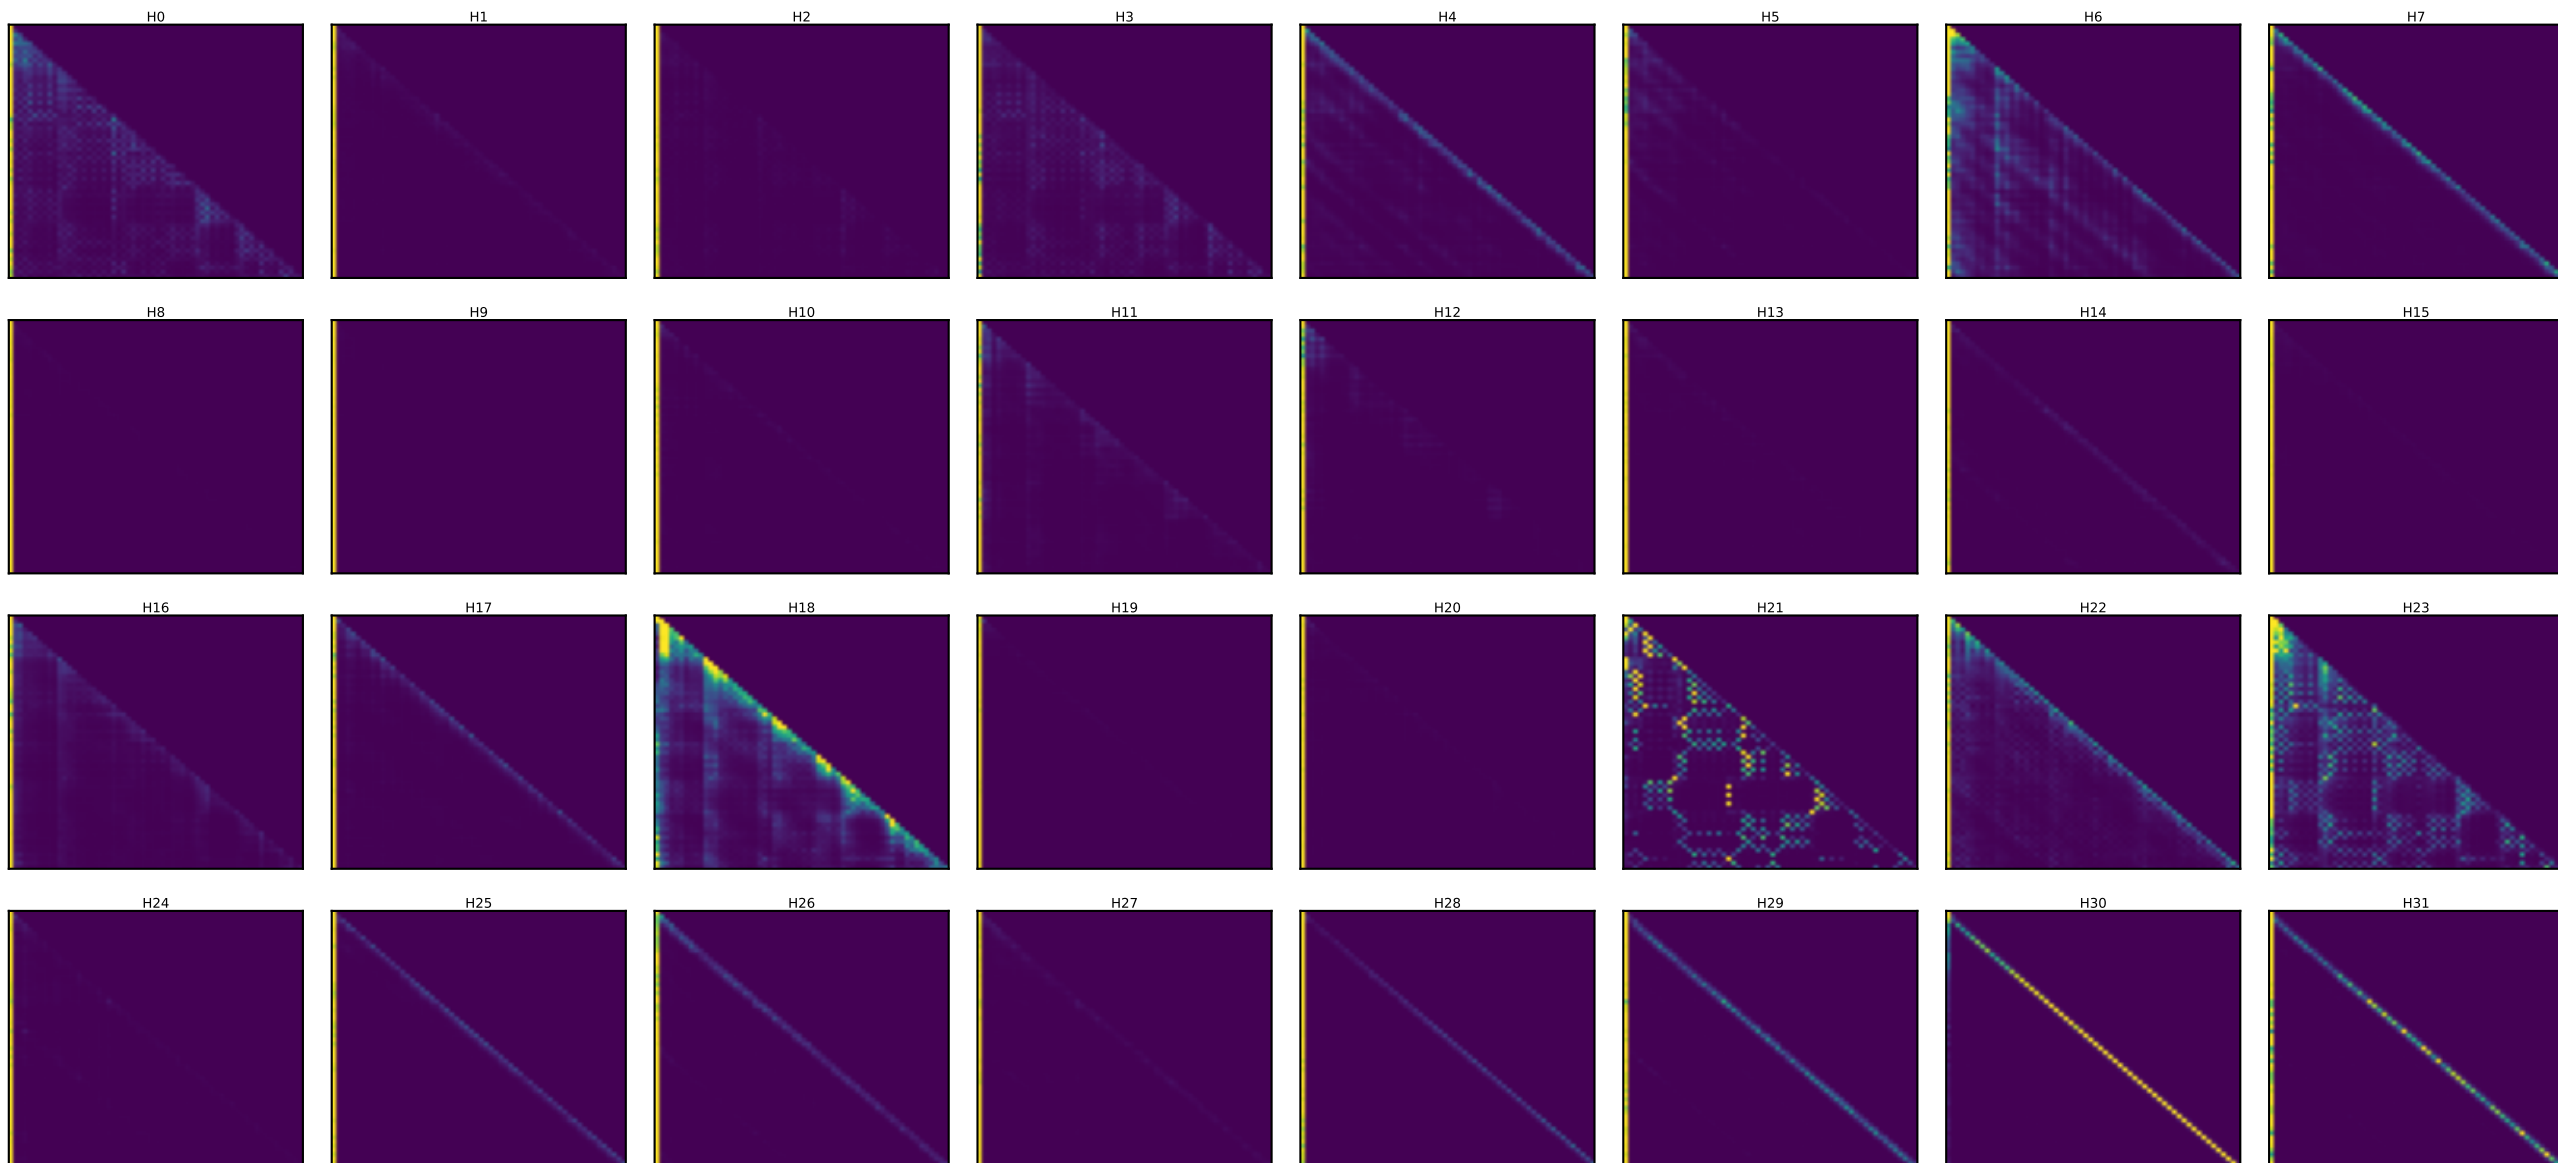

Qwen layer 26 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

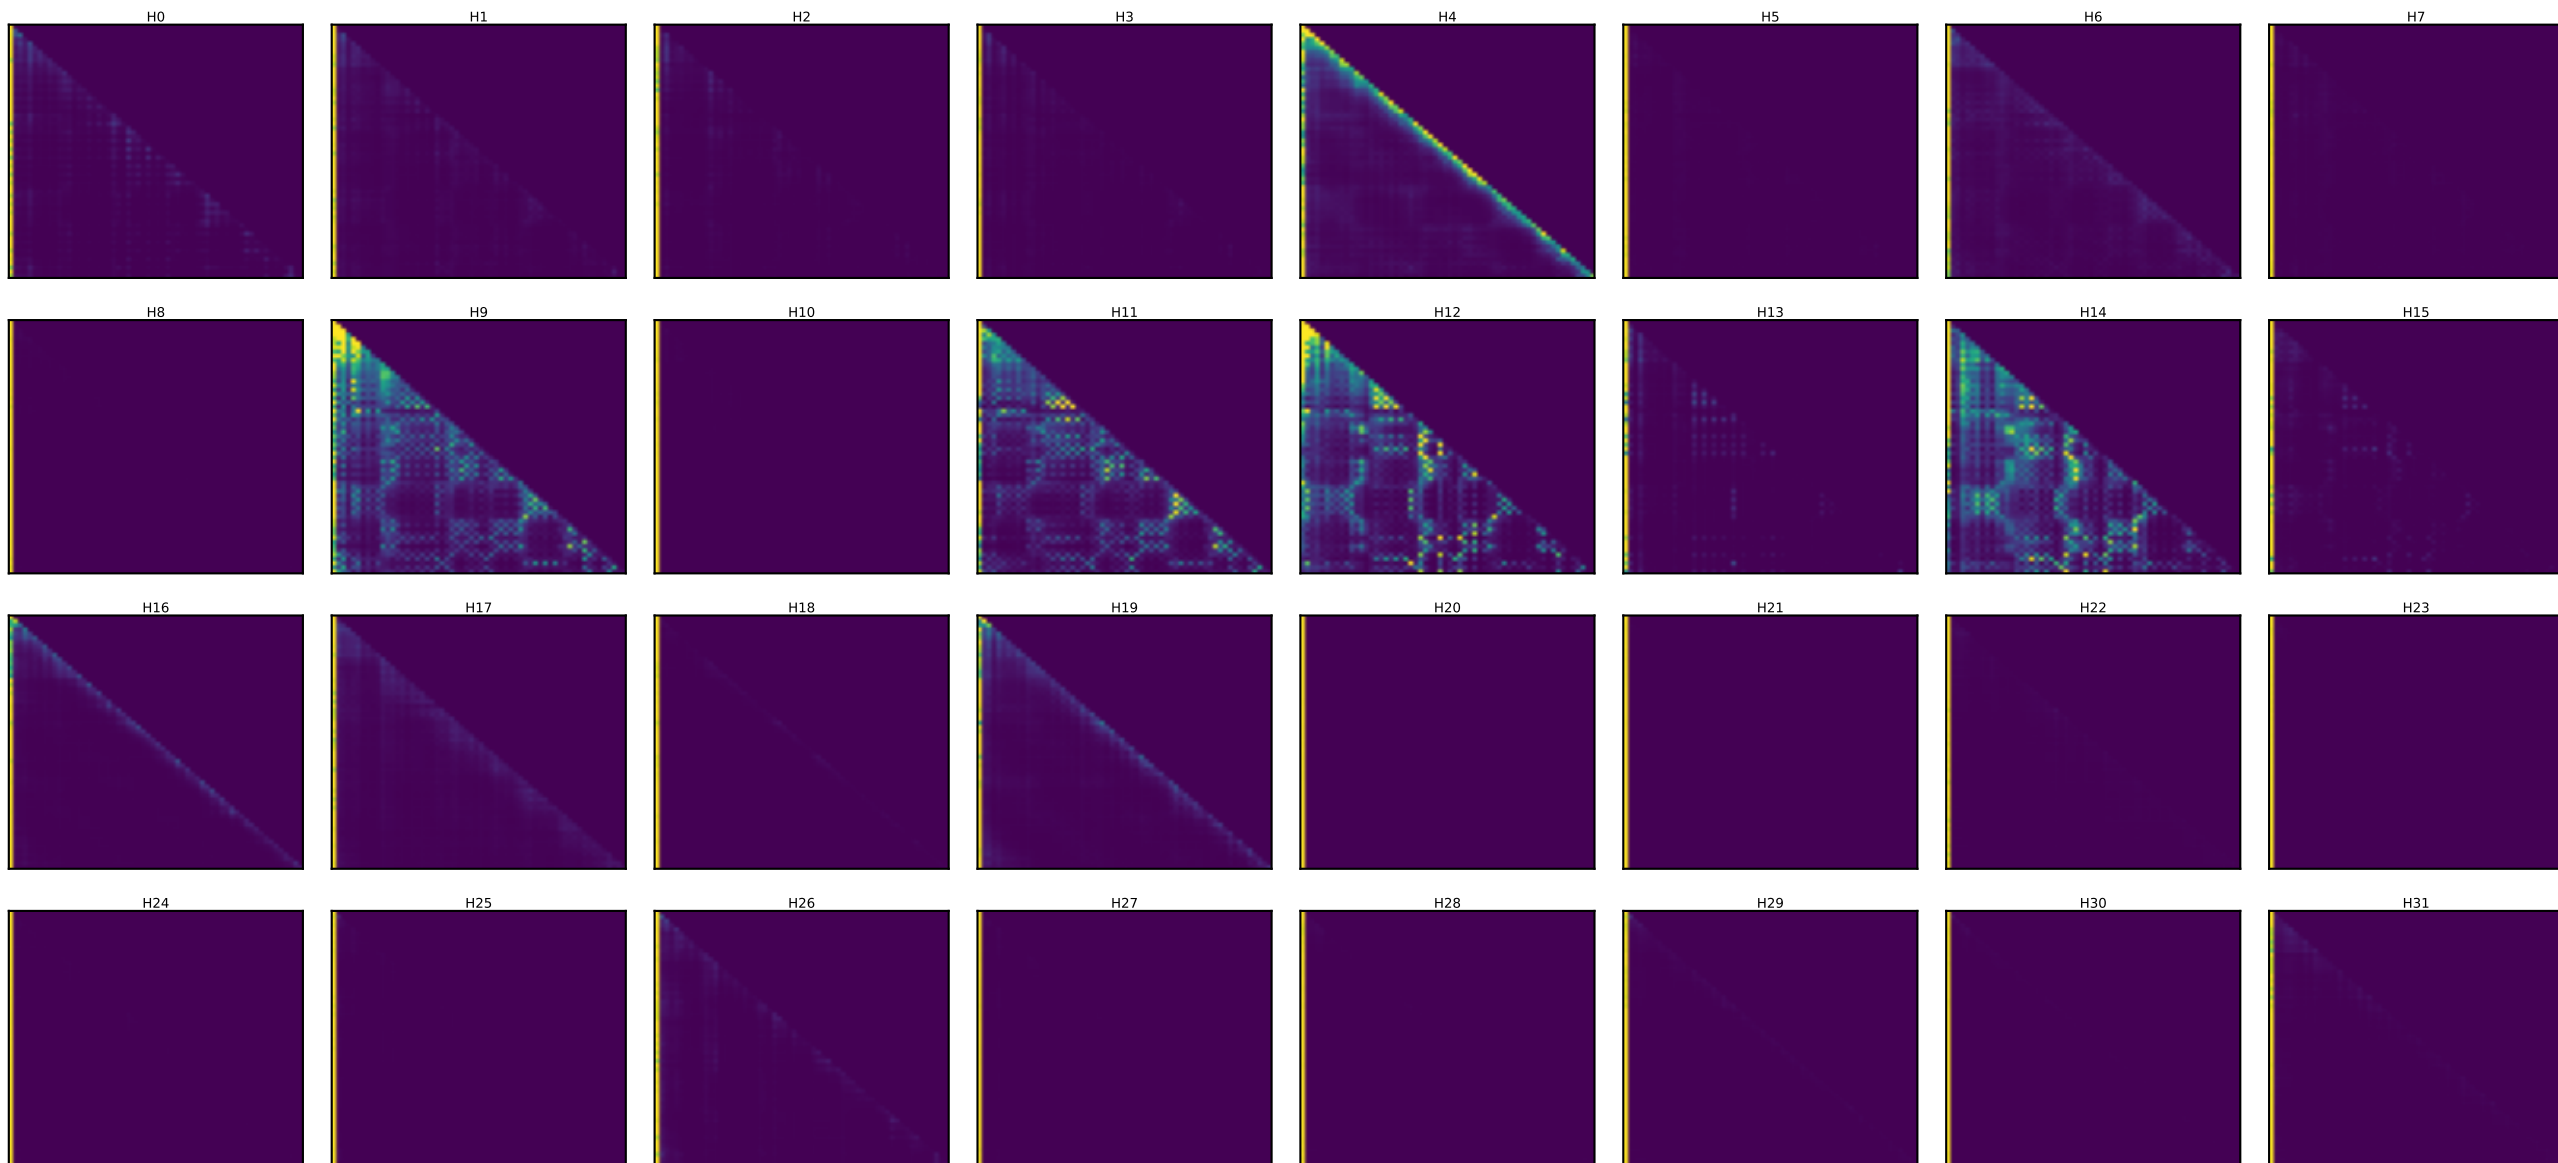

Qwen layer 27 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

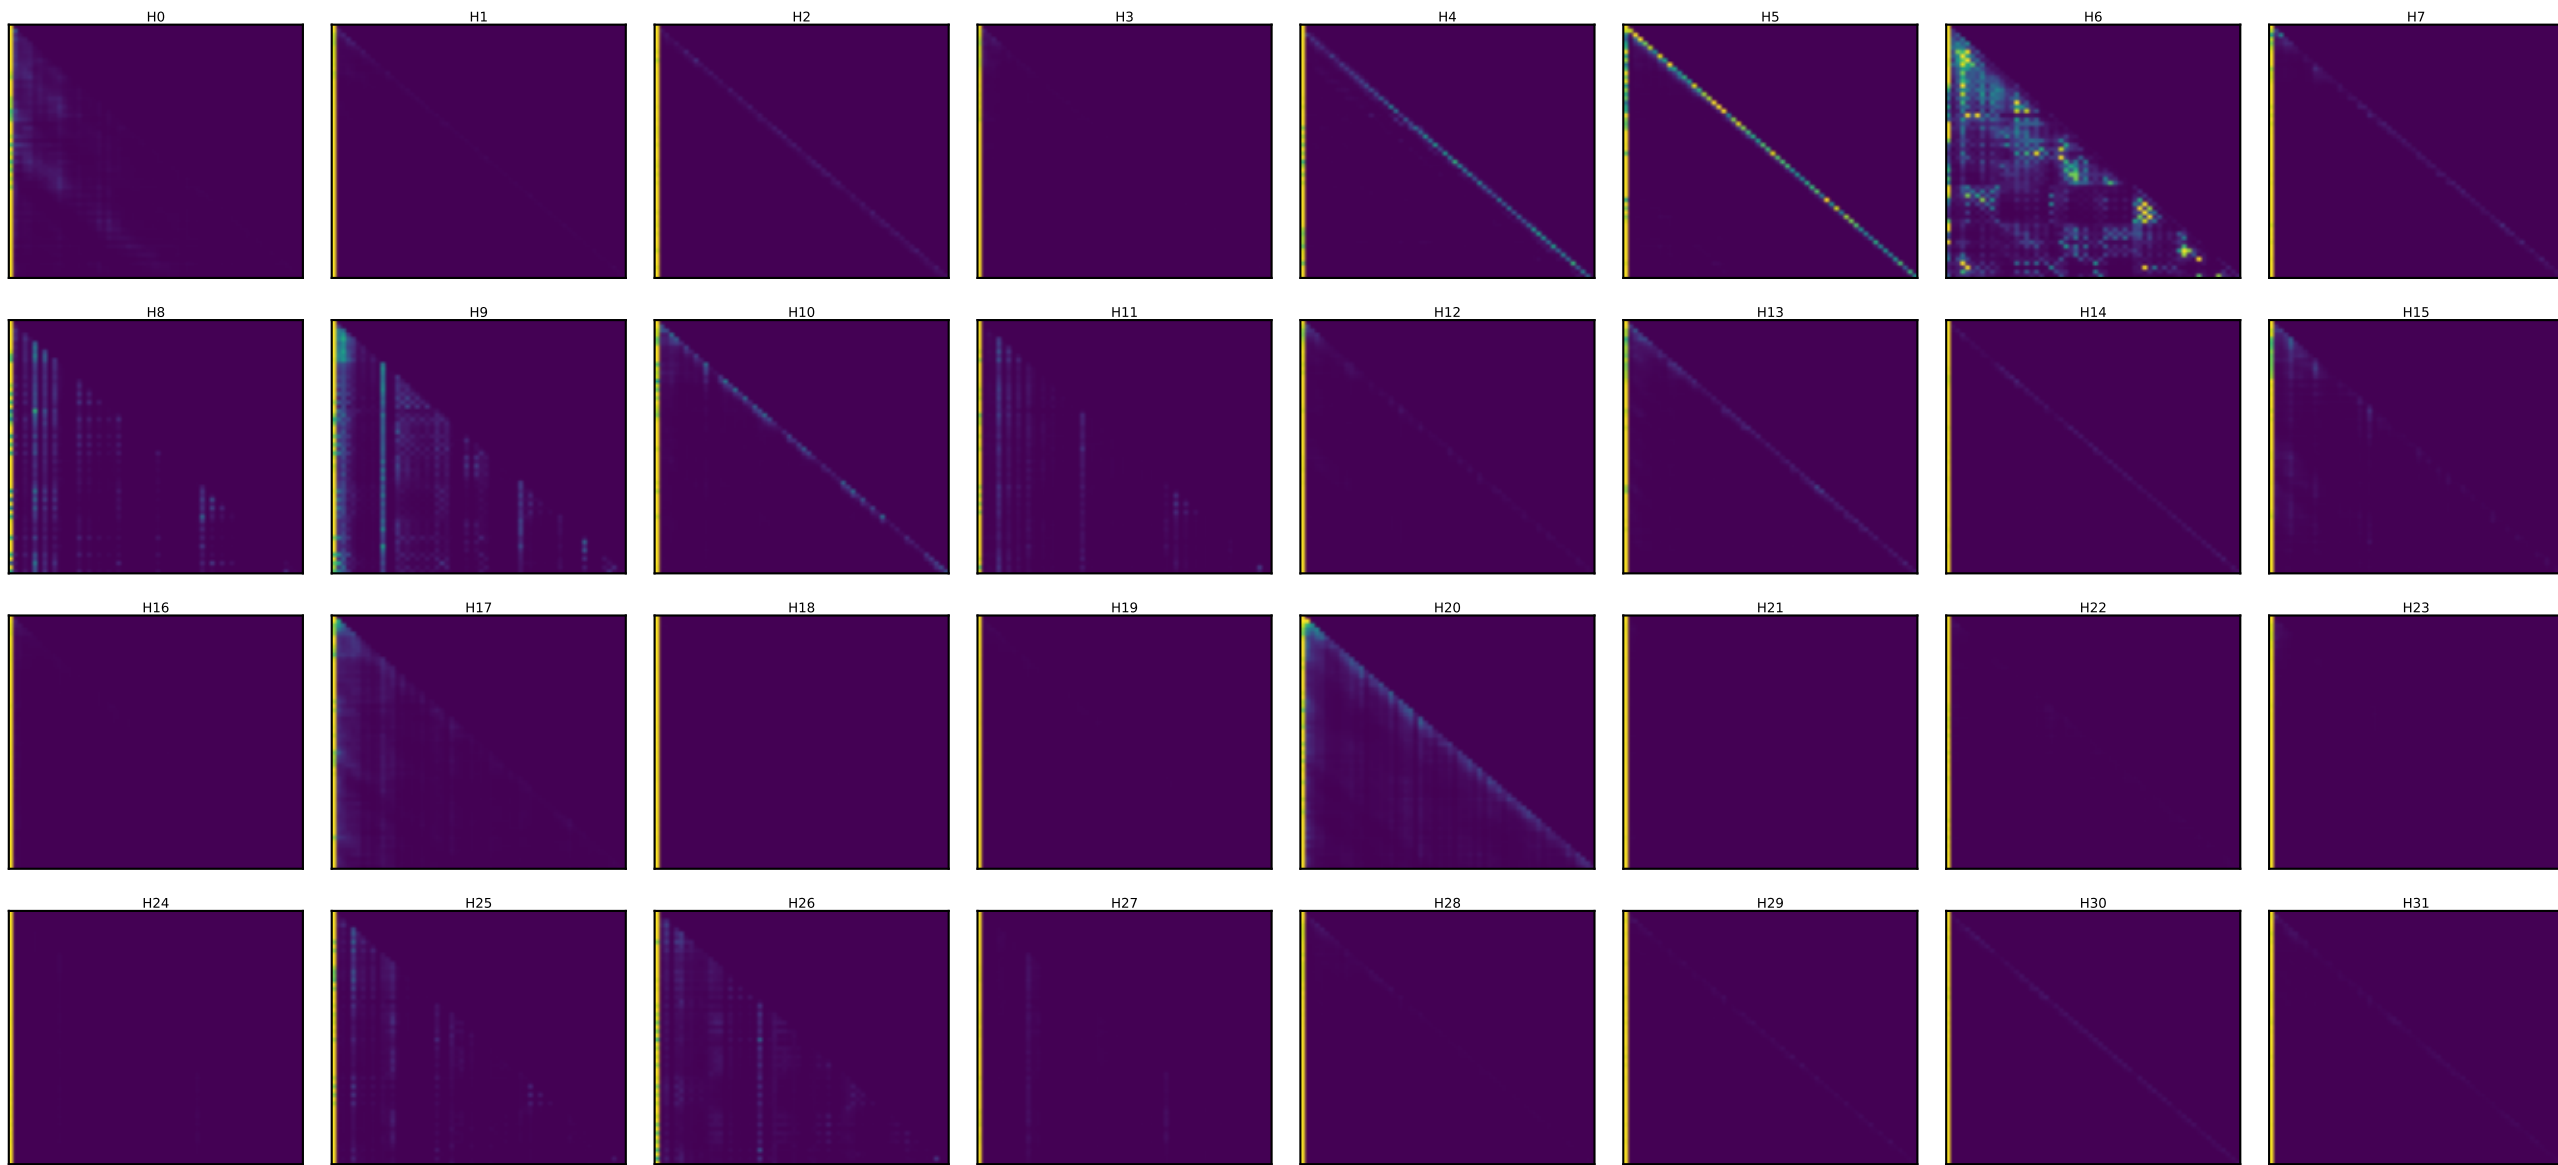

Qwen layer 28 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

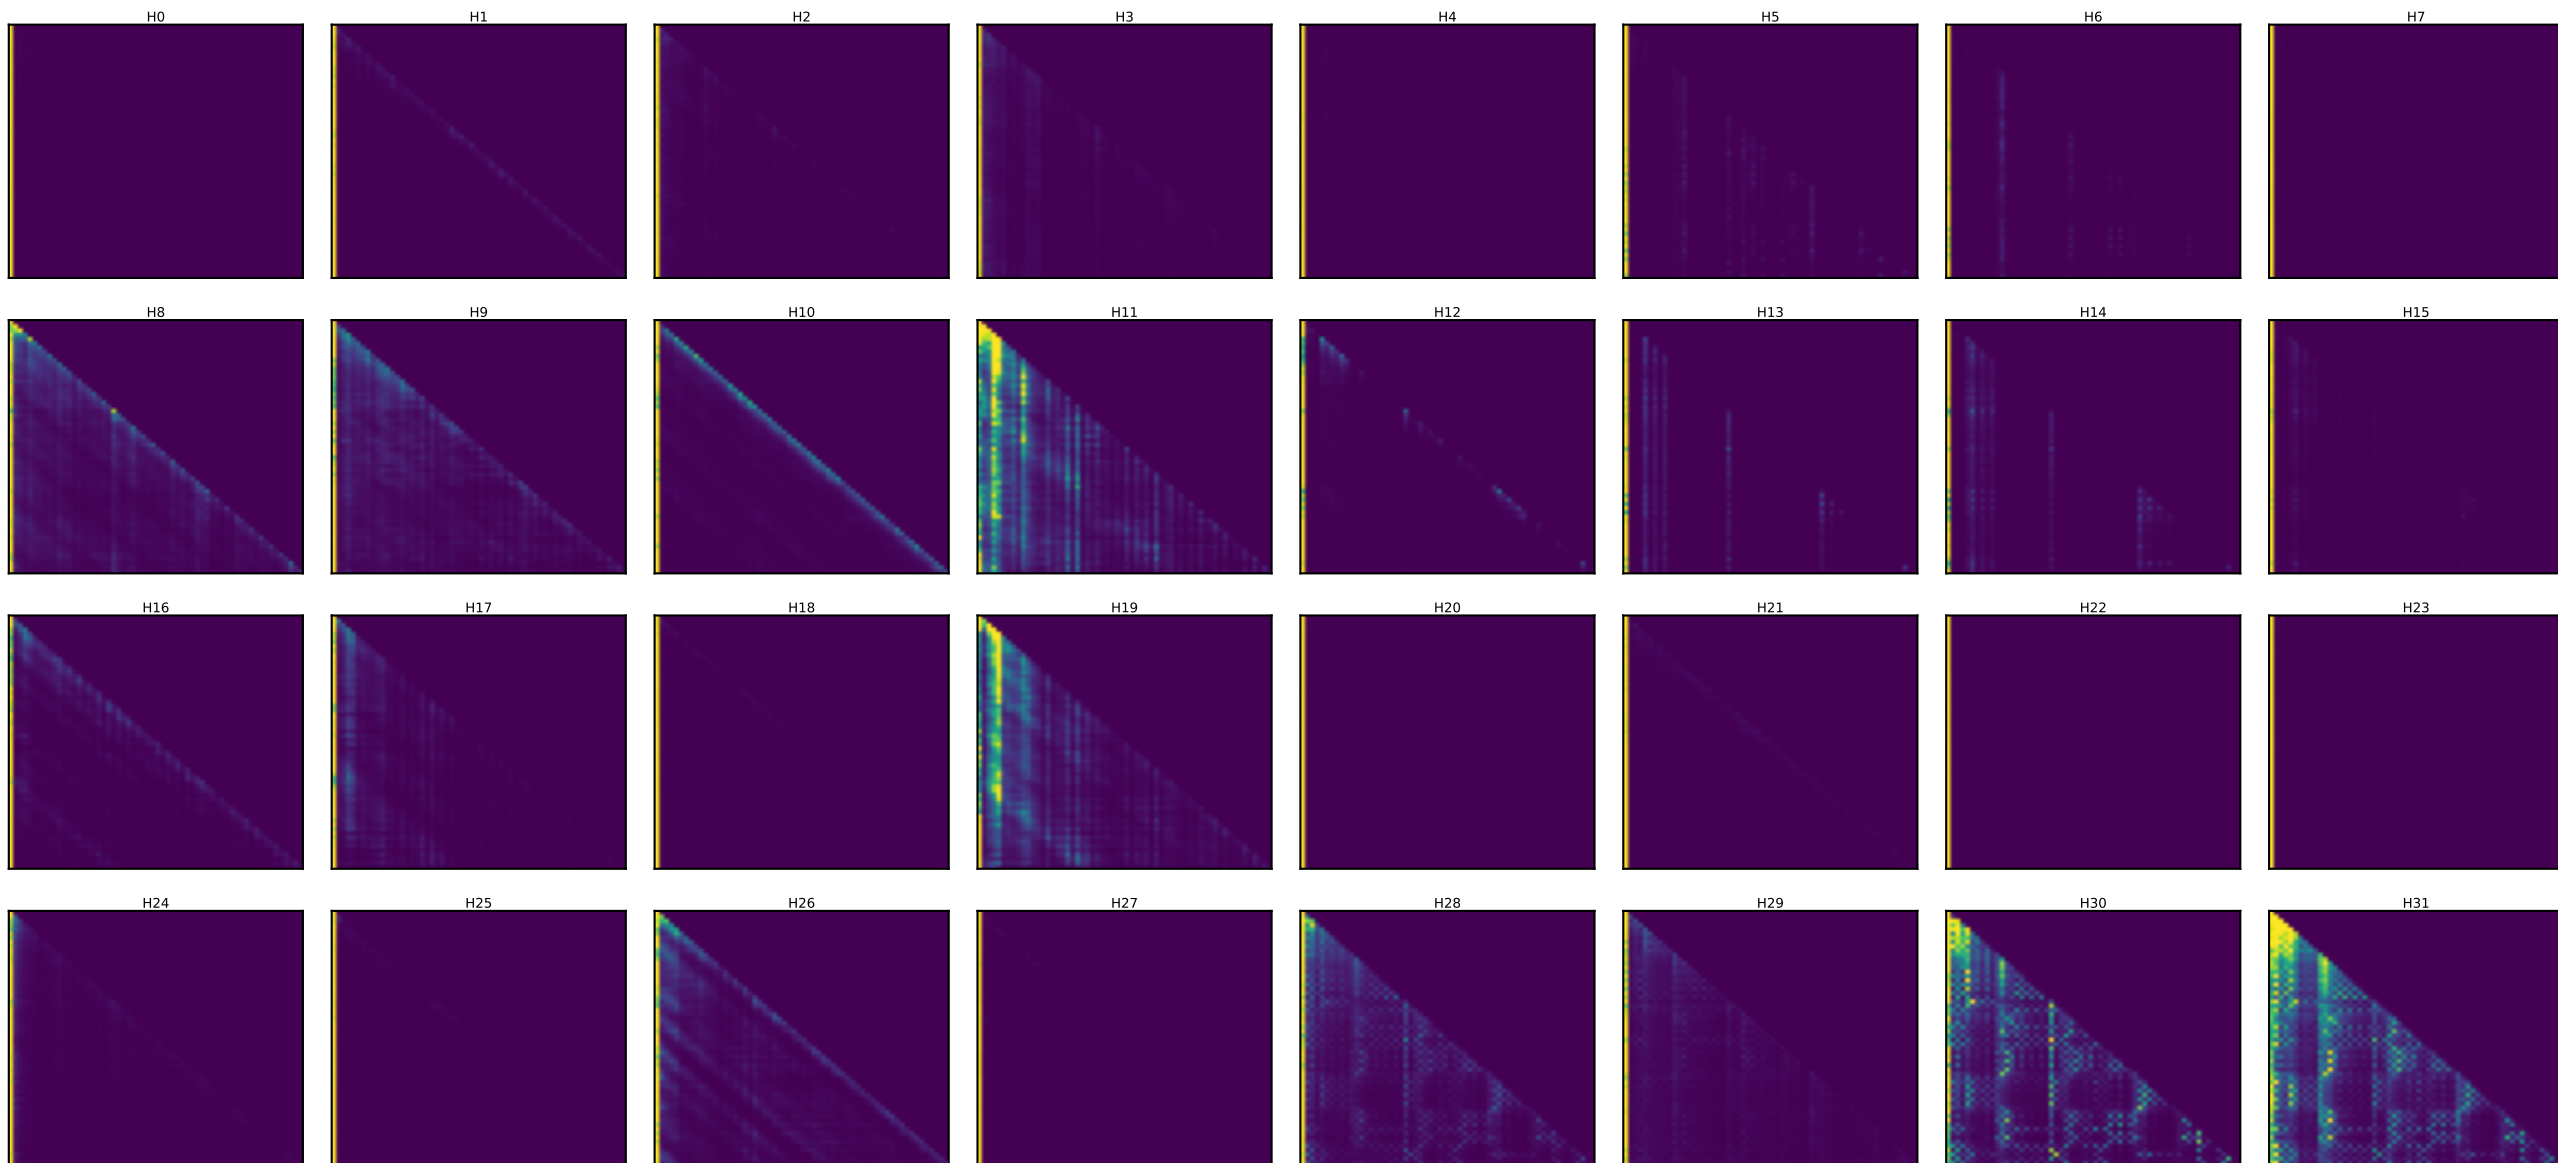

Qwen layer 29 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

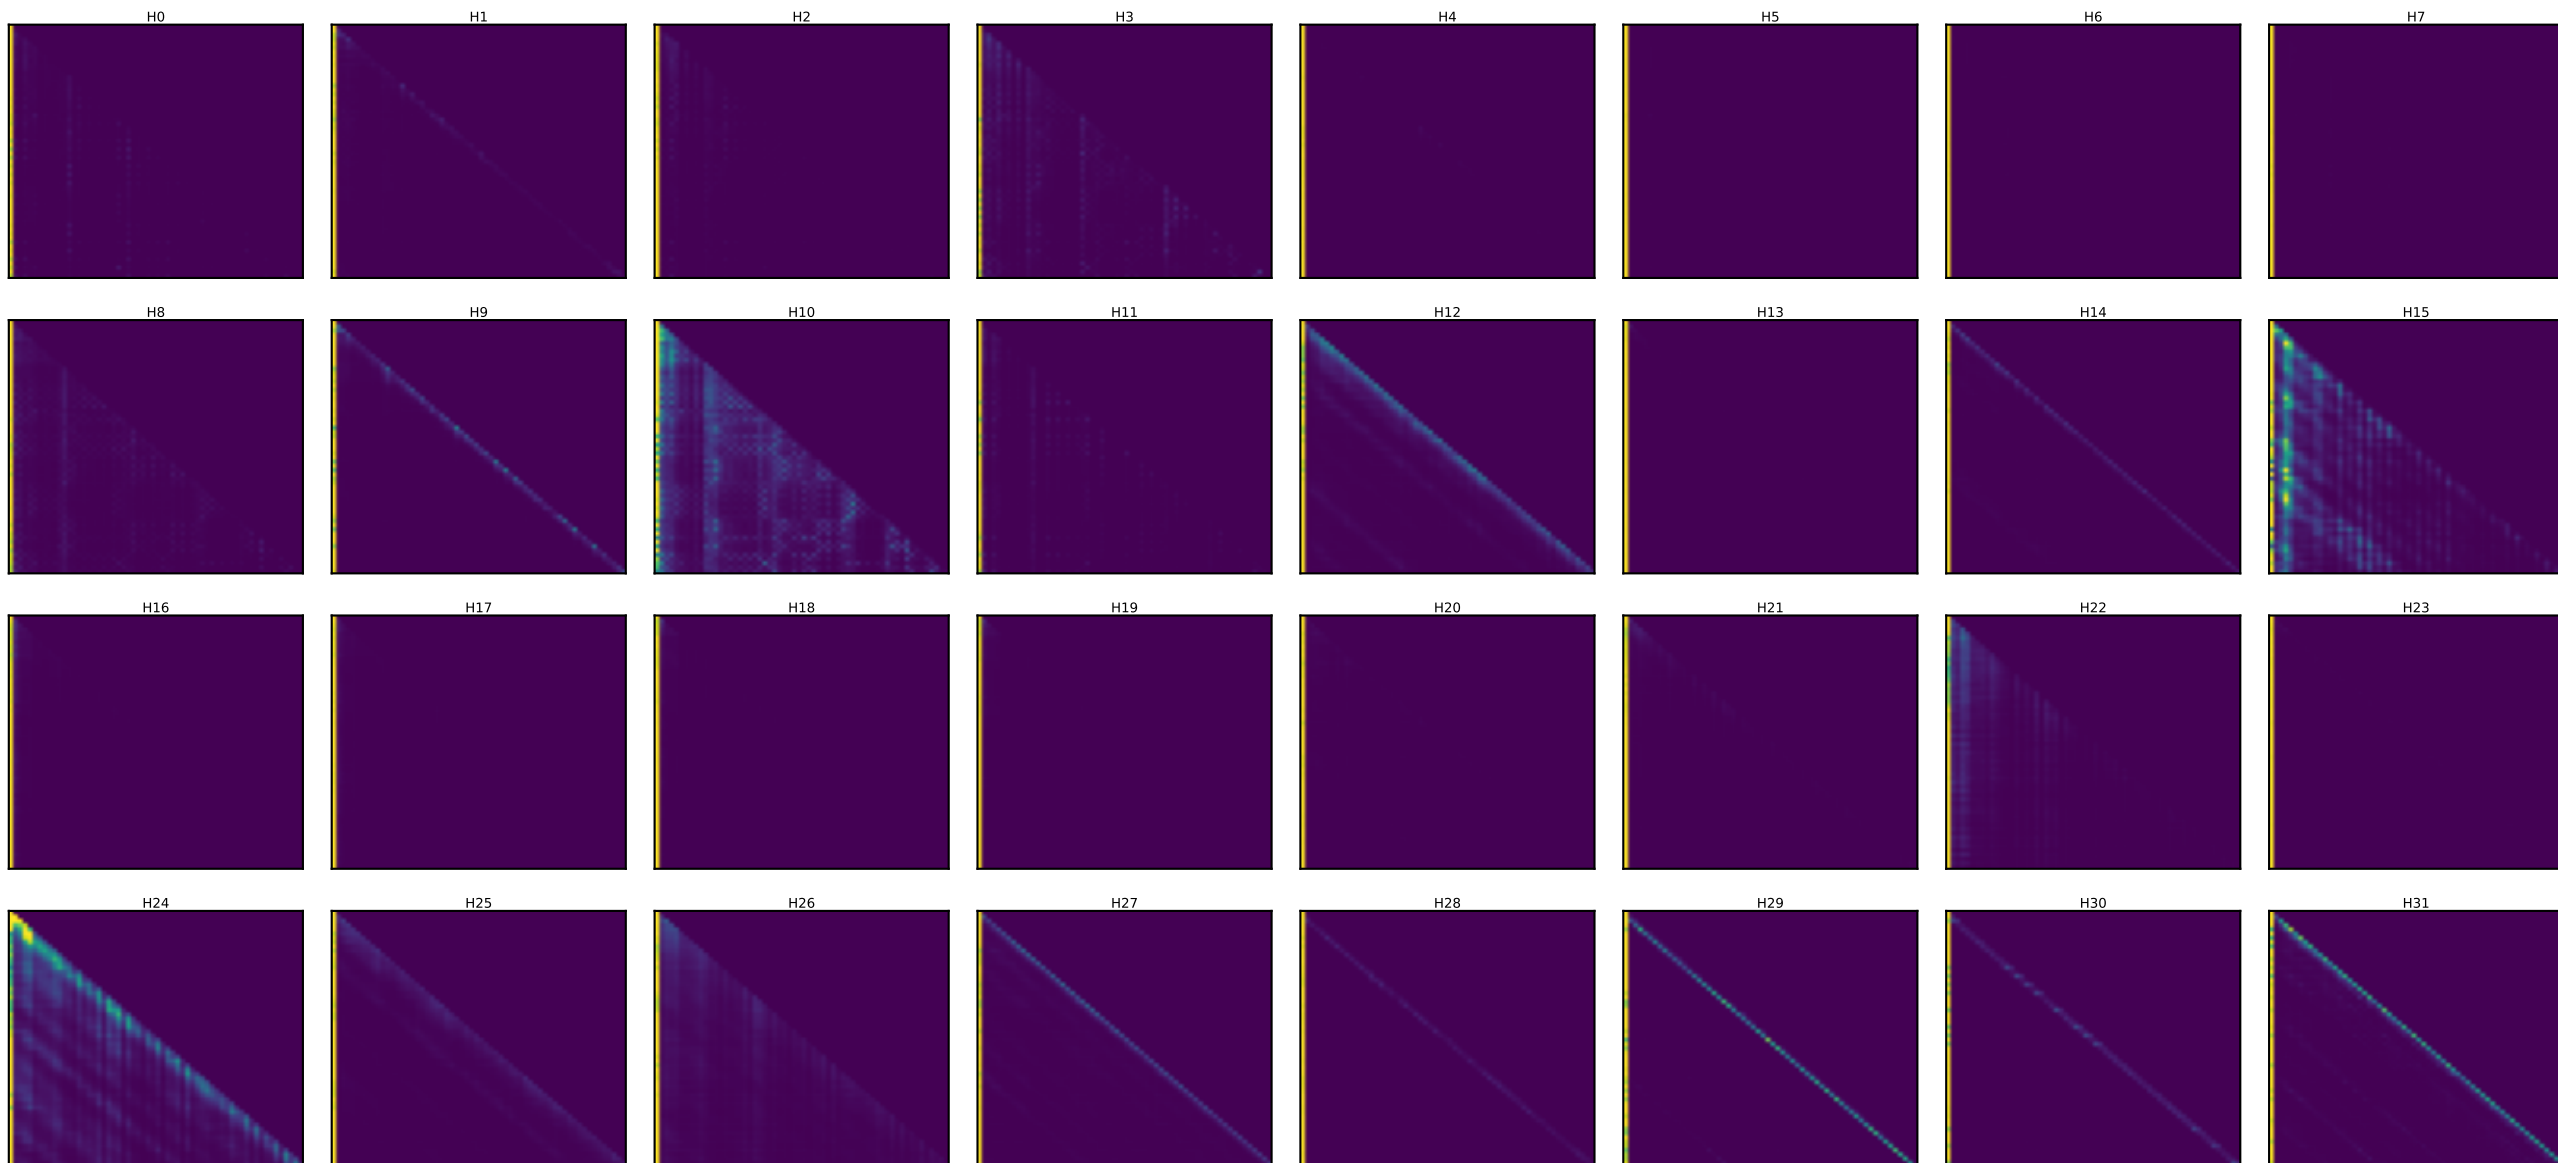

Qwen layer 30 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

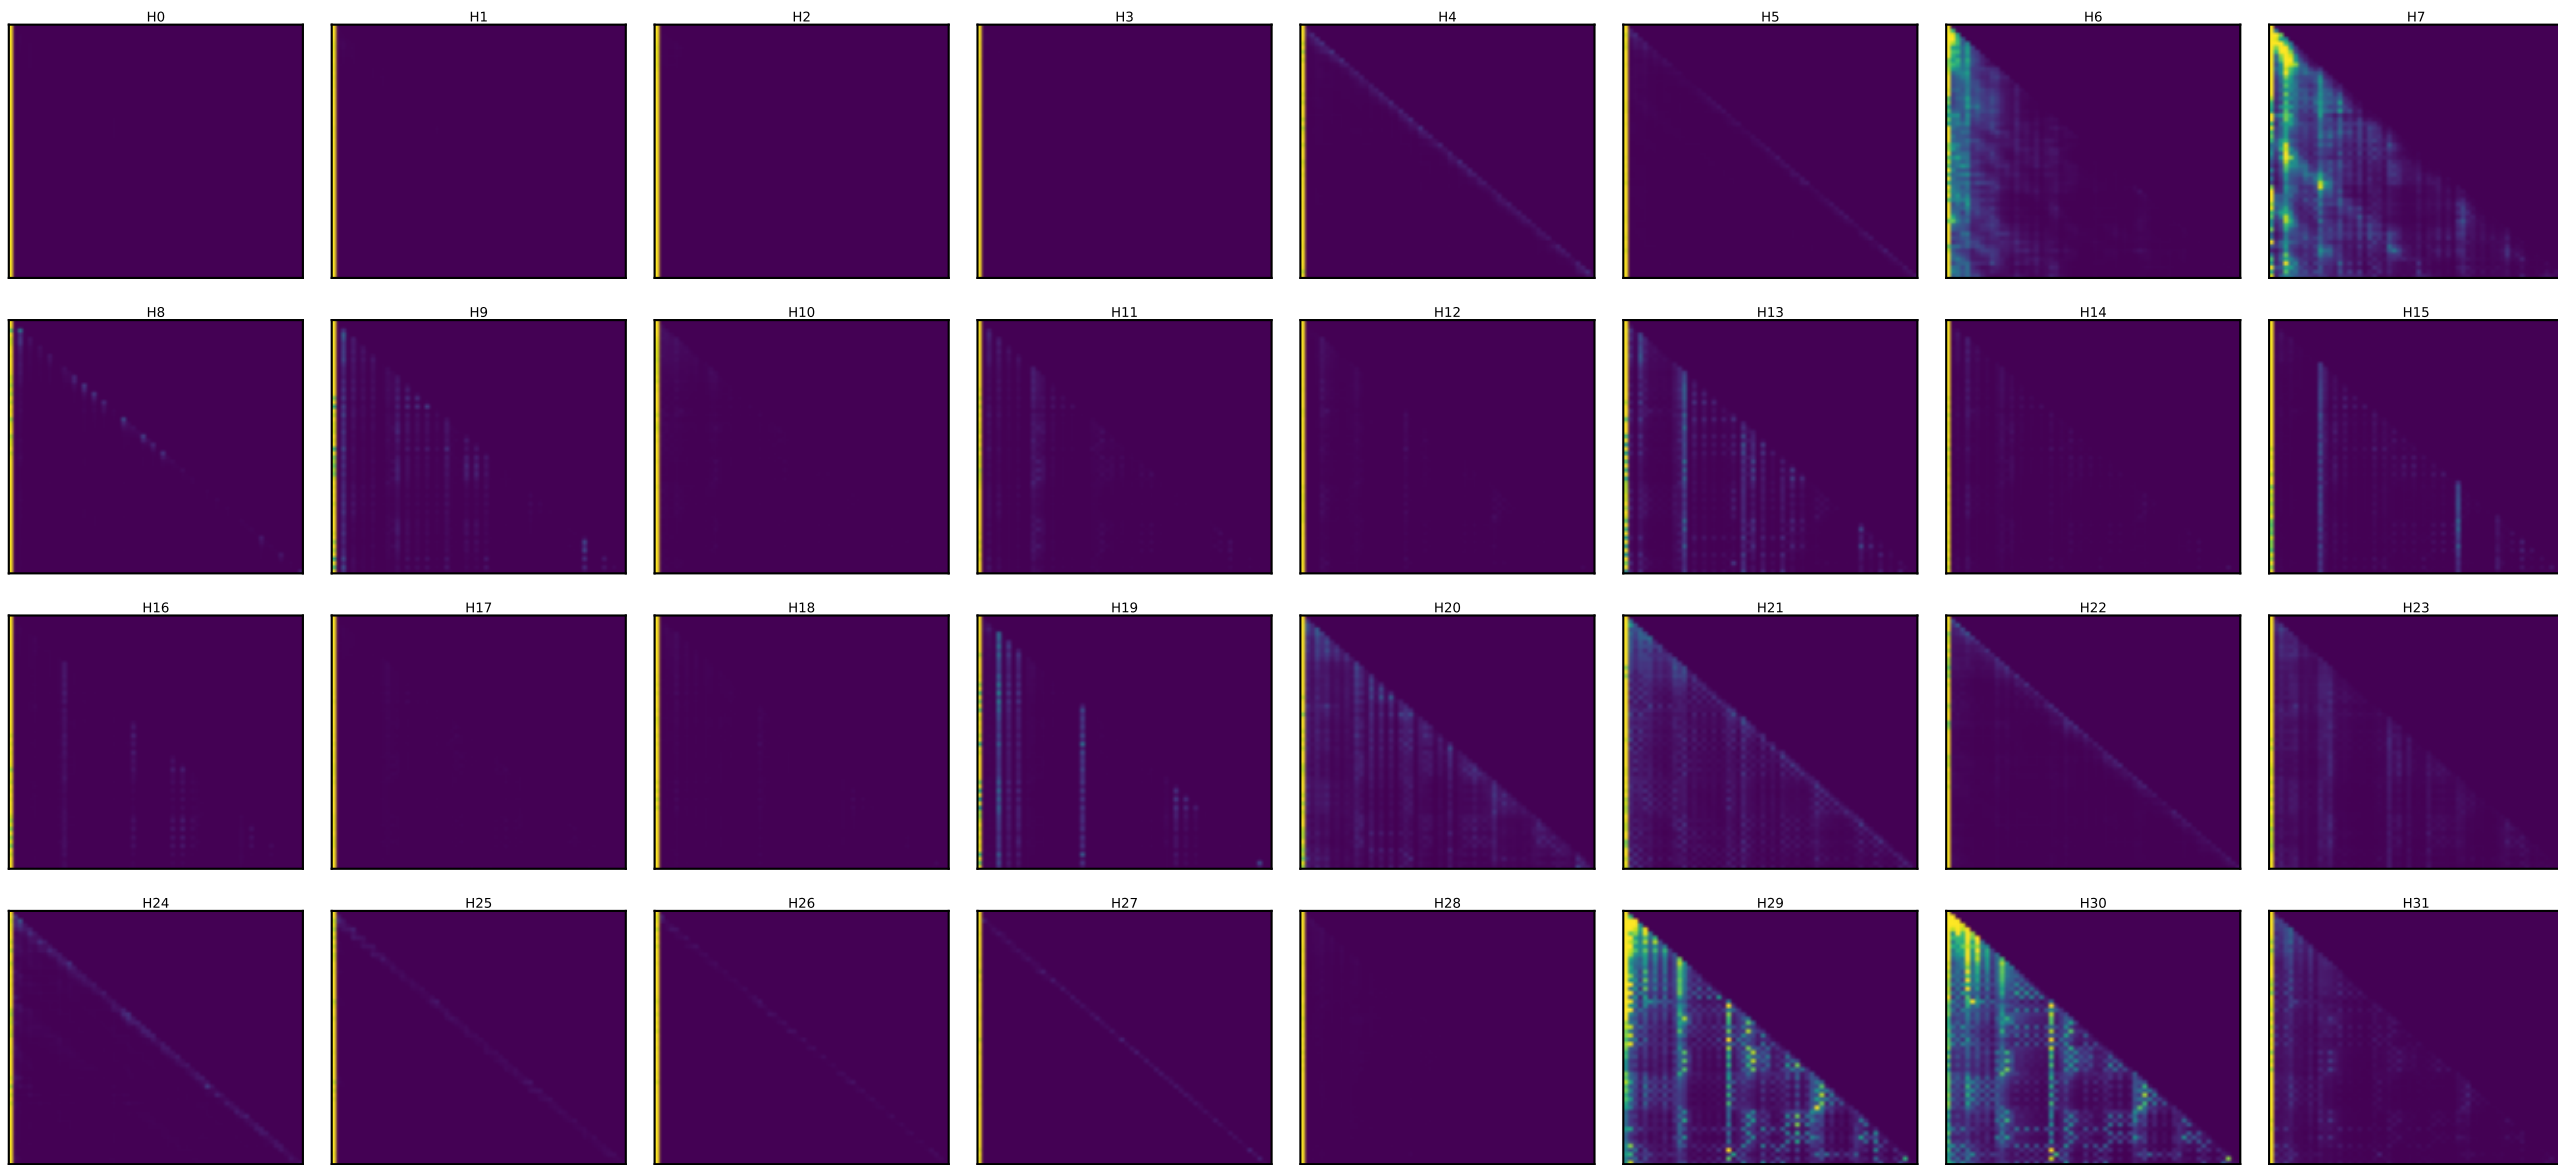

Qwen layer 31 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

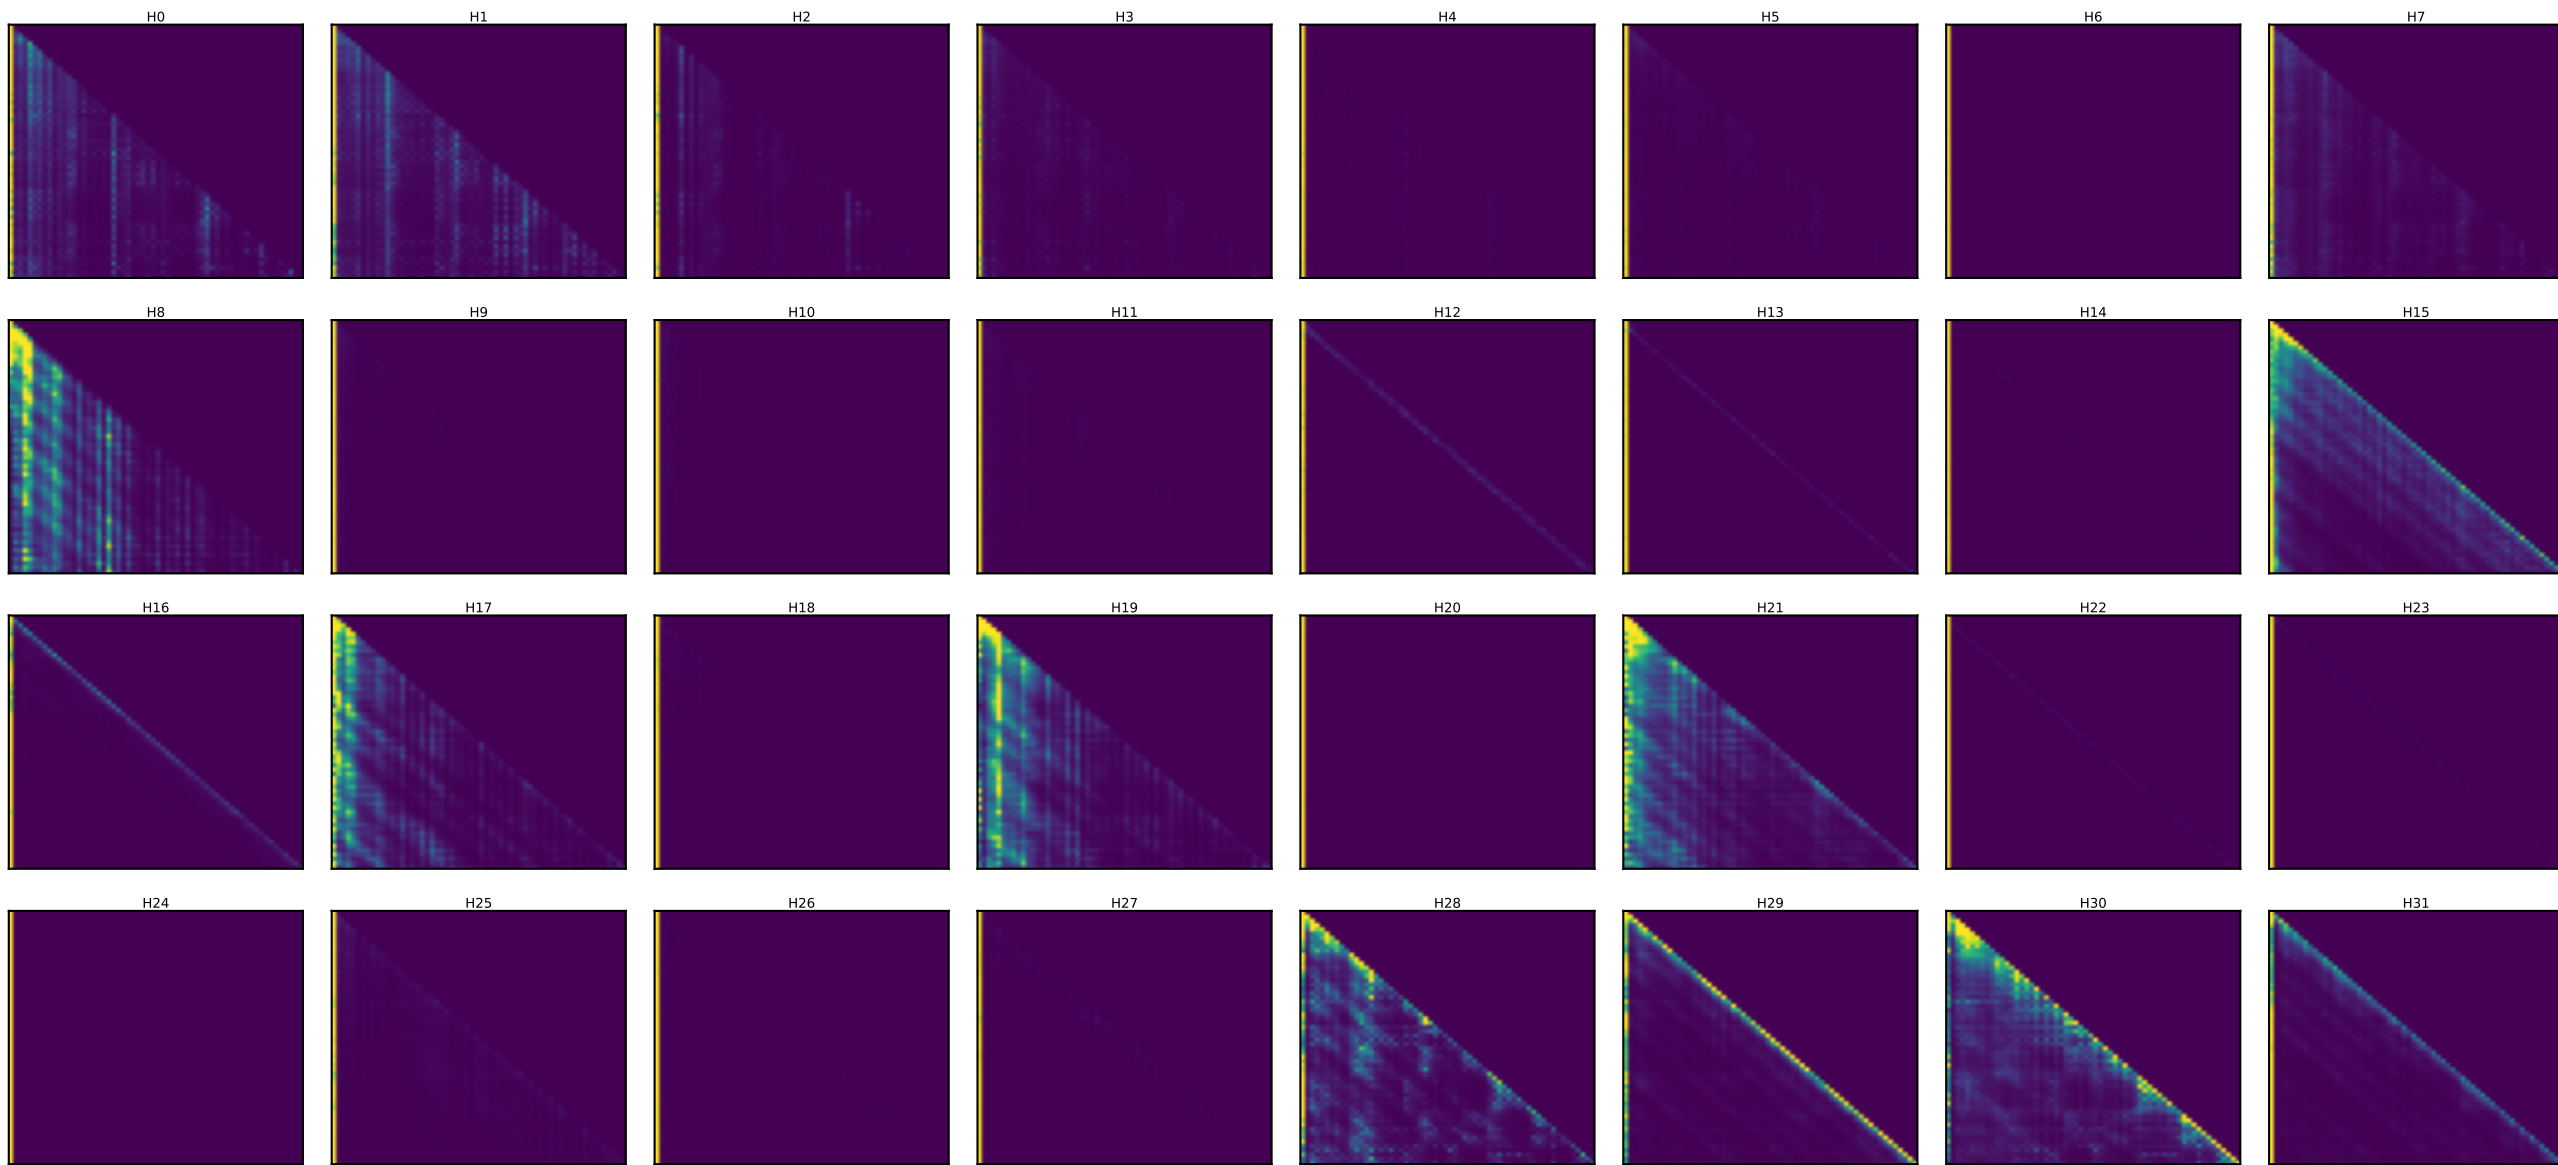

Qwen layer 32 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

Qwen layer 33 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)

Qwen layer 34 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query−25)

Qwen layer 35 — every head's attention [days walk (60 steps)] (induction stripe = diagonal at key=query-25)
