

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.00
red = above chance (real)

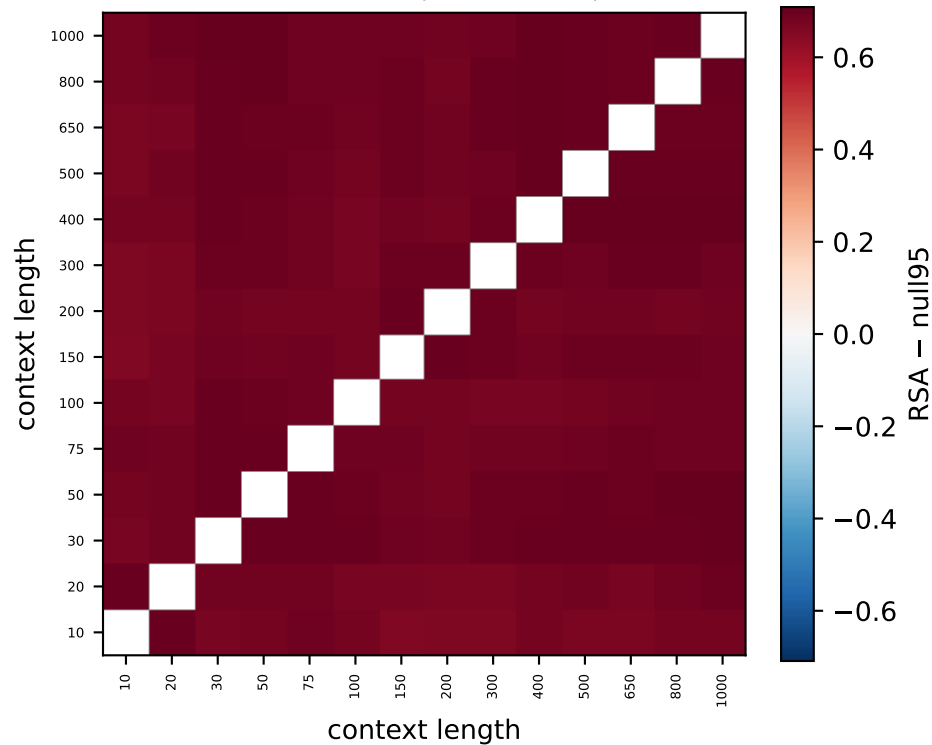

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.02
red = above chance (real)

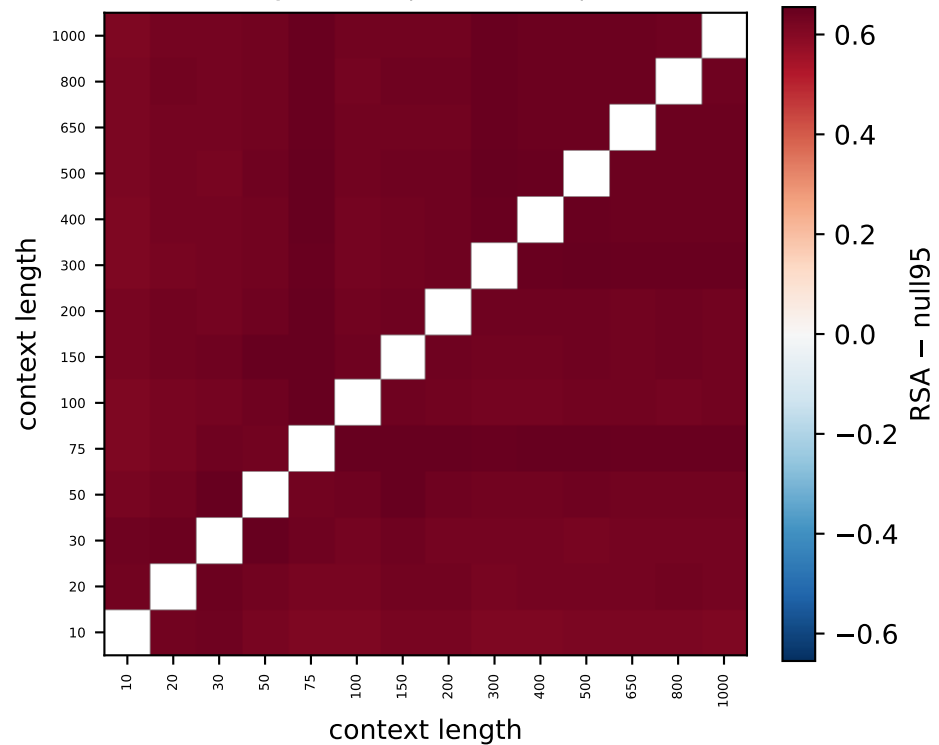

Llama L1 (100% > null)

Gemma L1 (100% > null)

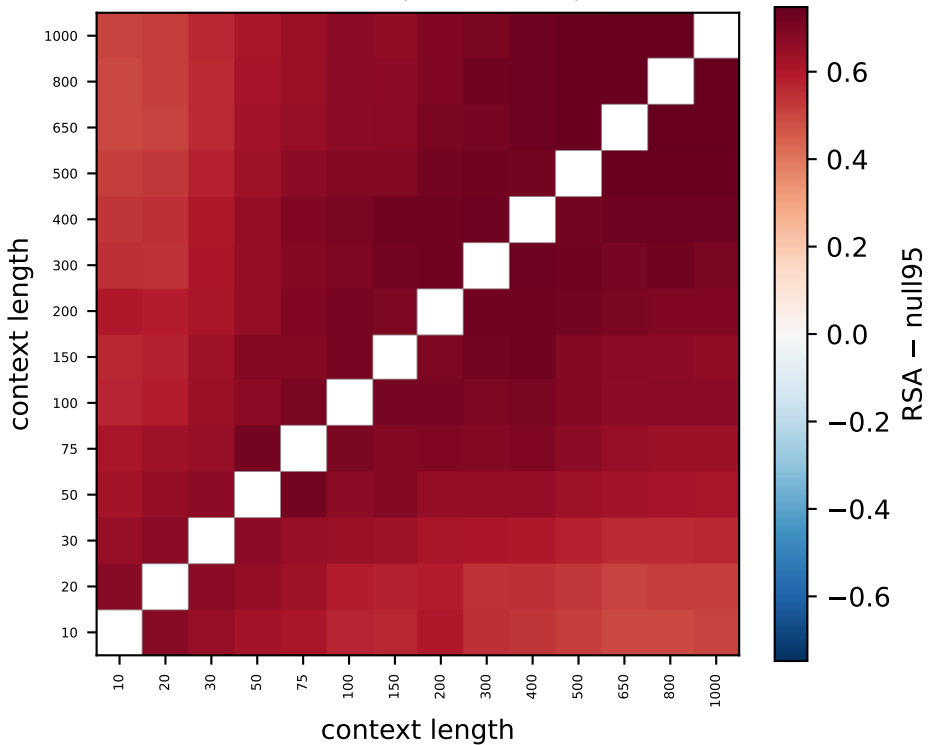

Qwen L1 (100% > null)

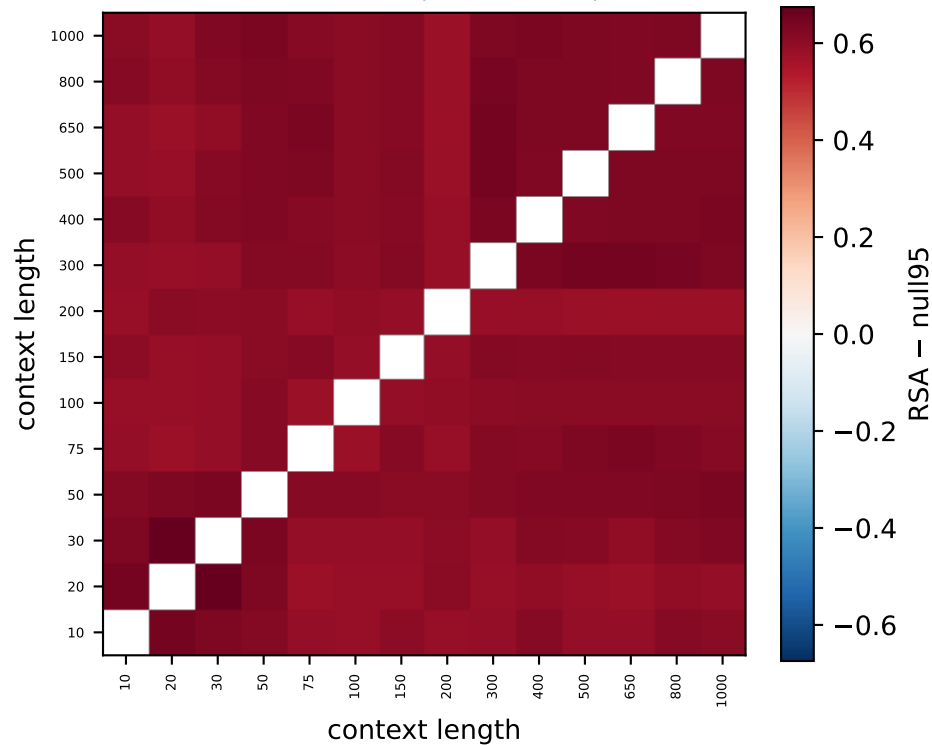

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.05
red = above chance (real)

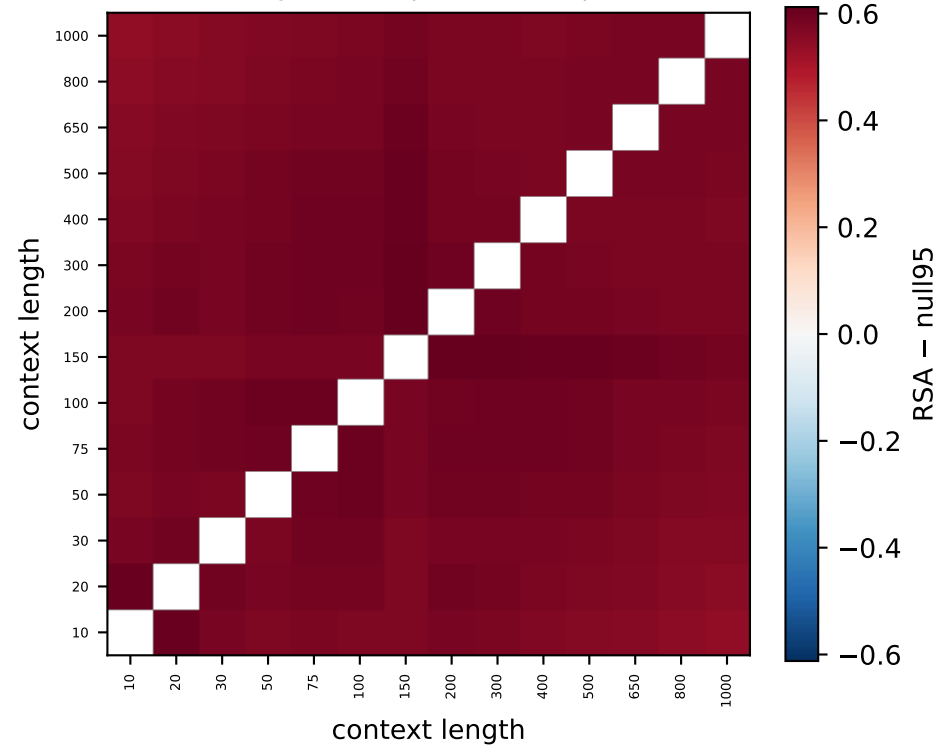

Llama L2 (100% > null)

Gemma L2 (100% > null)

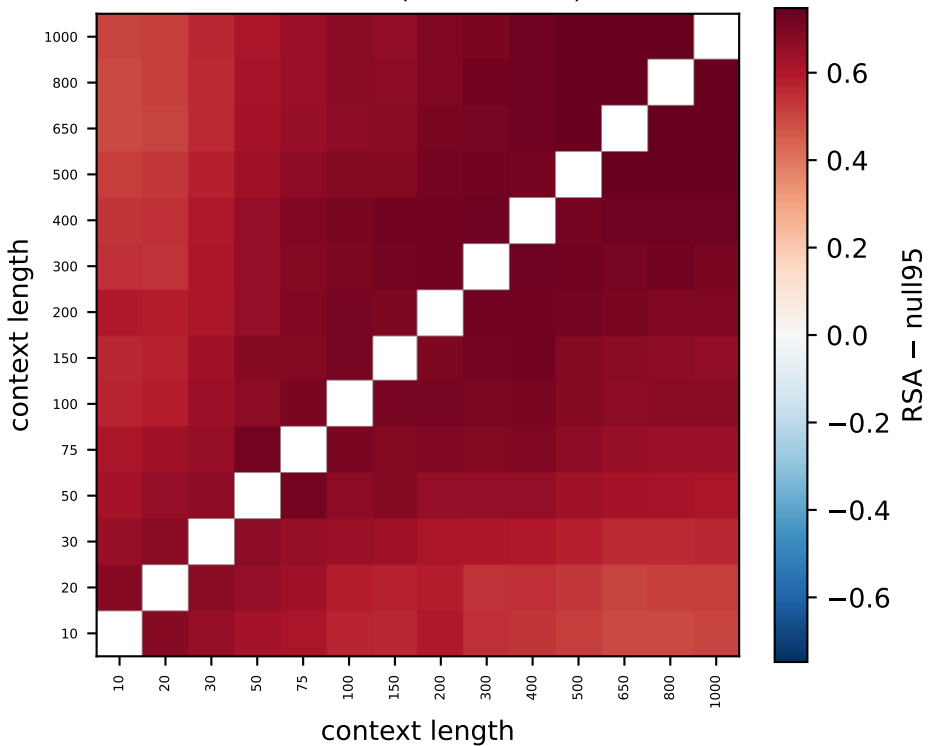

Qwen L2 (100% > null)

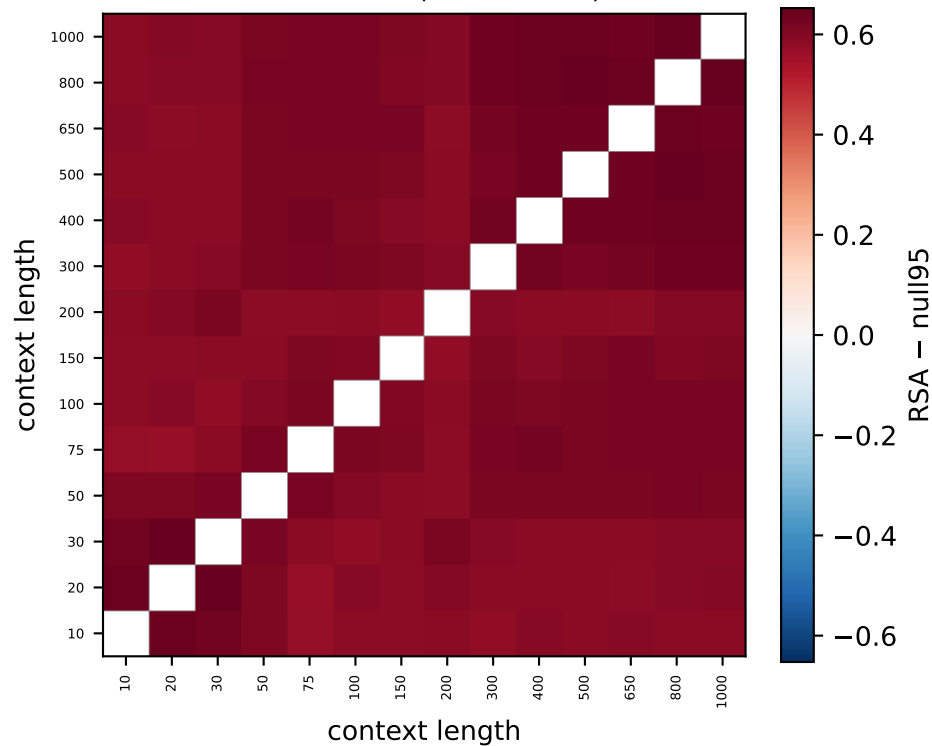

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.07
red = above chance (real)

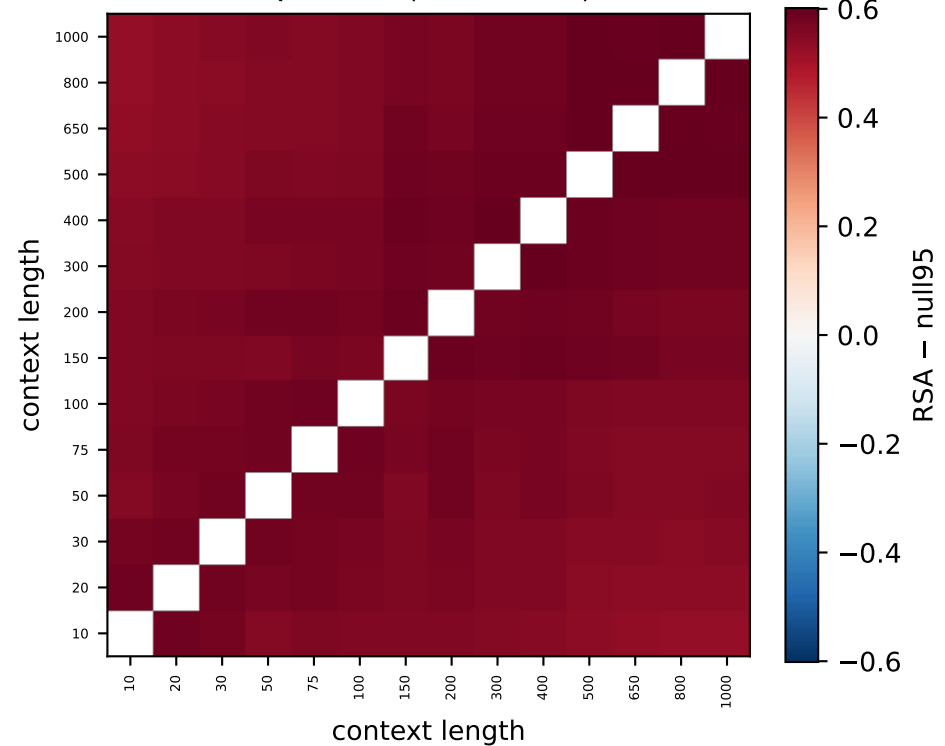

Llama L2 (100% > null)

Gemma L3 (100% > null)

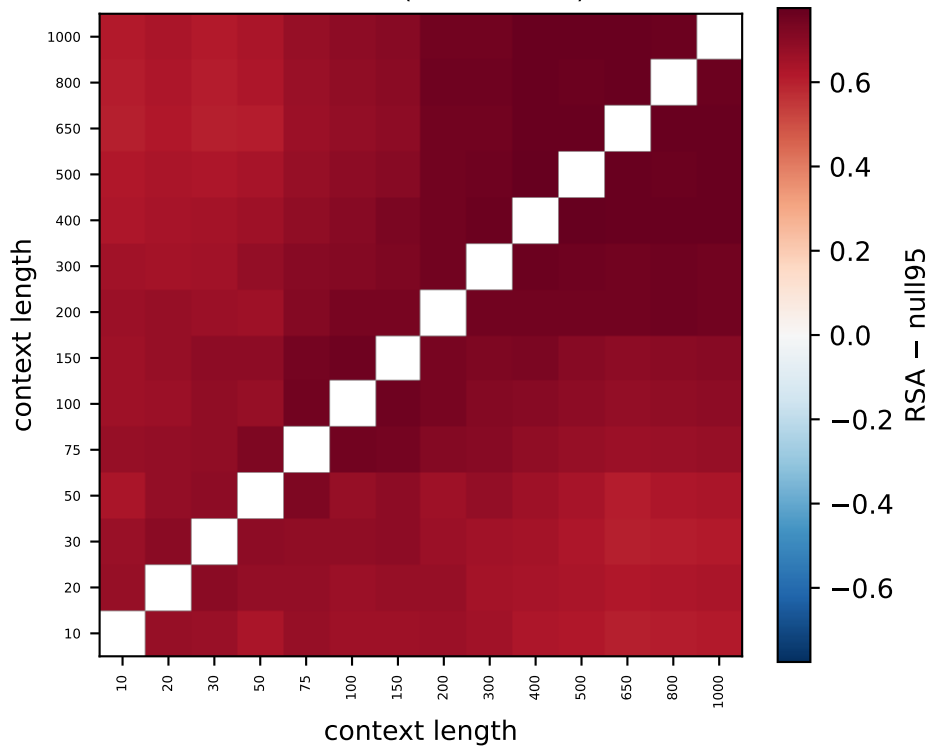

Qwen L3 (100% > null)

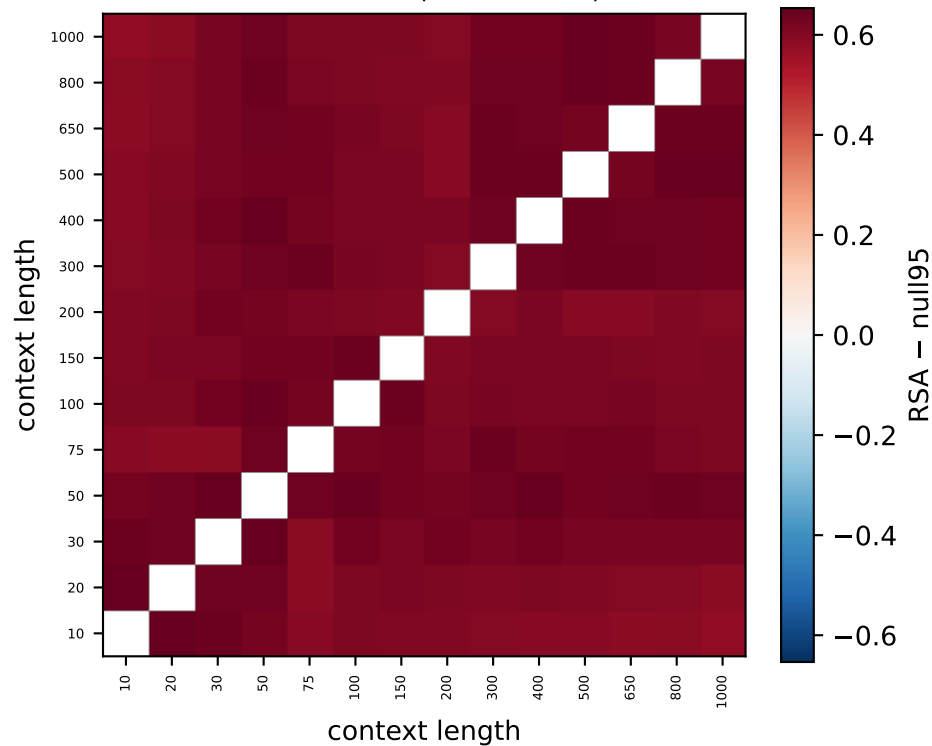

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.10
red = above chance (real)

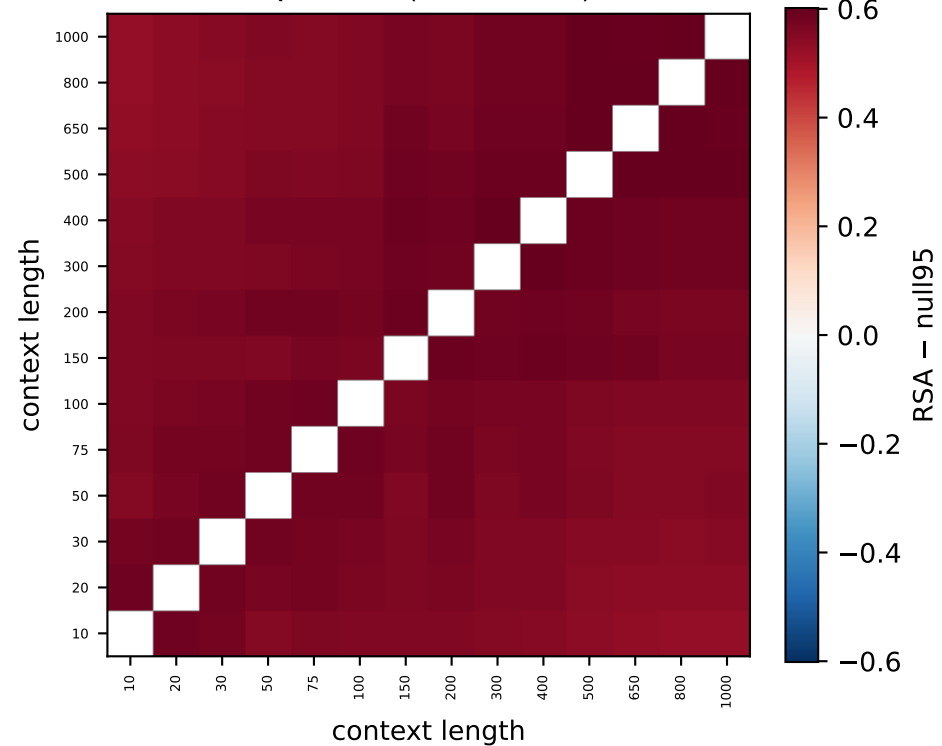

Llama L3 (100% > null)

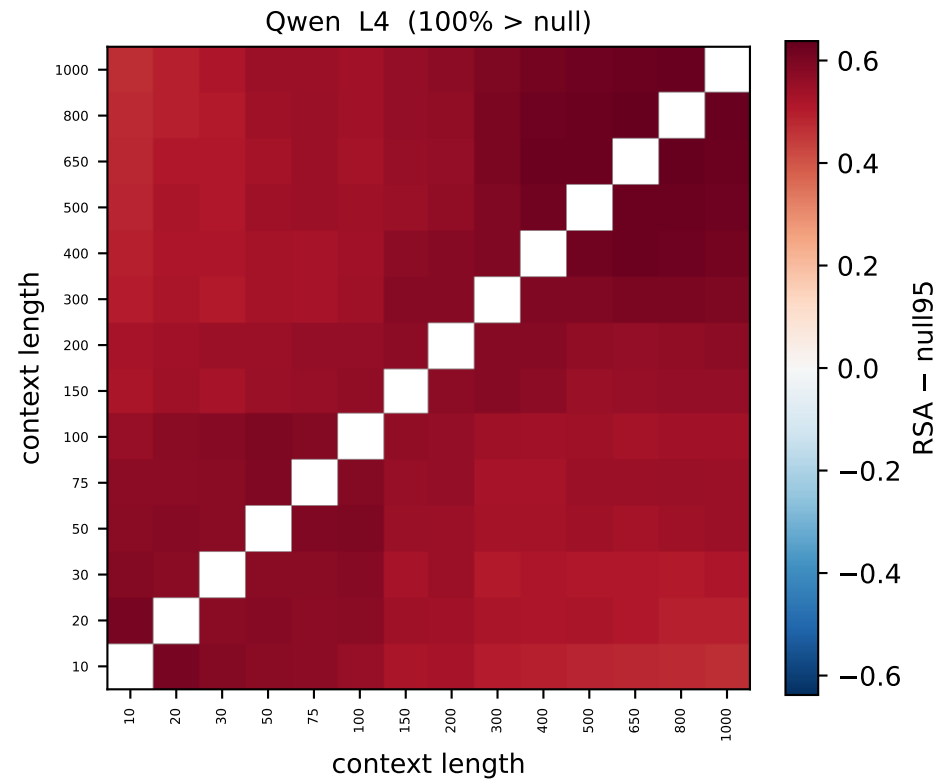

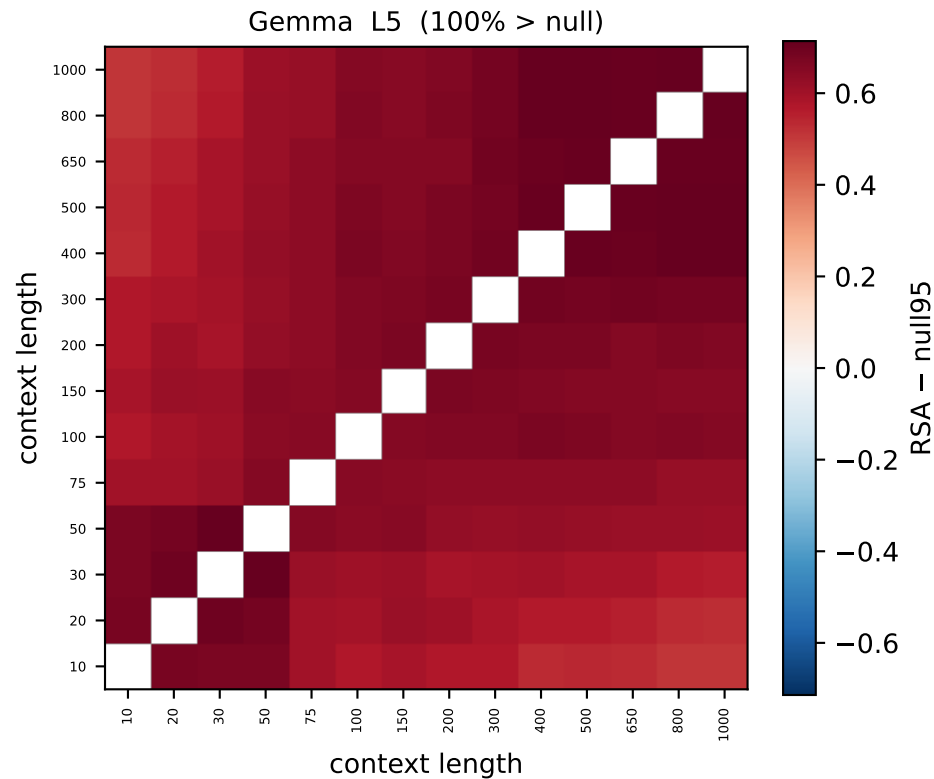

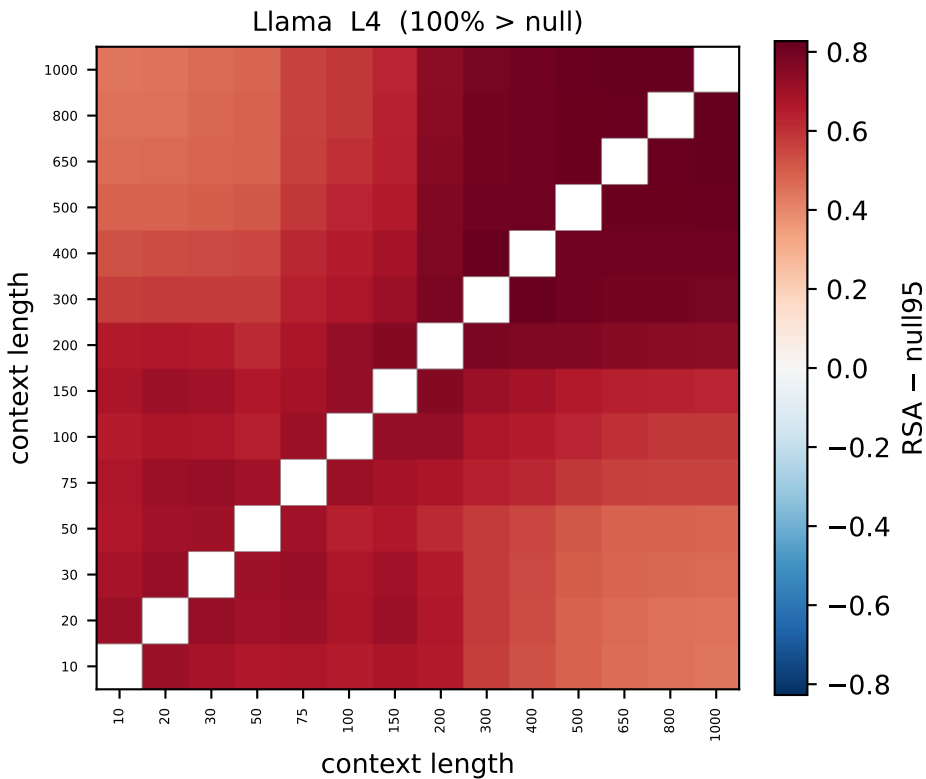

Gemma L4 (100% > null)

Qwen L3 (100% > null)

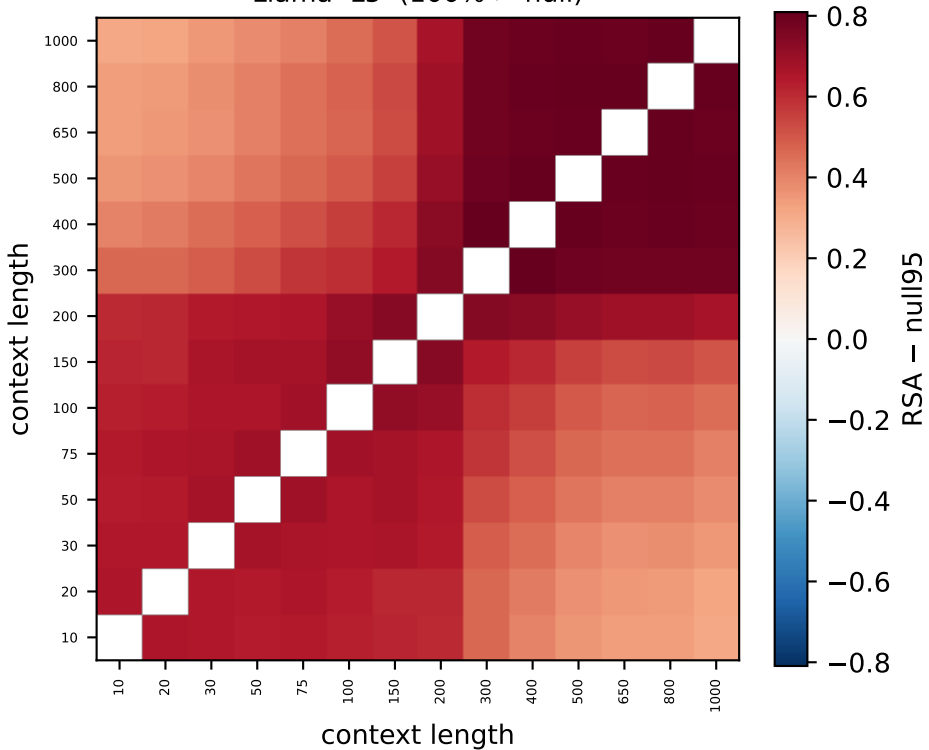

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.12
red = above chance (real)

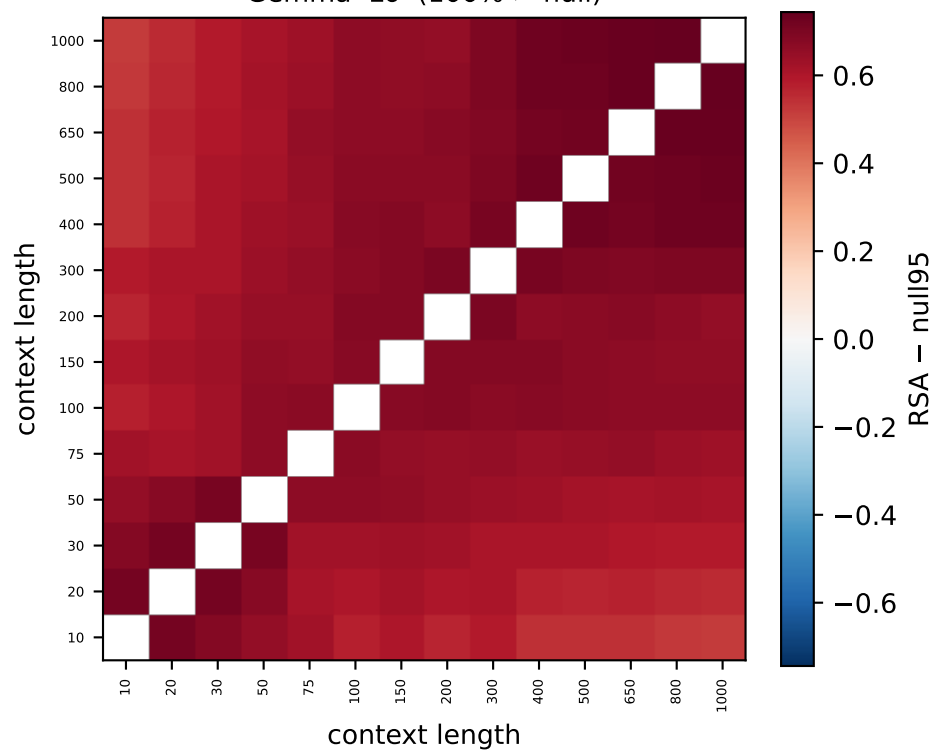

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.15
red = above chance (real)

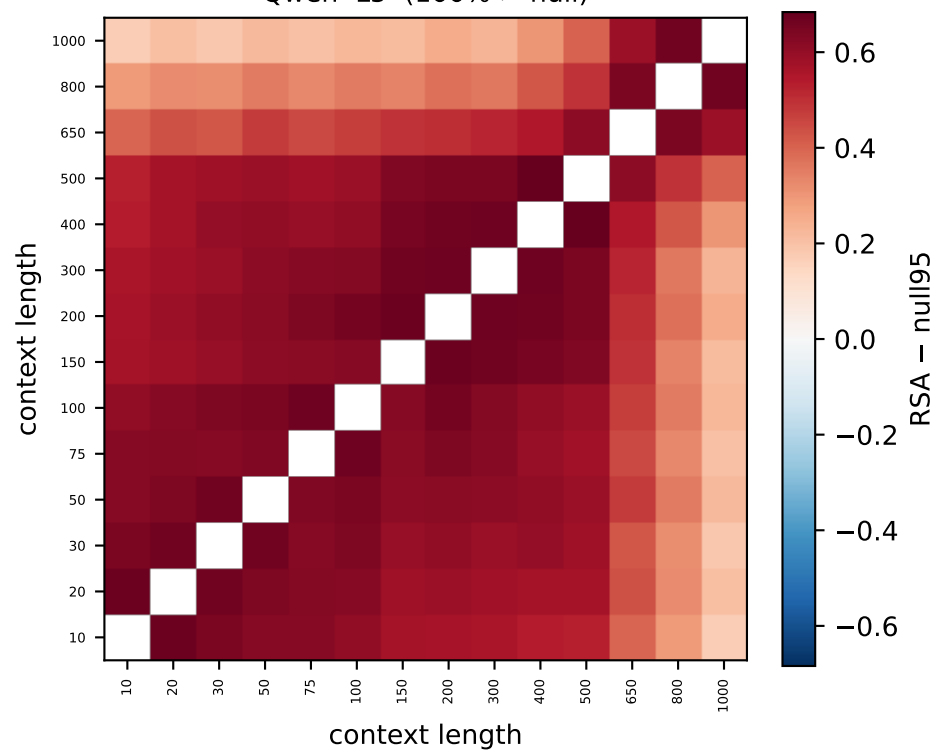

Llama L5 (100% > null)

Gemma L6 (100% > null)

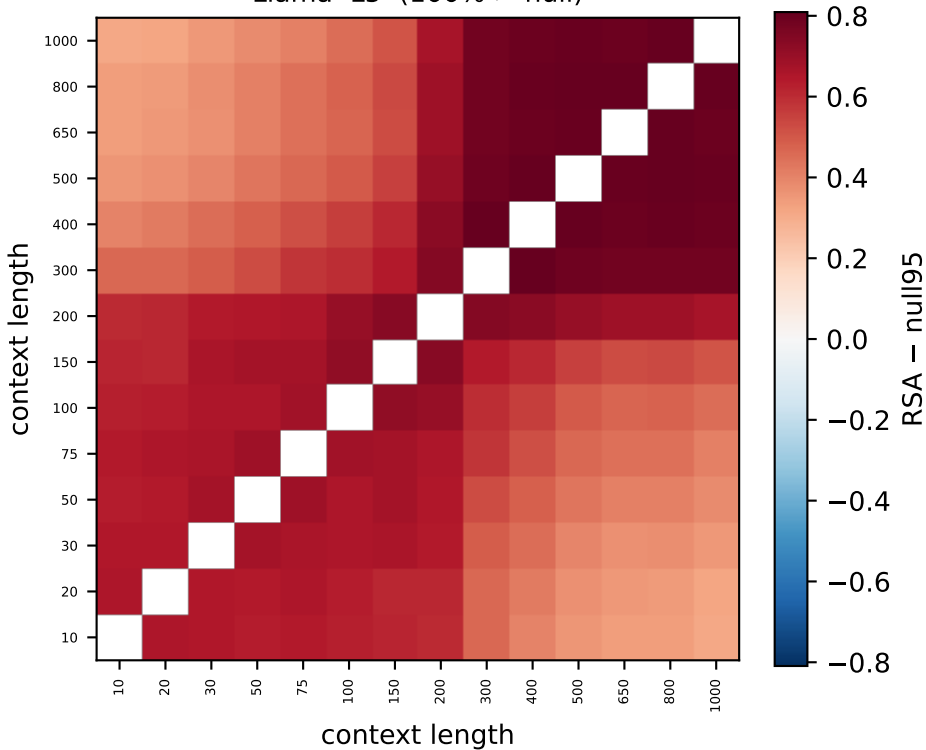

Qwen L5 (100% > null)

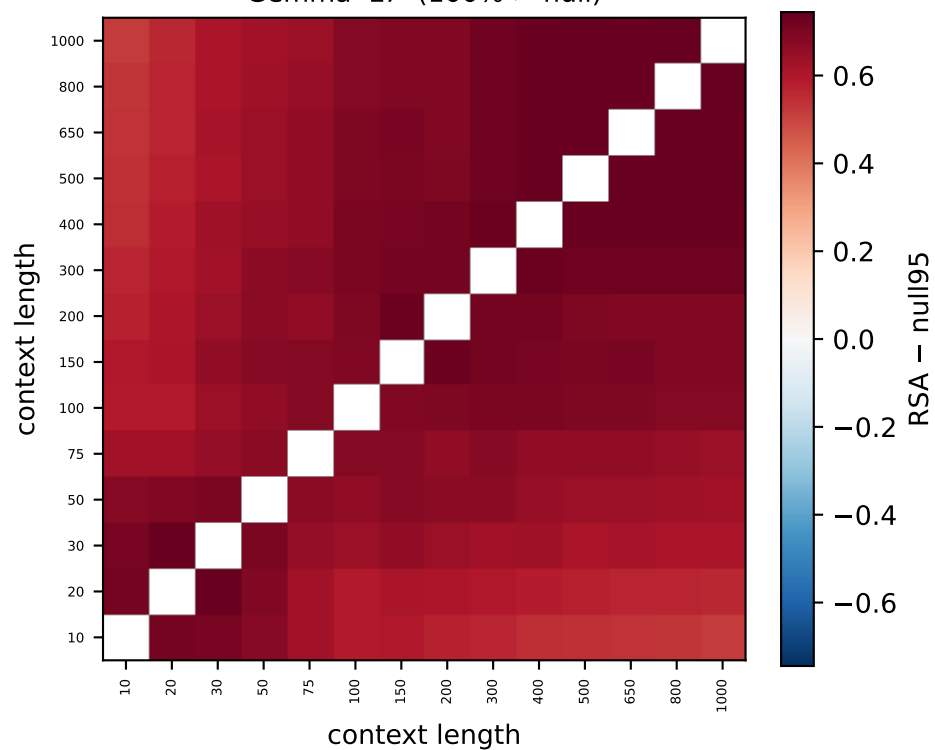

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.17
red = above chance (real)

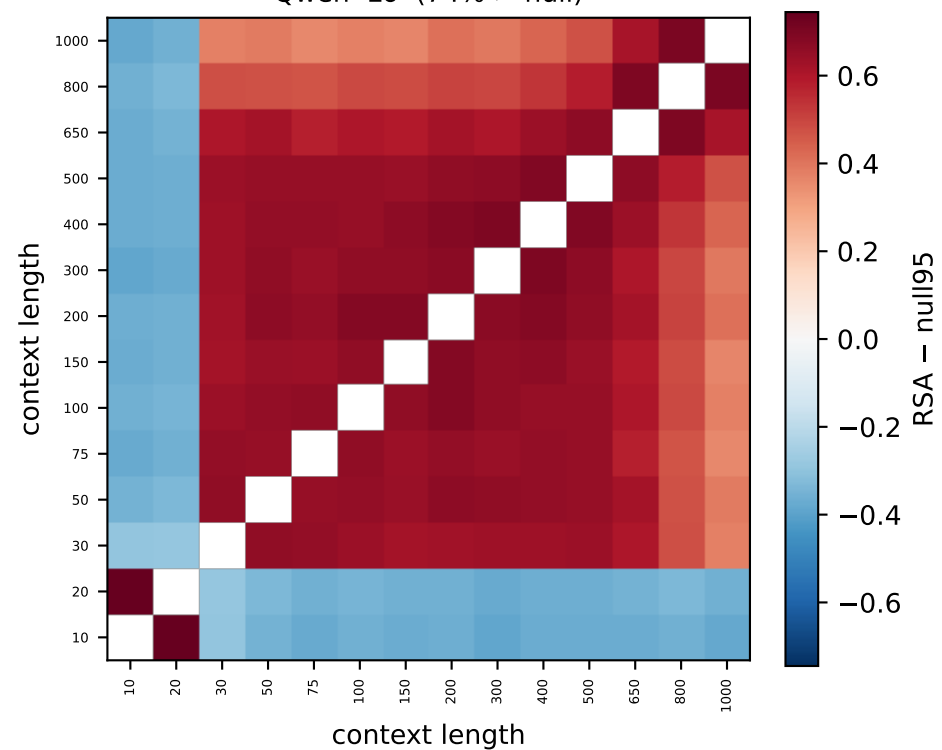

Llama L5 (100% > null)

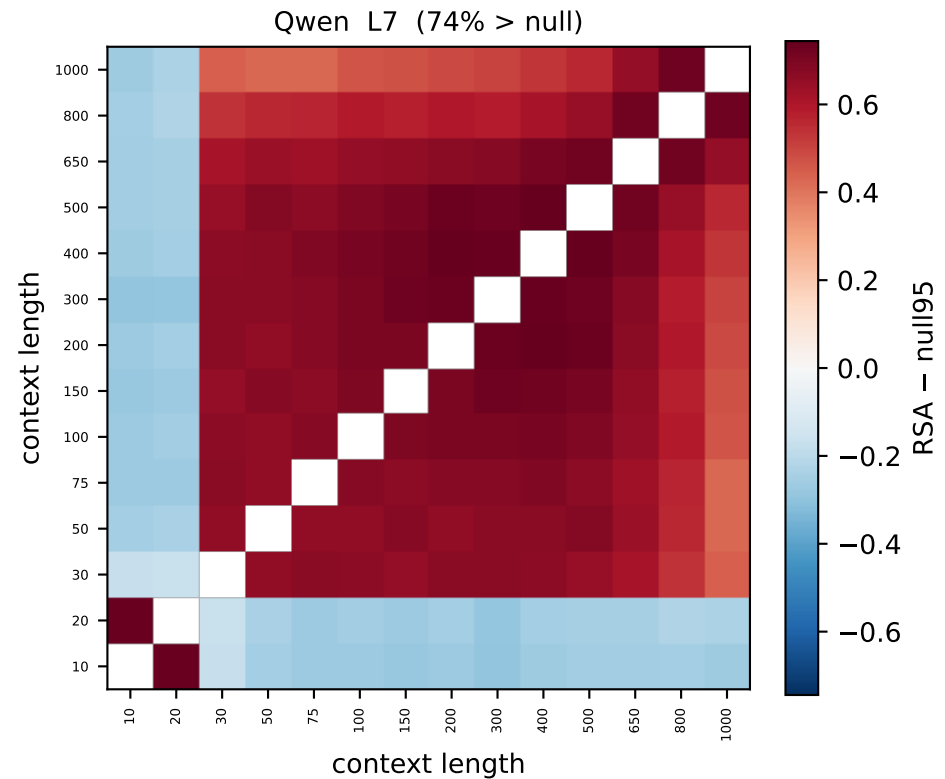

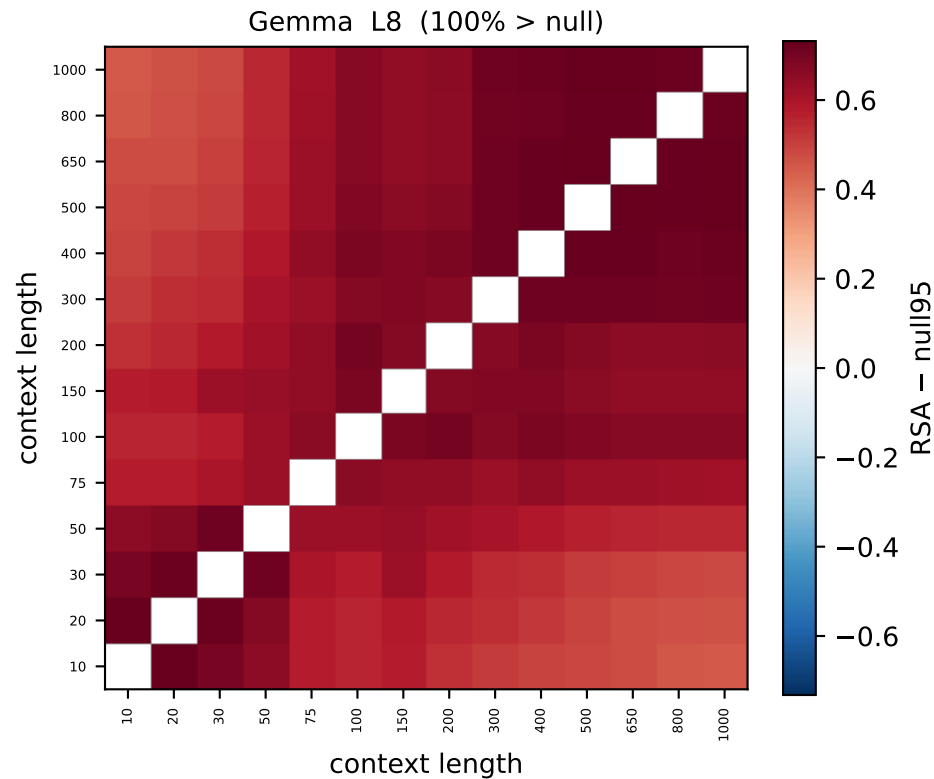

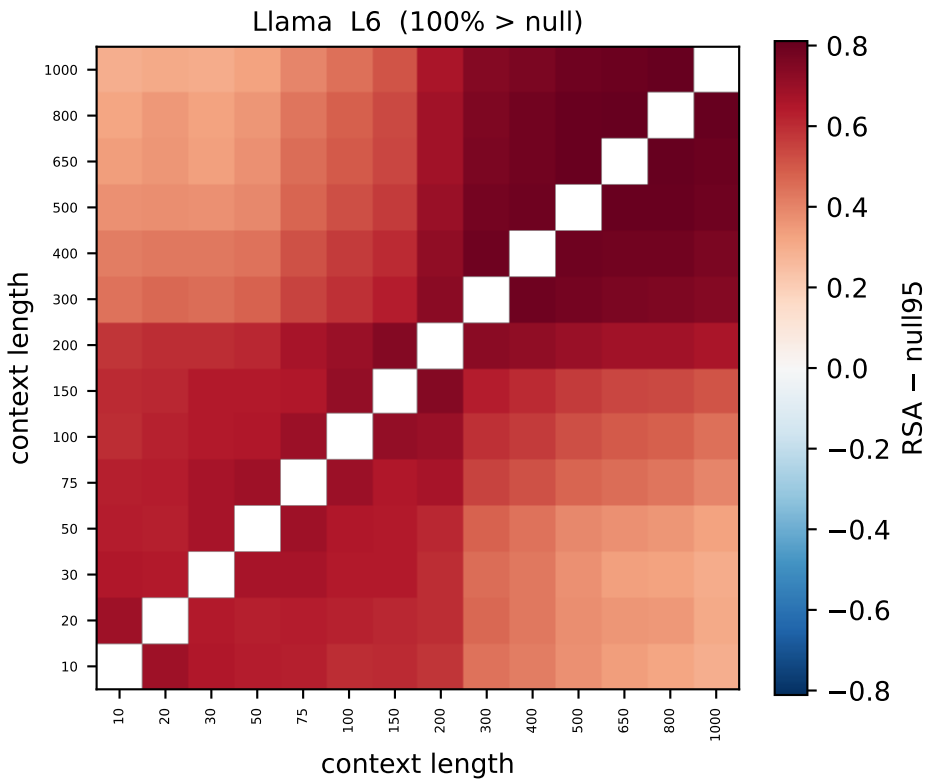

Gemma L7 (100% > null)

Qwen L6 (74% > null)

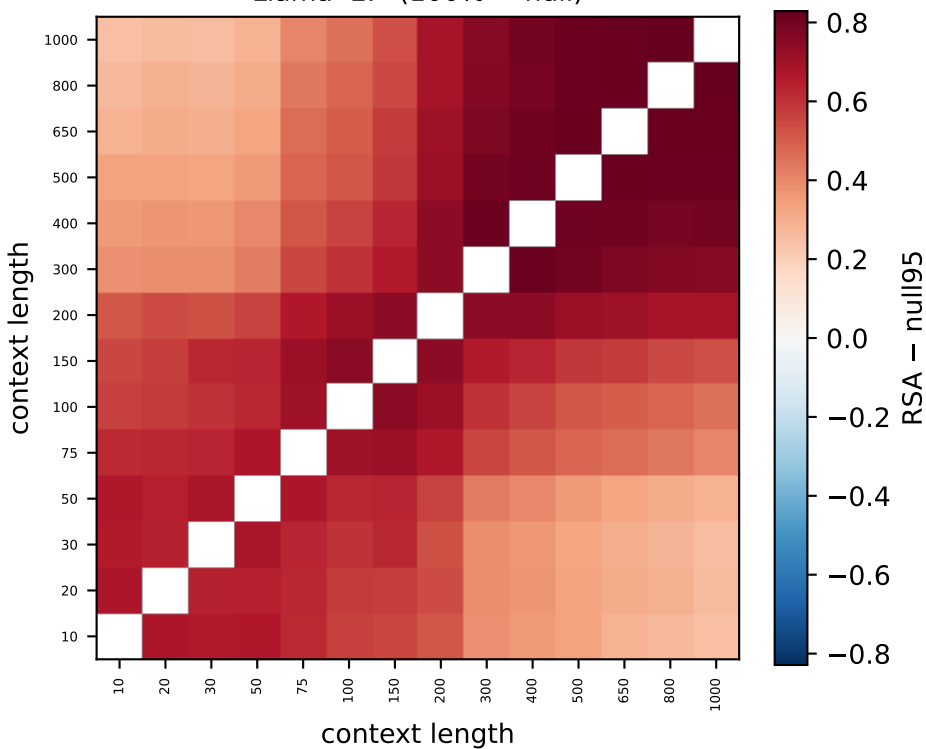

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.20
red = above chance (real)

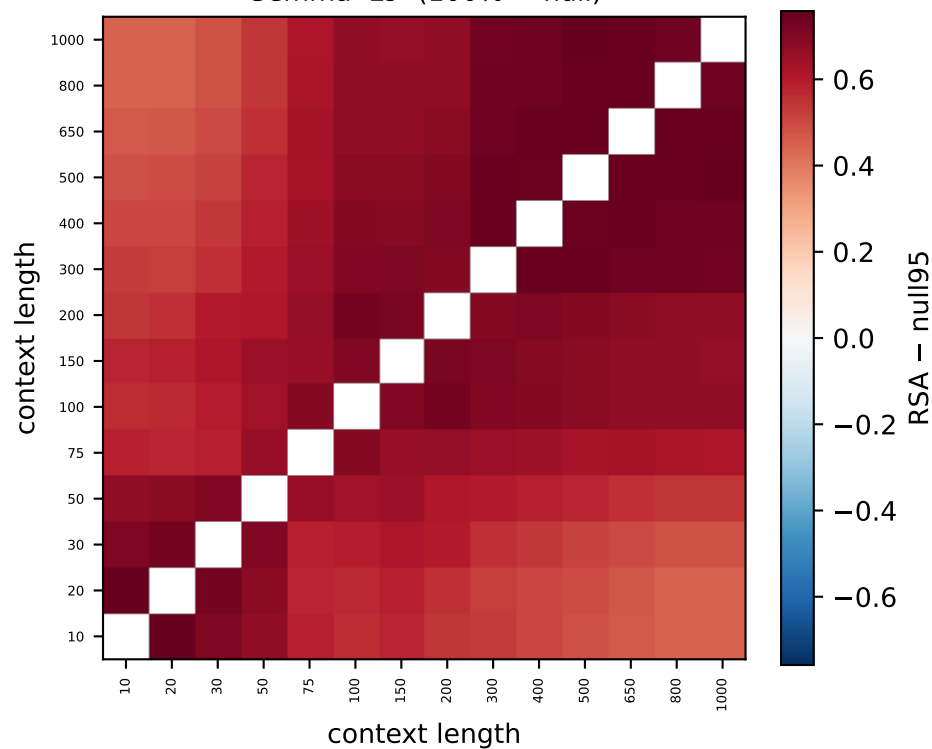

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.22
red = above chance (real)

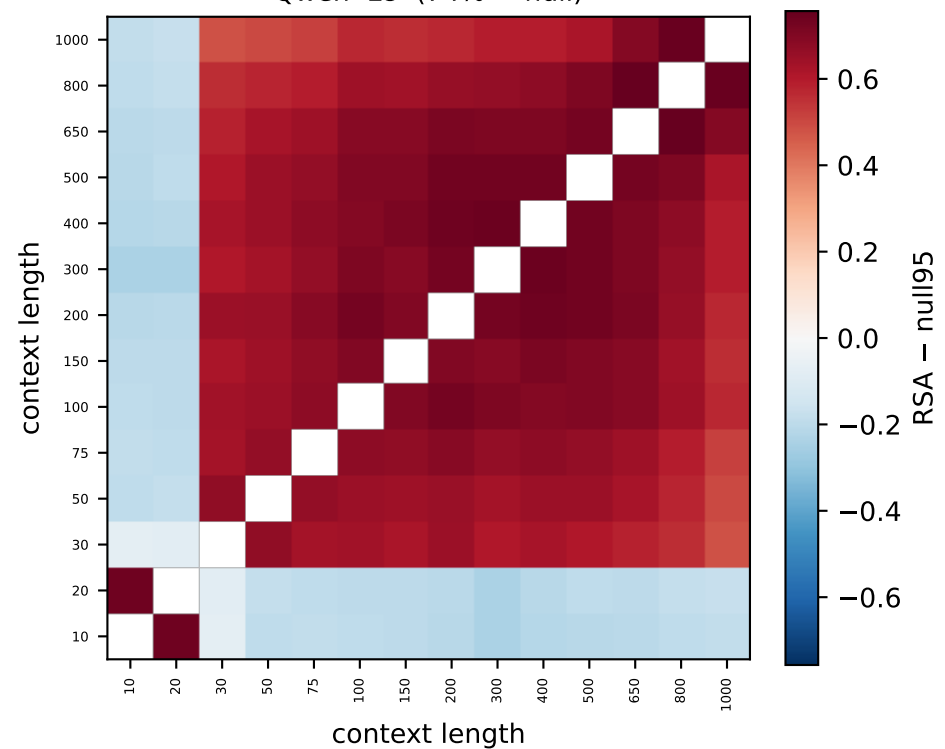

Llama L7 (100% > null)

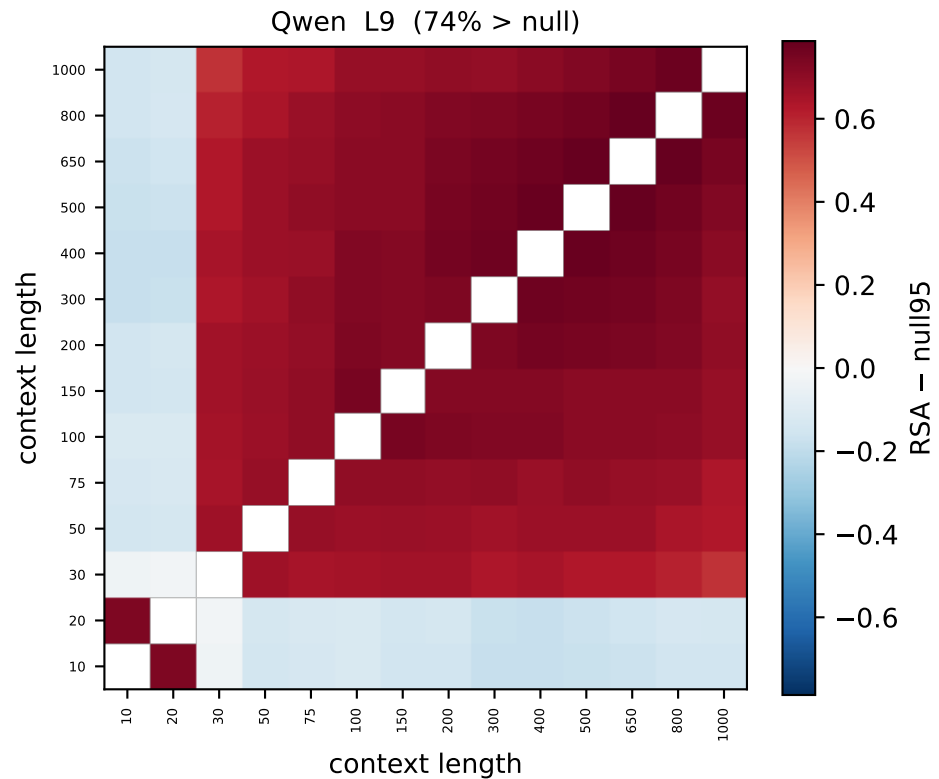

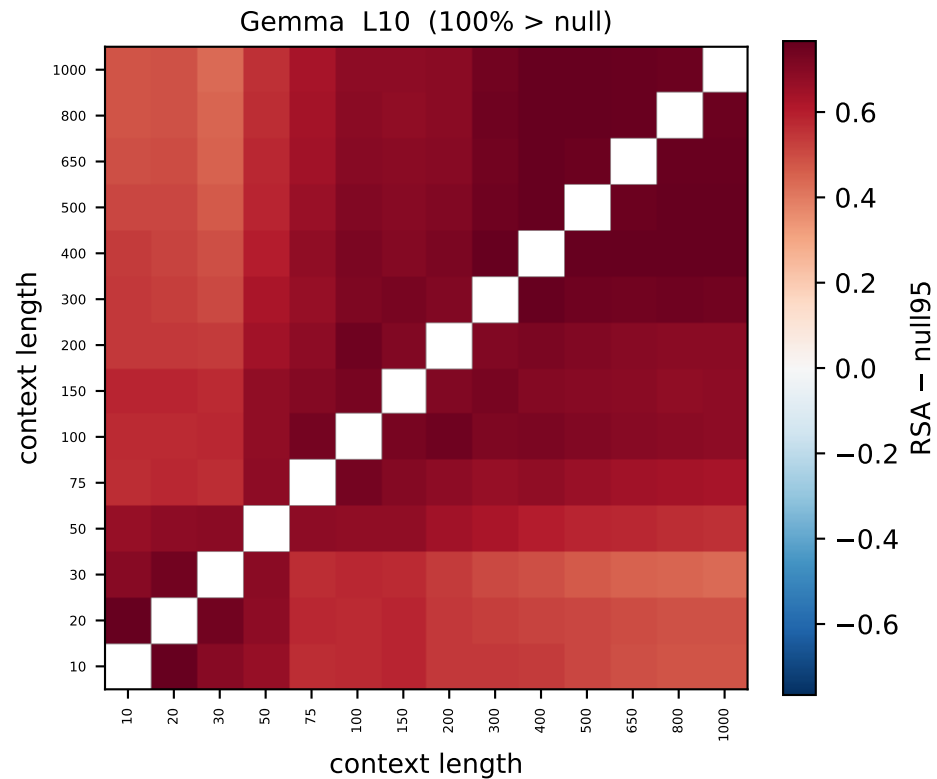

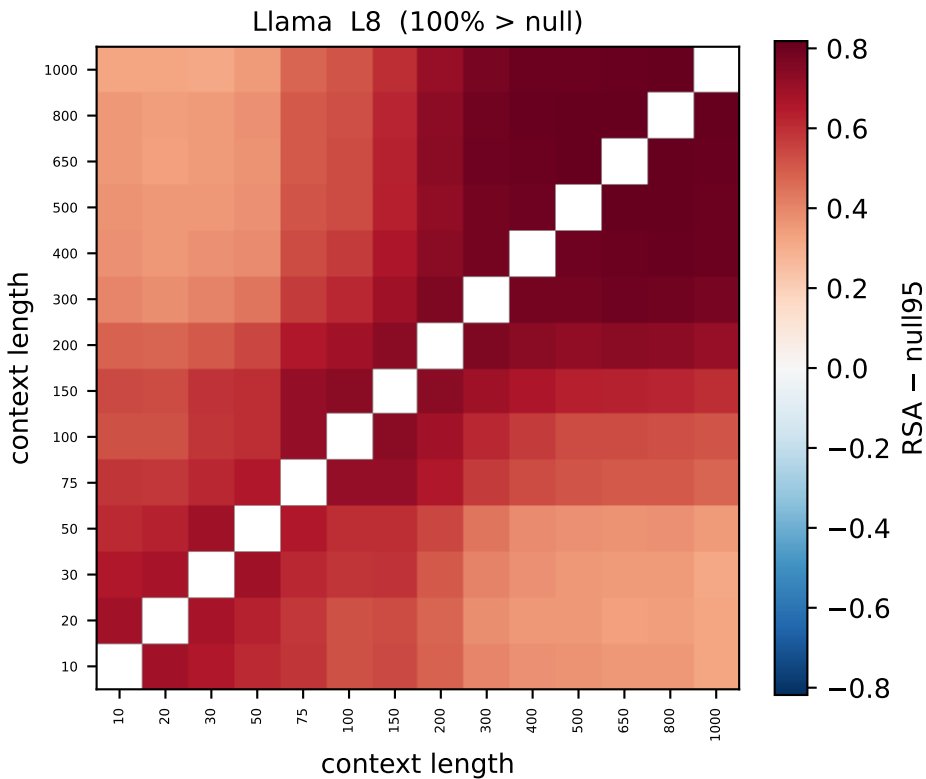

Gemma L9 (100% > null)

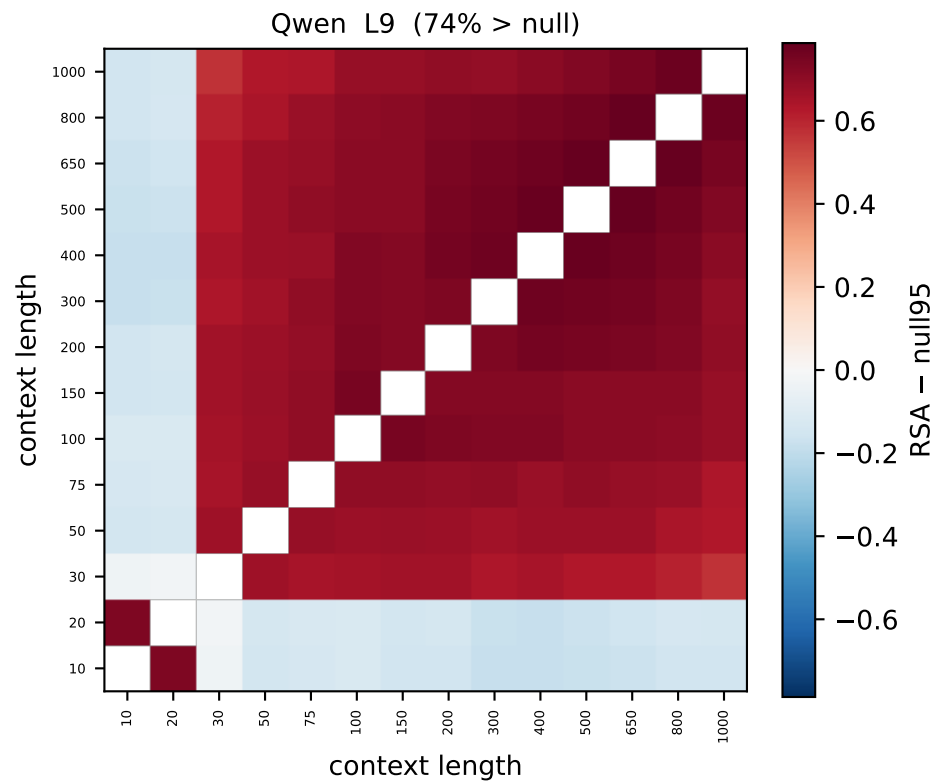

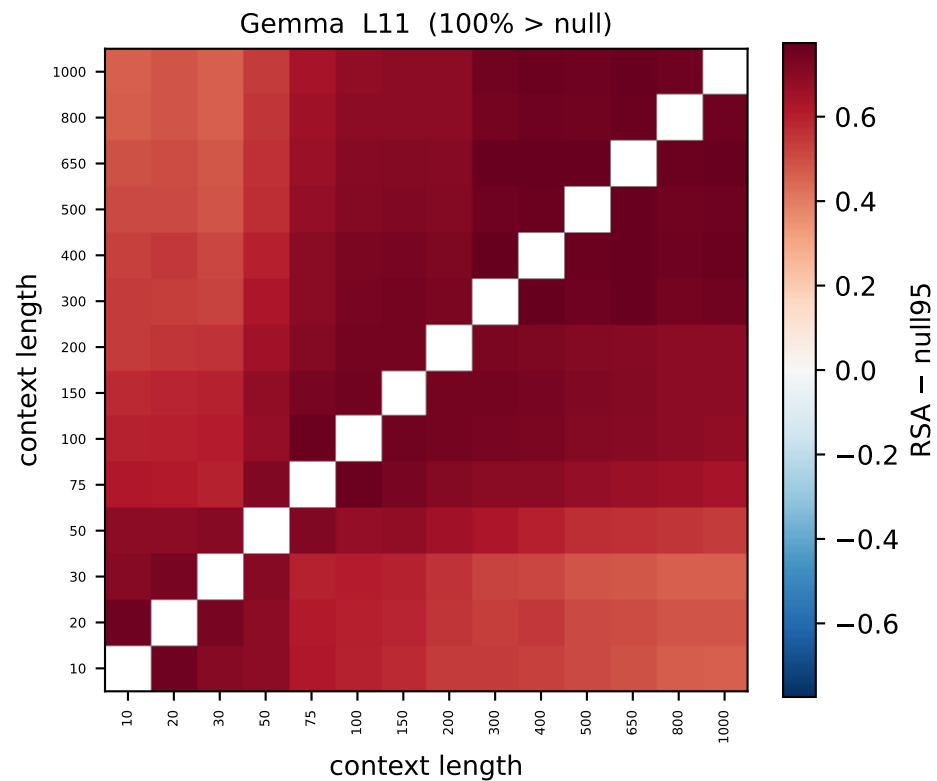

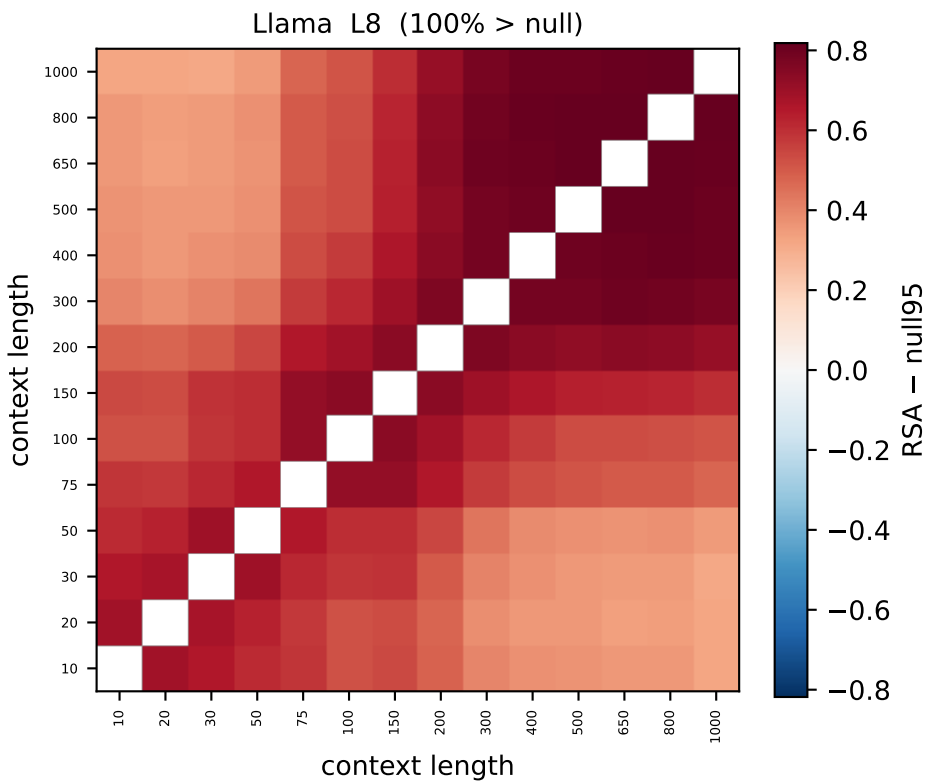

Qwen L8 (74% > null)

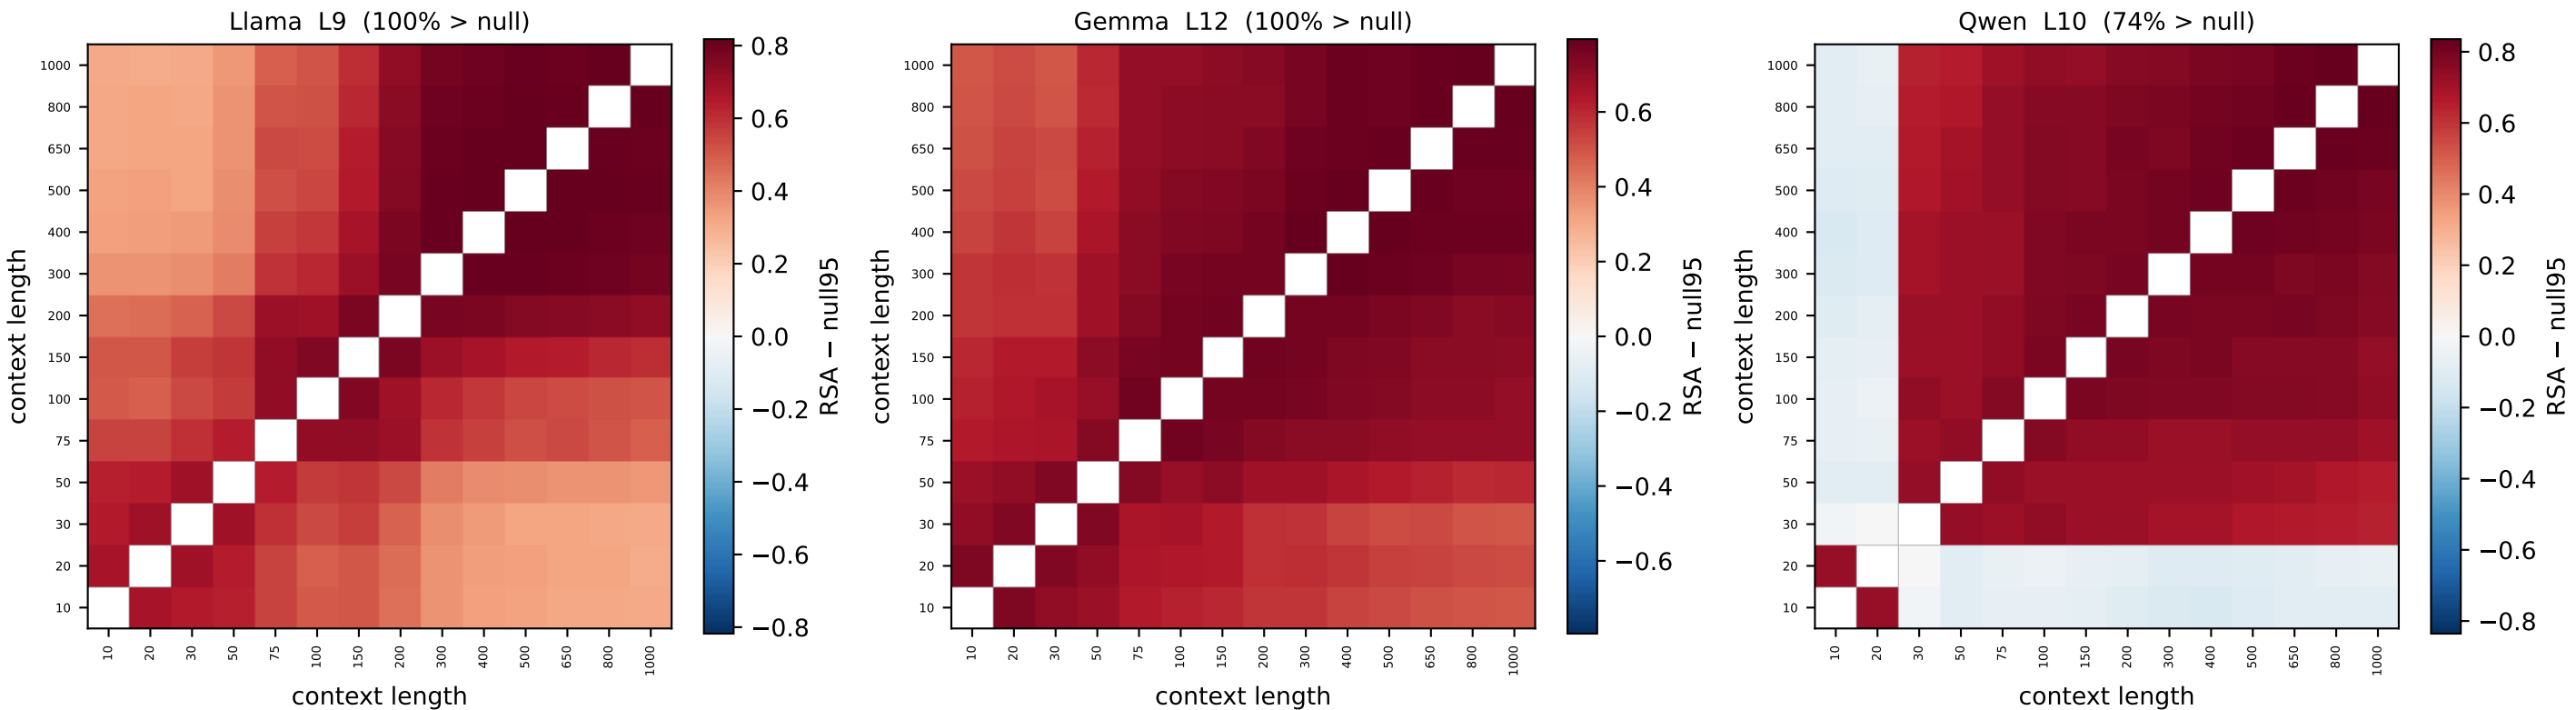

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.24
red = above chance (real)

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.27
red = above chance (real)

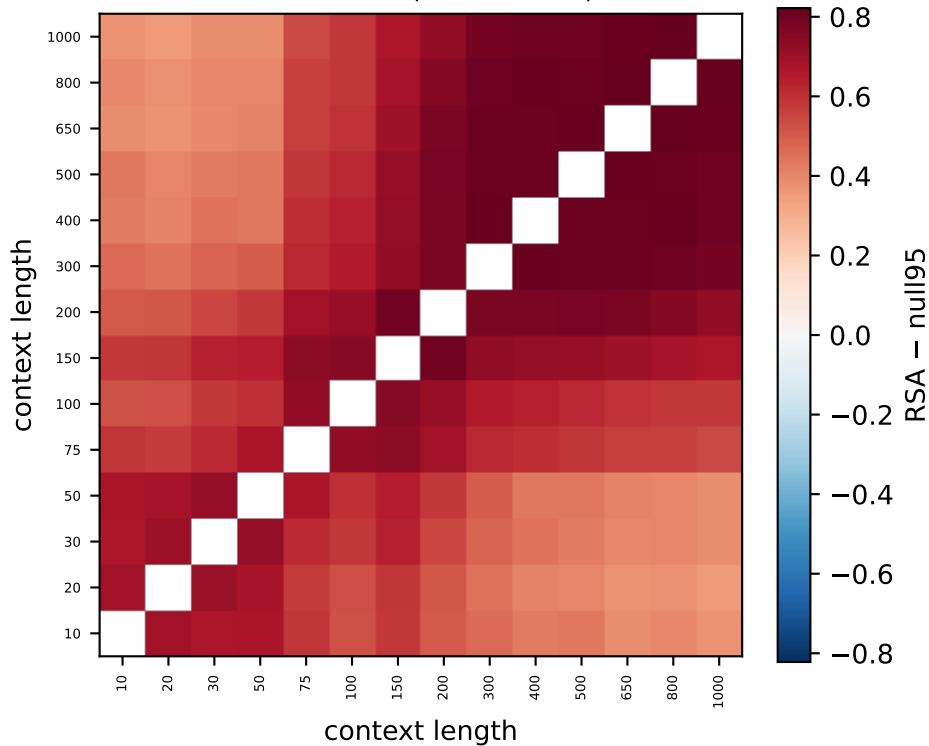

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.29
red = above chance (real)

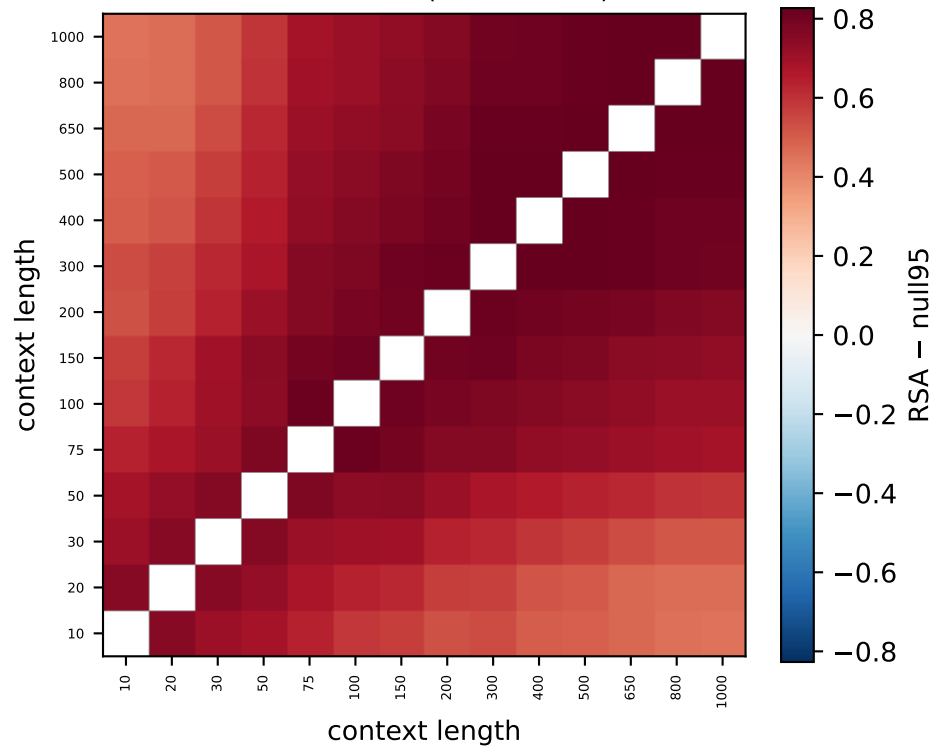

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.32
red = above chance (real)

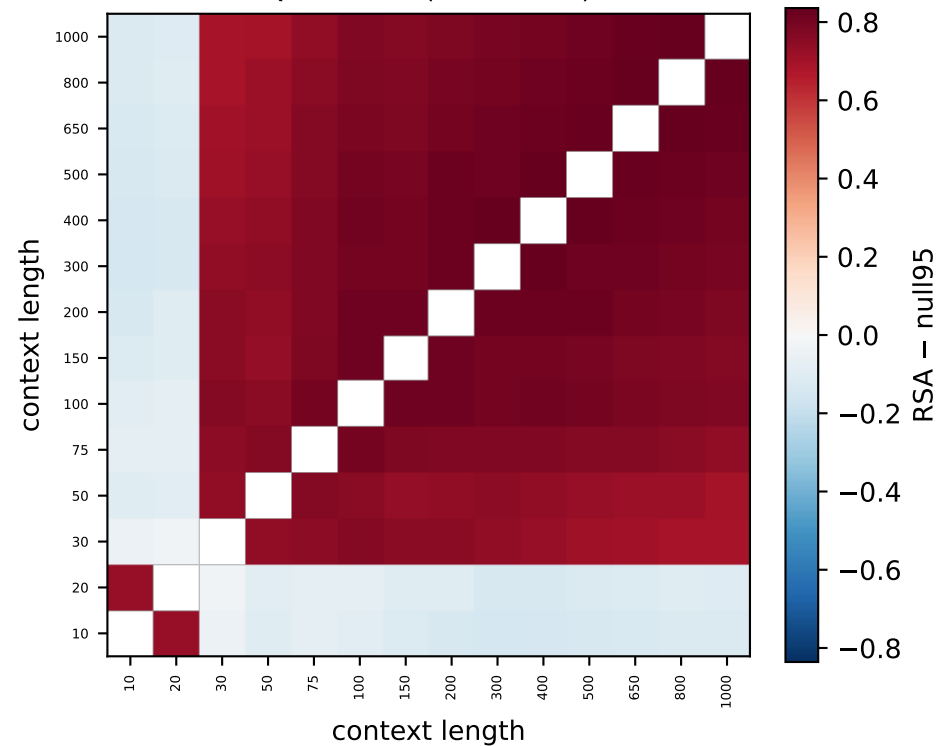

Llama L10 (100% > null)

Gemma L13 (100% > null)

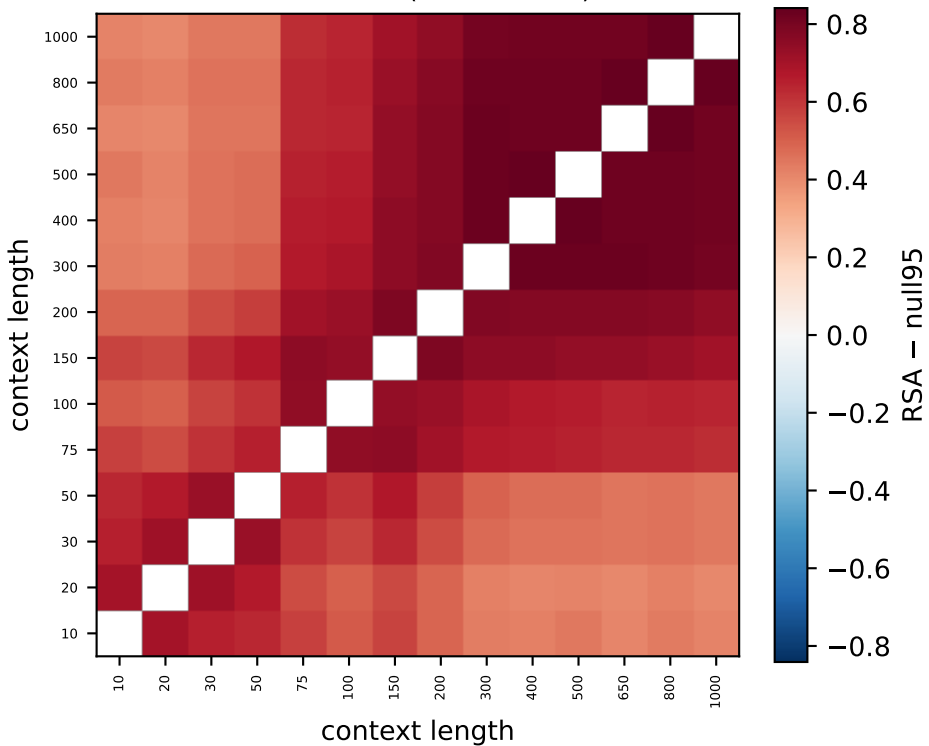

Qwen L11 (74% > null)

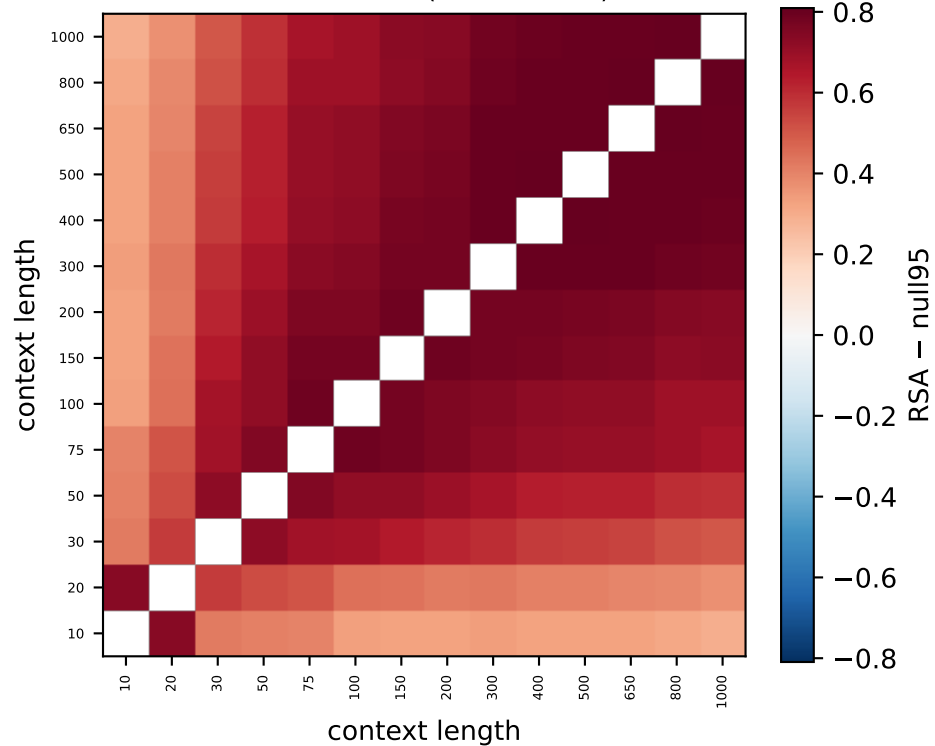

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.34
red = above chance (real)

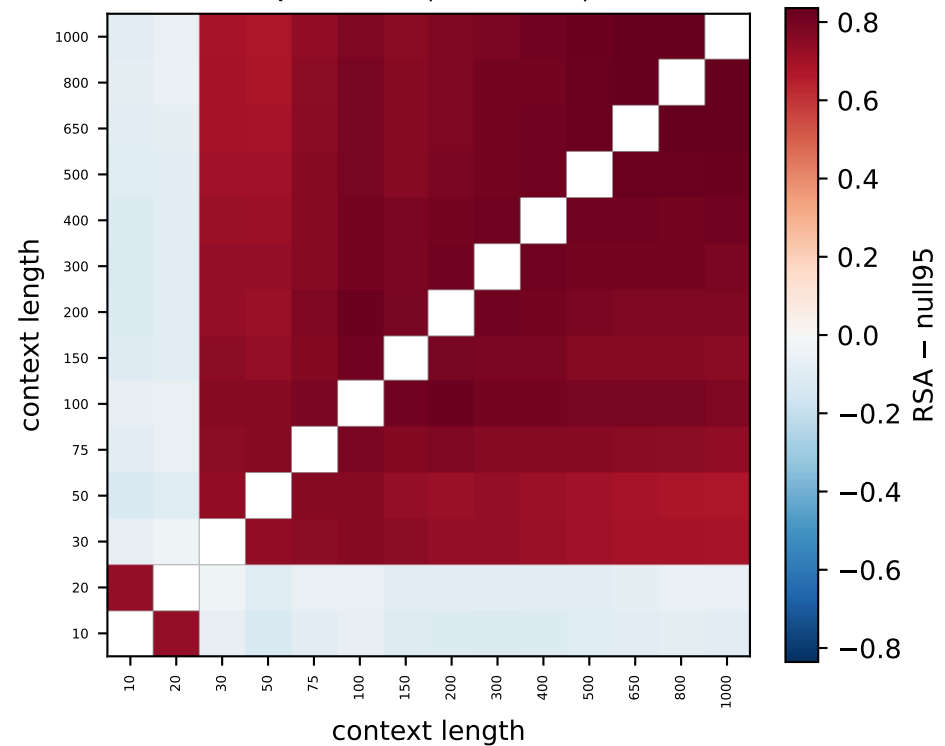

Llama L11 (100% > null)

Gemma L14 (100% > null)

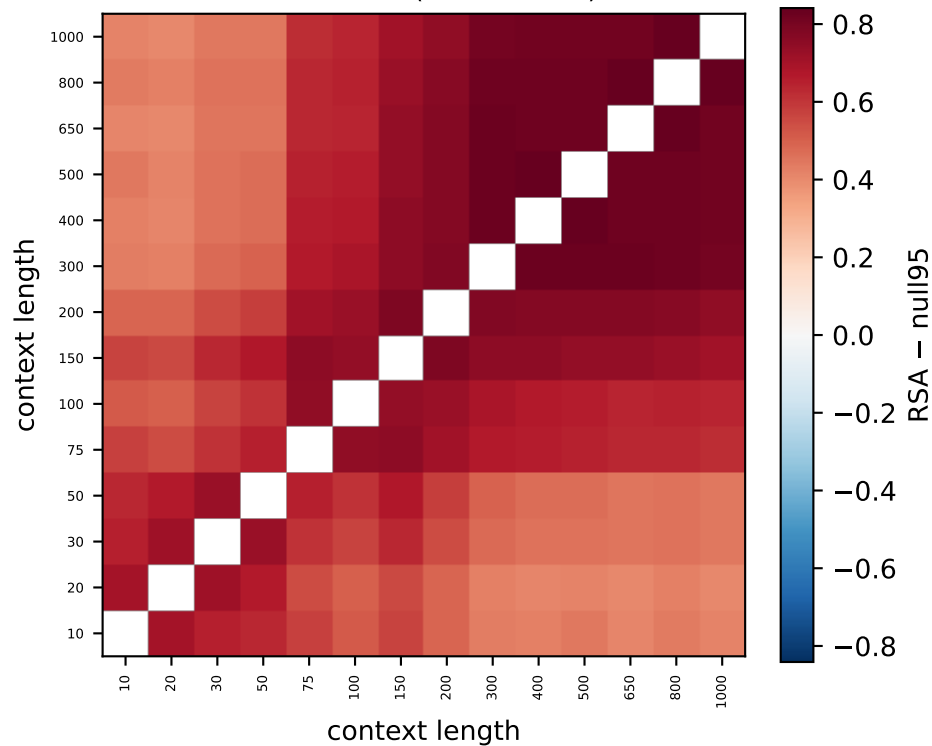

Qwen L12 (74% > null)

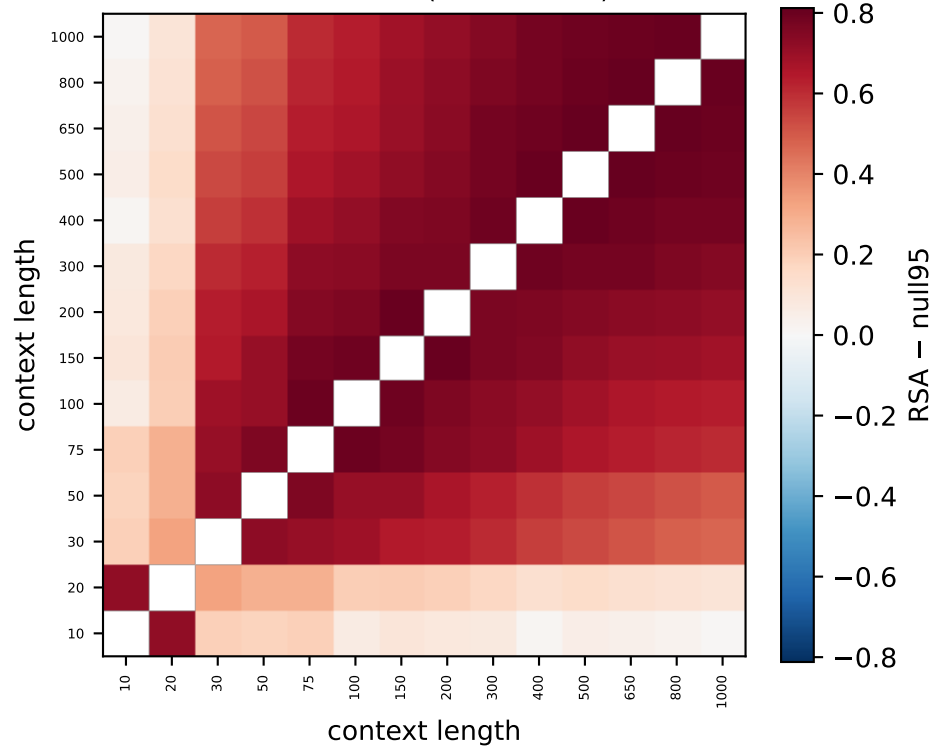

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.37
red = above chance (real)

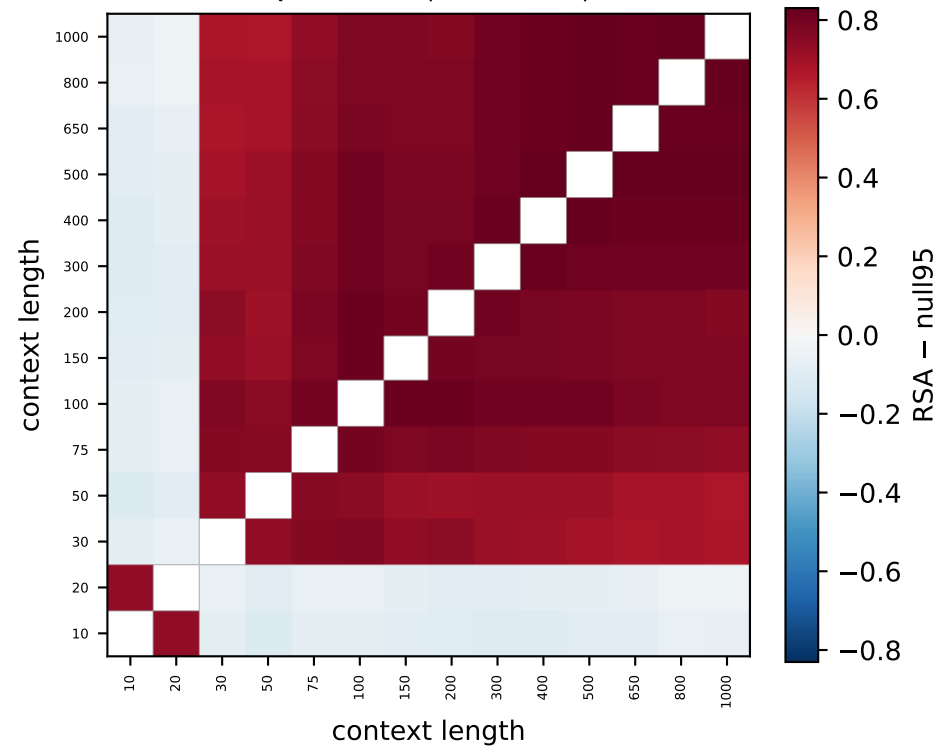

Llama L11 (100% > null)

Gemma L15 (100% > null)

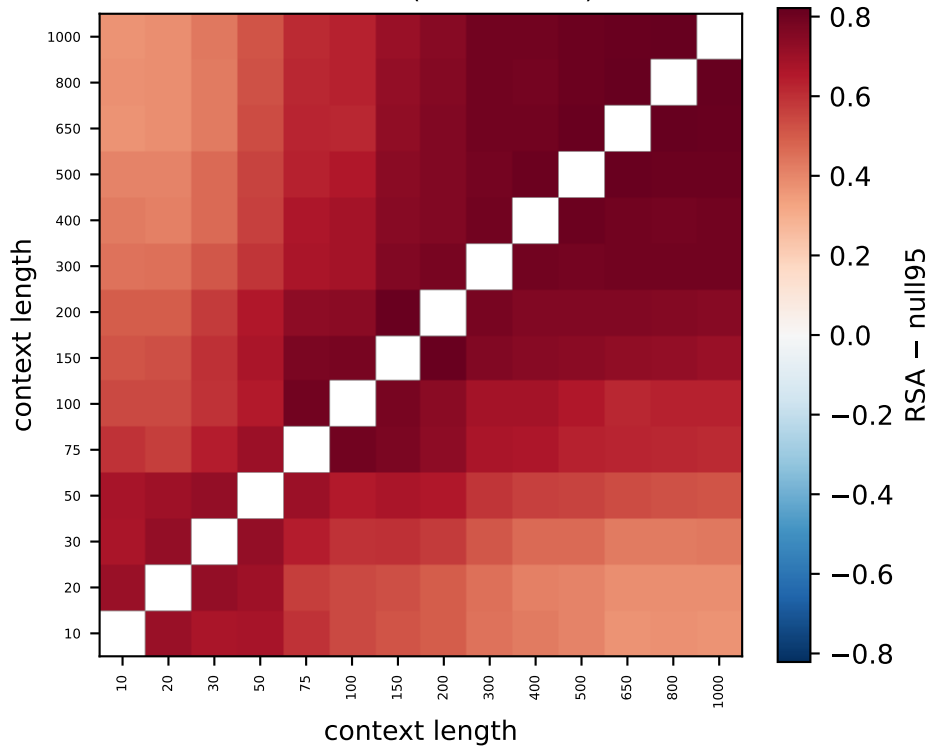

Qwen L13 (74% > null)

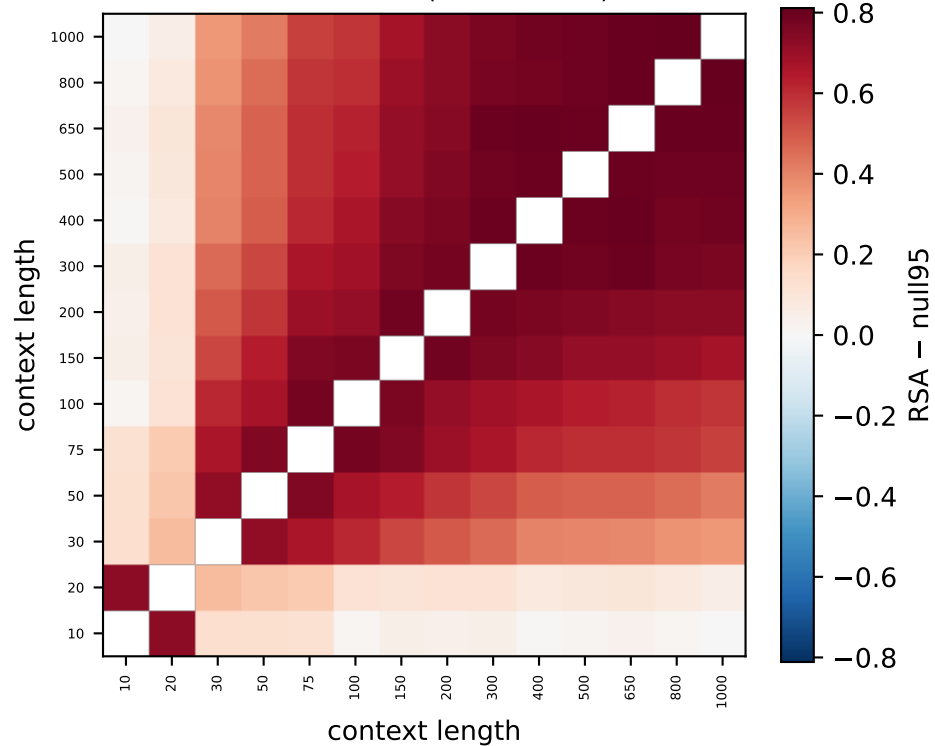

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.39
red = above chance (real)

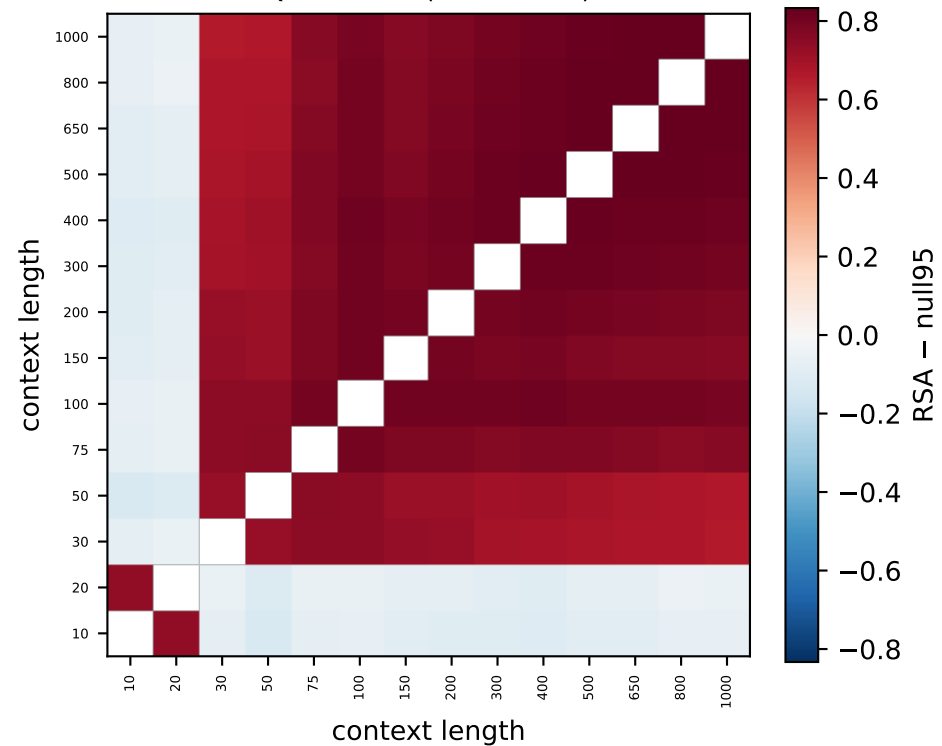

Llama L12 (100% > null)

Gemma L16 (100% > null)

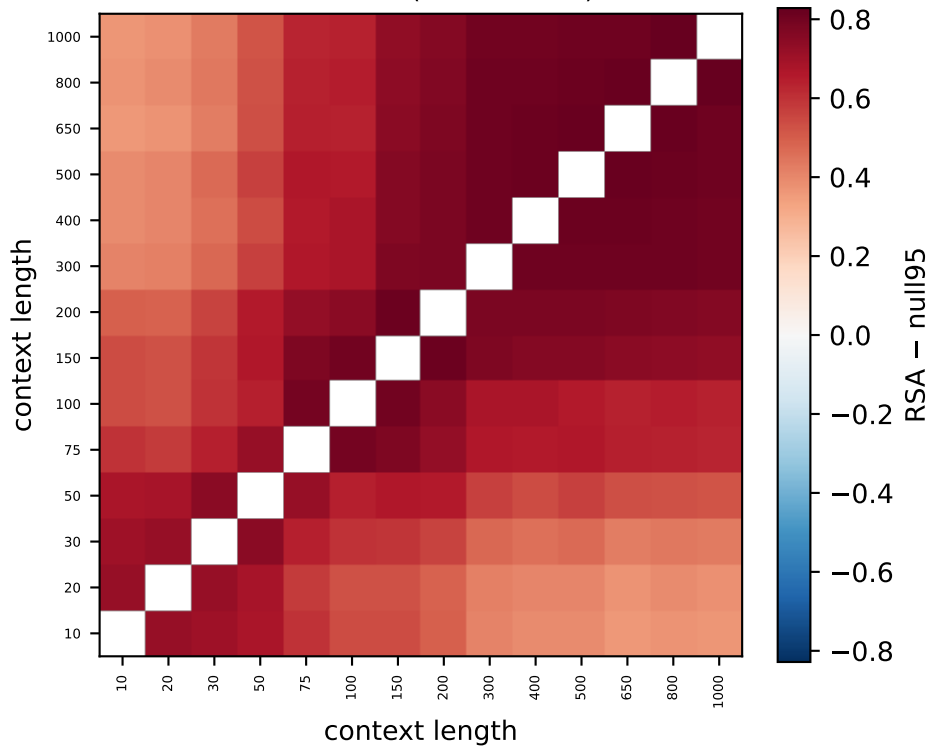

Qwen L14 (74% > null)

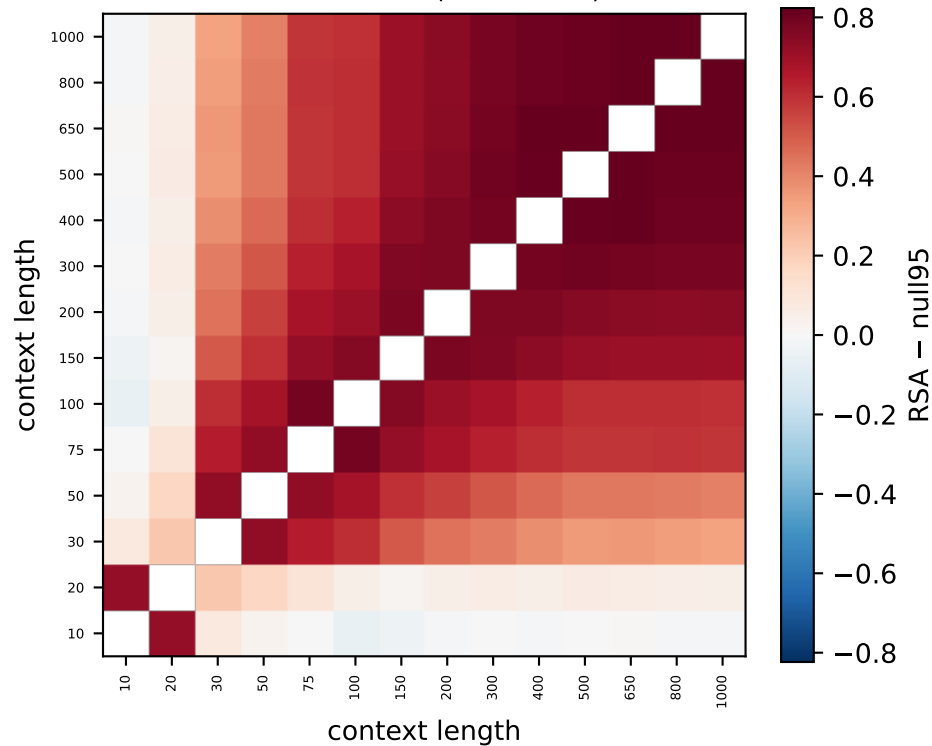

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.41
red = above chance (real)

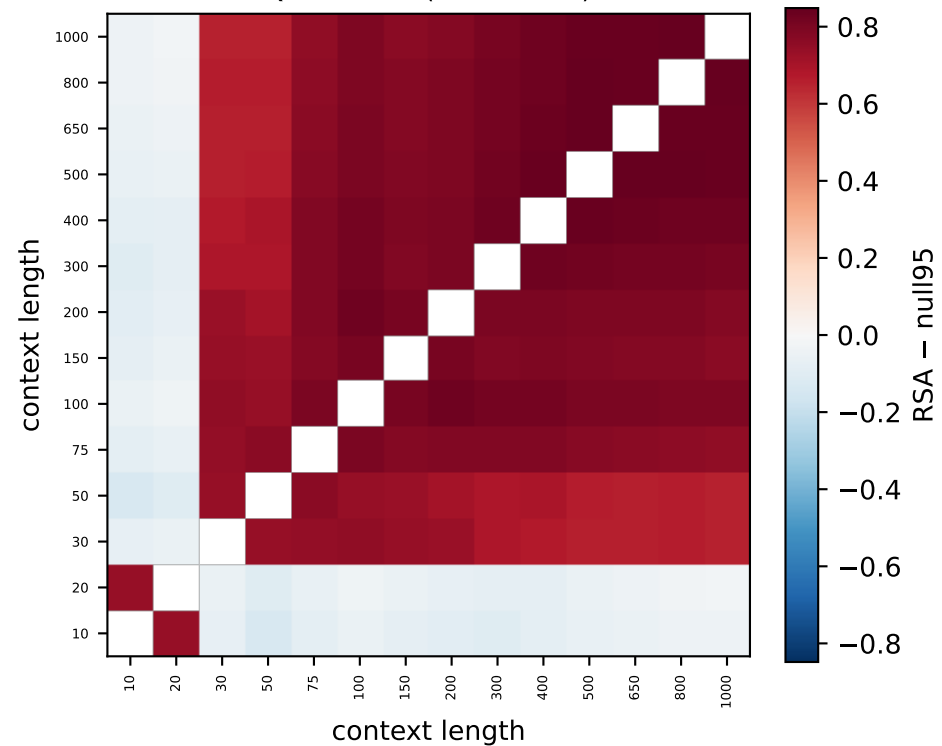

Llama L13 (100% > null)

Gemma L17 (93% > null)

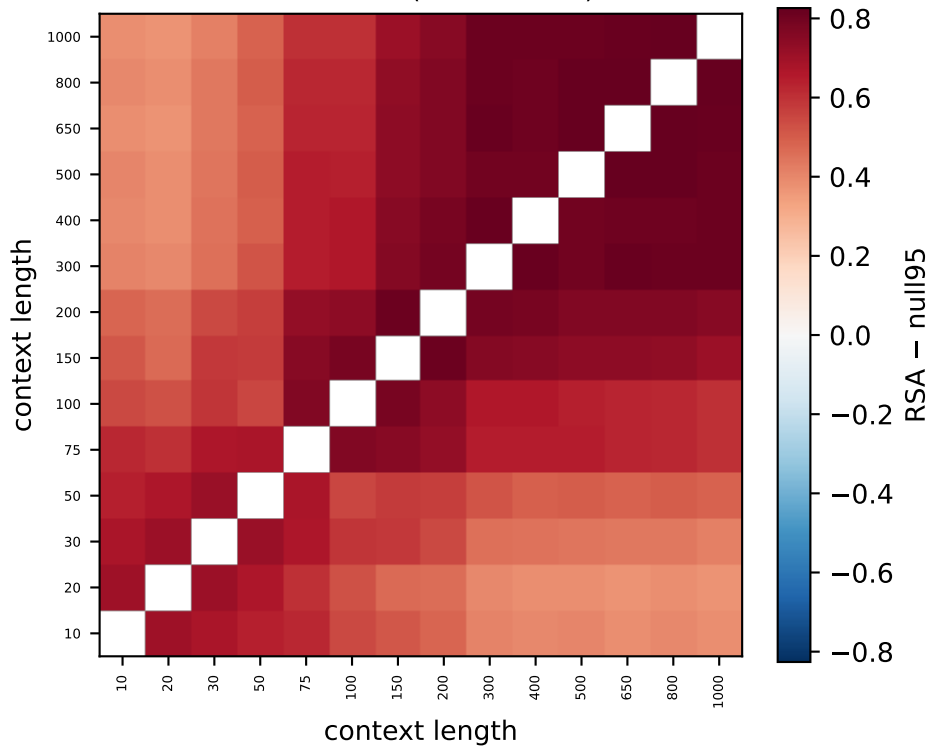

Qwen L15 (74% > null)

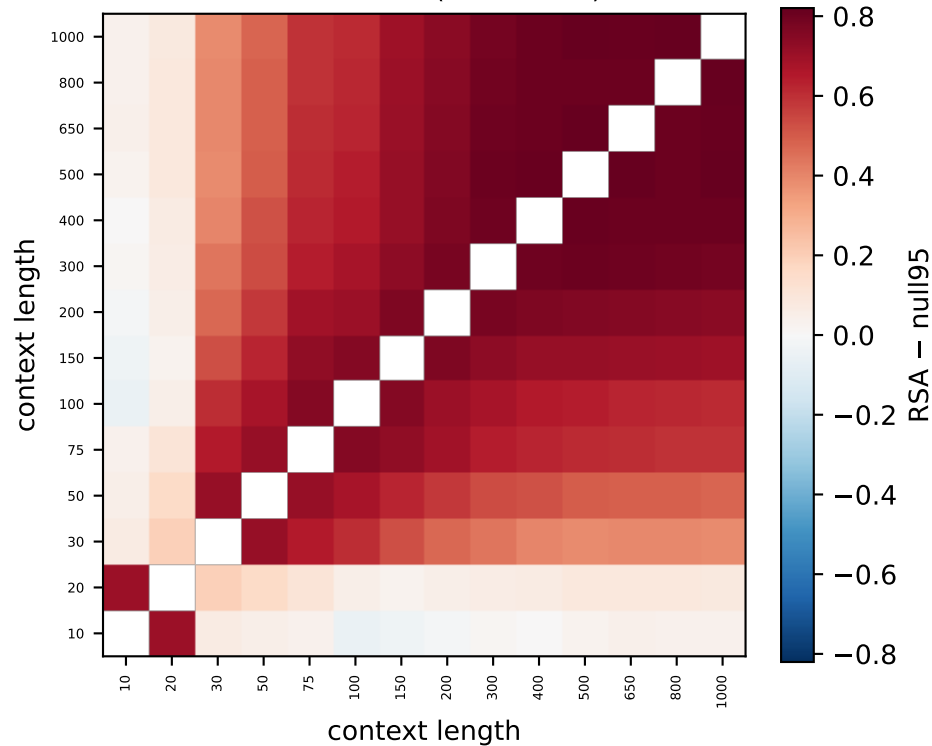

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.44
red = above chance (real)

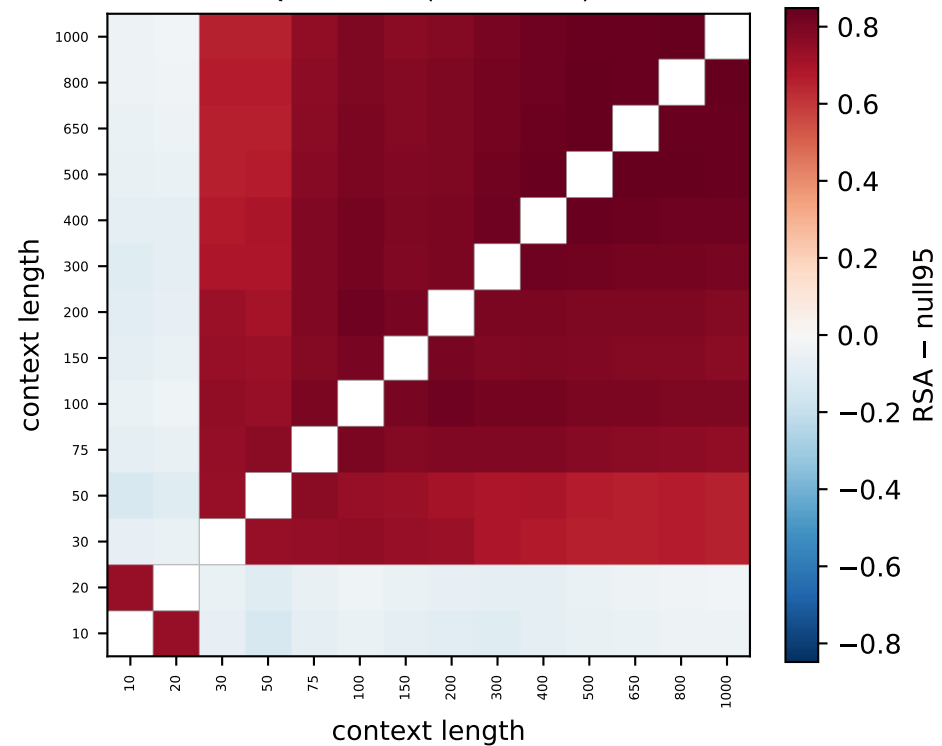

Llama L14 (100% > null)

Gemma L18 (97% > null)

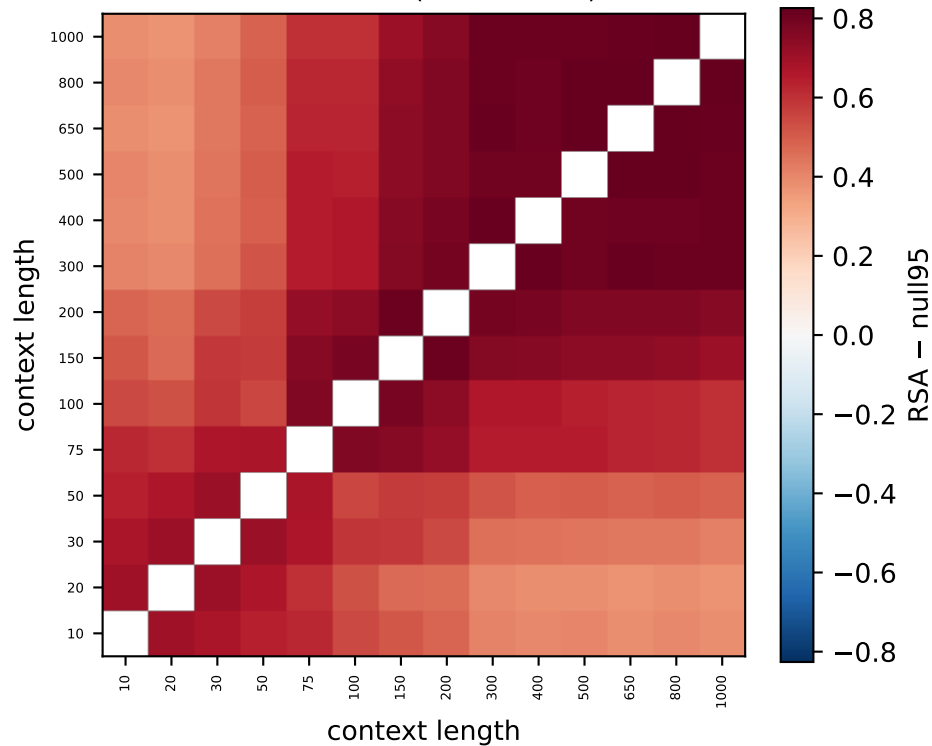

Qwen L15 (74% > null)

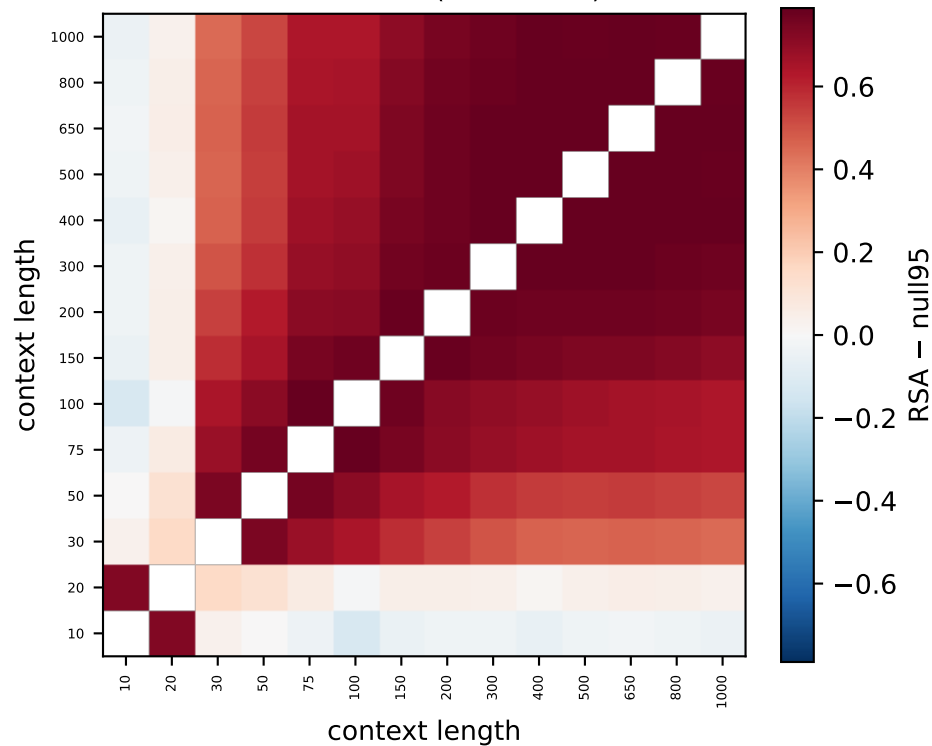

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.46
red = above chance (real)

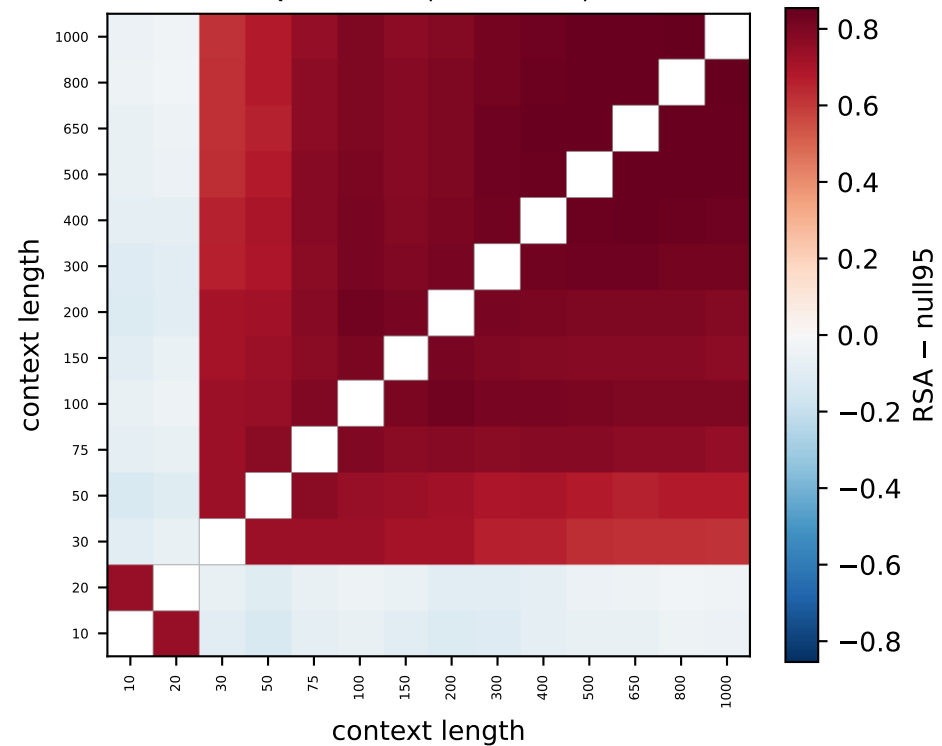

Llama L14 (100% > null)

Gemma L19 (88% > null)

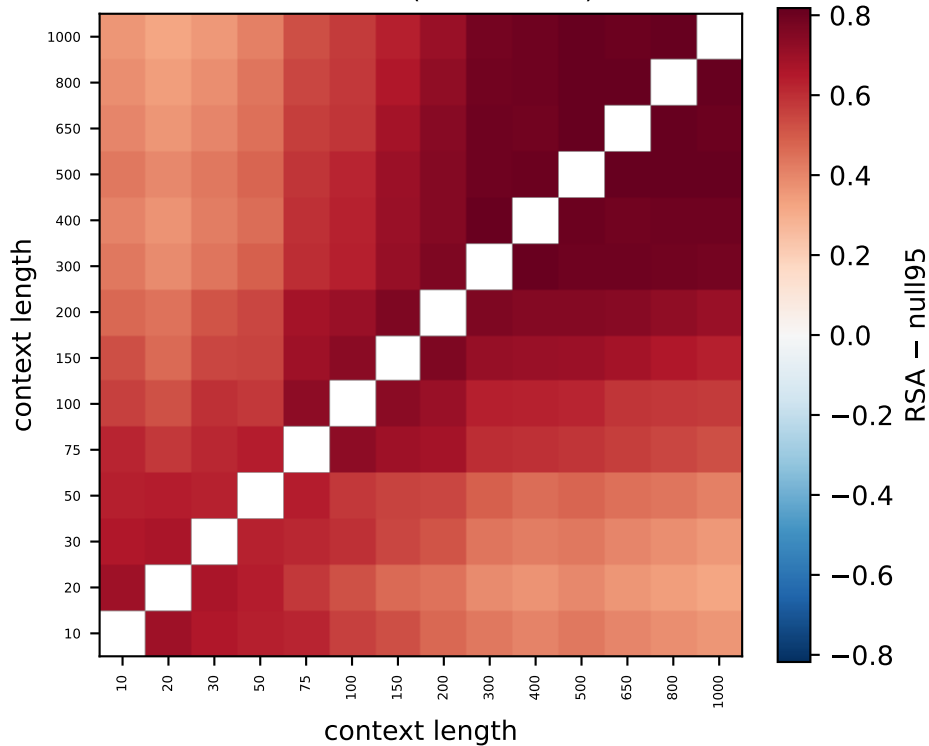

Qwen L16 (74% > null)

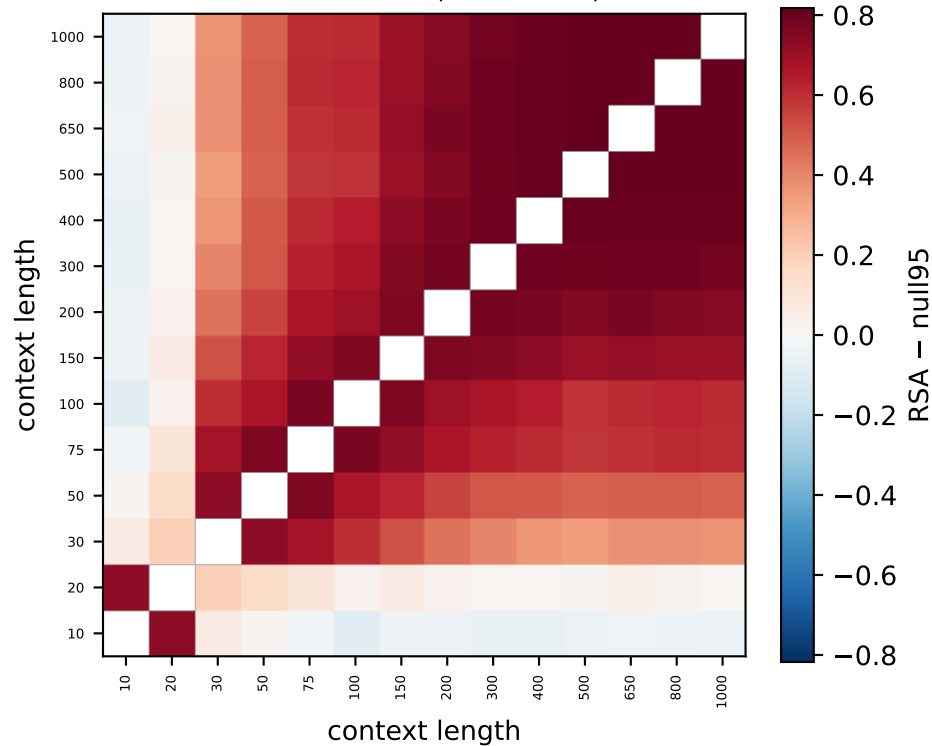

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.49
red = above chance (real)

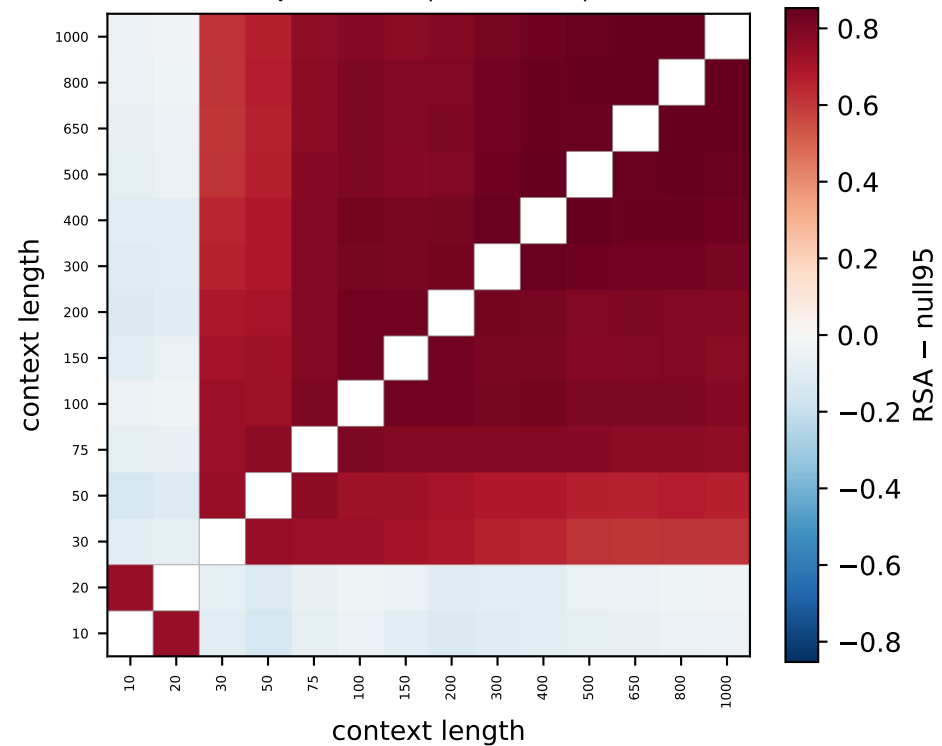

Llama L15 (100% > null)

Gemma L20 (89% > null)

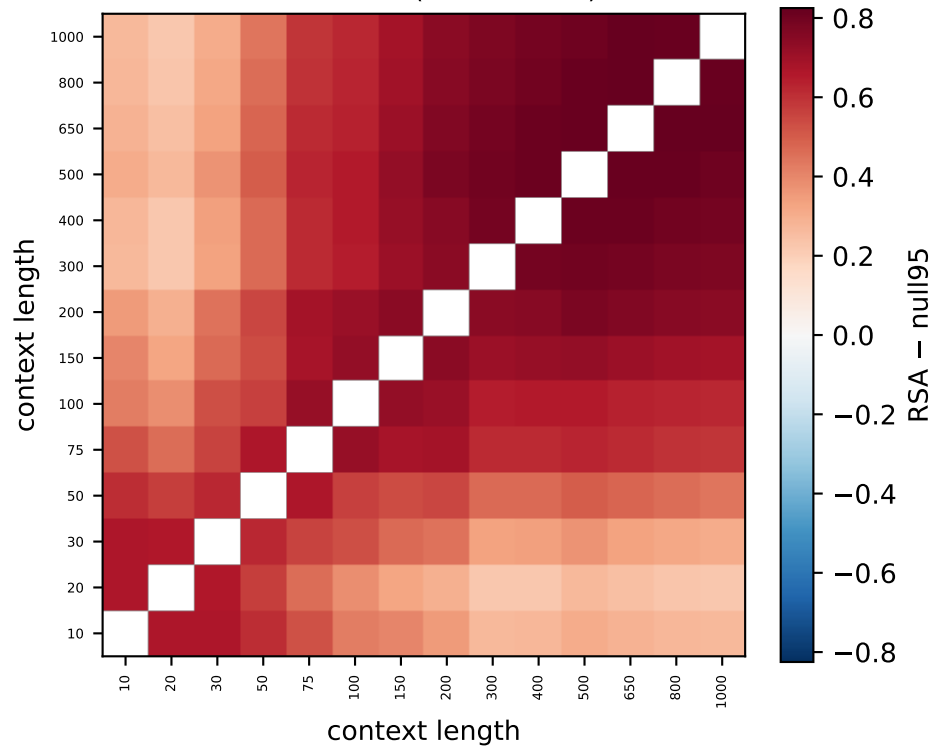

Qwen L17 (74% > null)

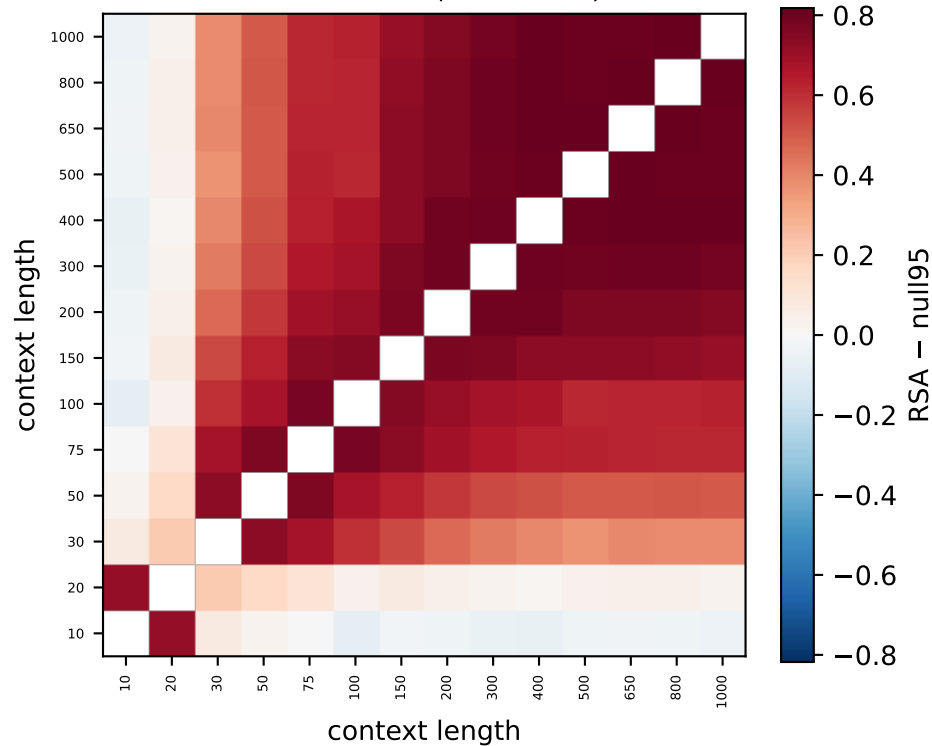

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.51
red = above chance (real)

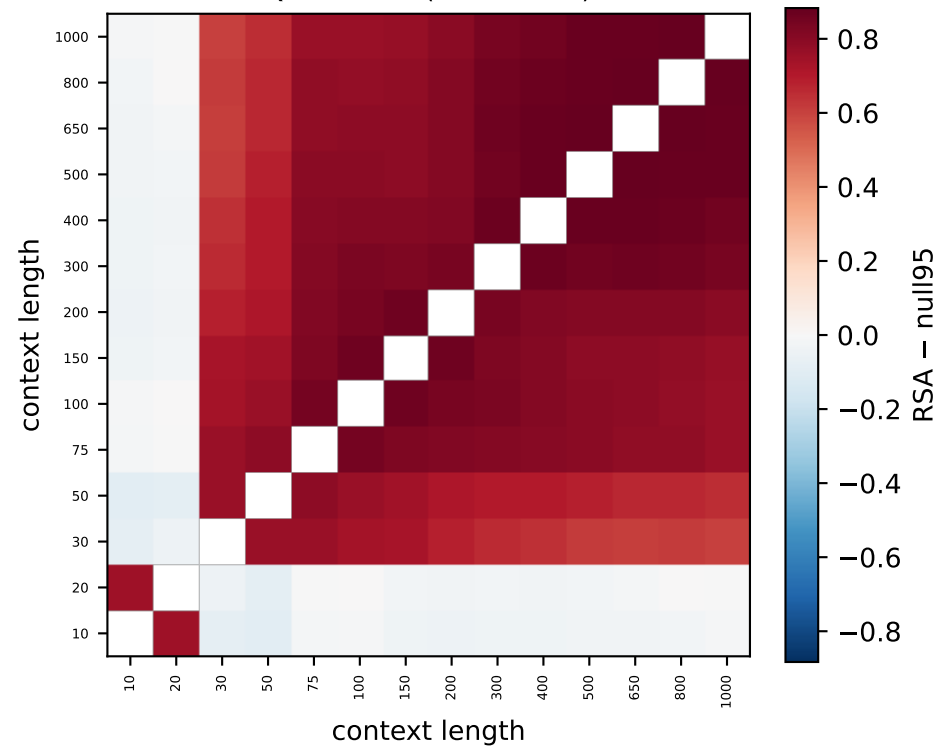

Llama L16 (100% > null)

Gemma L21 (90% > null)

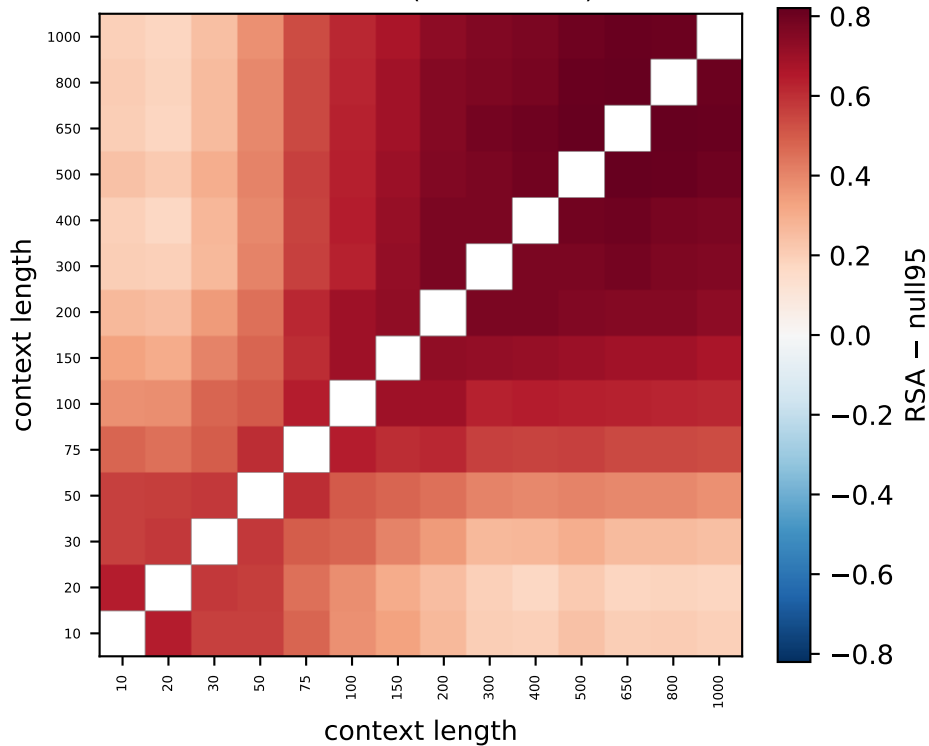

Qwen L18 (76% > null)

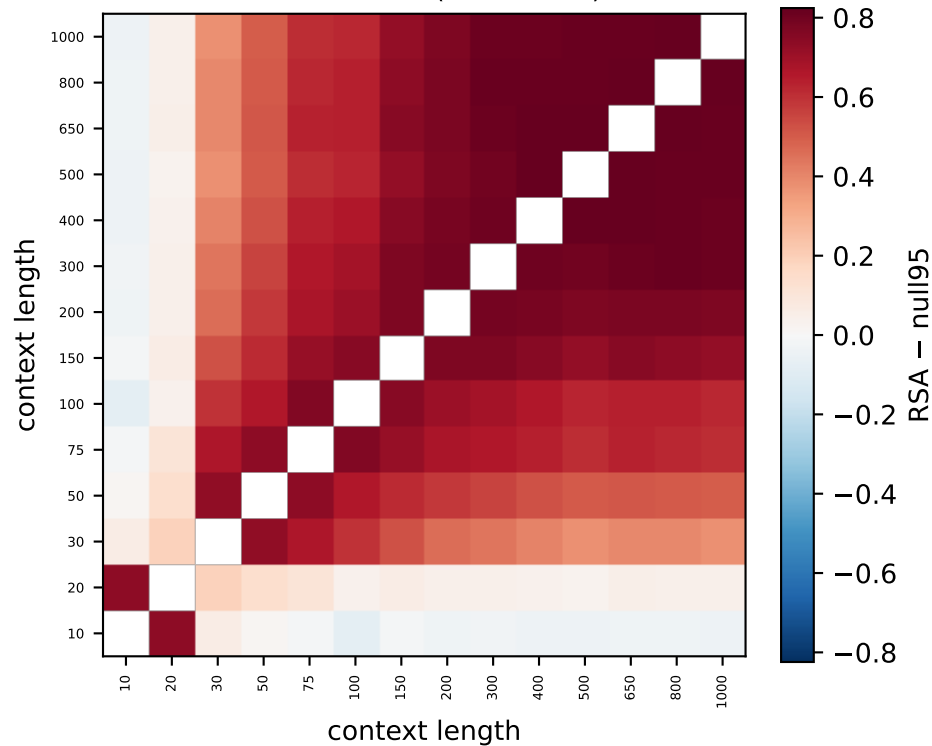

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.54
red = above chance (real)

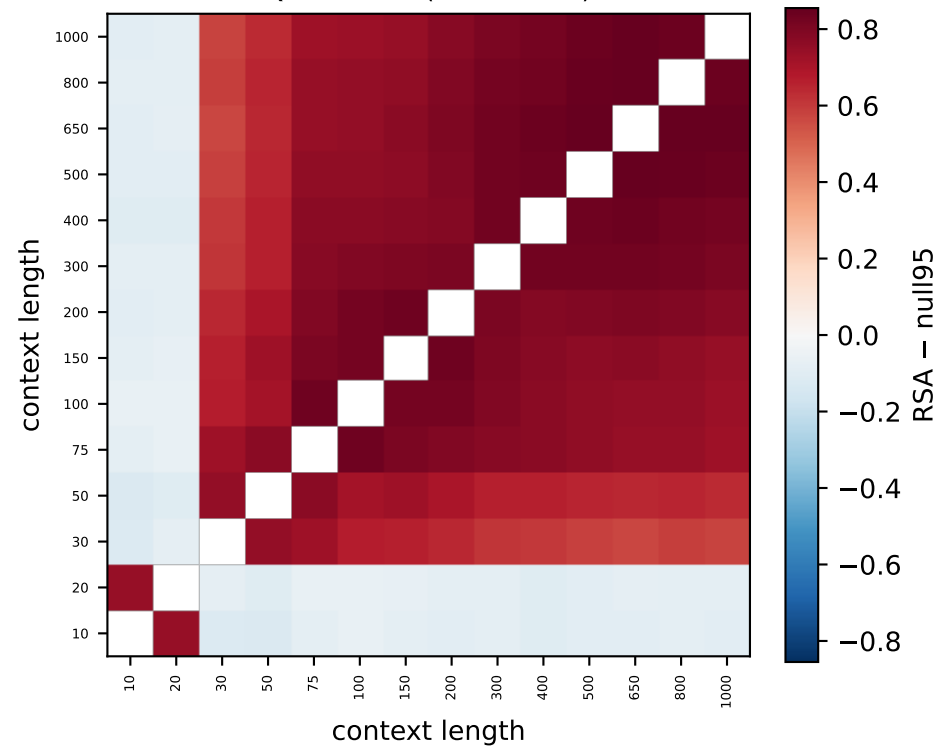

Llama L17 (100% > null)

Gemma L22 (89% > null)

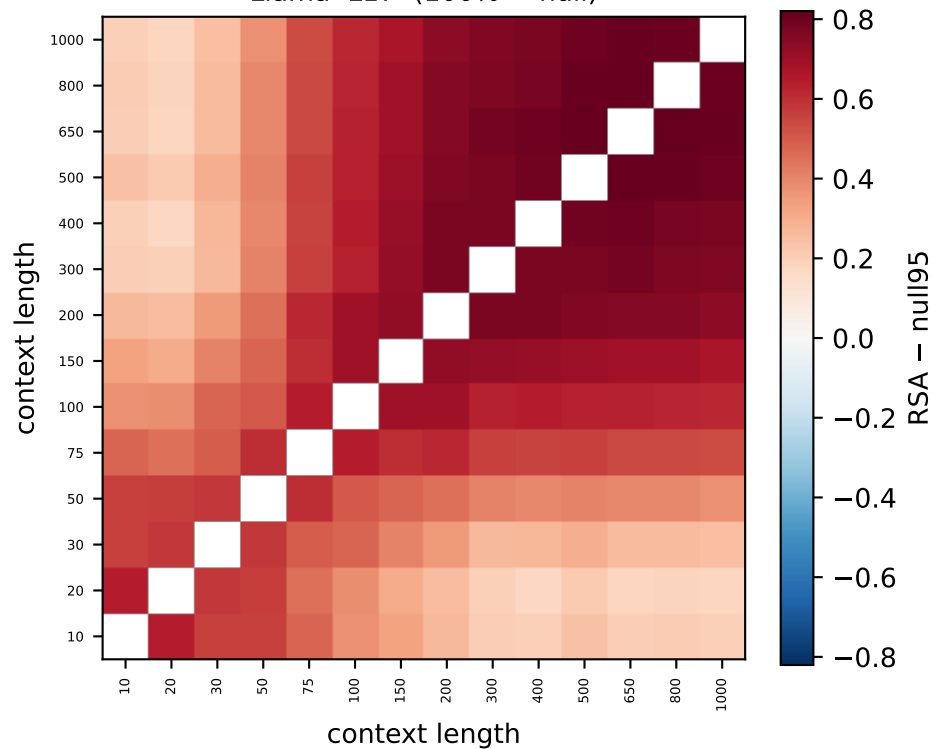

Qwen L19 (74% > null)

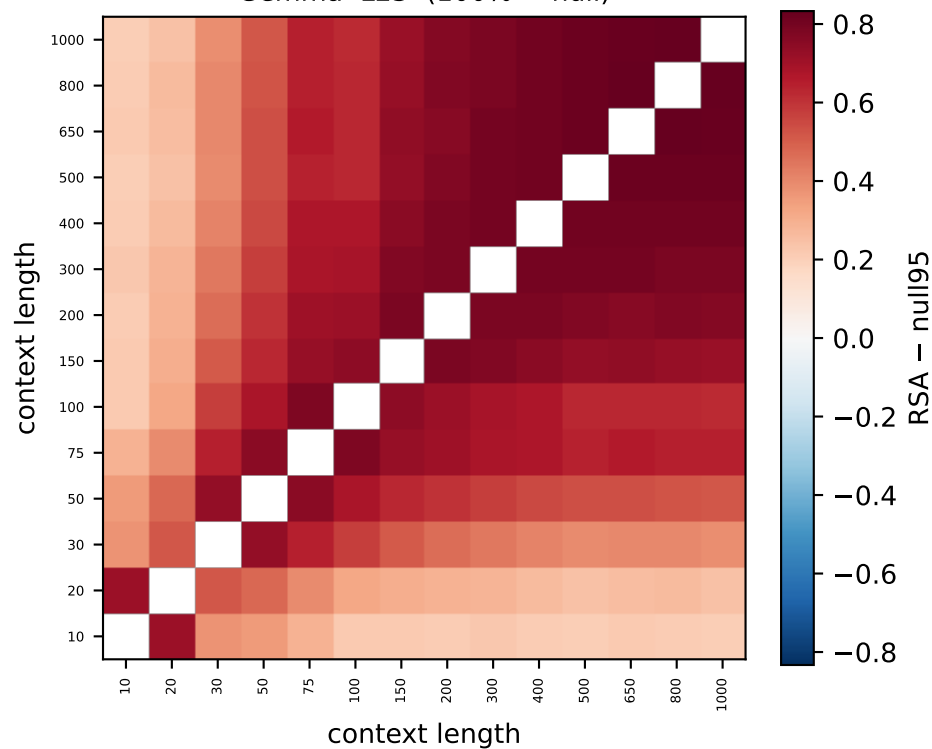

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.56
red = above chance (real)

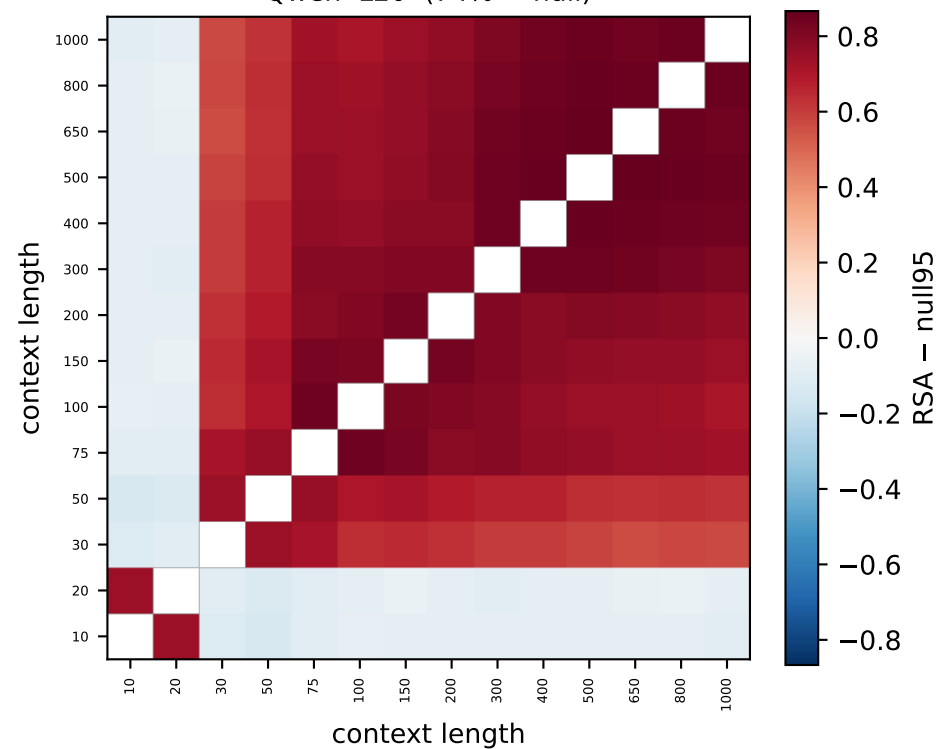

Llama L17 (100% > null)

Gemma L23 (100% > null)

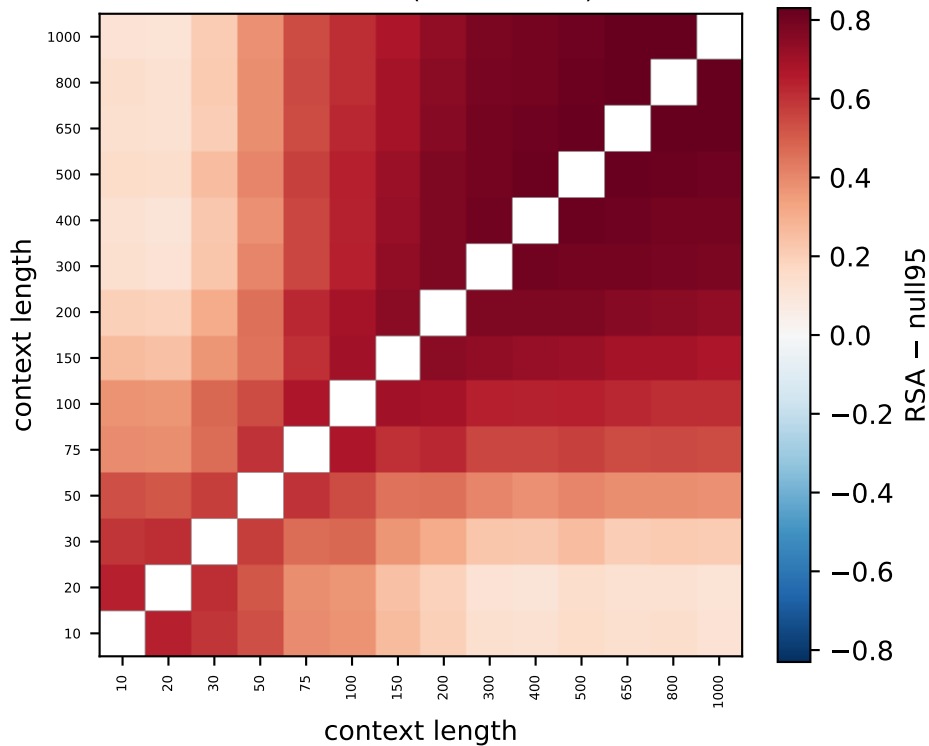

Qwen L20 (74% > null)

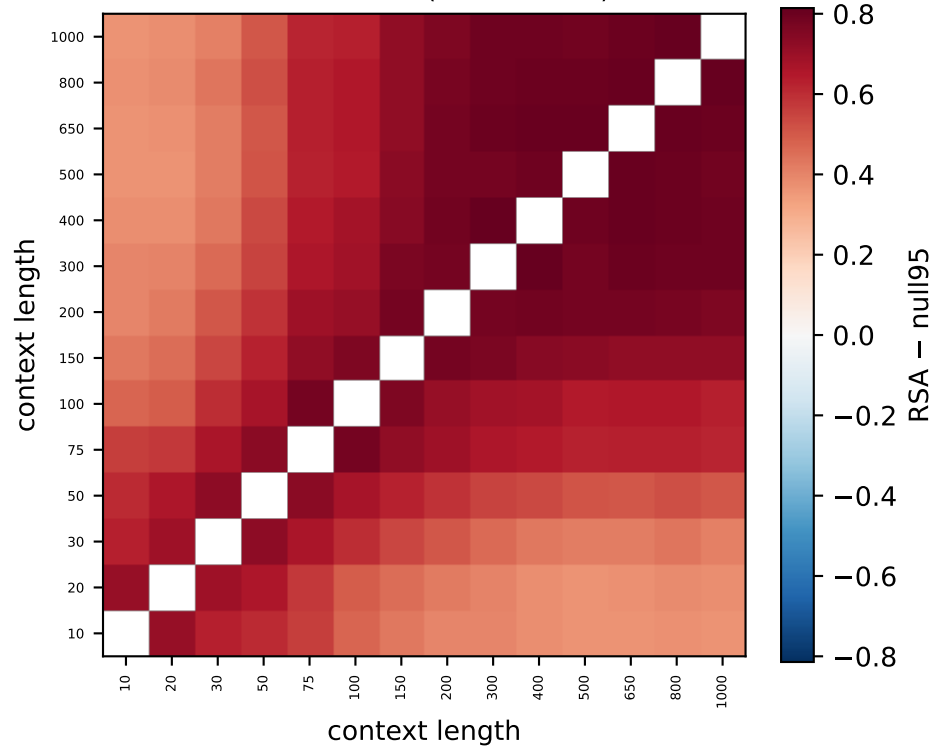

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.59
red = above chance (real)

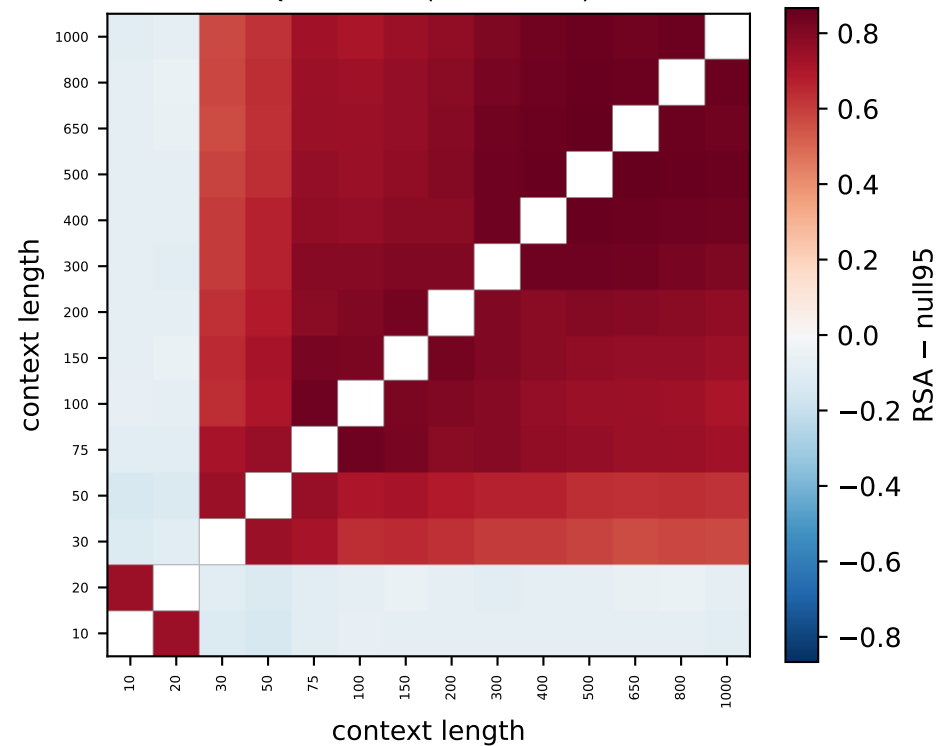

Llama L18 (100% > null)

Gemma L24 (100% > null)

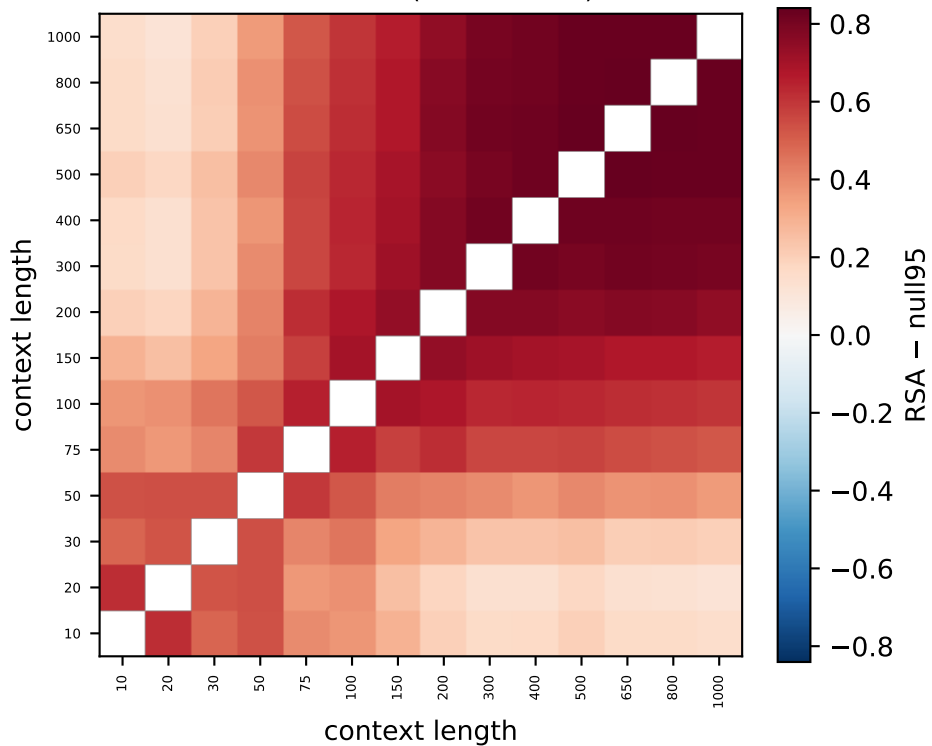

Qwen L20 (74% > null)

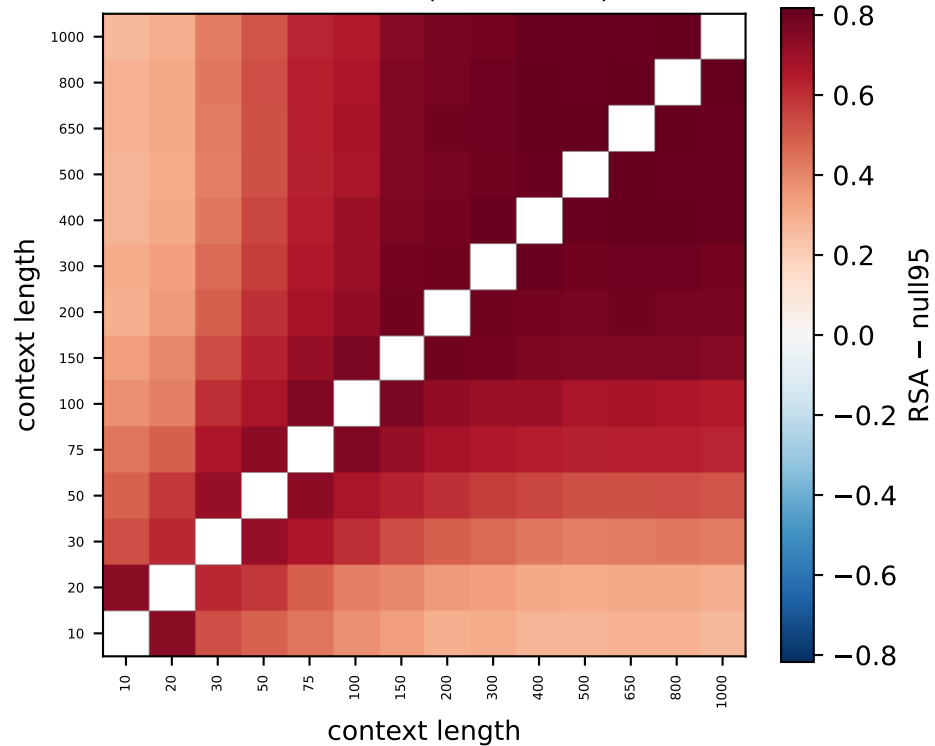

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.61
red = above chance (real)

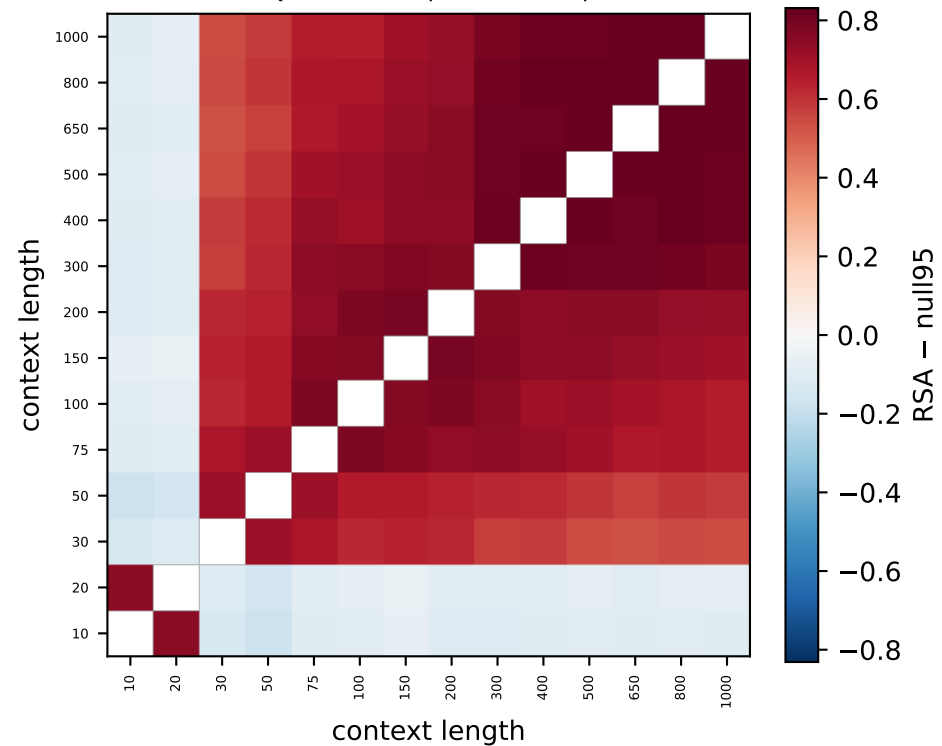

Llama L19 (100% > null)

Gemma L25 (100% > null)

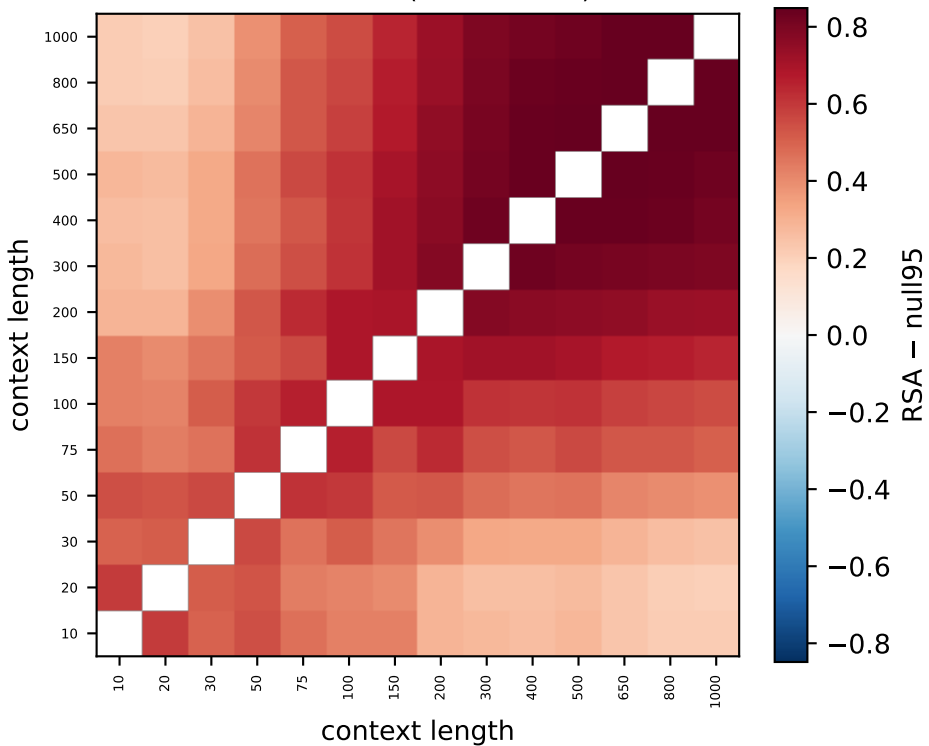

Qwen L21 (74% > null)

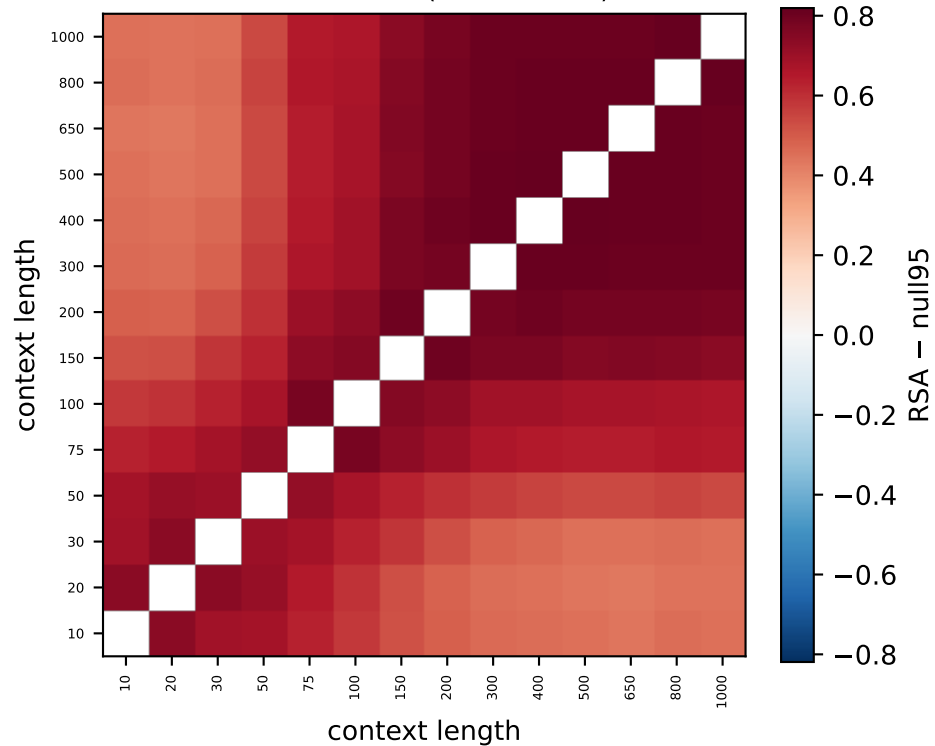

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.63
red = above chance (real)

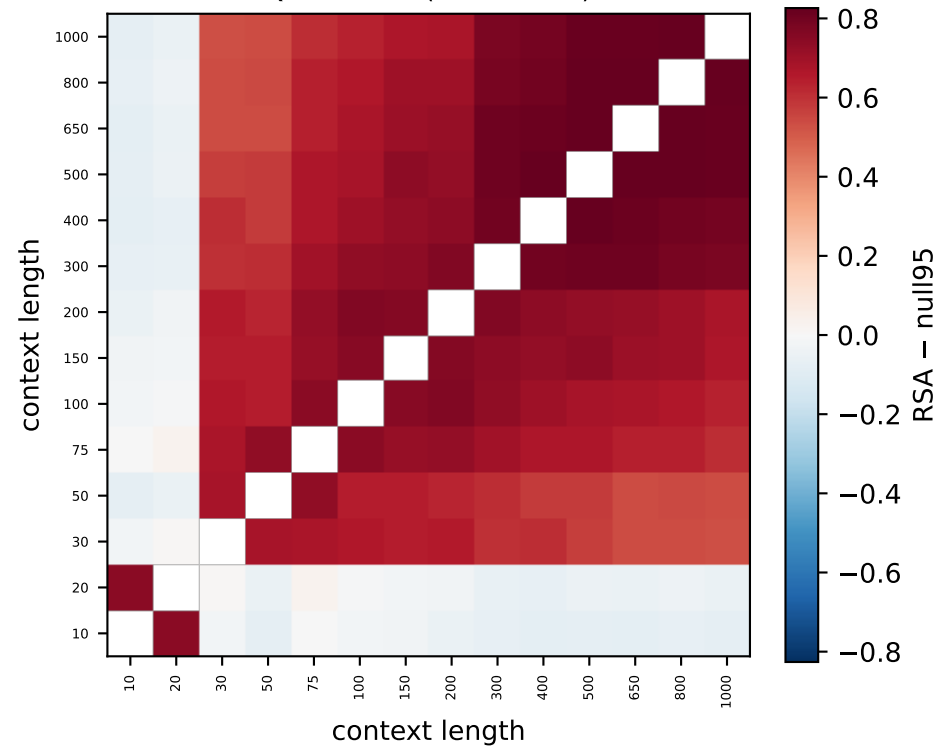

Llama L20 (100% > null)

Gemma L26 (100% > null)

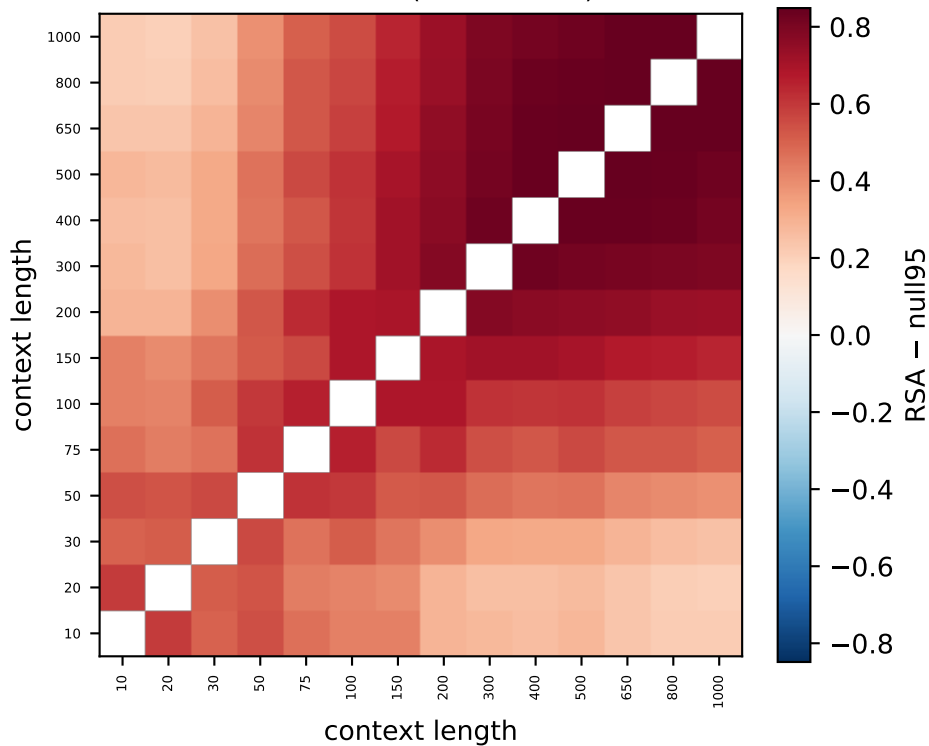

Qwen L22 (76% > null)

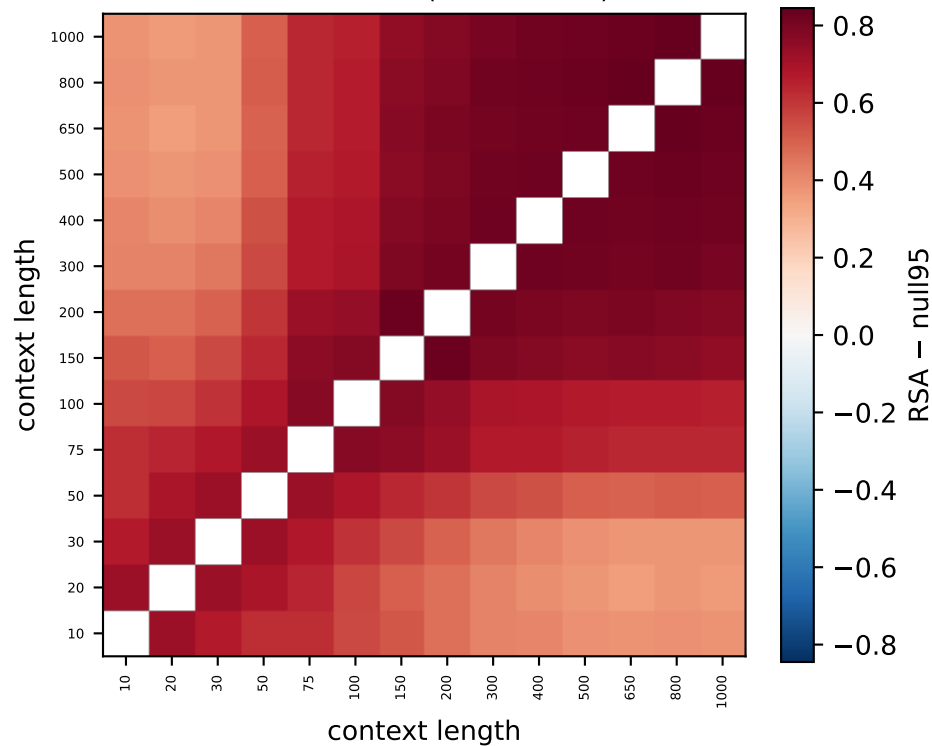

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.66
red = above chance (real)

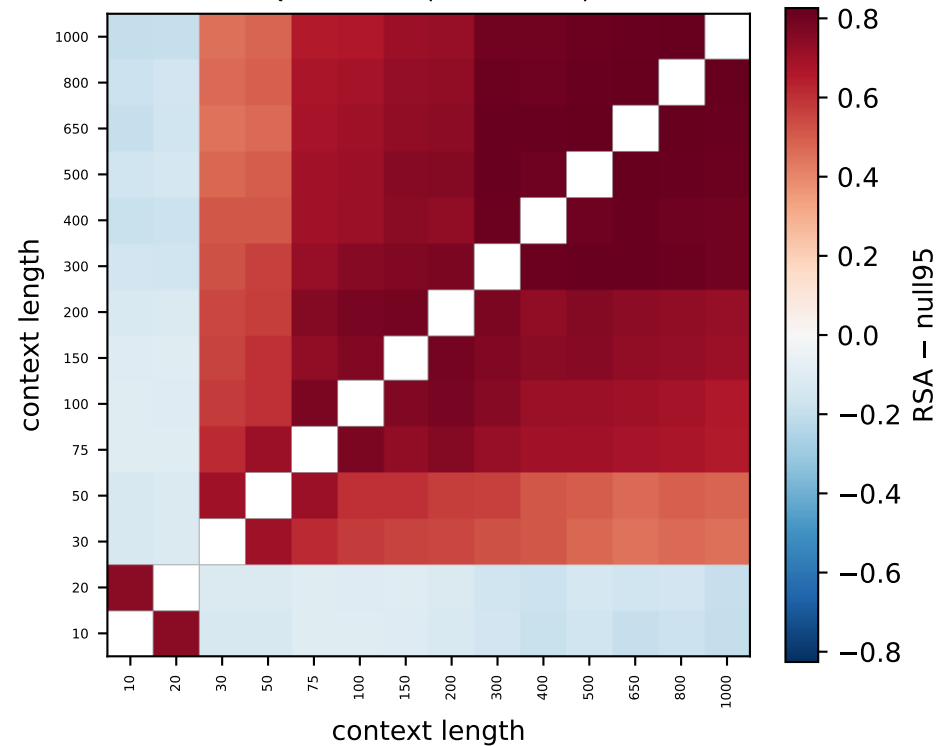

Llama L20 (100% > null)

Gemma L27 (100% > null)

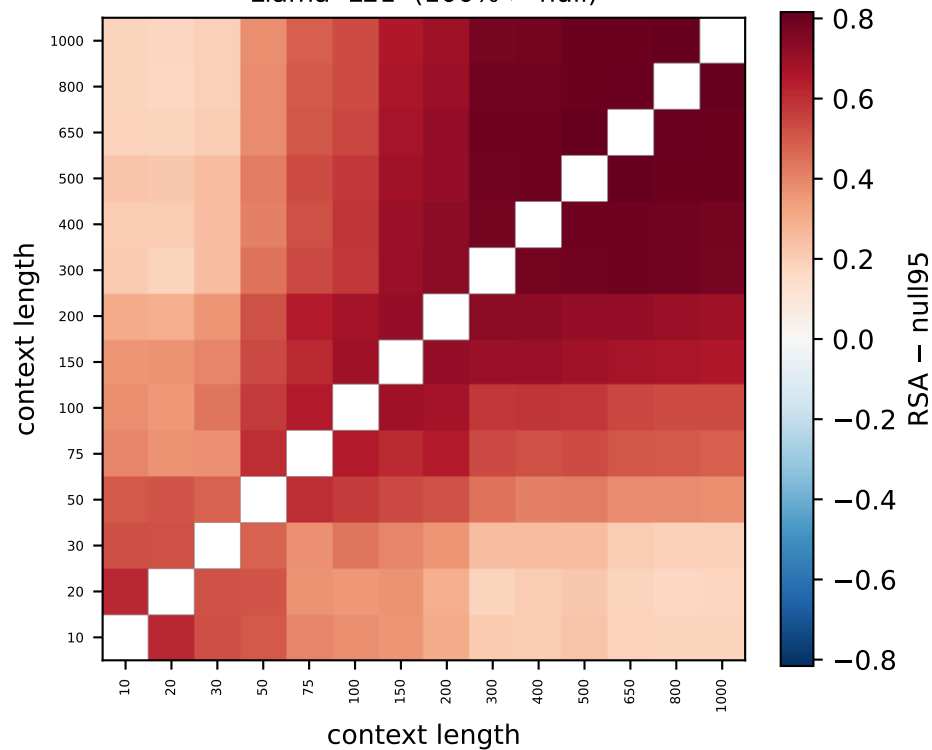

Qwen L23 (74% > null)

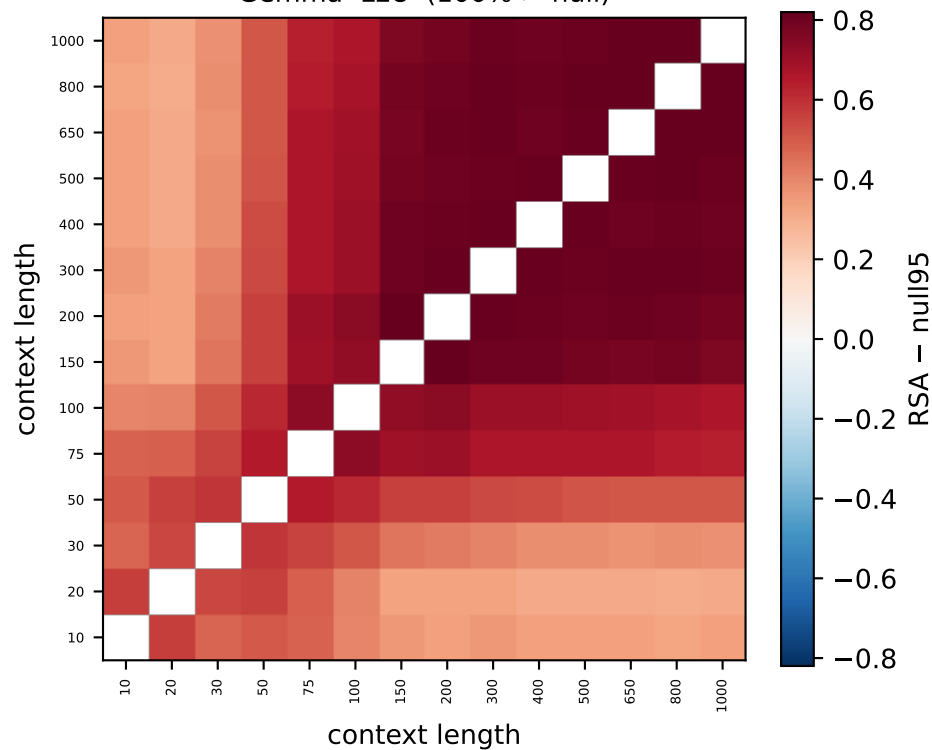

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.68
red = above chance (real)

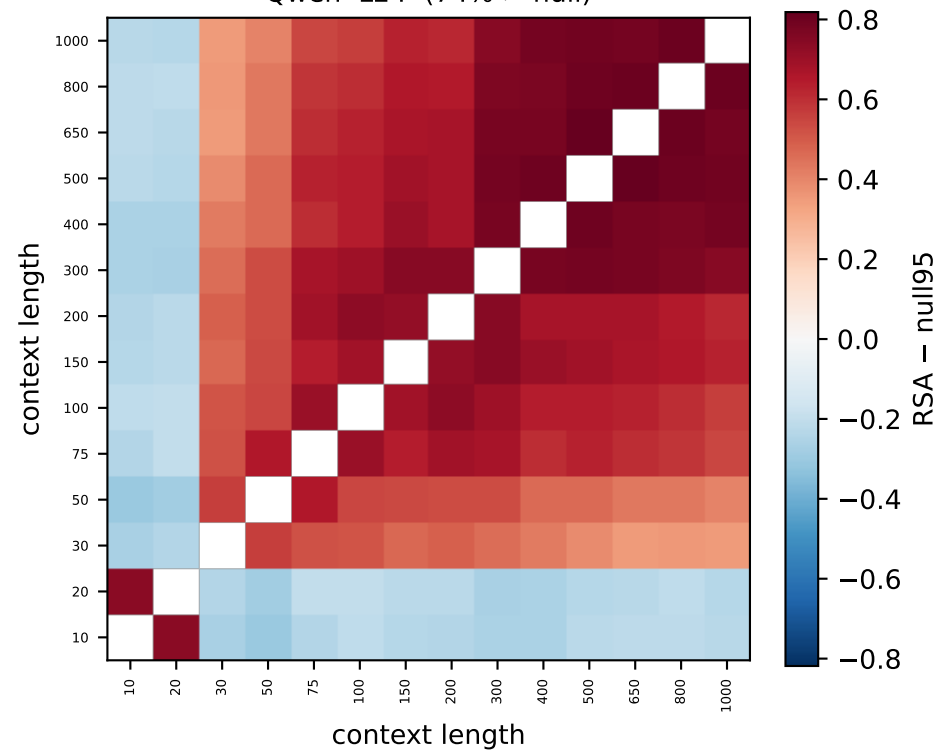

Llama L21 (100% > null)

Gemma L28 (100% > null)

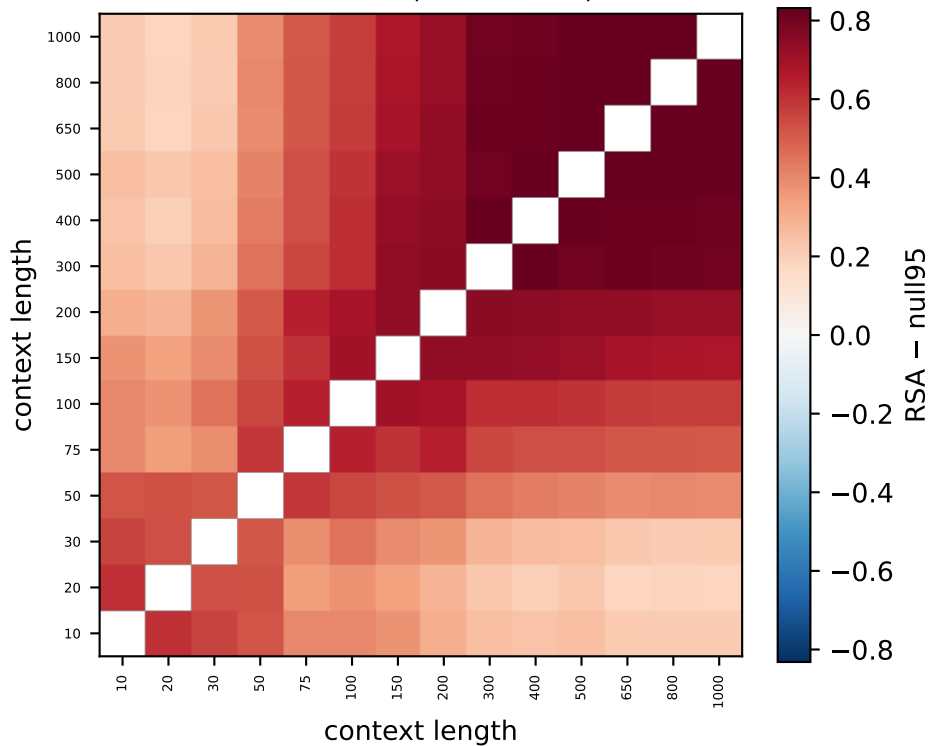

Qwen L24 (74% > null)

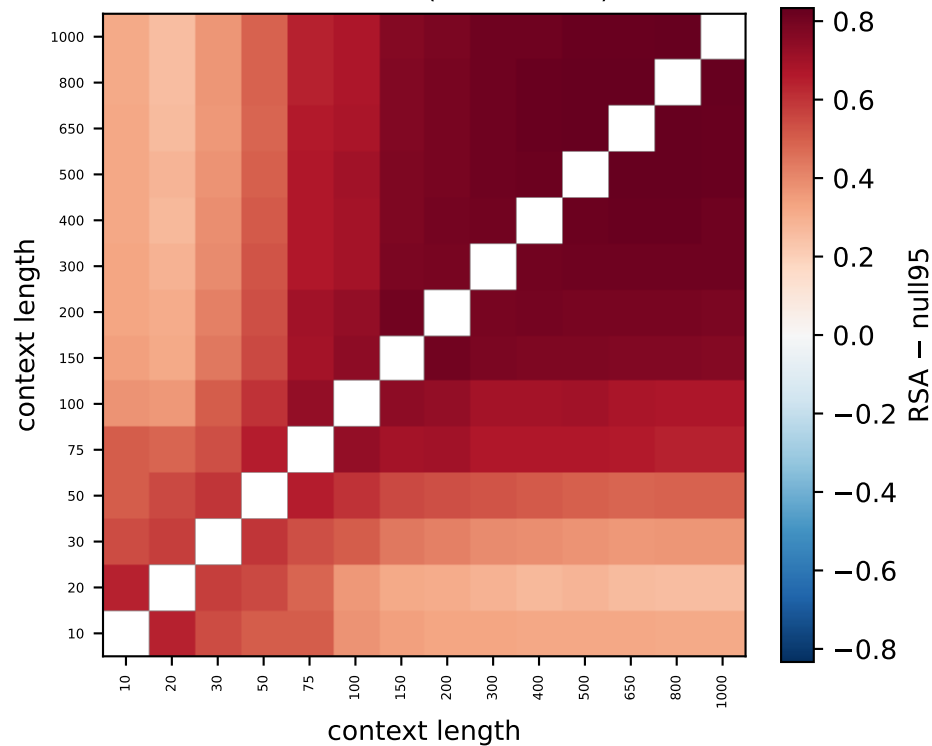

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.71
red = above chance (real)

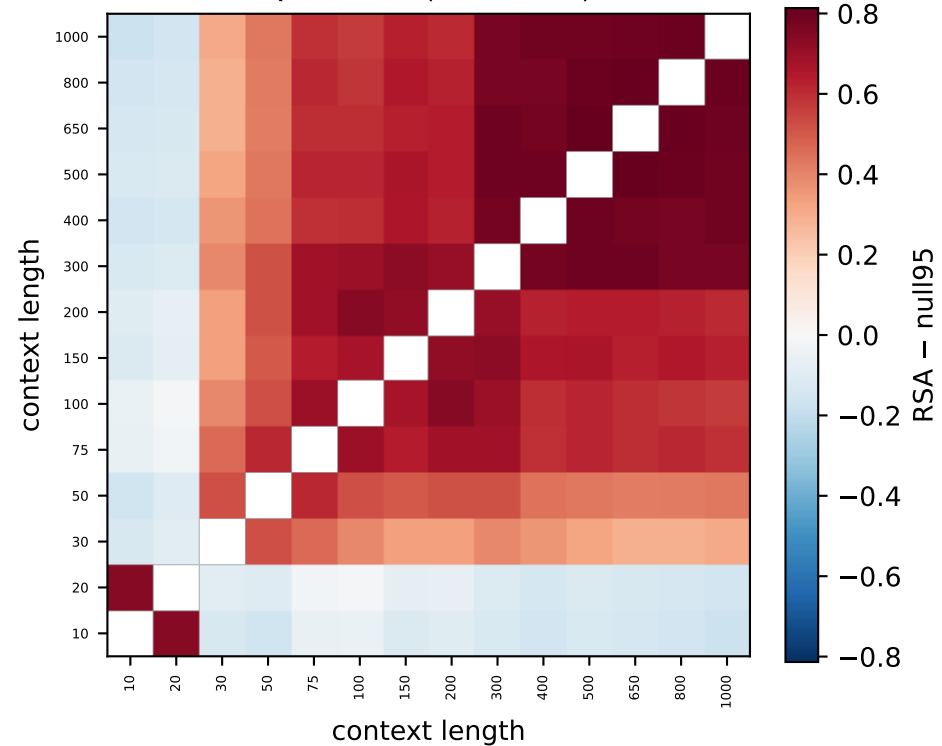

Llama L22 (100% > null)

Gemma L29 (100% > null)

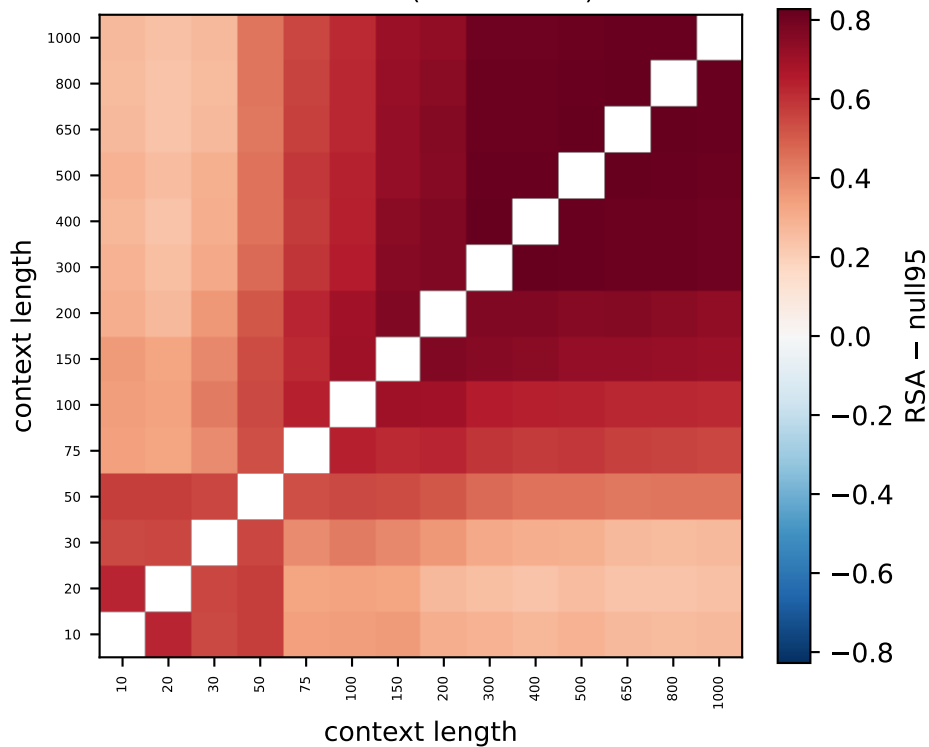

Qwen L25 (74% > null)

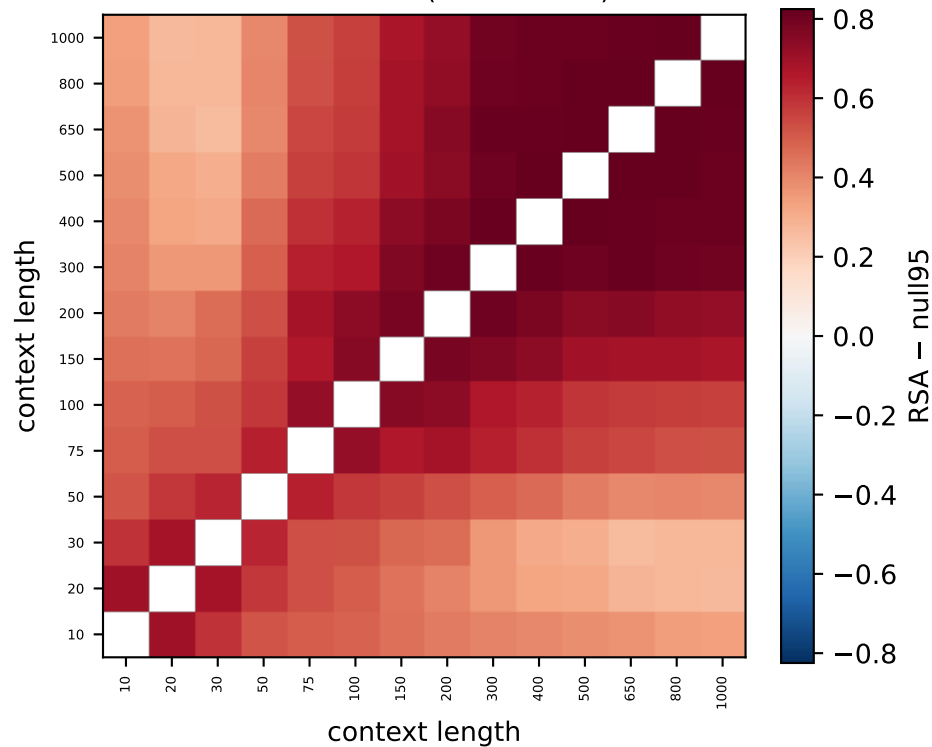

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.73
red = above chance (real)

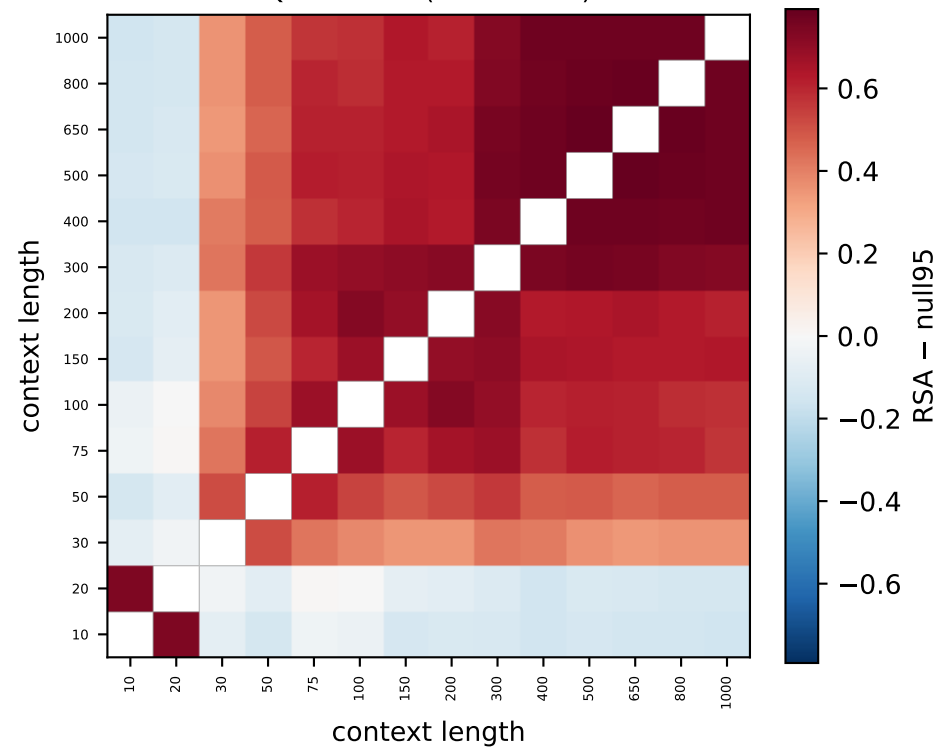

Llama L23 (100% > null)

Gemma L30 (100% > null)

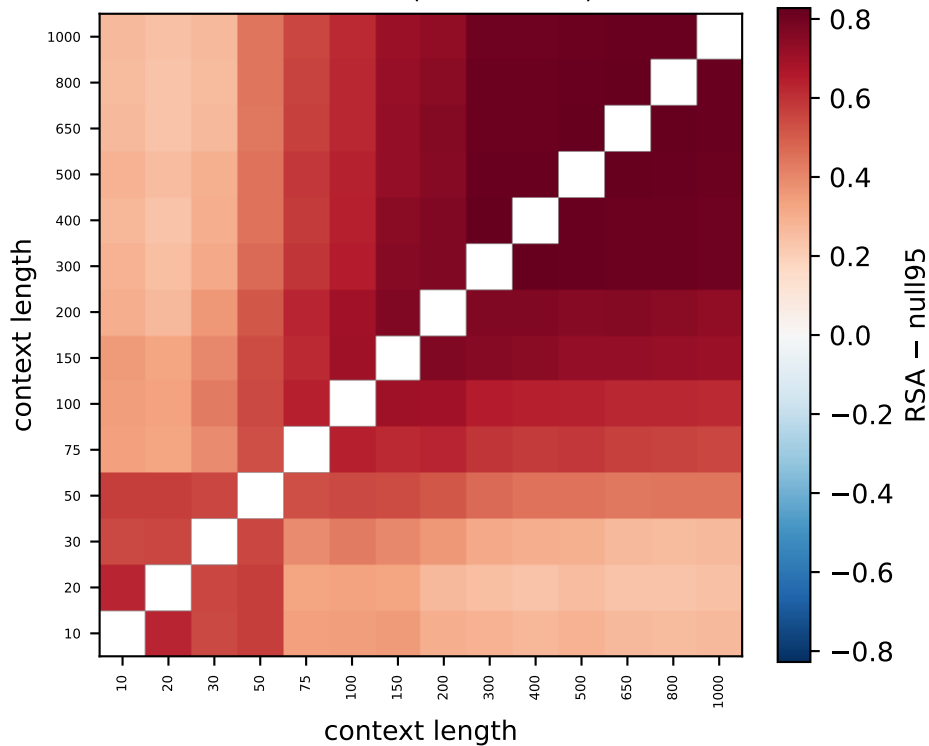

Qwen L26 (75% > null)

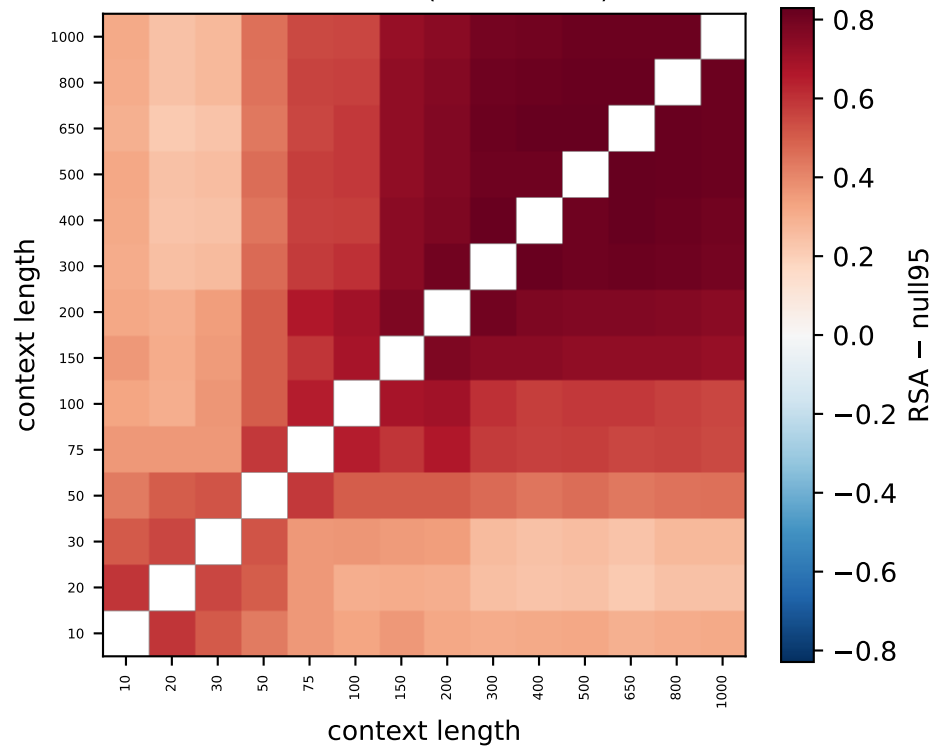

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.76
red = above chance (real)

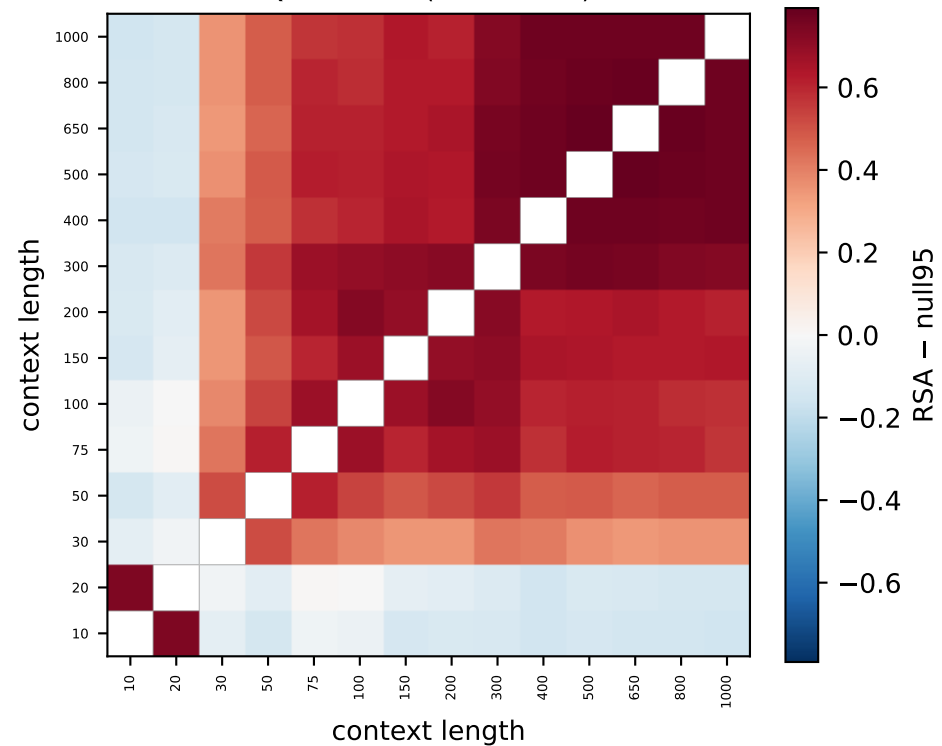

Llama L23 (100% > null)

Gemma L31 (100% > null)

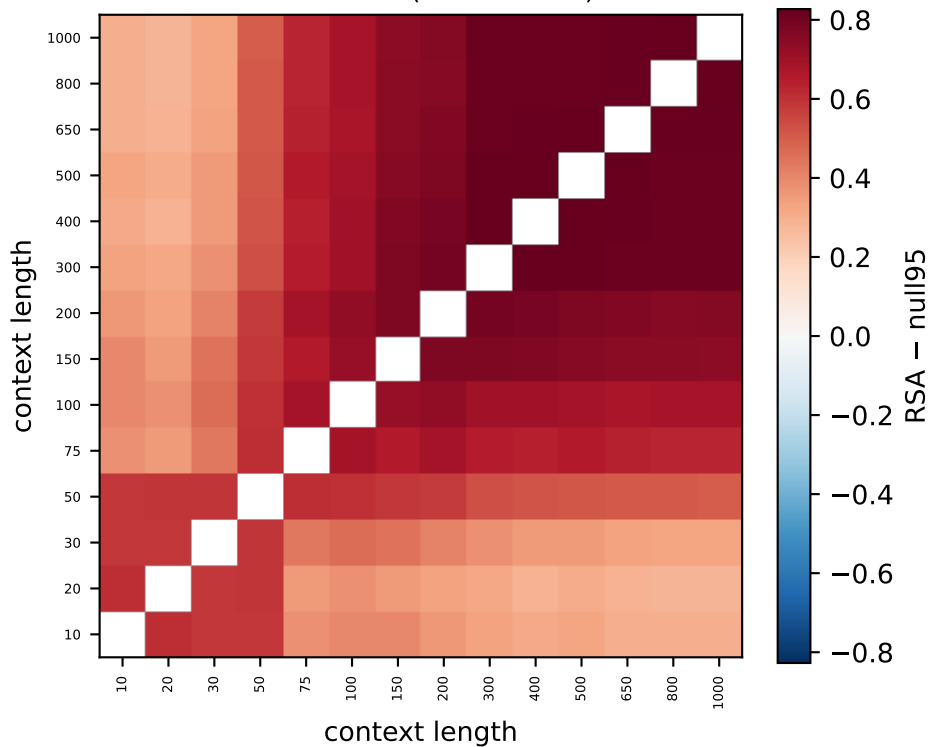

Qwen L26 (75% > null)

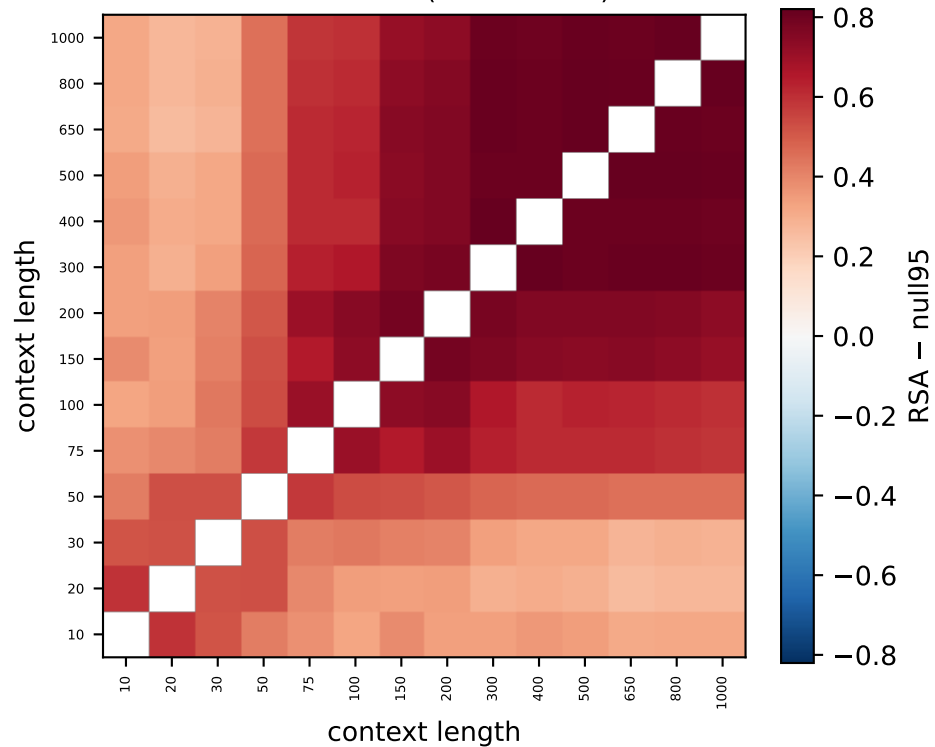

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.78
red = above chance (real)

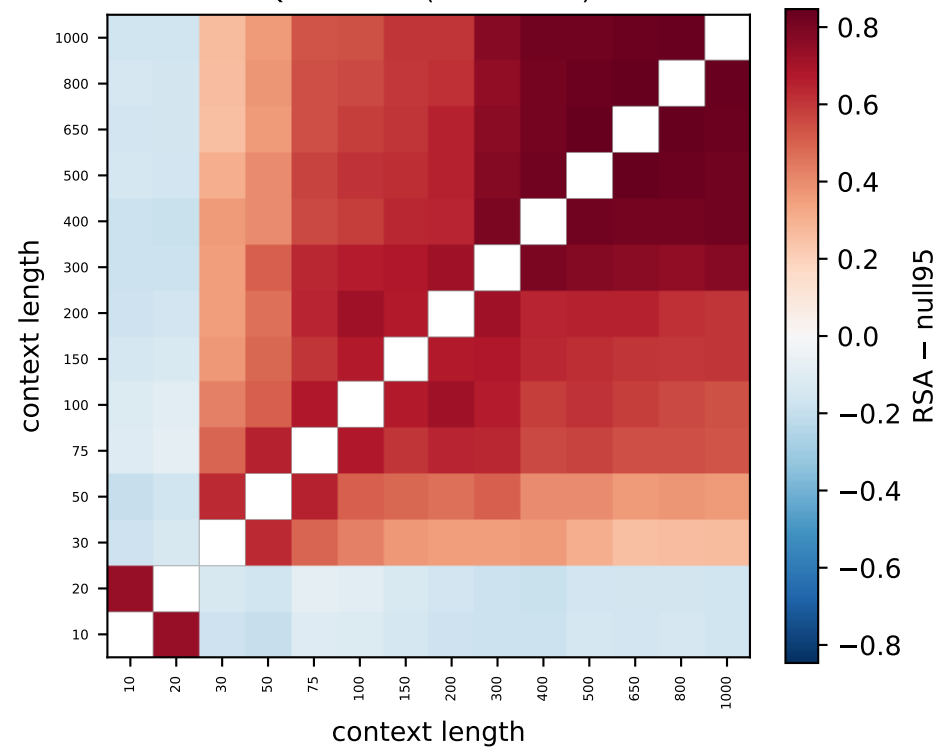

Llama L24 (100% > null)

Gemma L32 (100% > null)

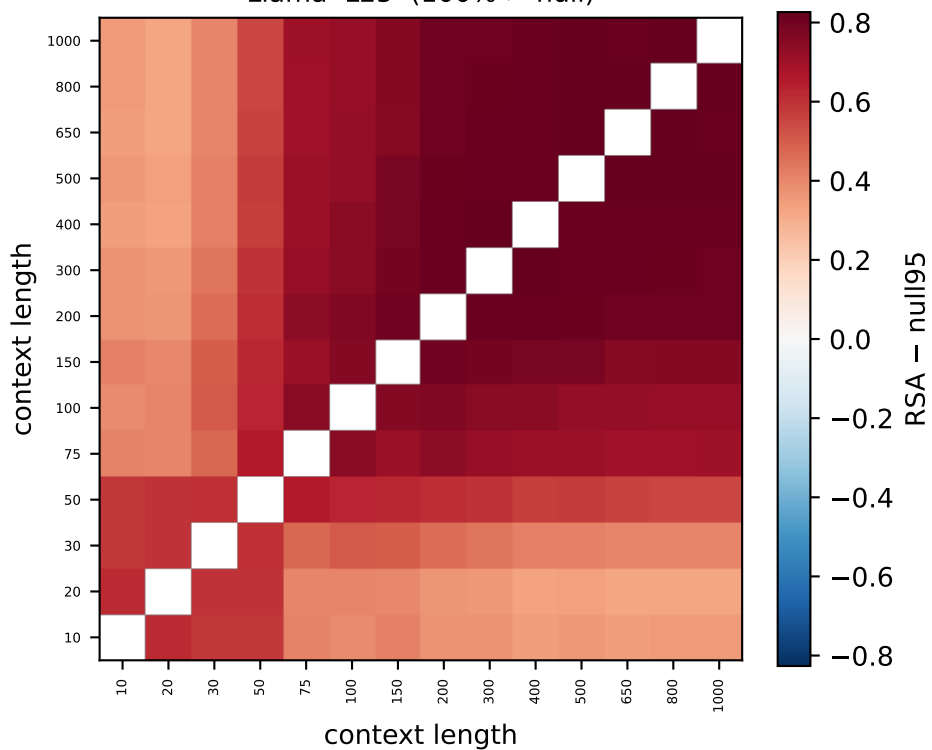

Qwen L27 (74% > null)

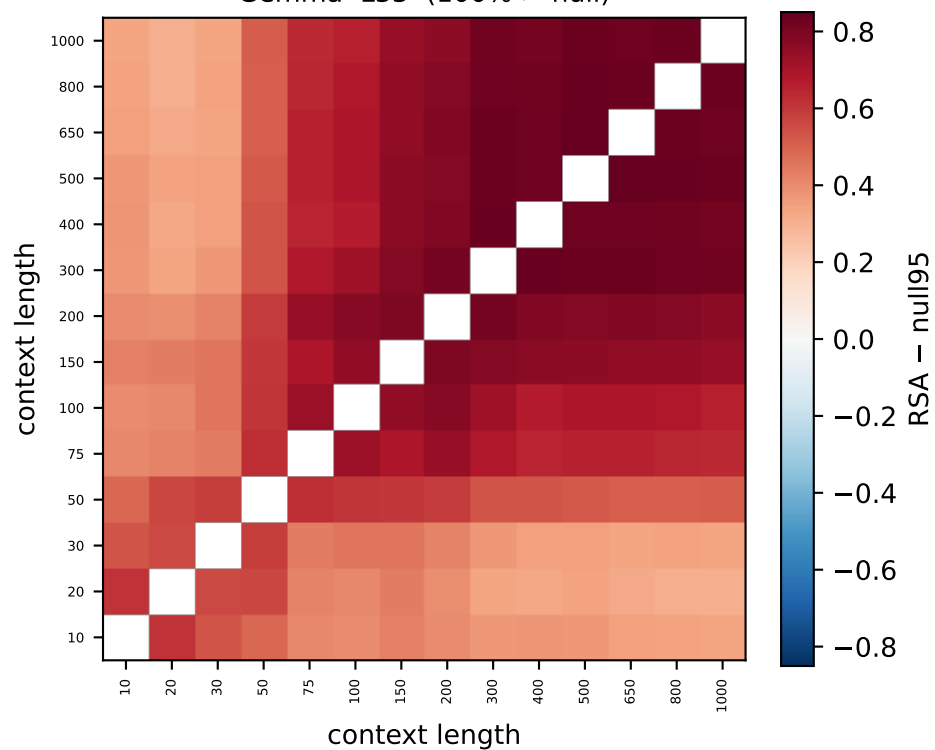

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.80
red = above chance (real)

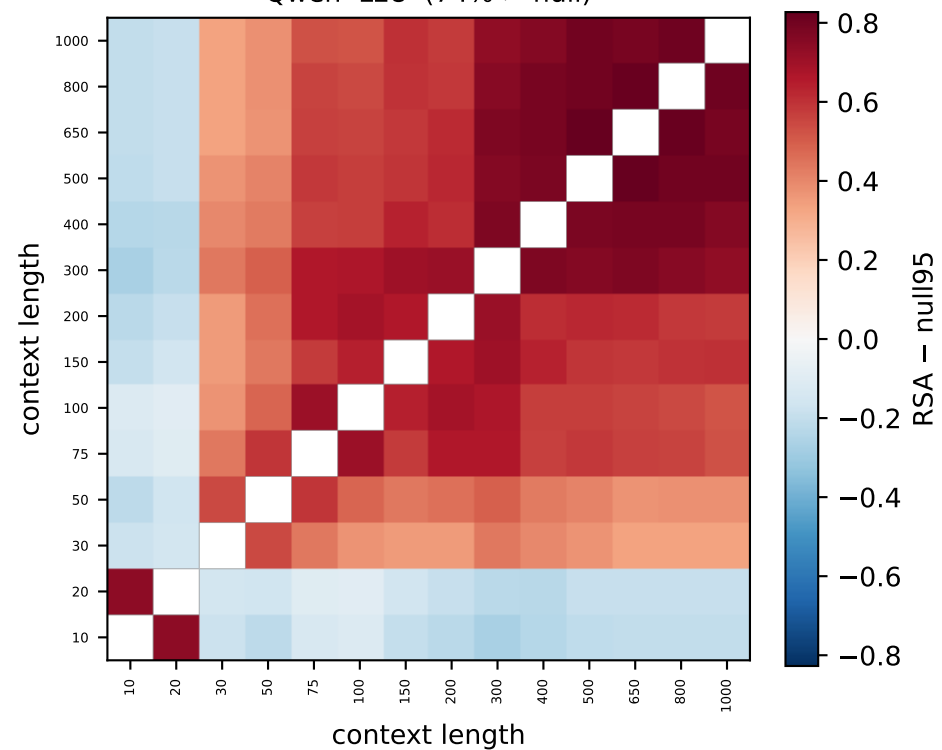

Llama L25 (100% > null)

Gemma L33 (100% > null)

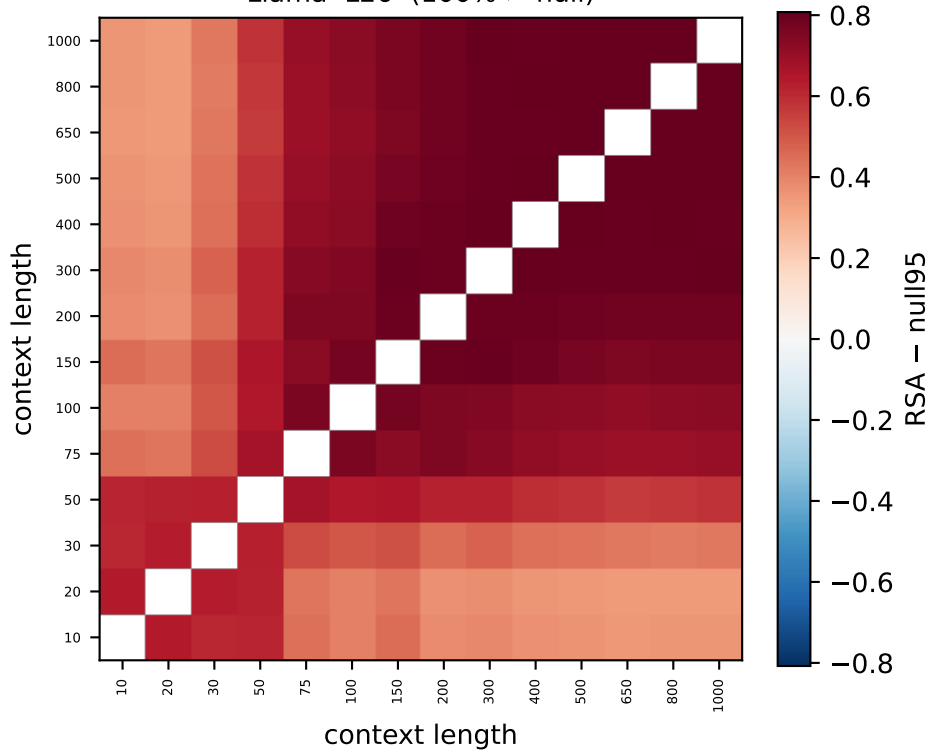

Qwen L28 (74% > null)

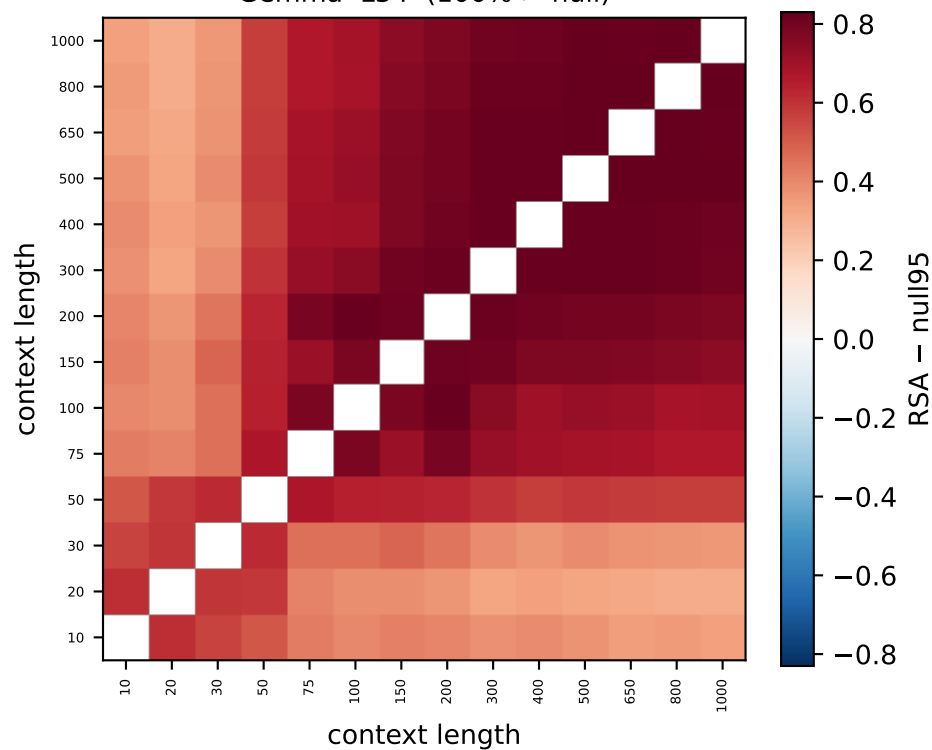

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.83
red = above chance (real)

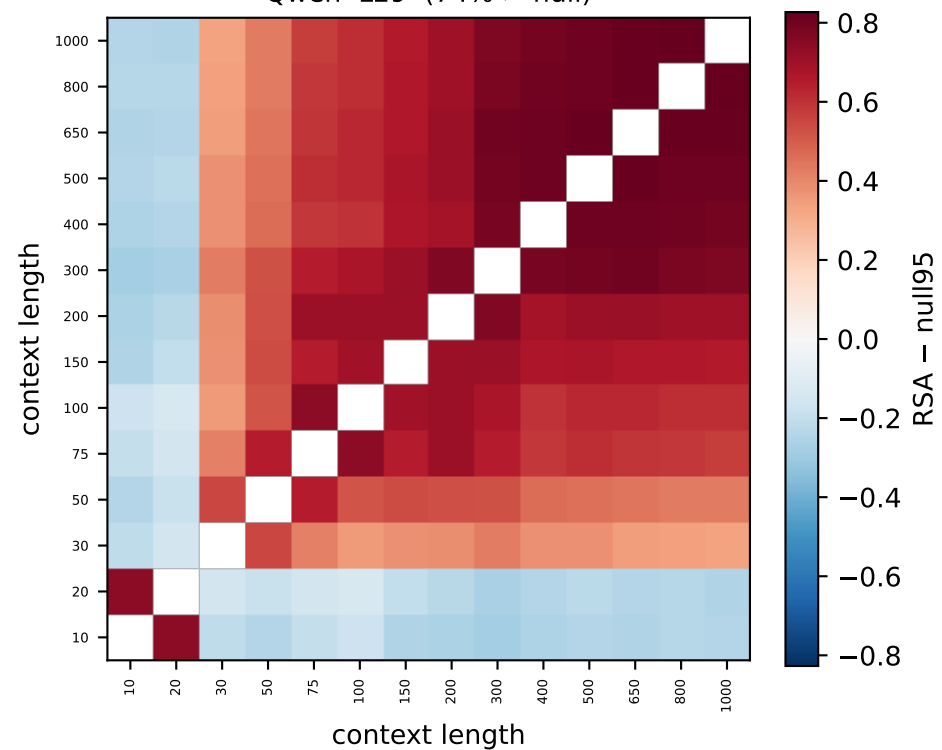

Llama L26 (100% > null)

Gemma L34 (100% > null)

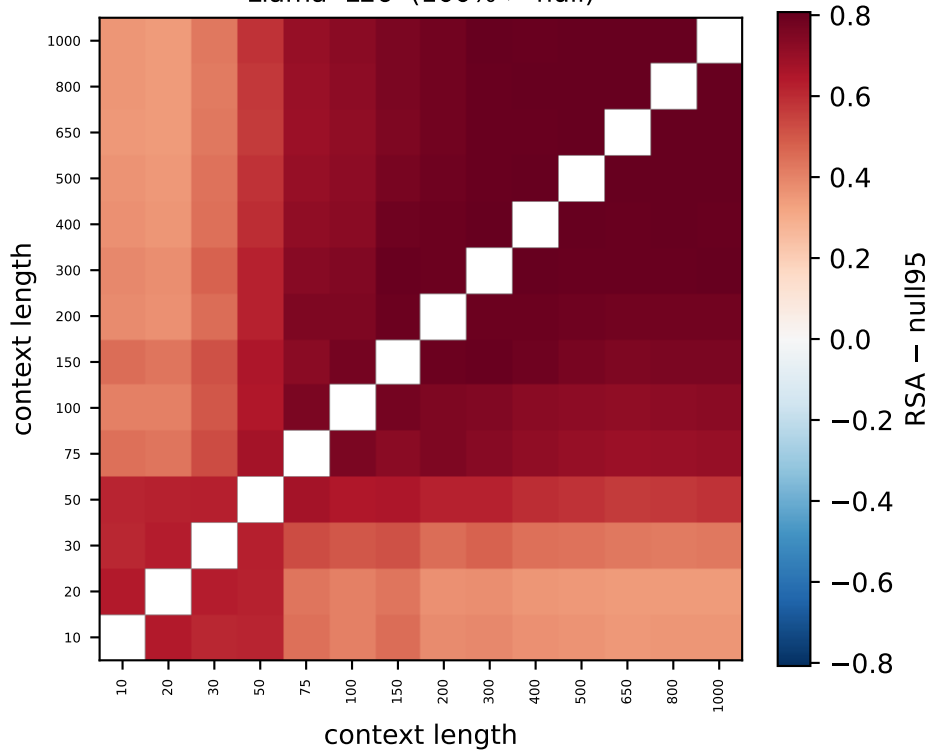

Qwen L29 (74% > null)

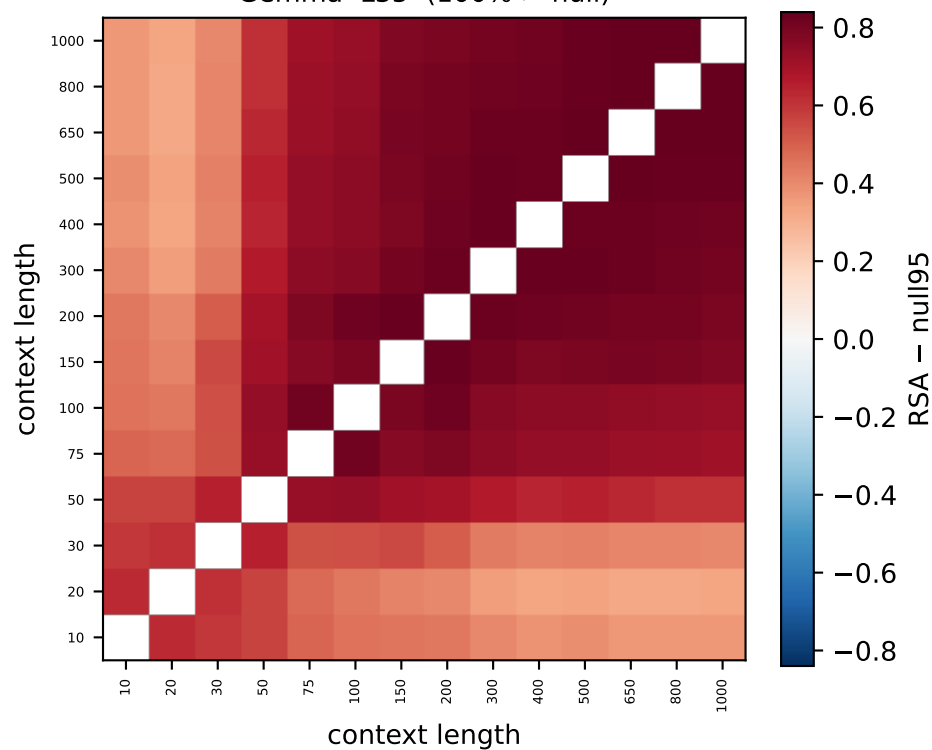

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.85
red = above chance (real)

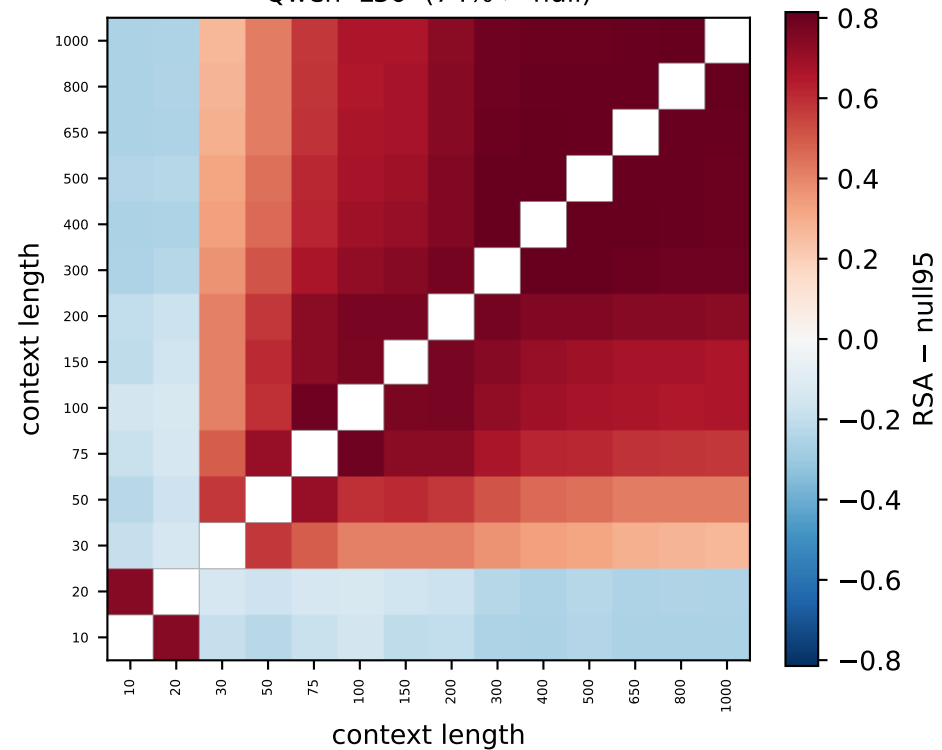

Llama L26 (100% > null)

Gemma L35 (100% > null)

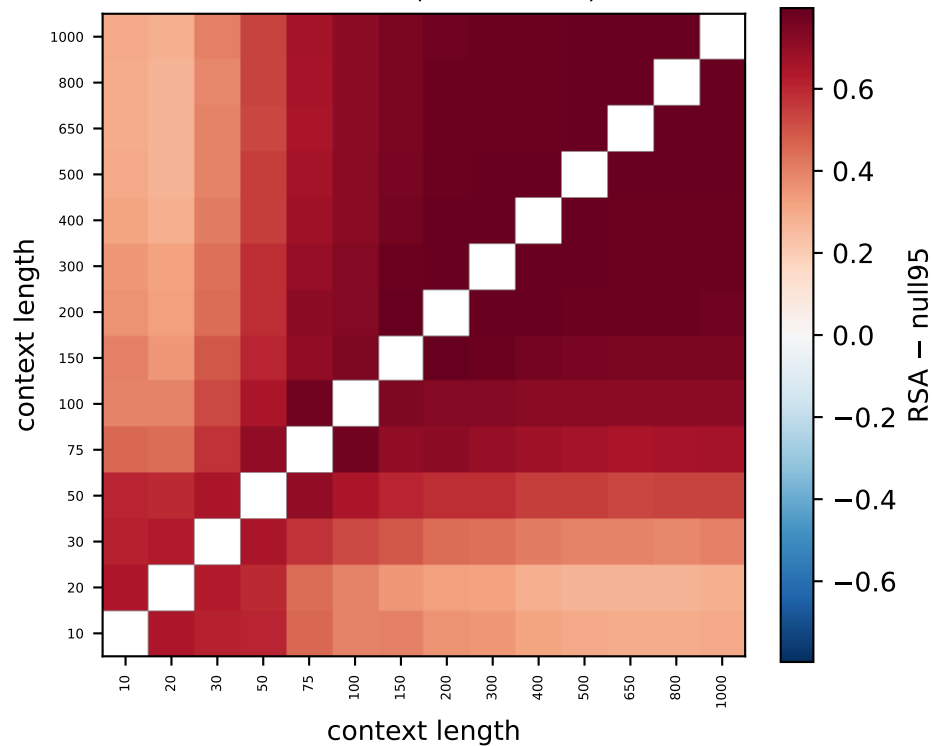

Qwen L30 (74% > null)

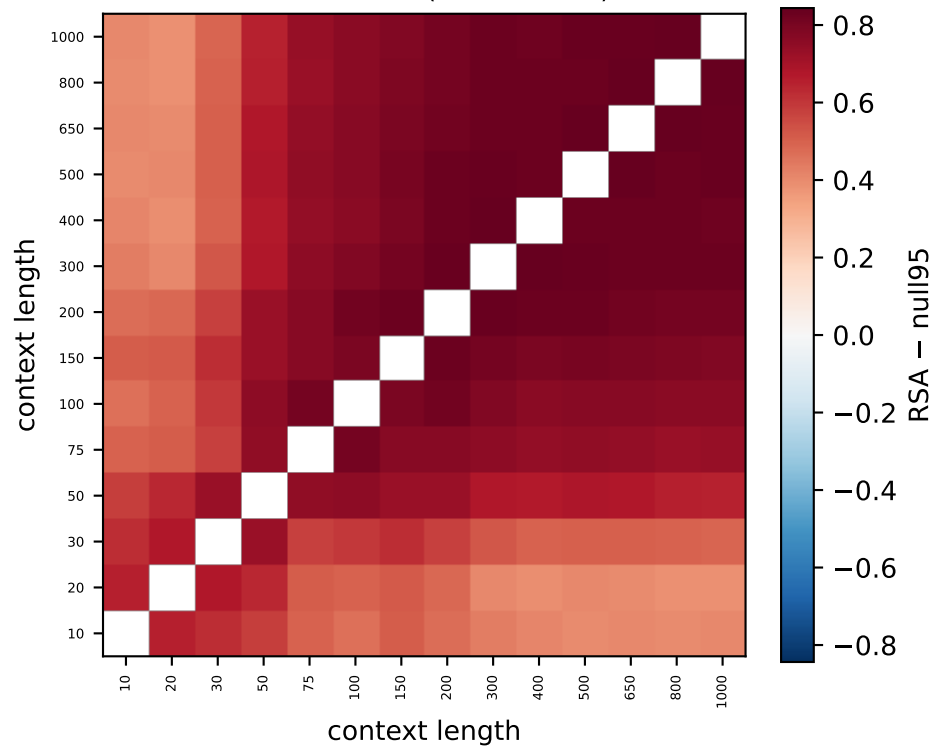

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.88
red = above chance (real)

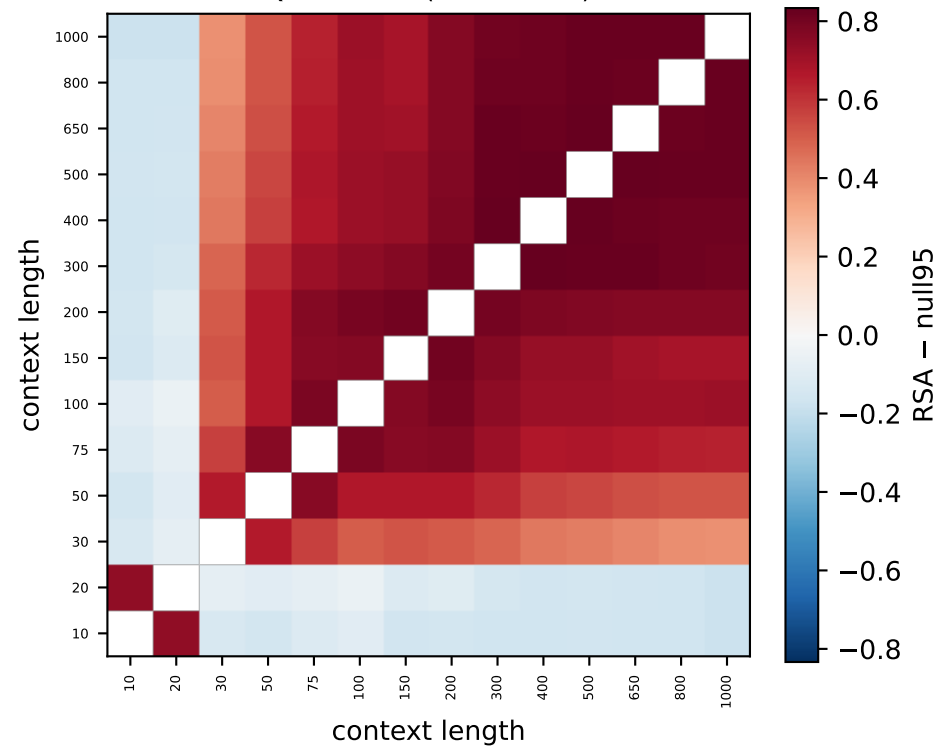

Llama L27 (100% > null)

Gemma L36 (100% > null)

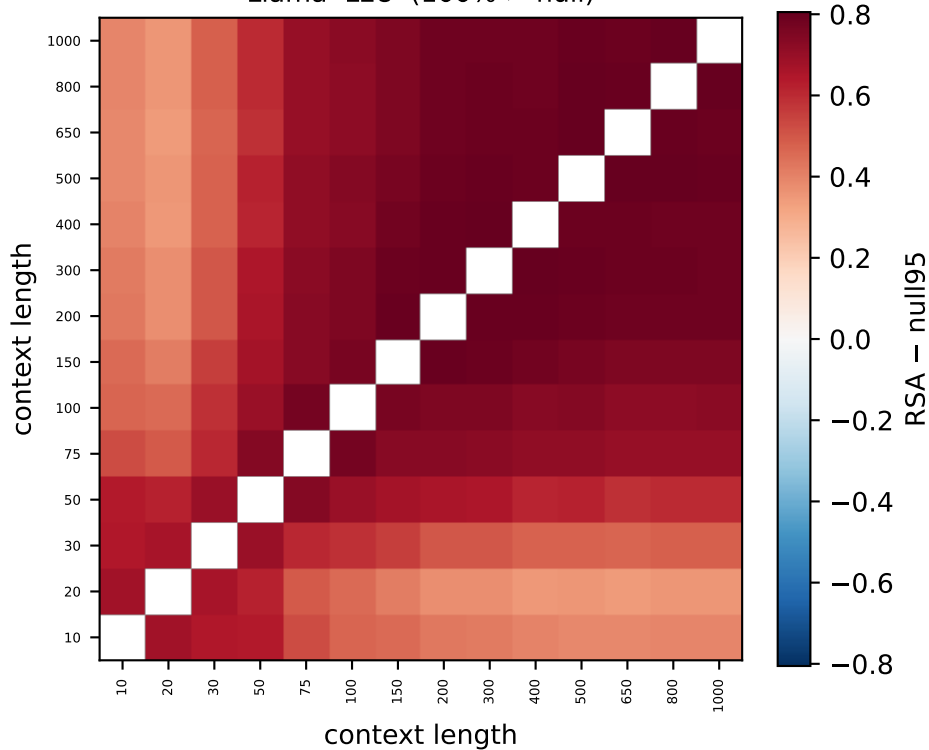

Qwen L31 (74% > null)

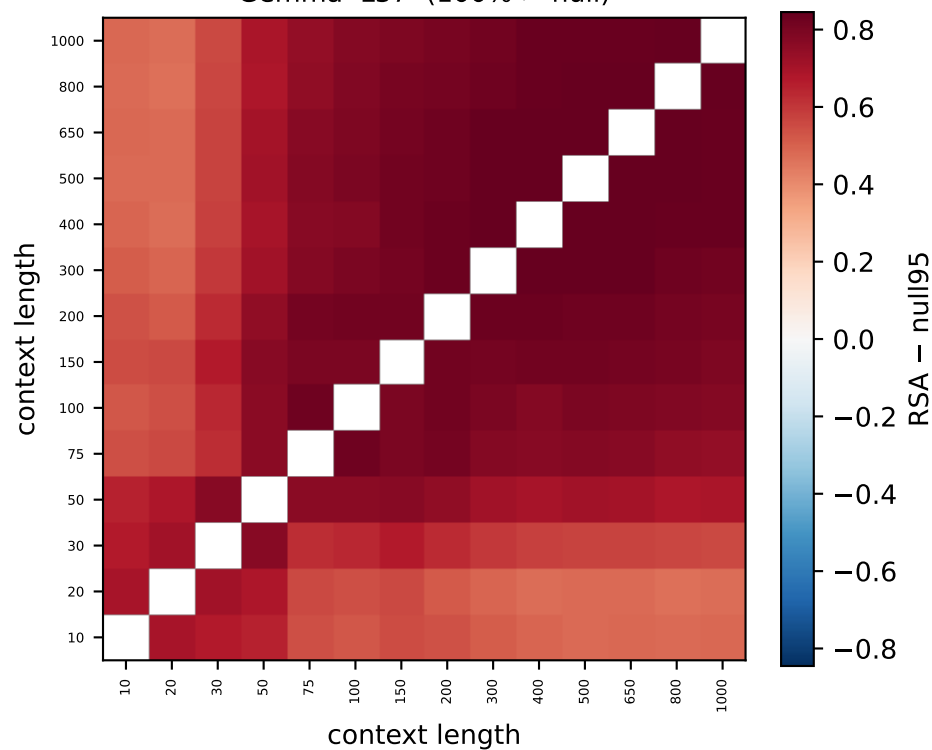

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.90
red = above chance (real)

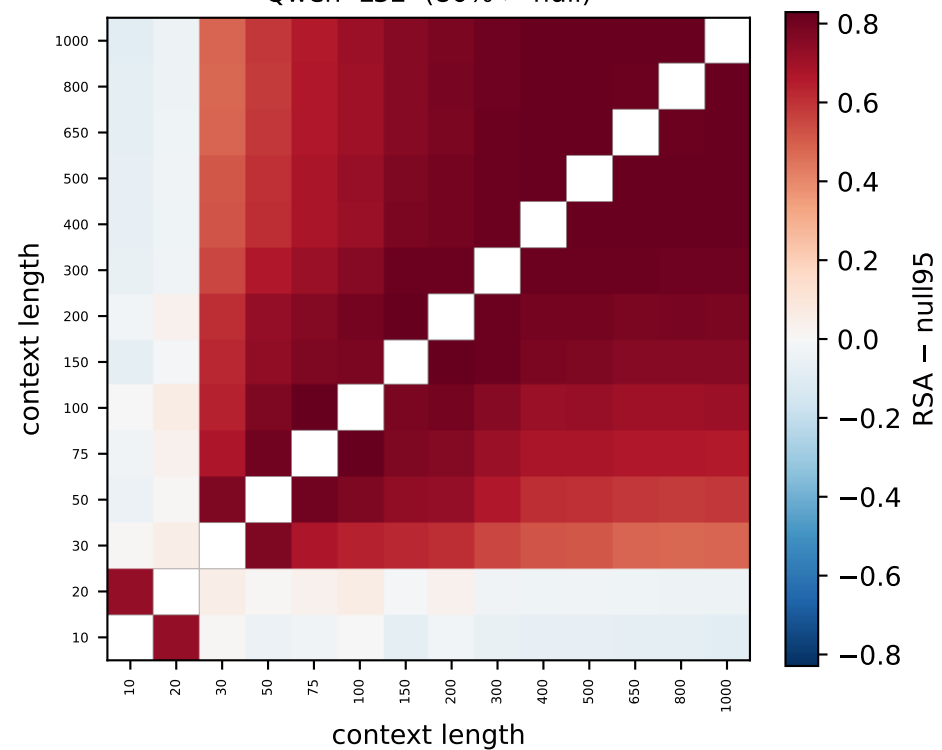

Llama L28 (100% > null)

Gemma L37 (100% > null)

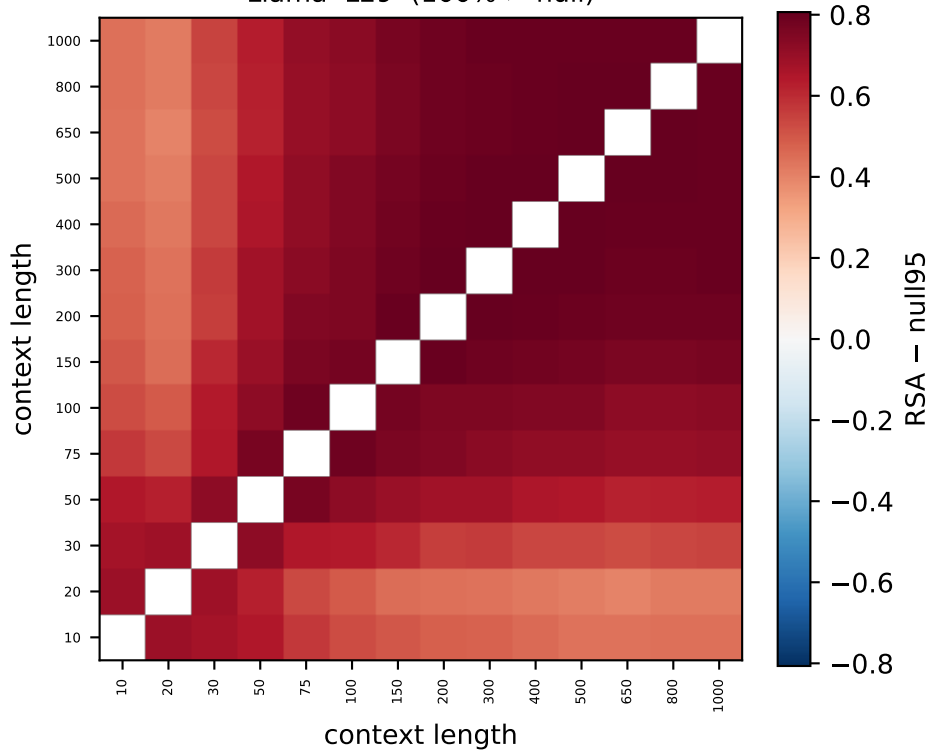

Qwen L32 (80% > null)

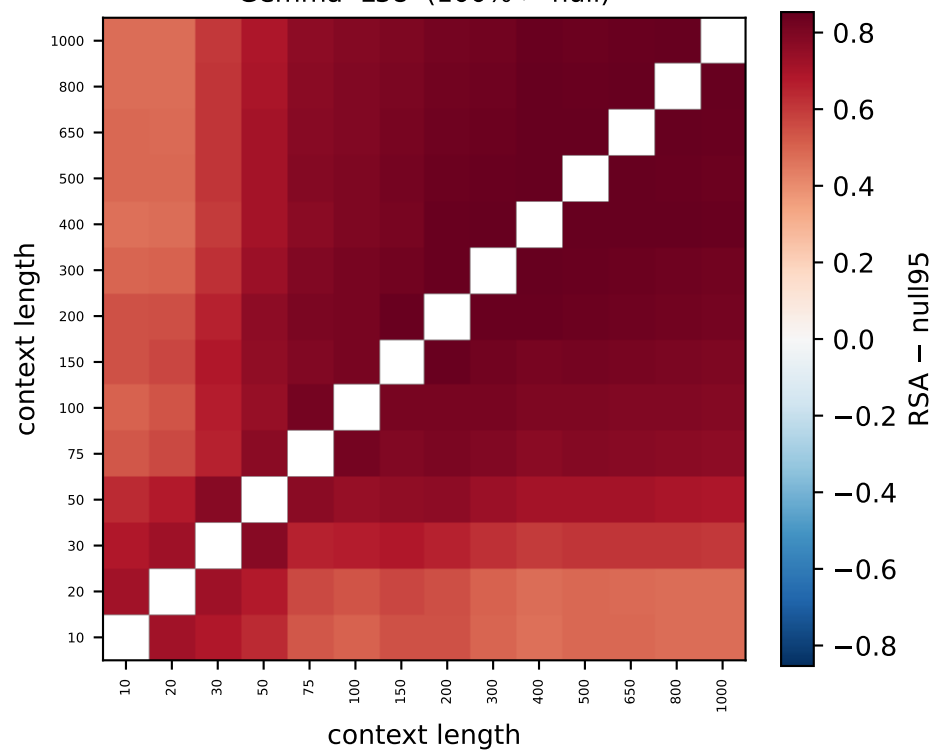

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.93
red = above chance (real)

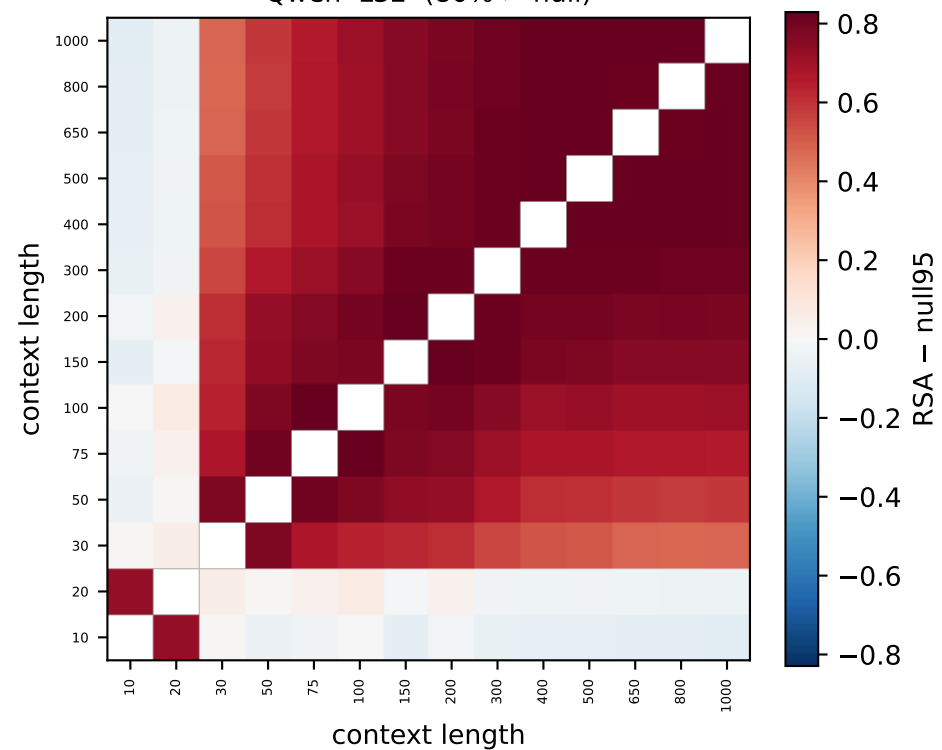

Llama L29 (100% > null)

Gemma L38 (100% > null)

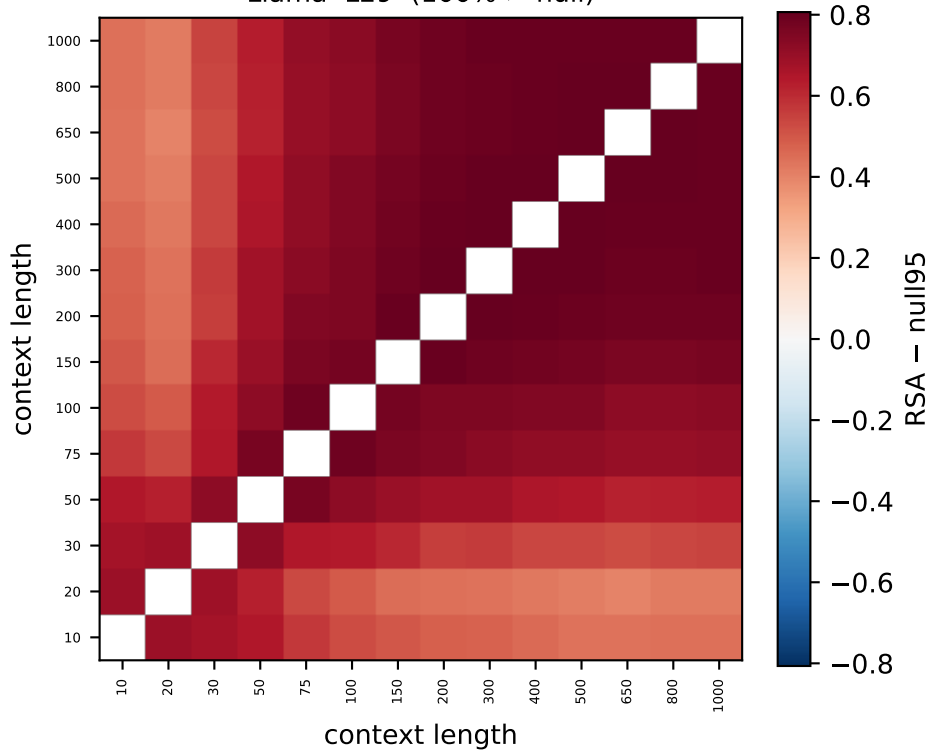

Qwen L32 (80% > null)

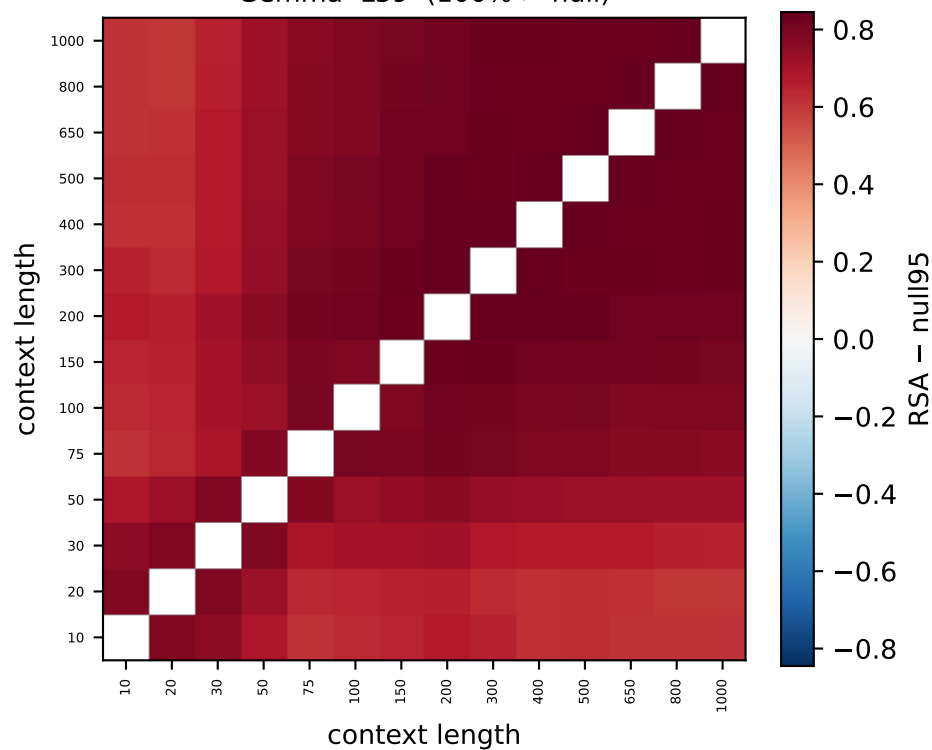

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.95
red = above chance (real)

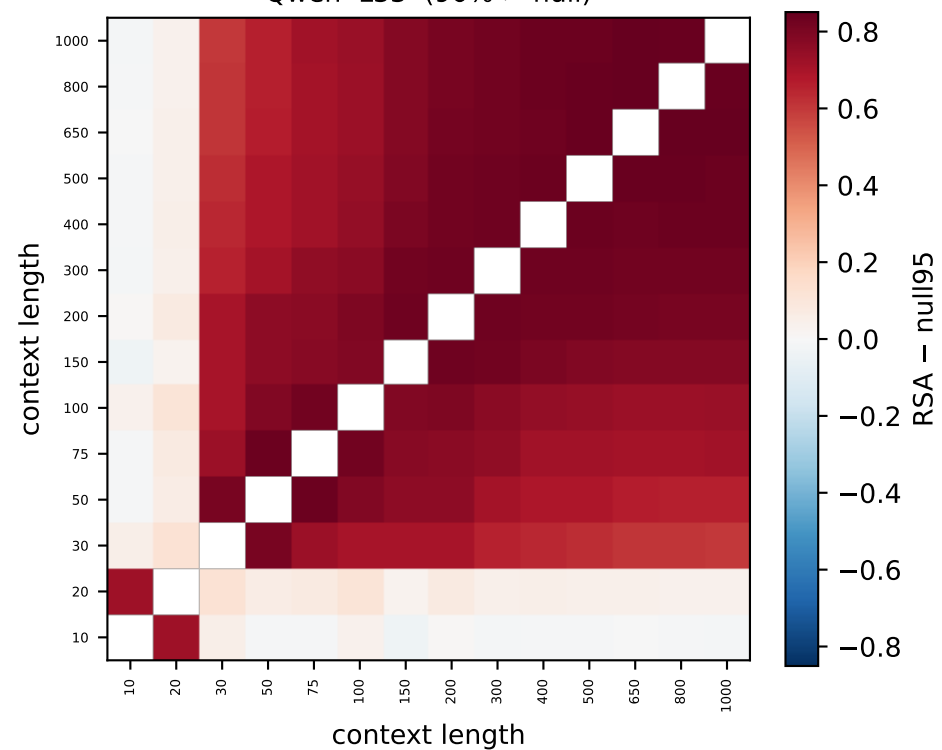

Llama L29 (100% > null)

Gemma L39 (100% > null)

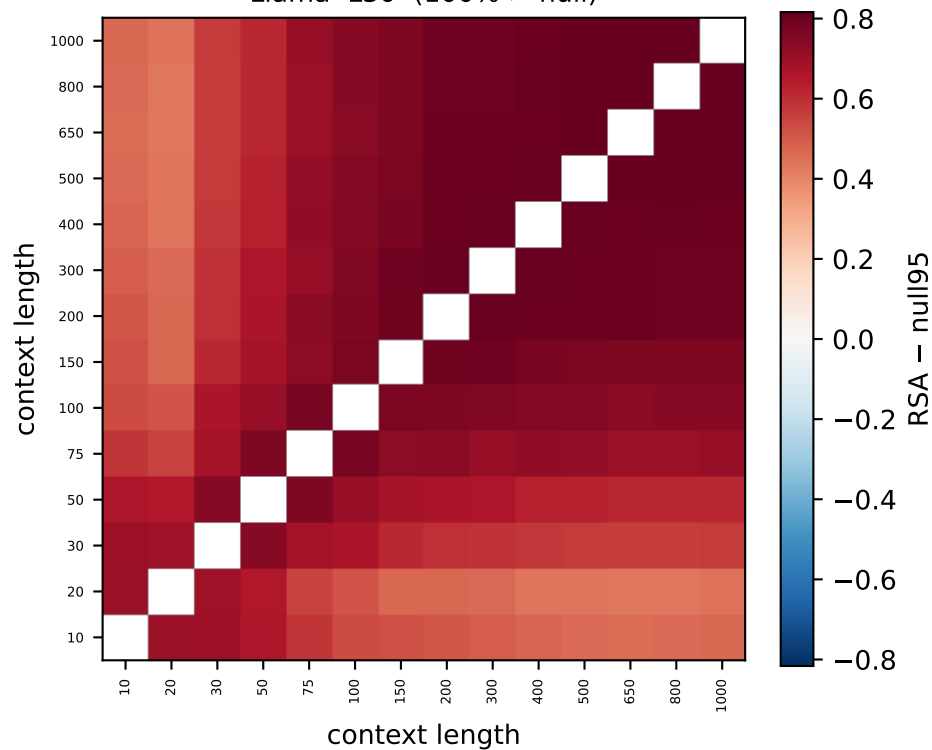

Qwen L33 (90% > null)

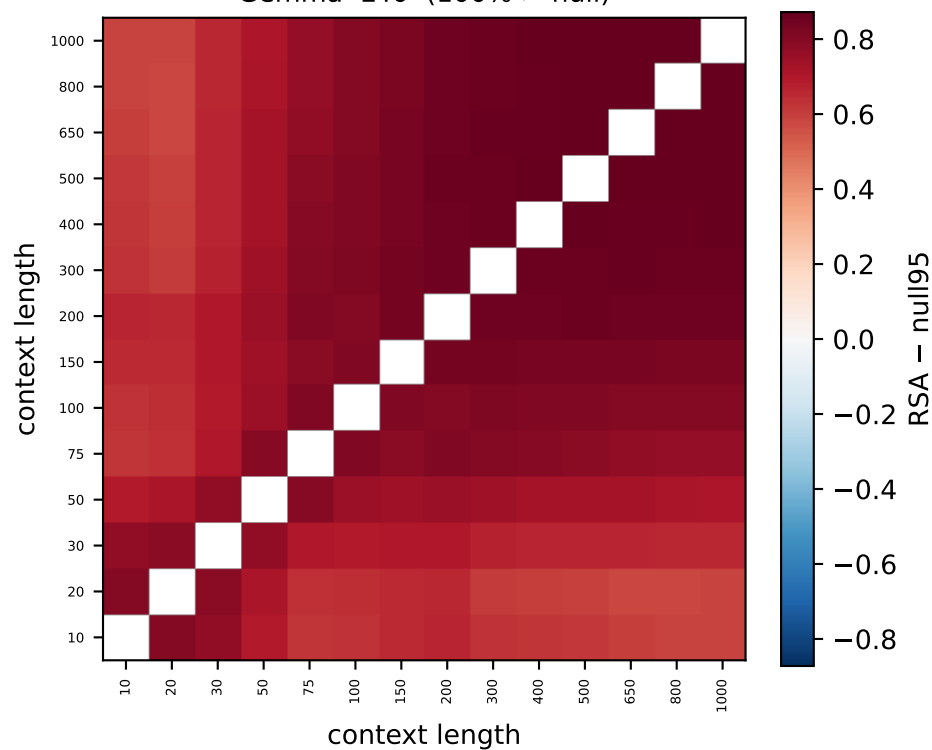

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 0.98
red = above chance (real)

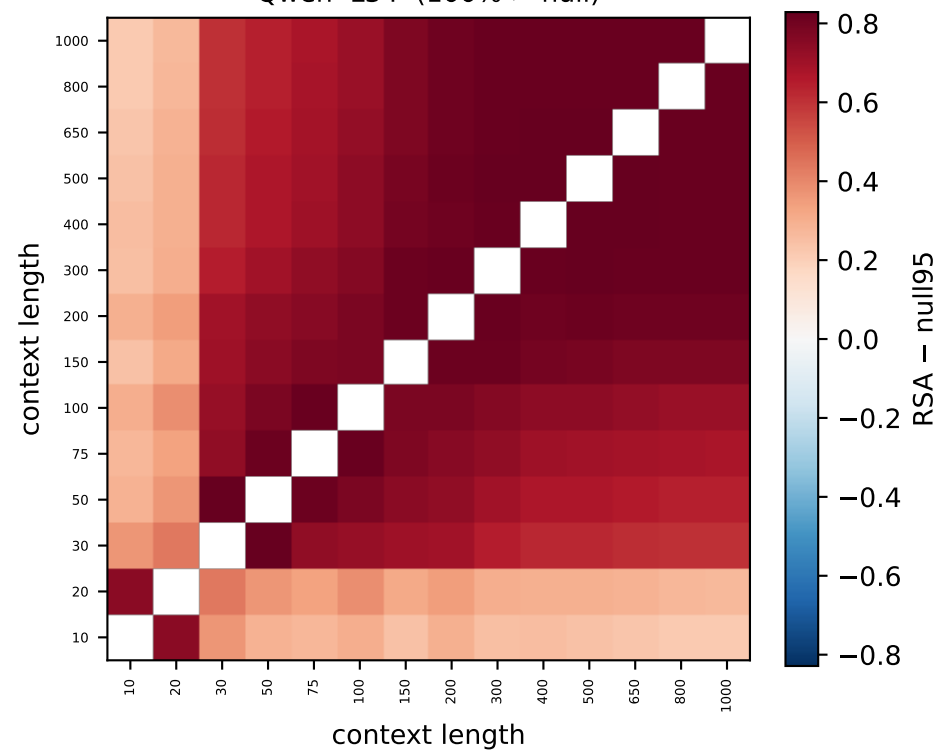

Llama L30 (100% > null)

Gemma L40 (100% > null)

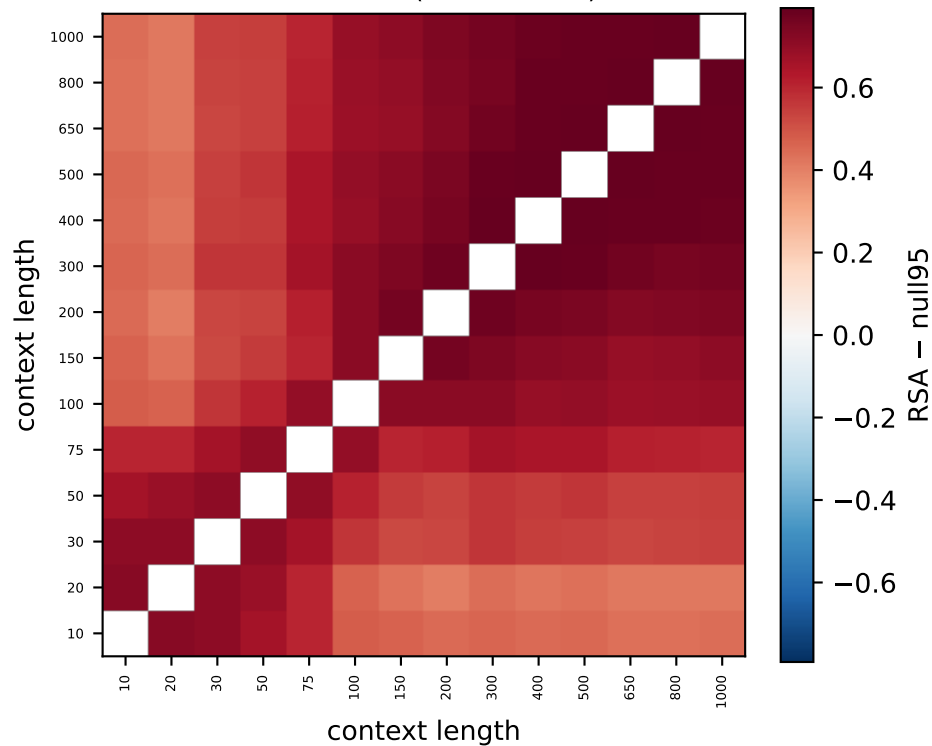

Qwen L34 (100% > null)

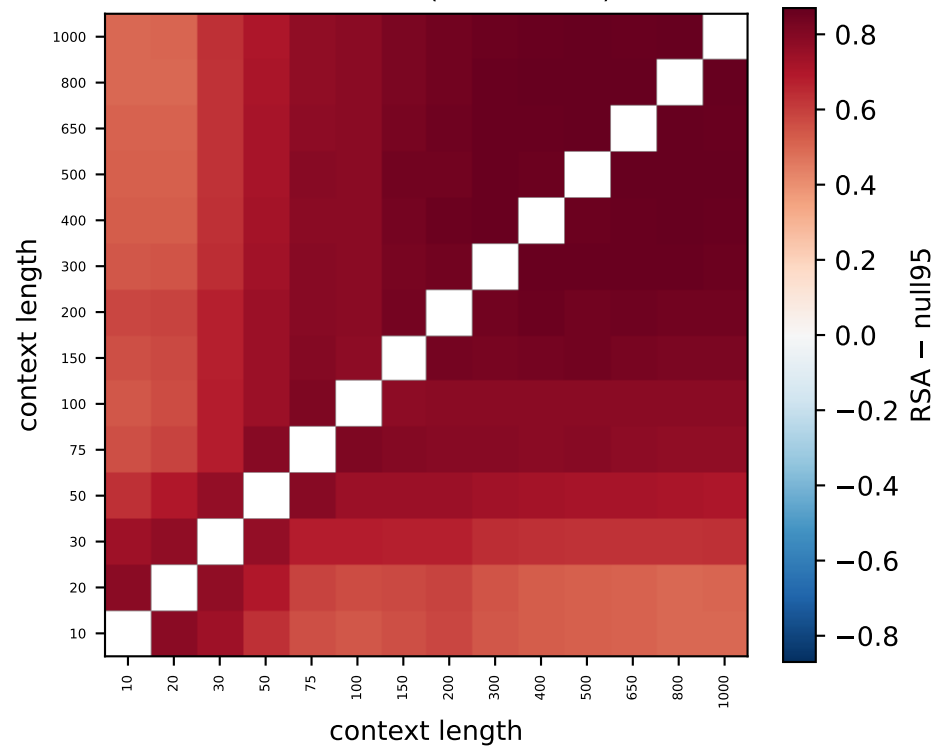

ring [v1] context-RSA significance (observed – perm-null95) — relative depth 1.00
red = above chance (real)

Llama L31 (100% > null)

Gemma L41 (100% > null)

Qwen L35 (100% > null)
