

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.00
red = above chance (real)

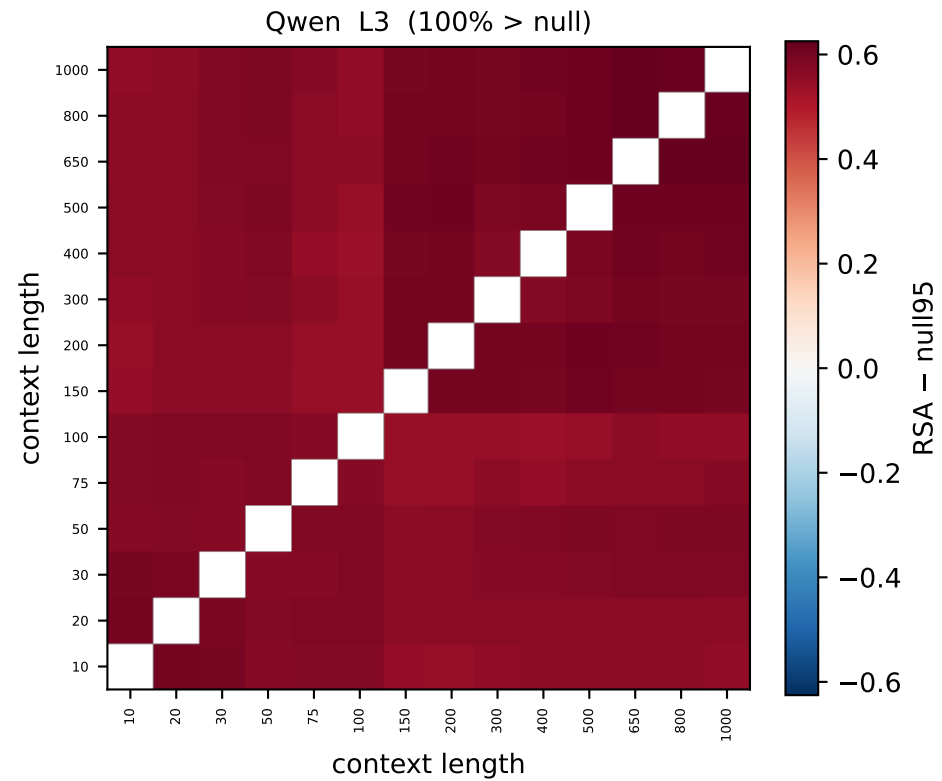

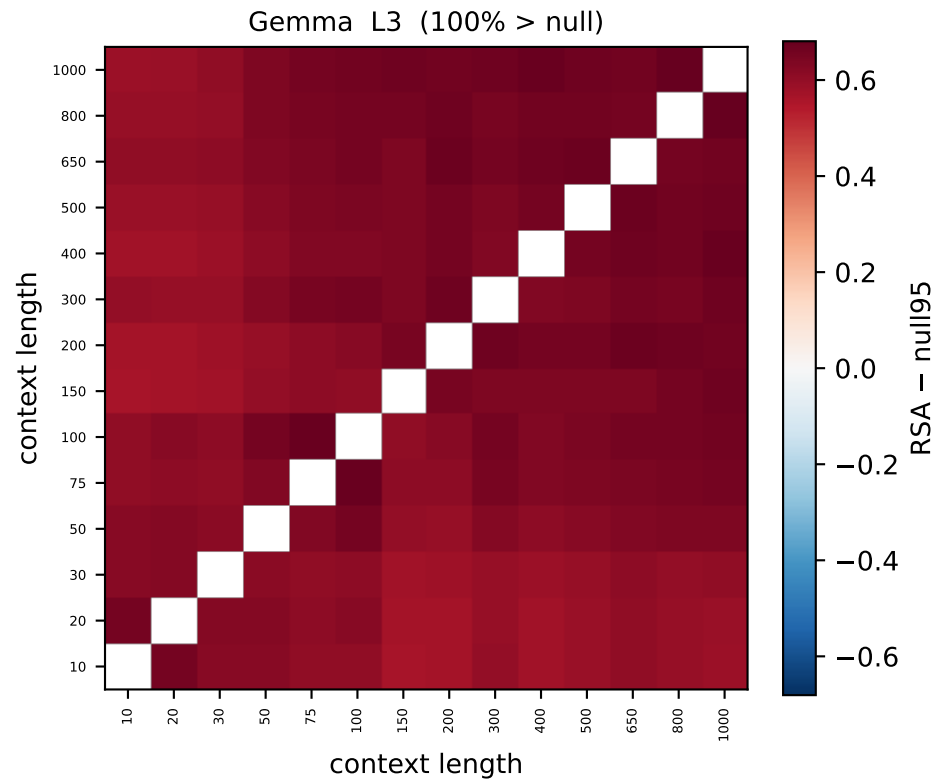

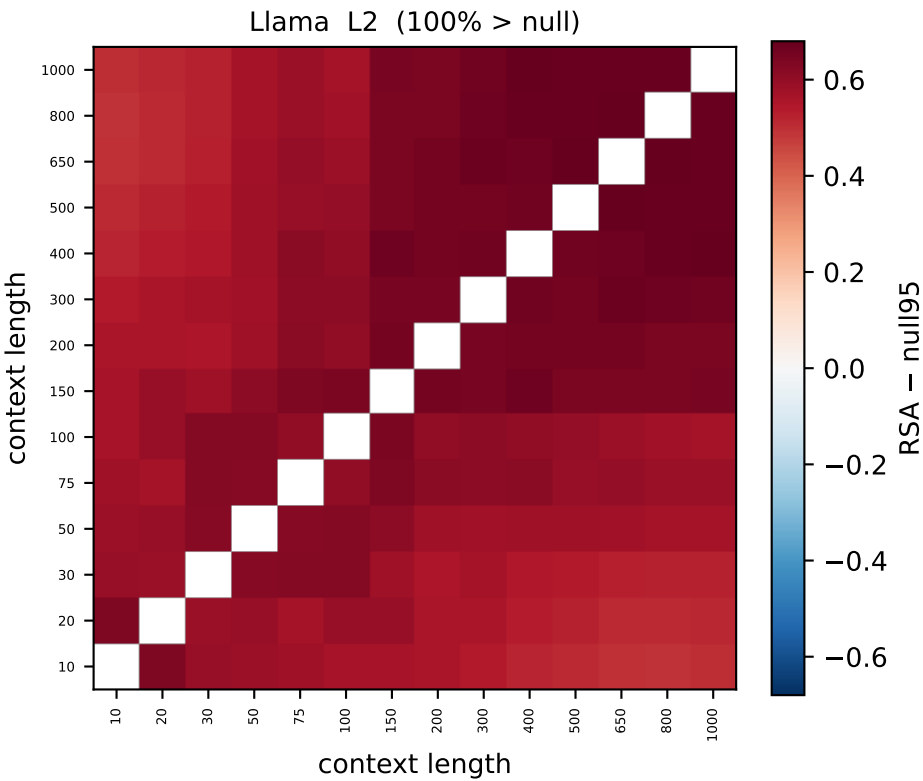

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.02
red = above chance (real)

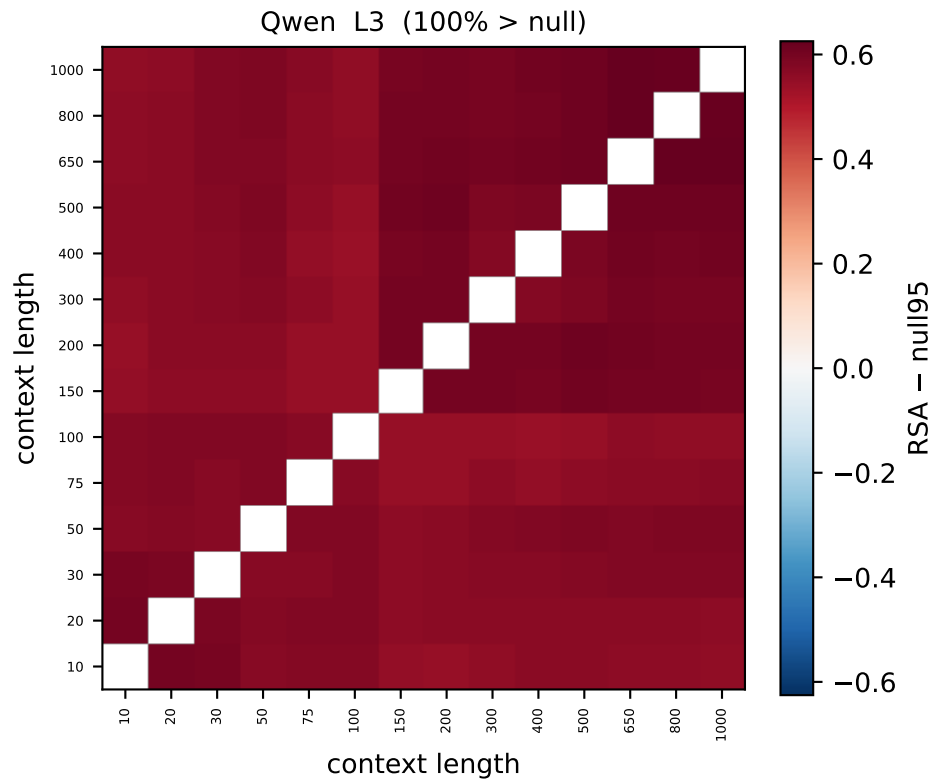

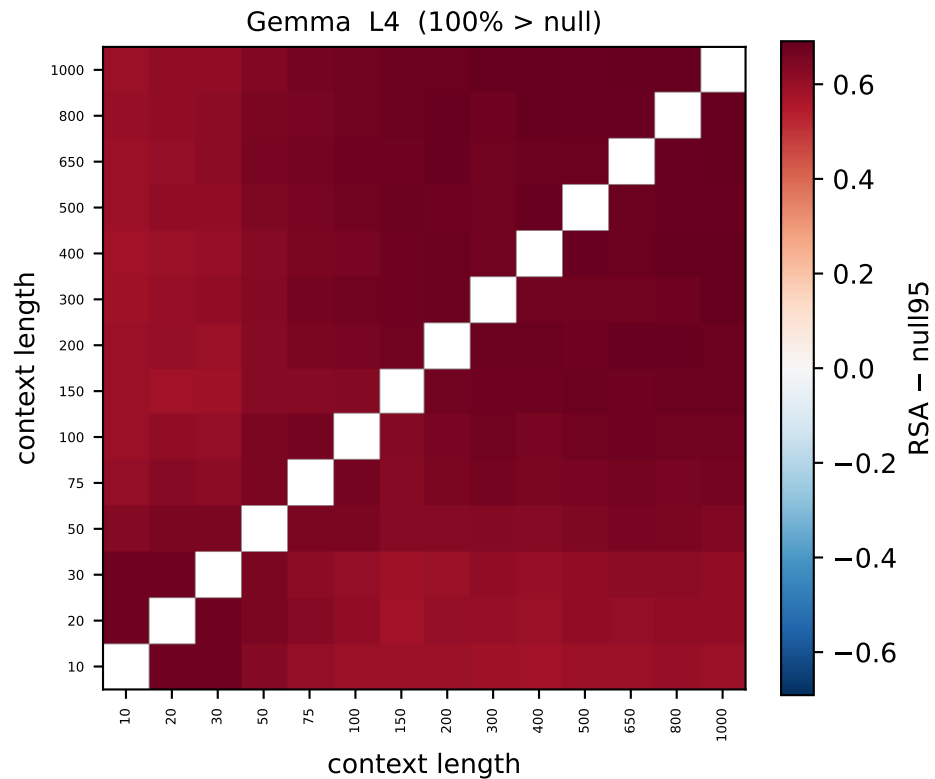

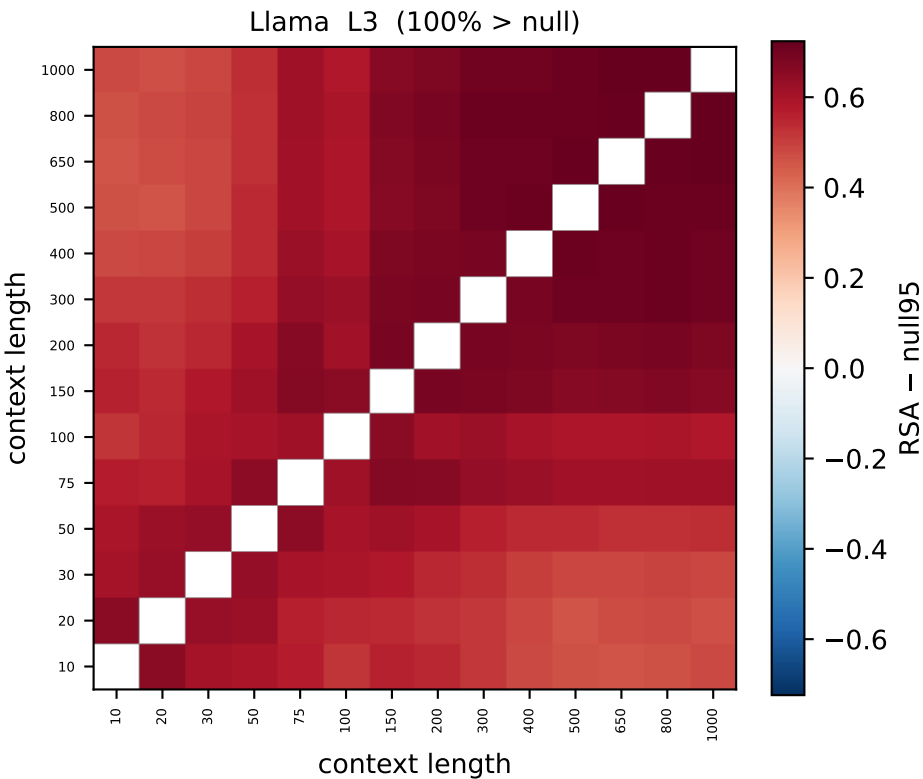

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.05
red = above chance (real)

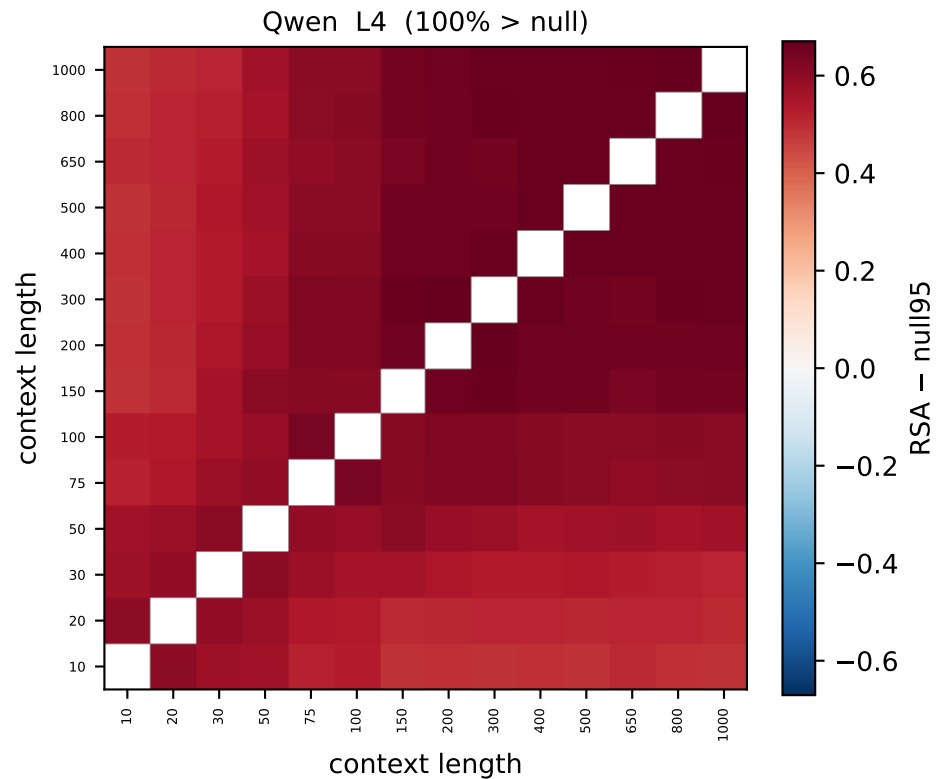

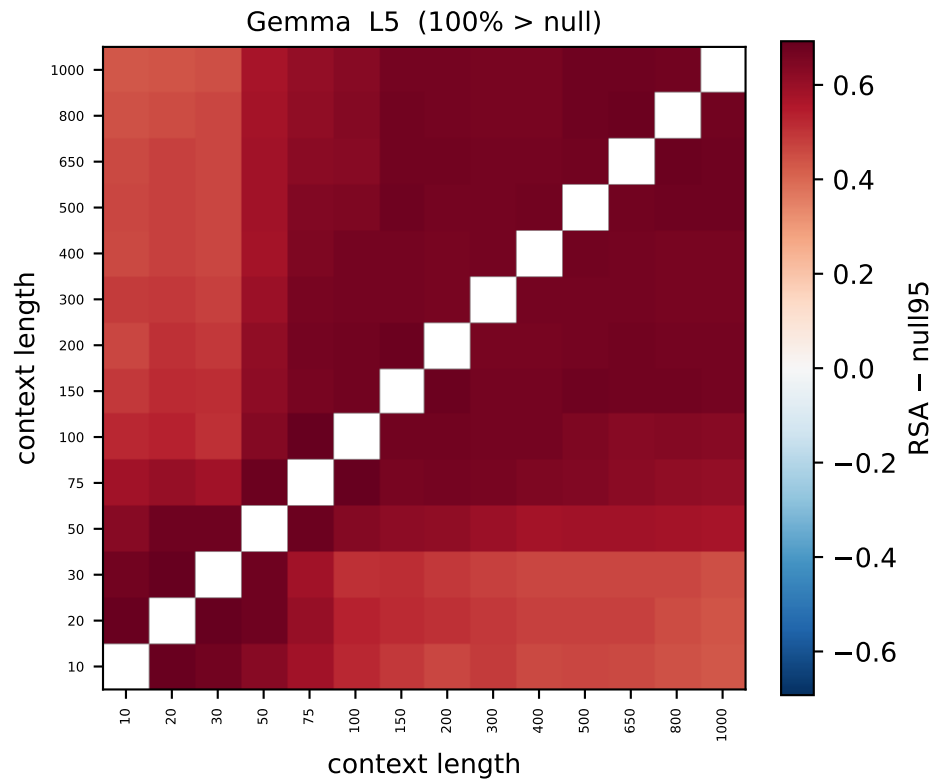

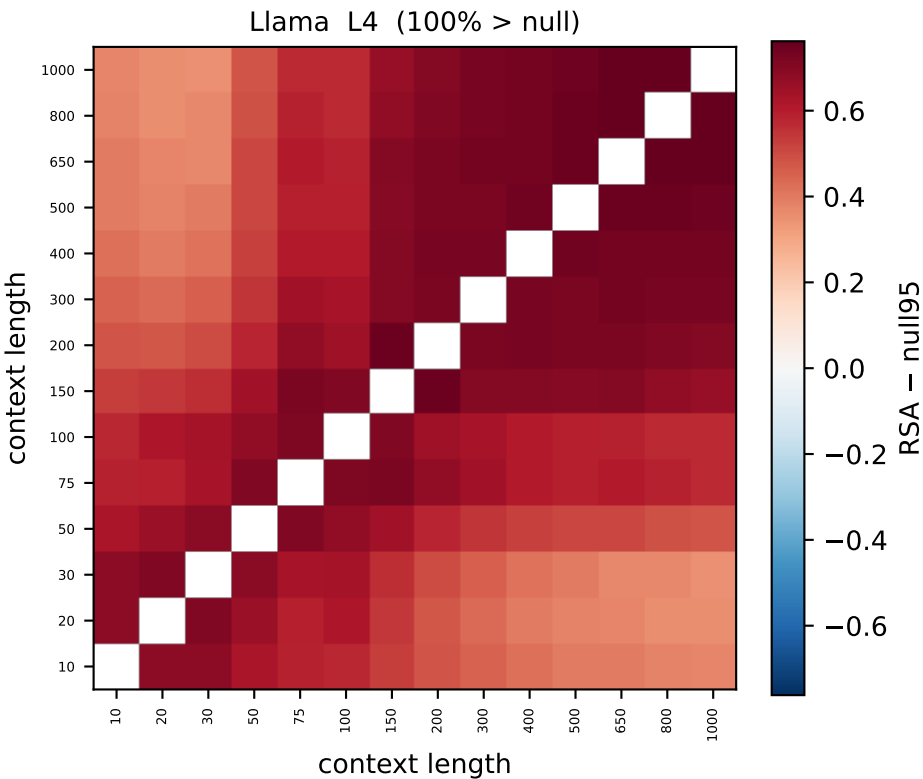

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.07
red = above chance (real)

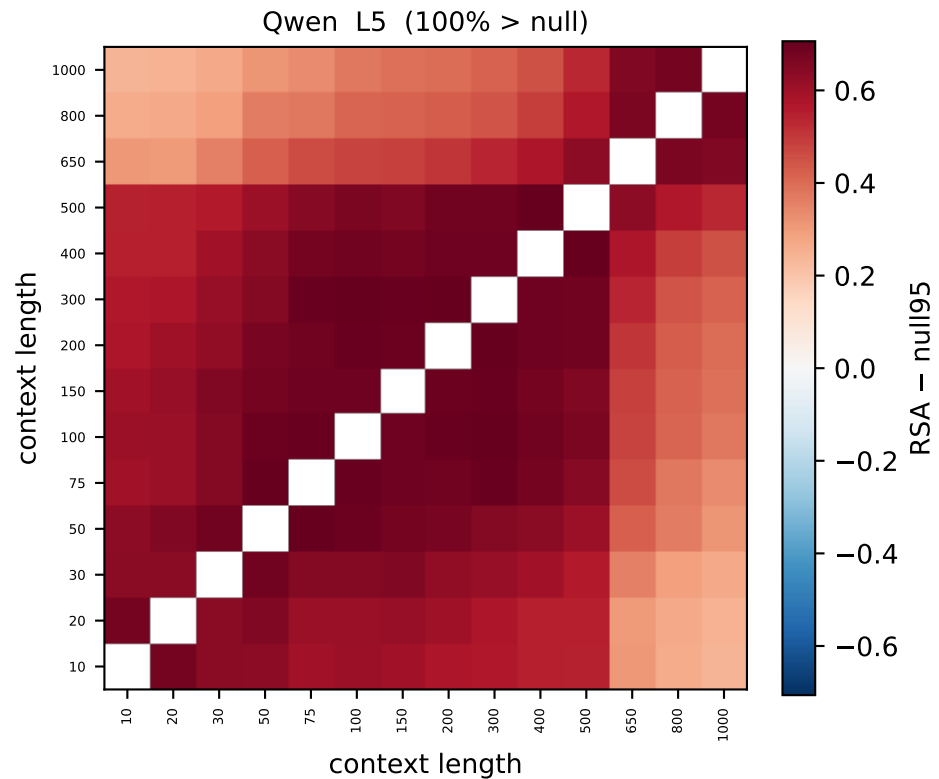

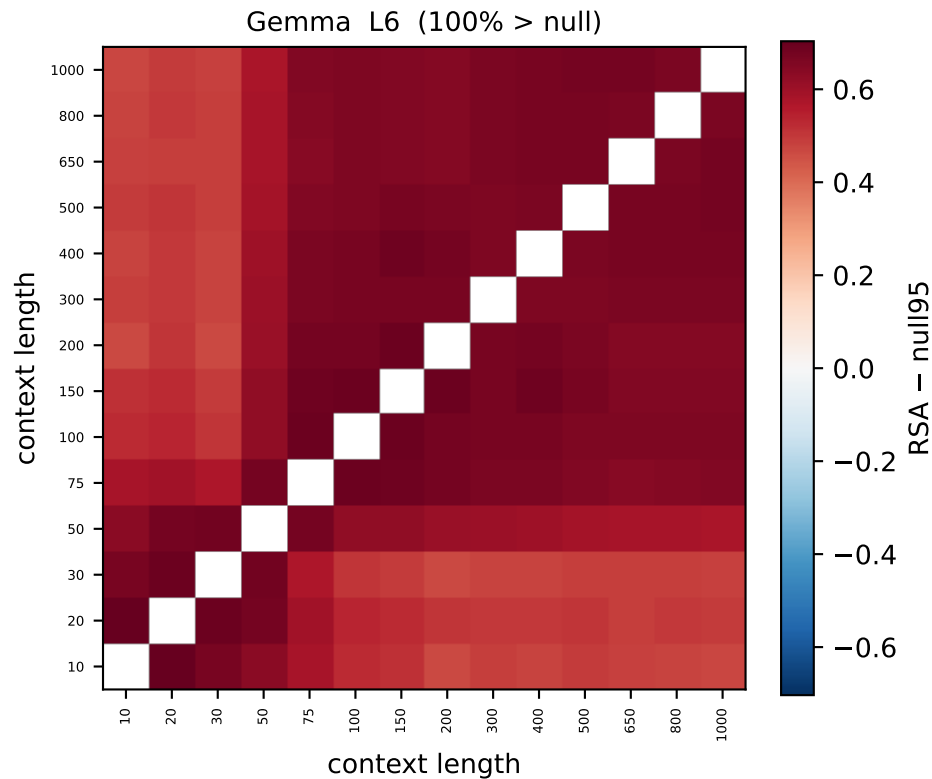

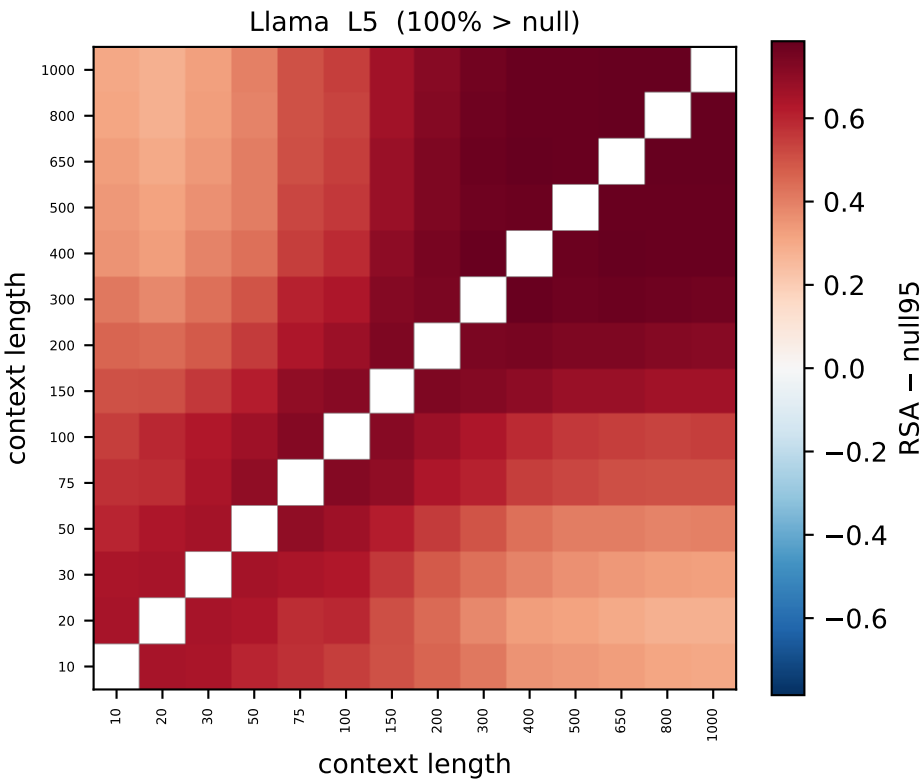

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.10
red = above chance (real)

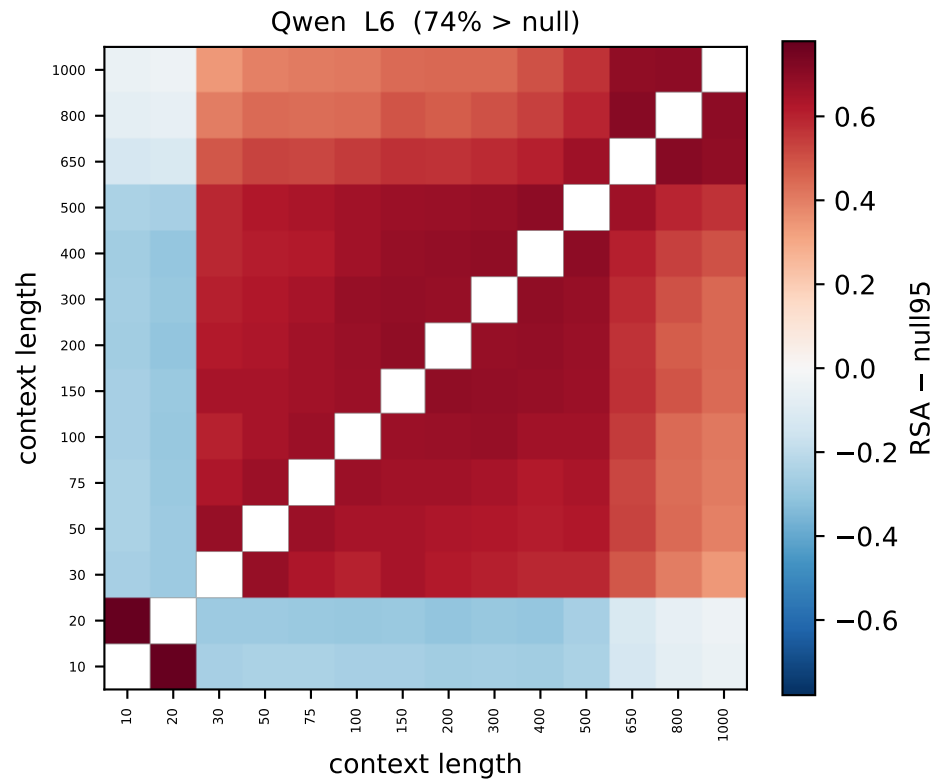

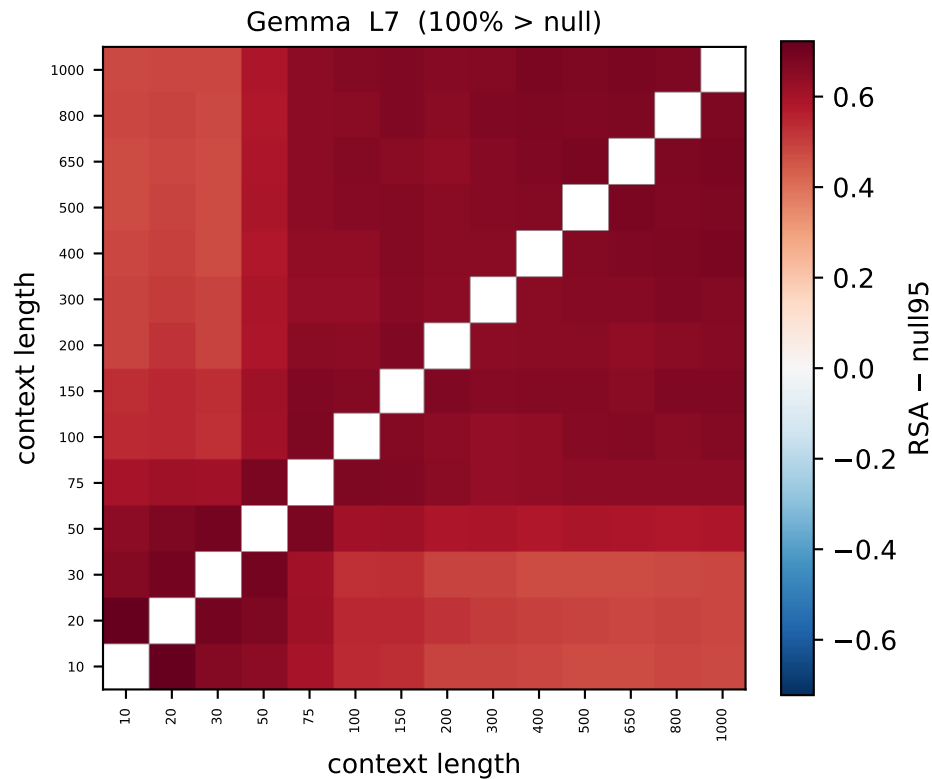

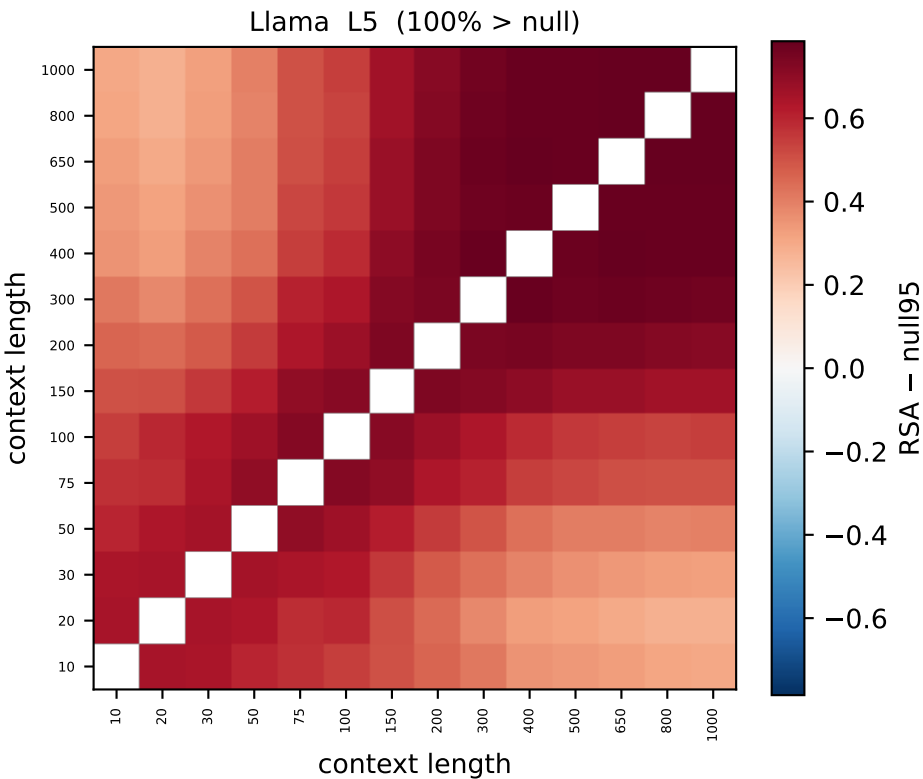

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.12
red = above chance (real)

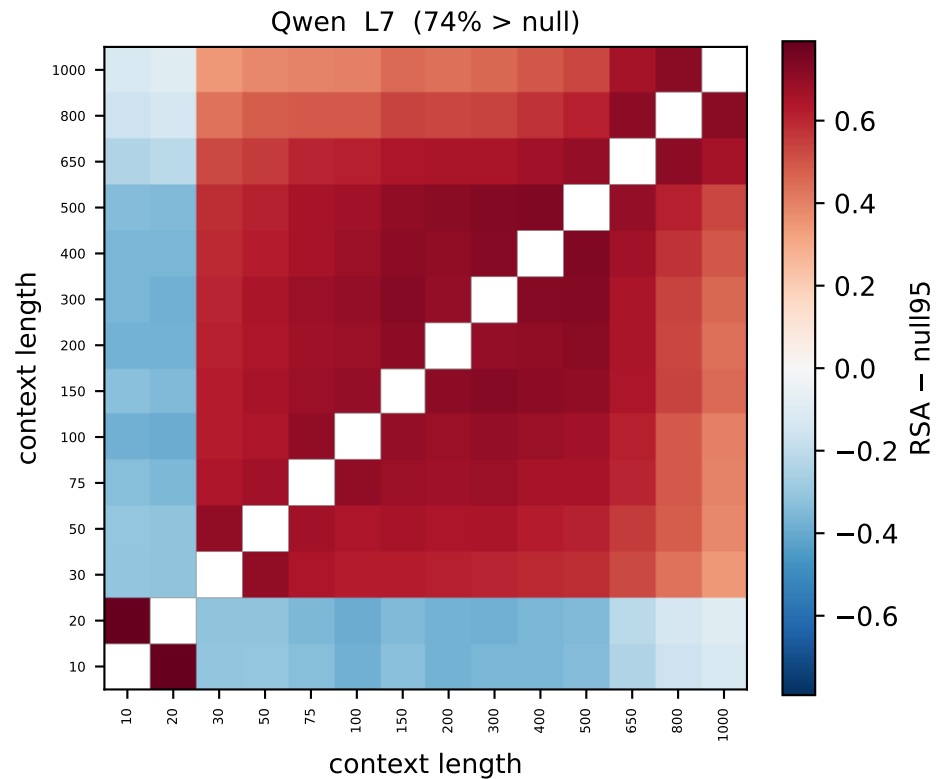

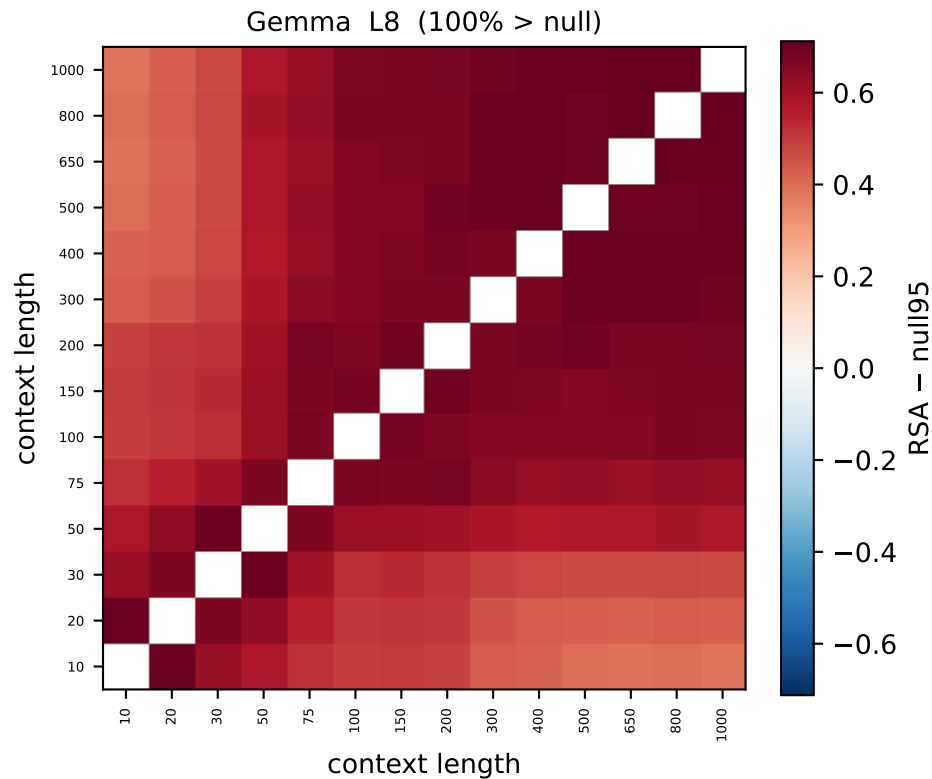

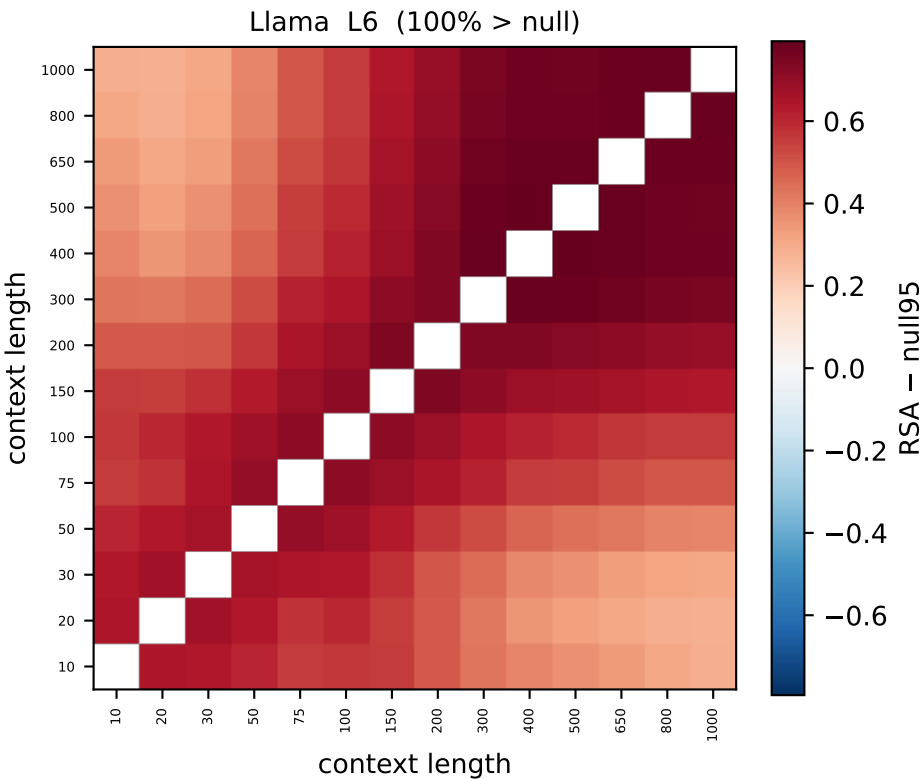

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.15
red = above chance (real)

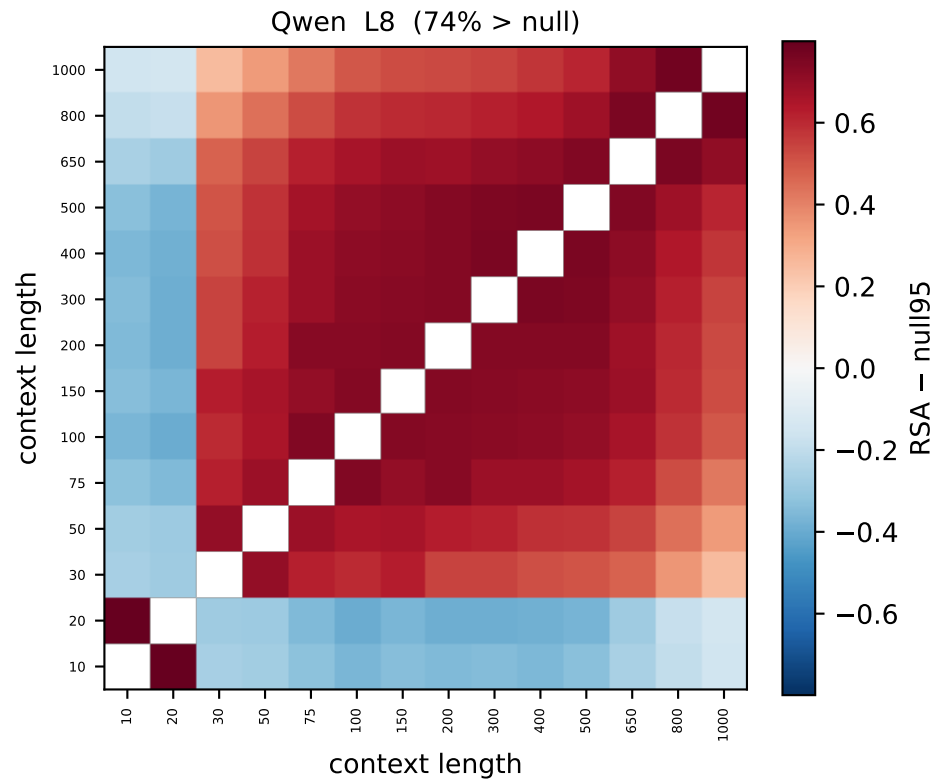

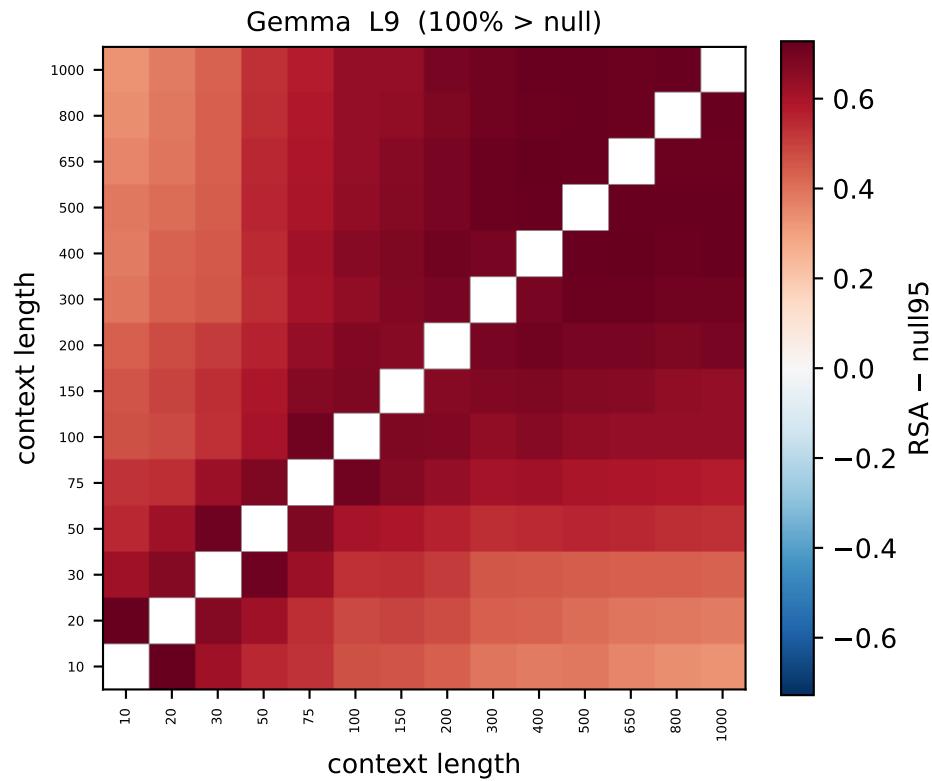

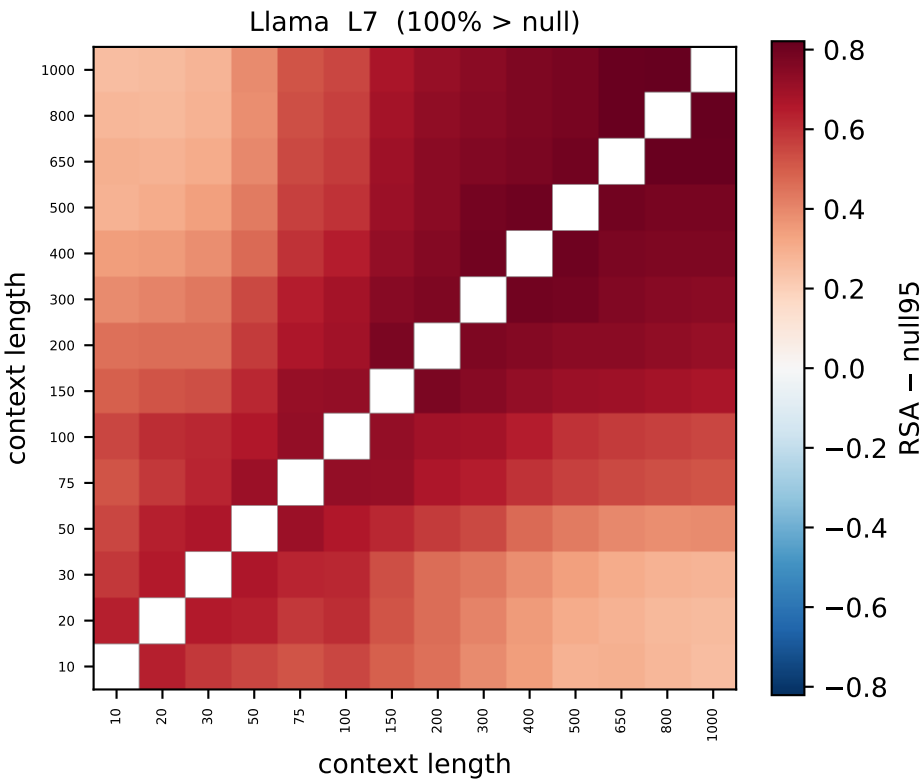

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.17
red = above chance (real)

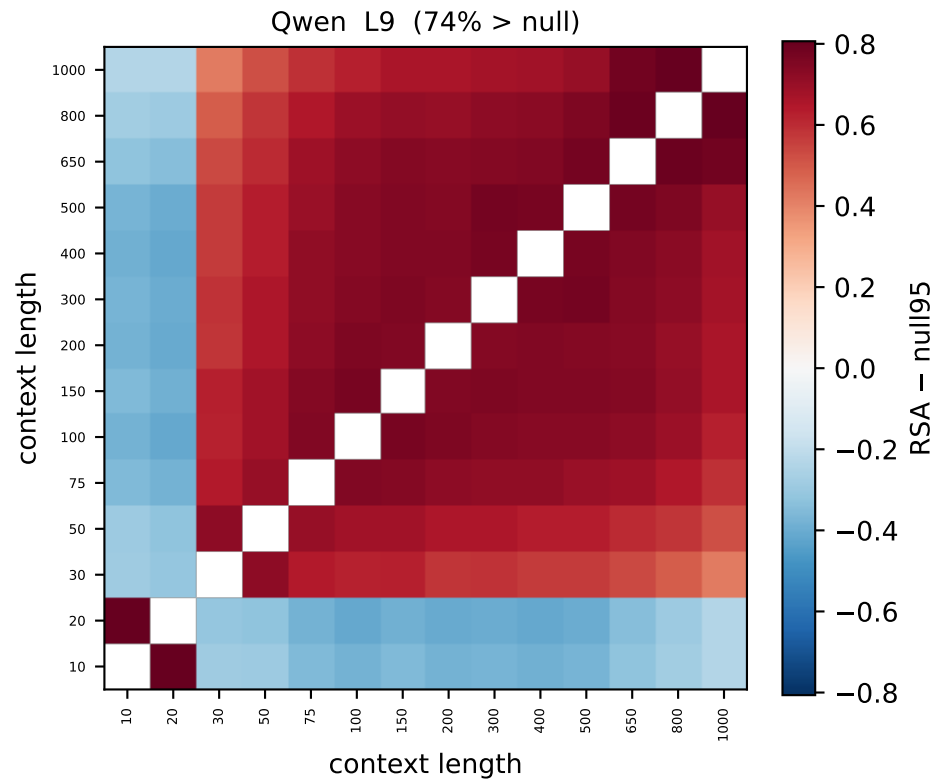

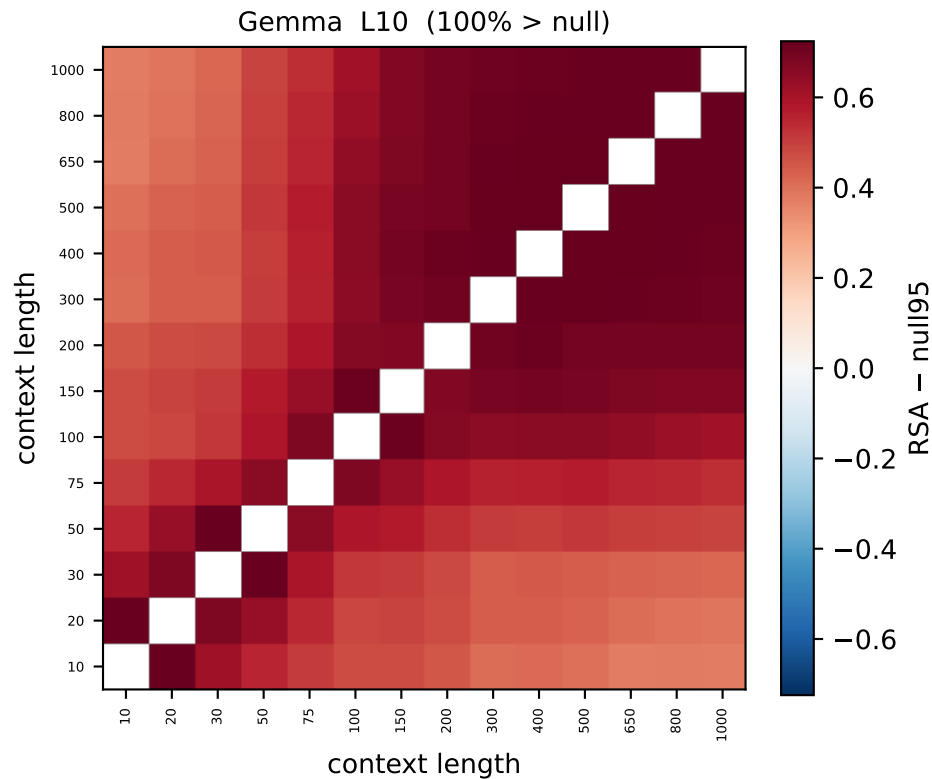

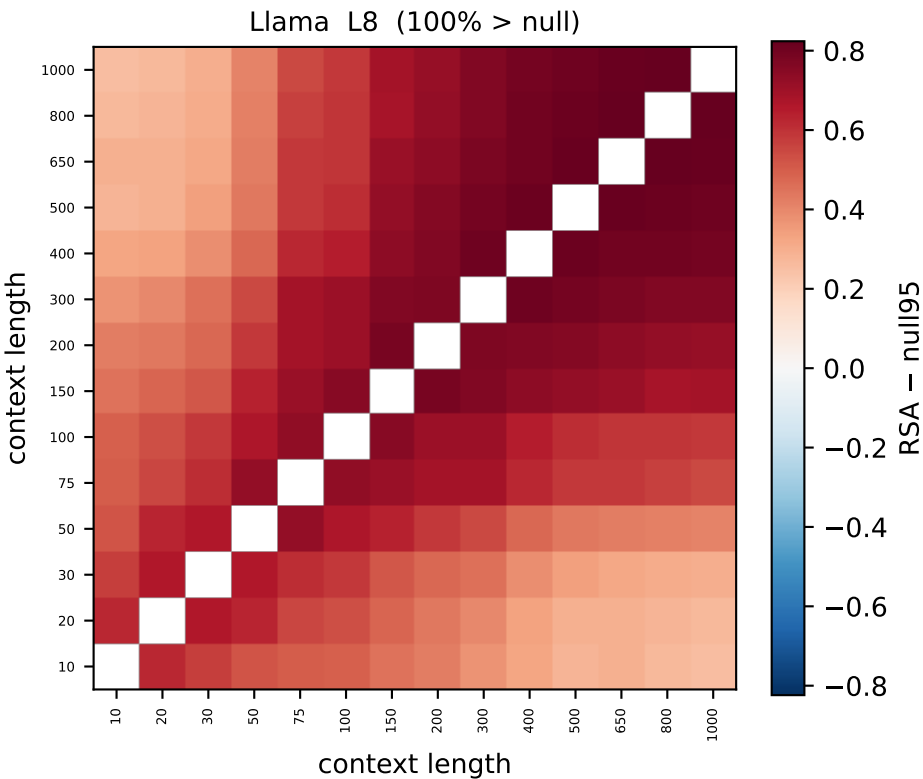

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.20
red = above chance (real)

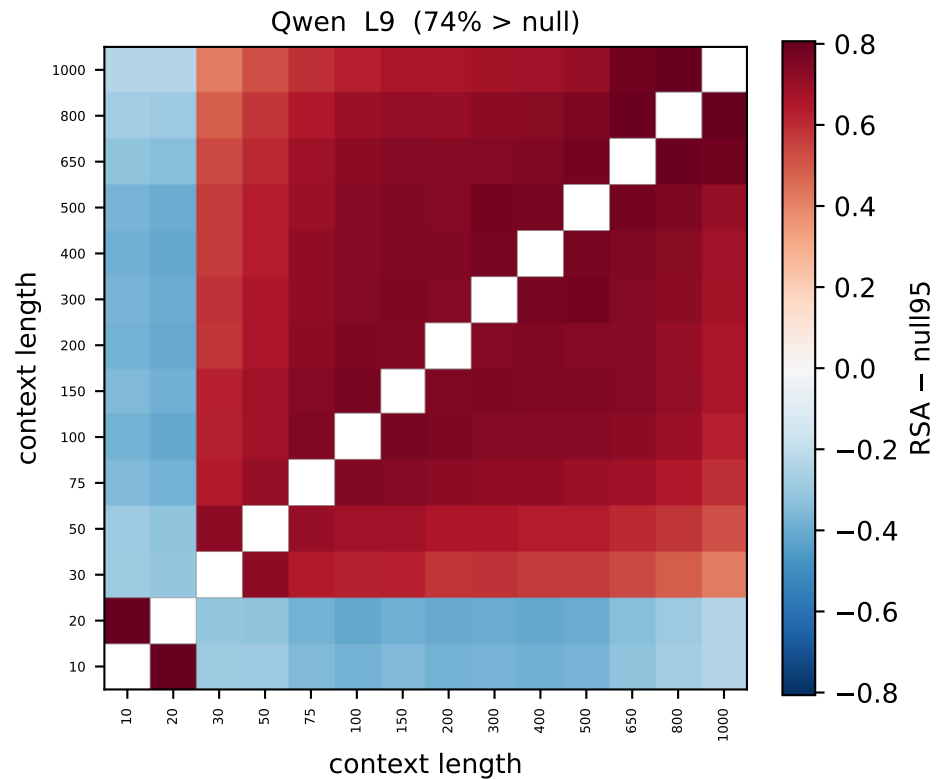

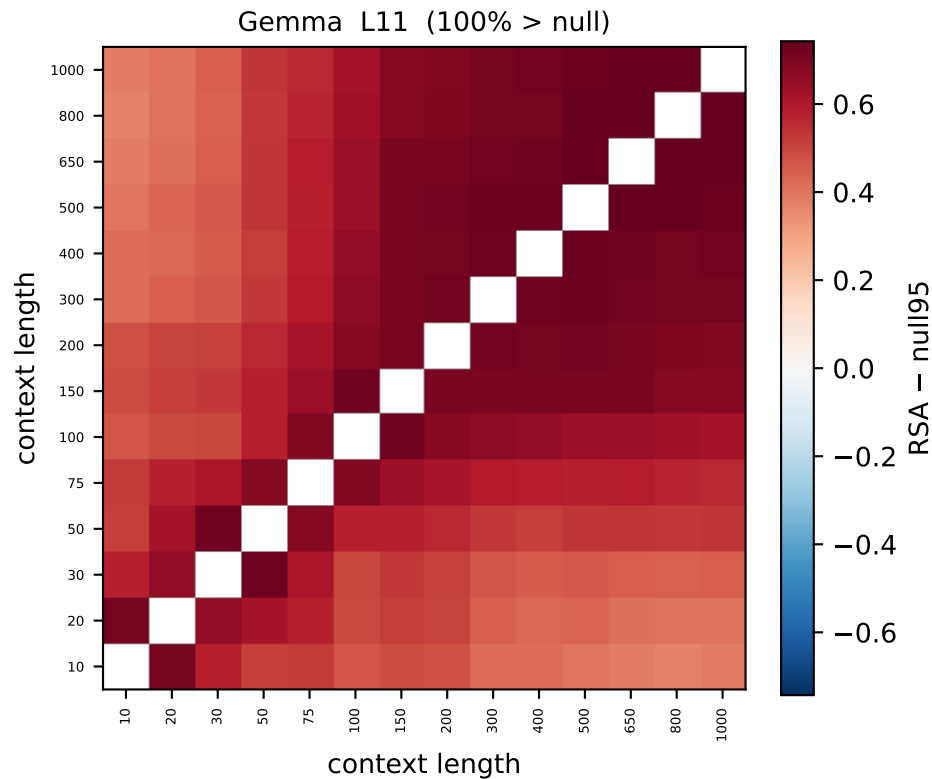

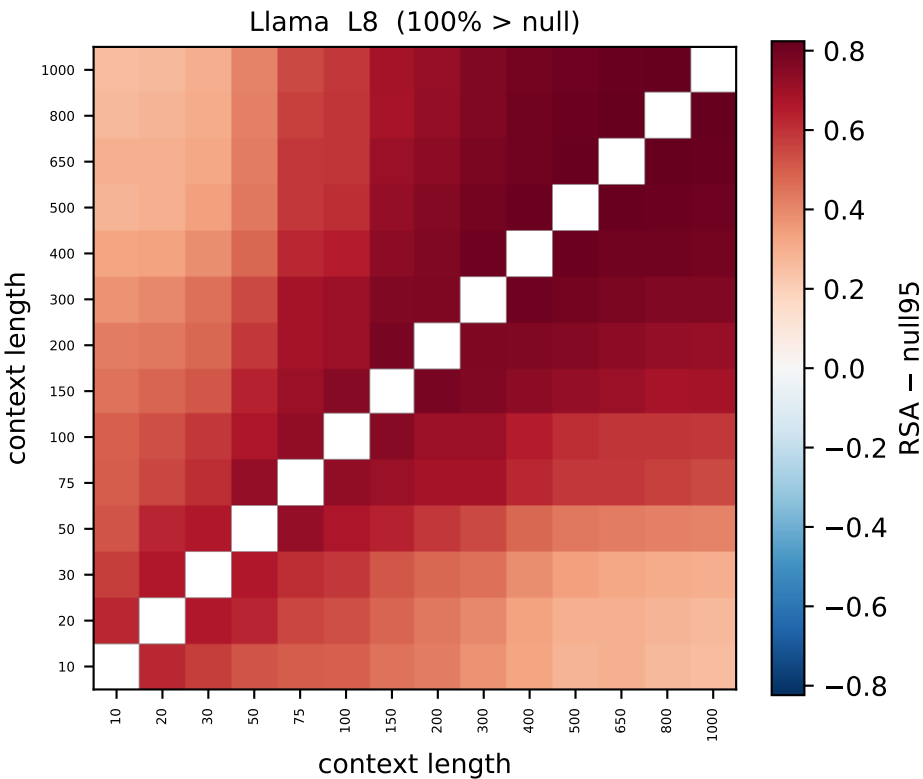

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.22
red = above chance (real)

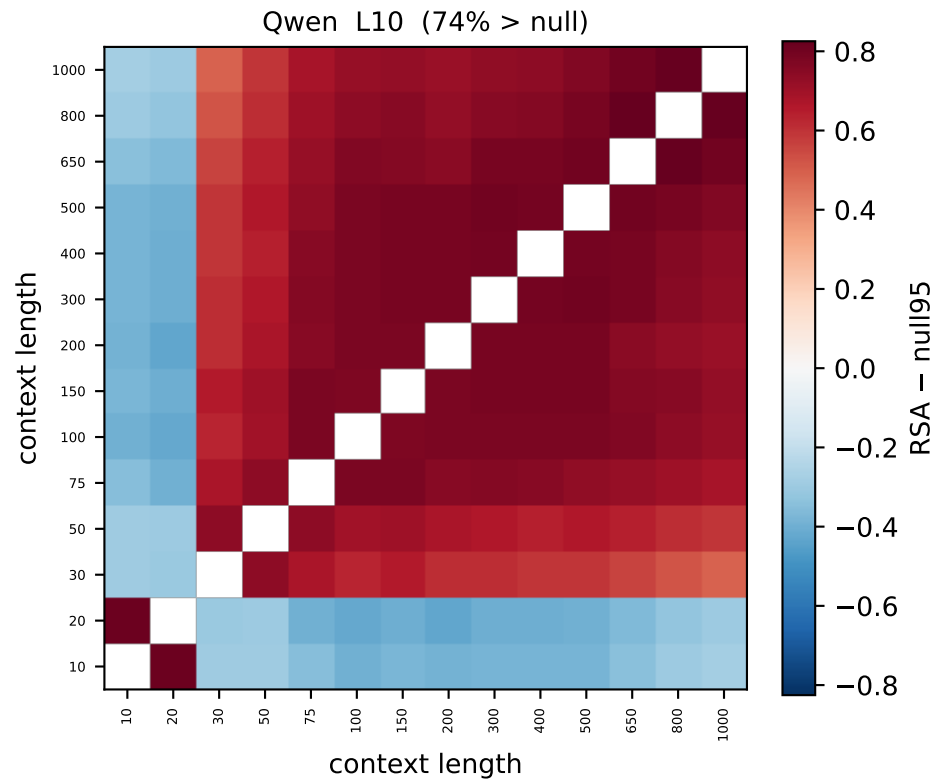

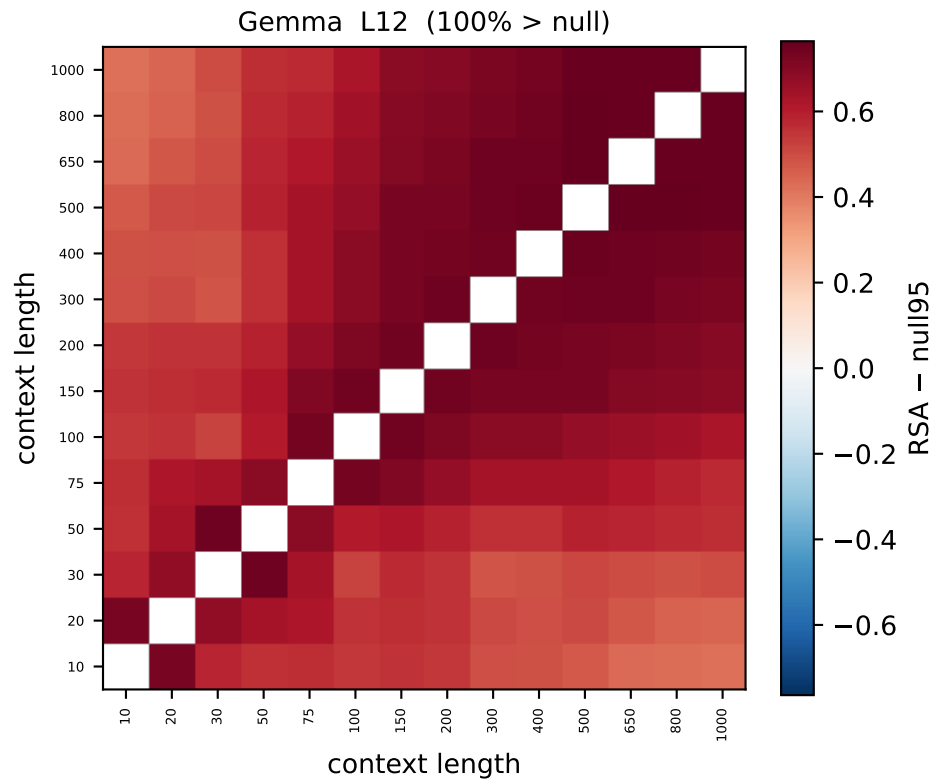

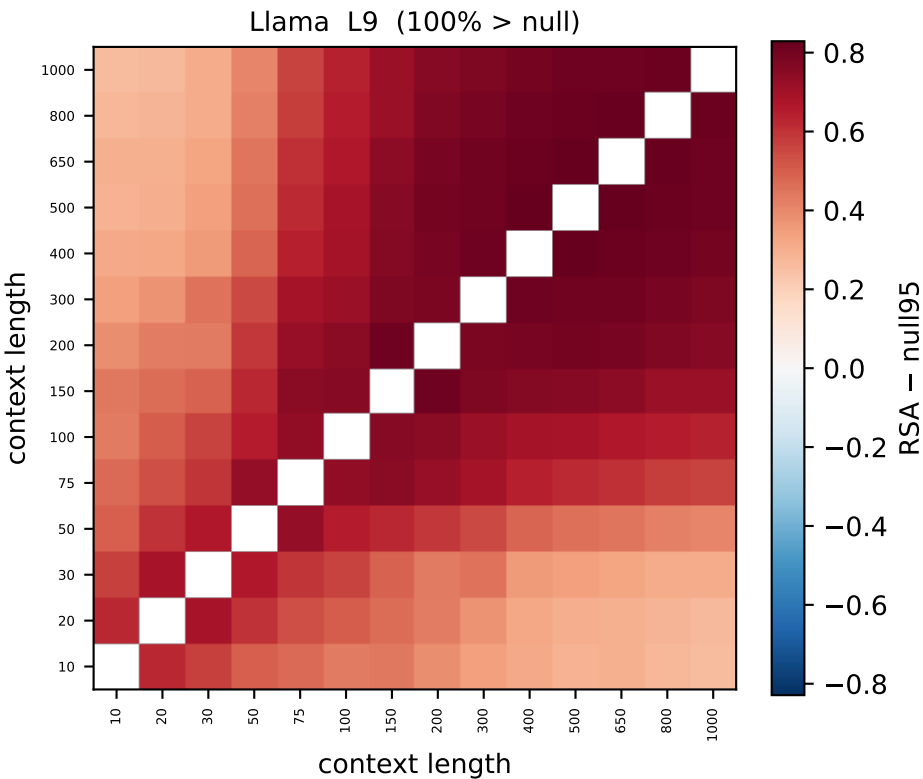

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.24
red = above chance (real)

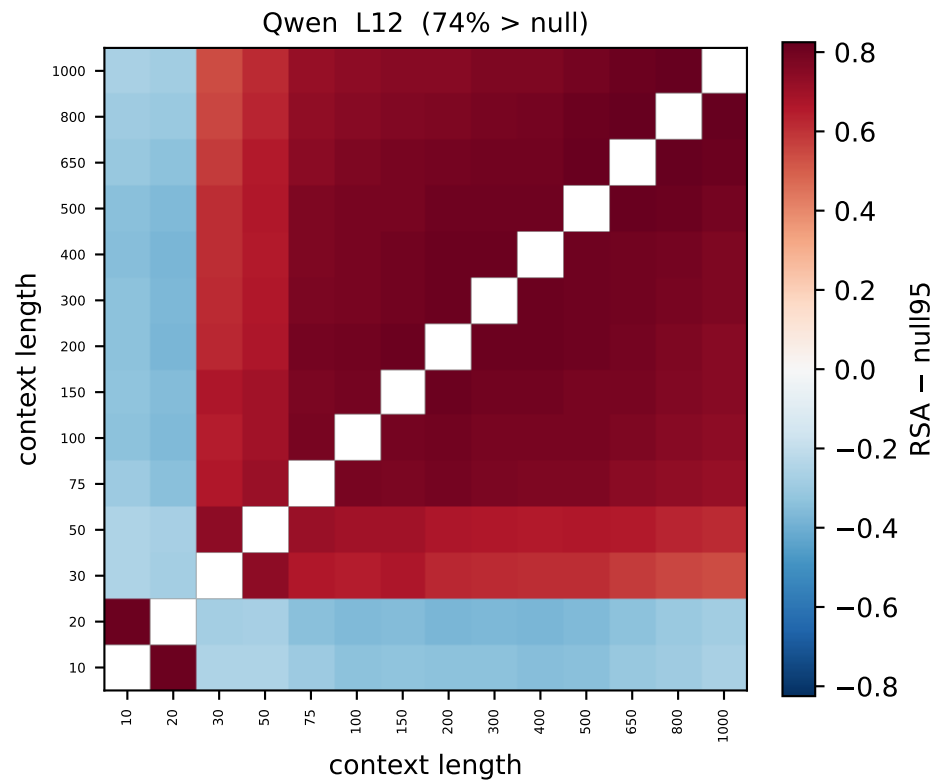

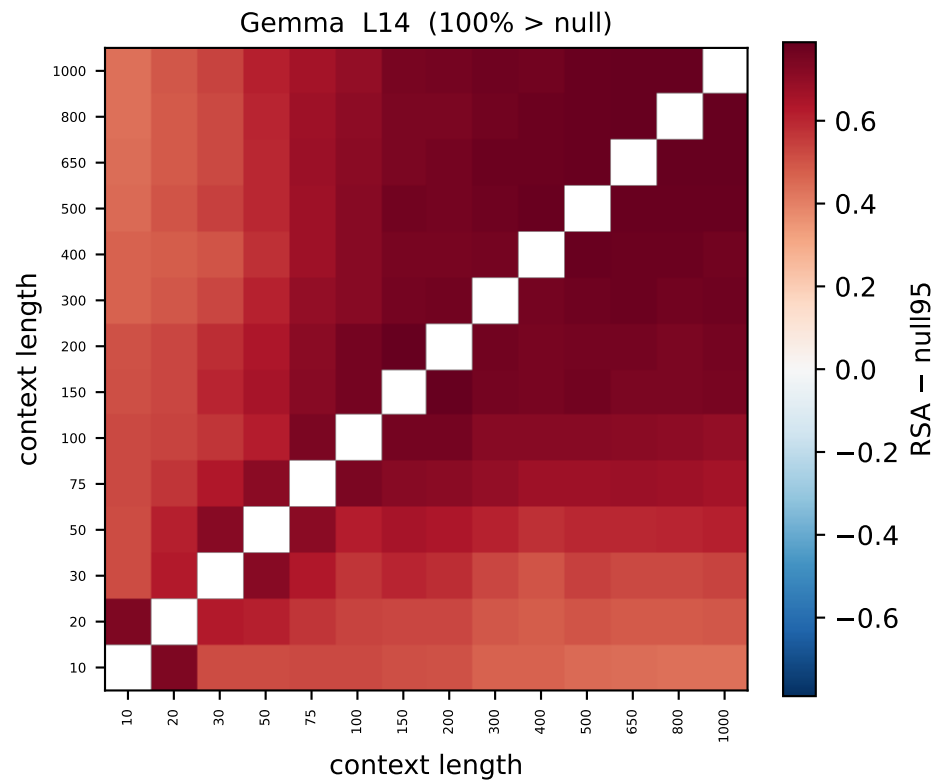

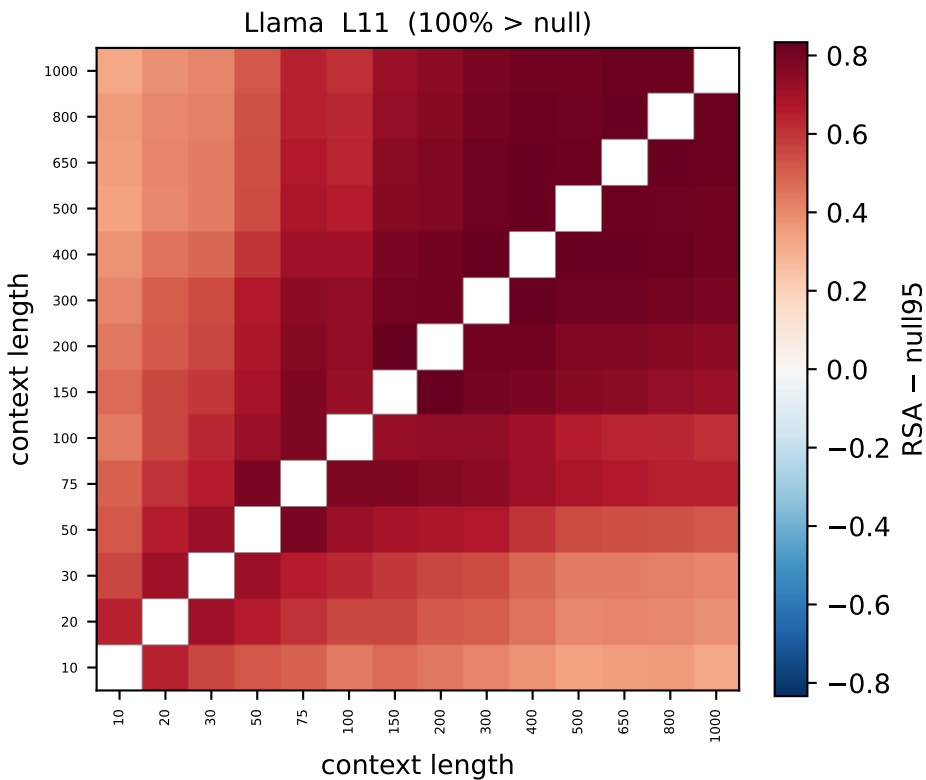

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.27
red = above chance (real)

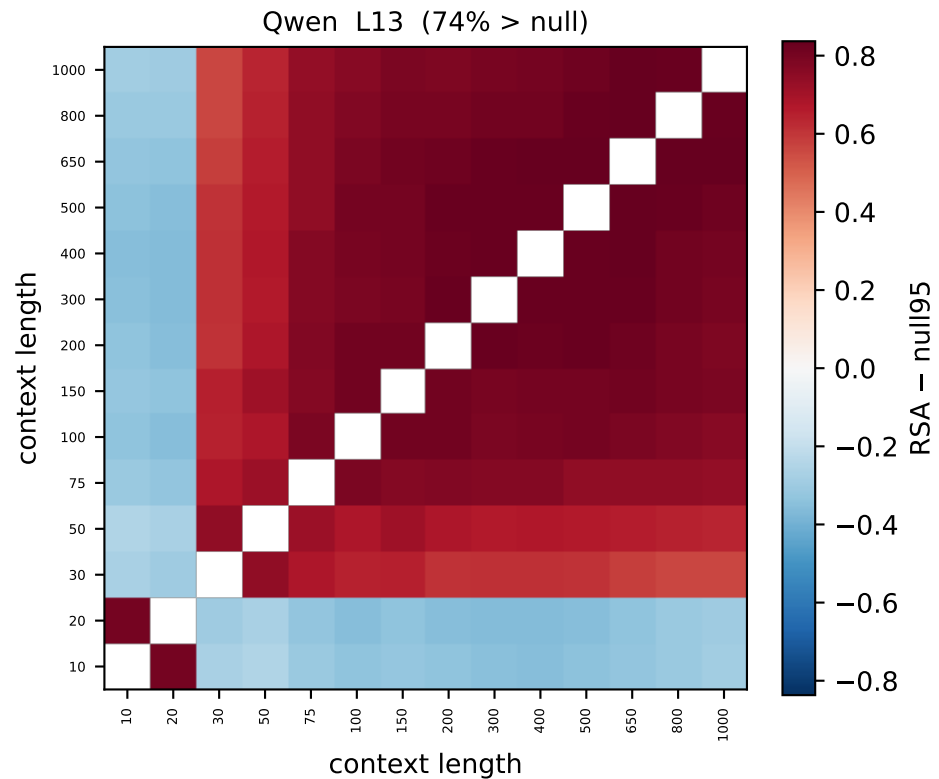

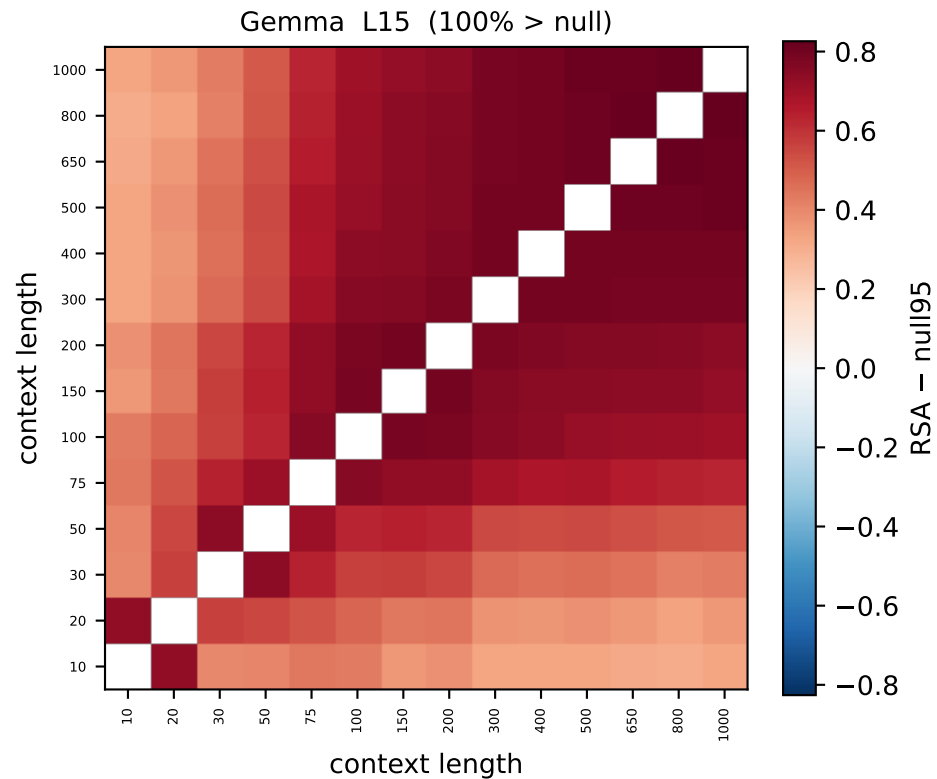

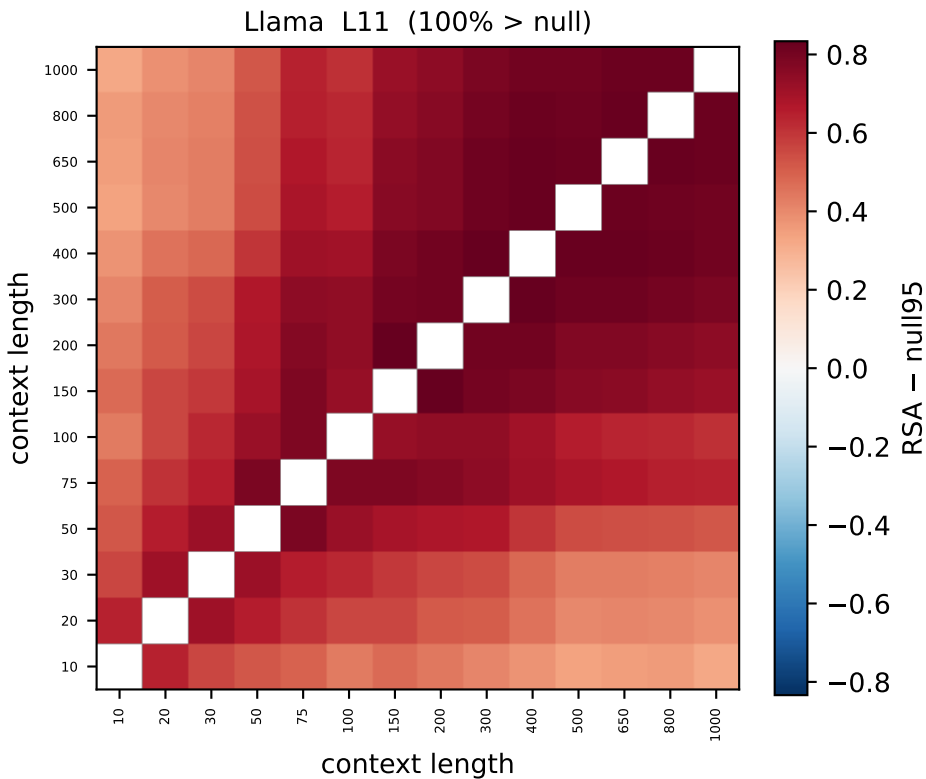

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.29
red = above chance (real)

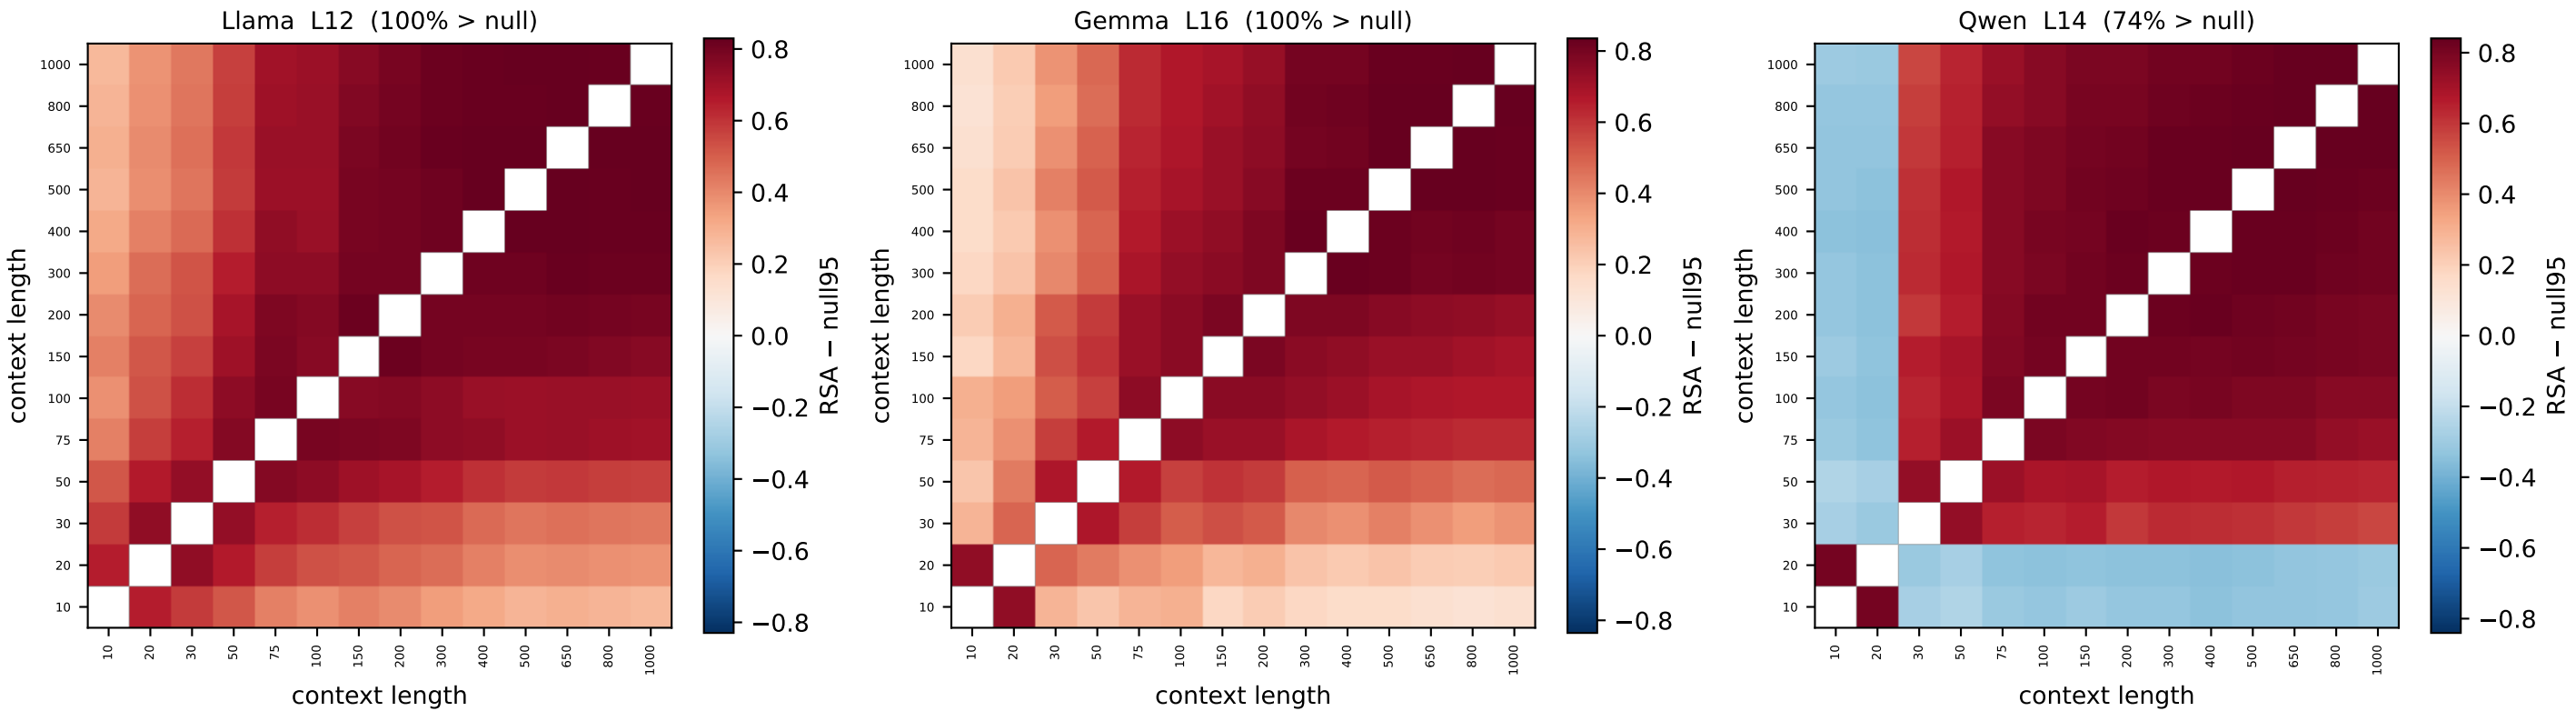

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.34
red = above chance (real)

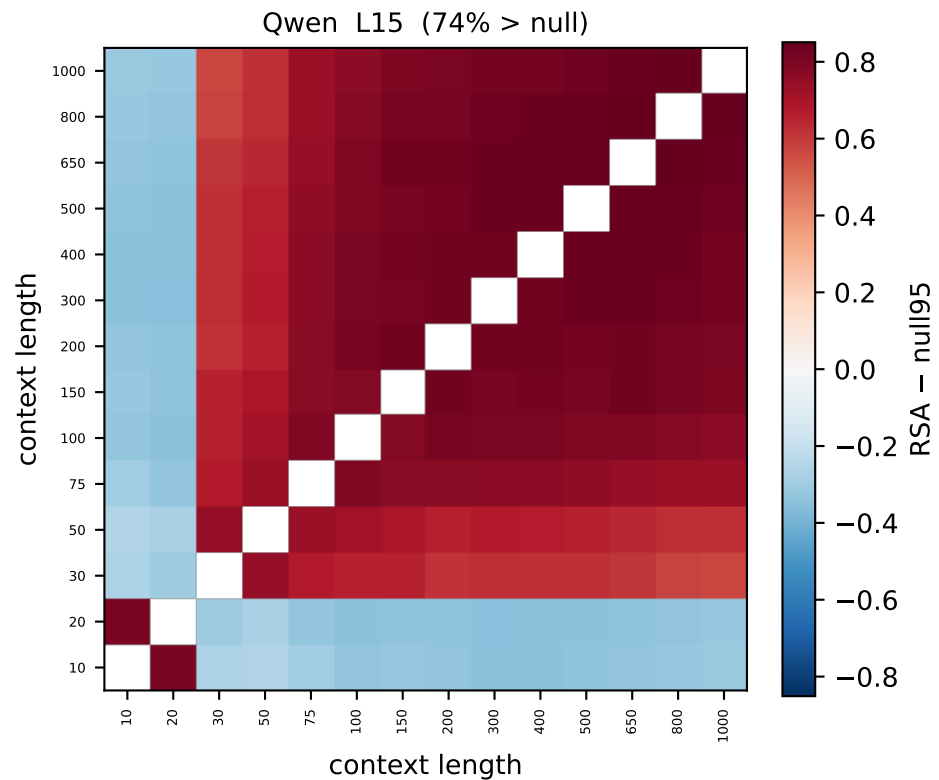

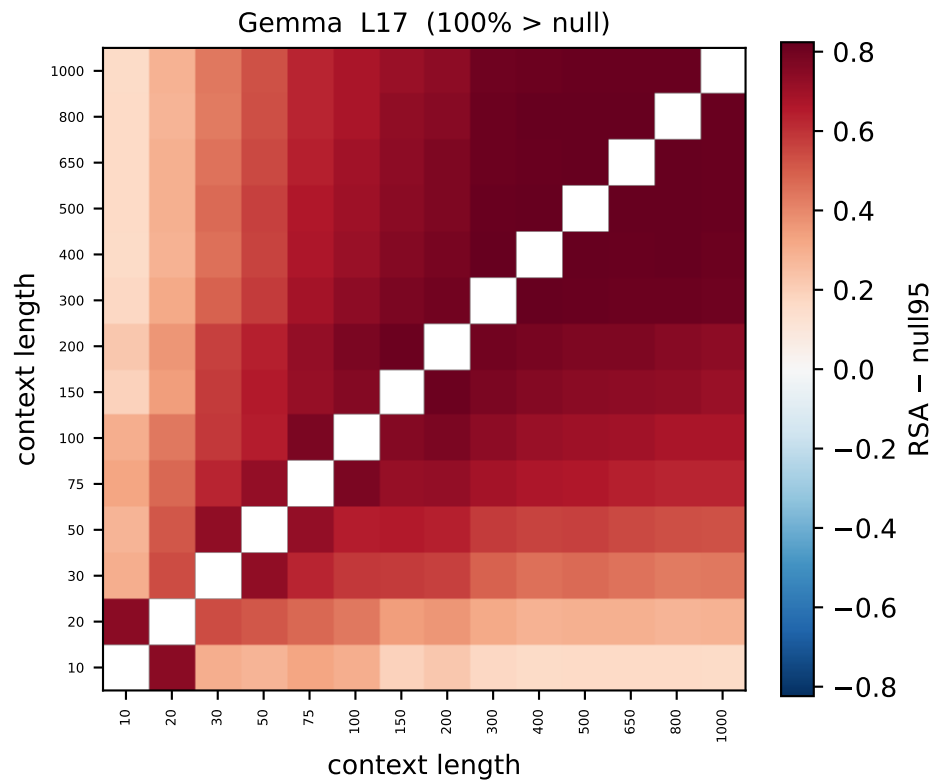

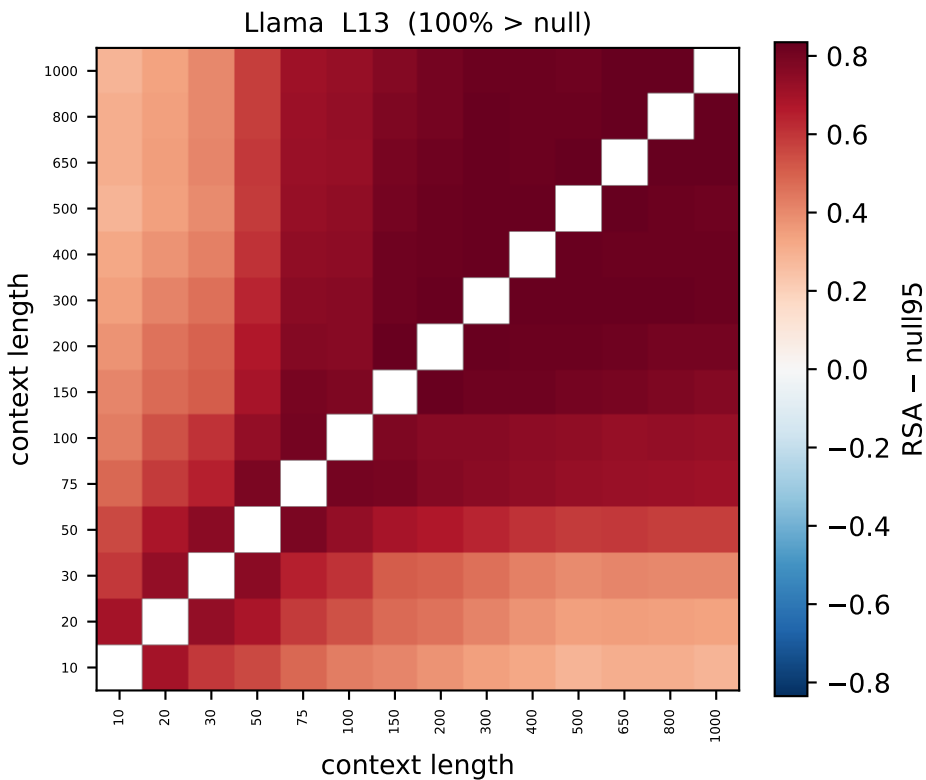

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.37
red = above chance (real)

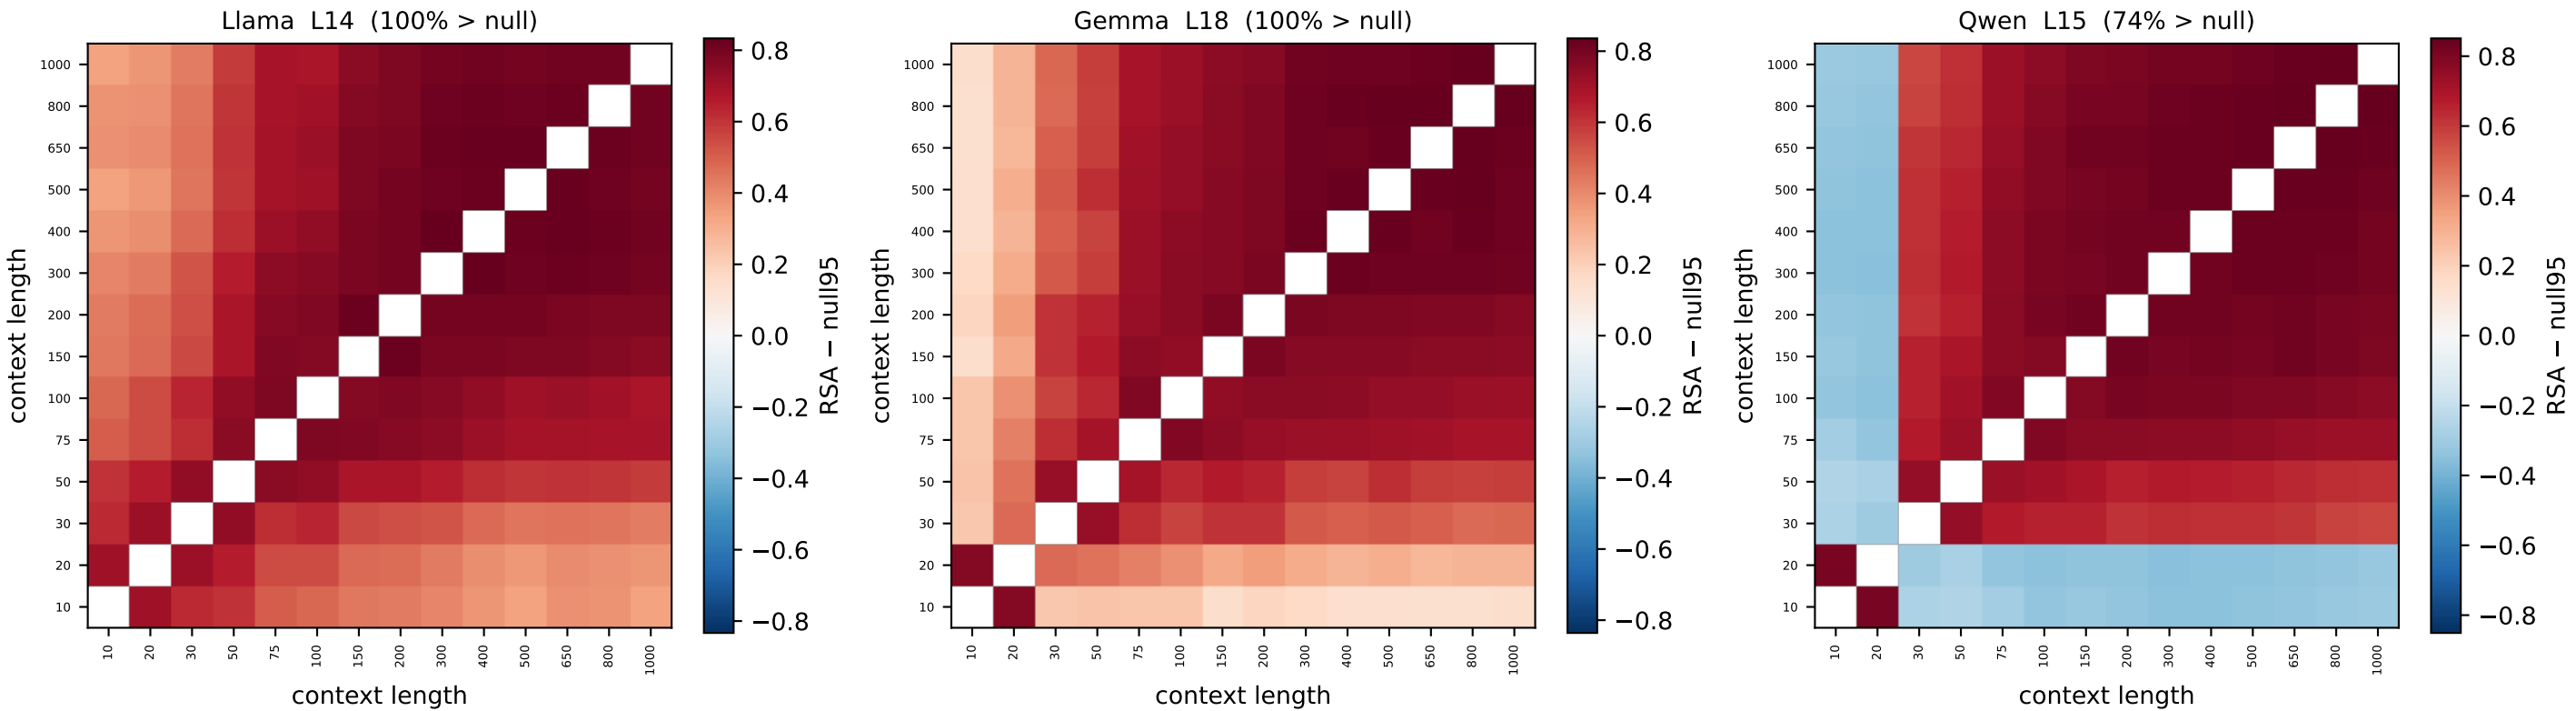

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.39
red = above chance (real)

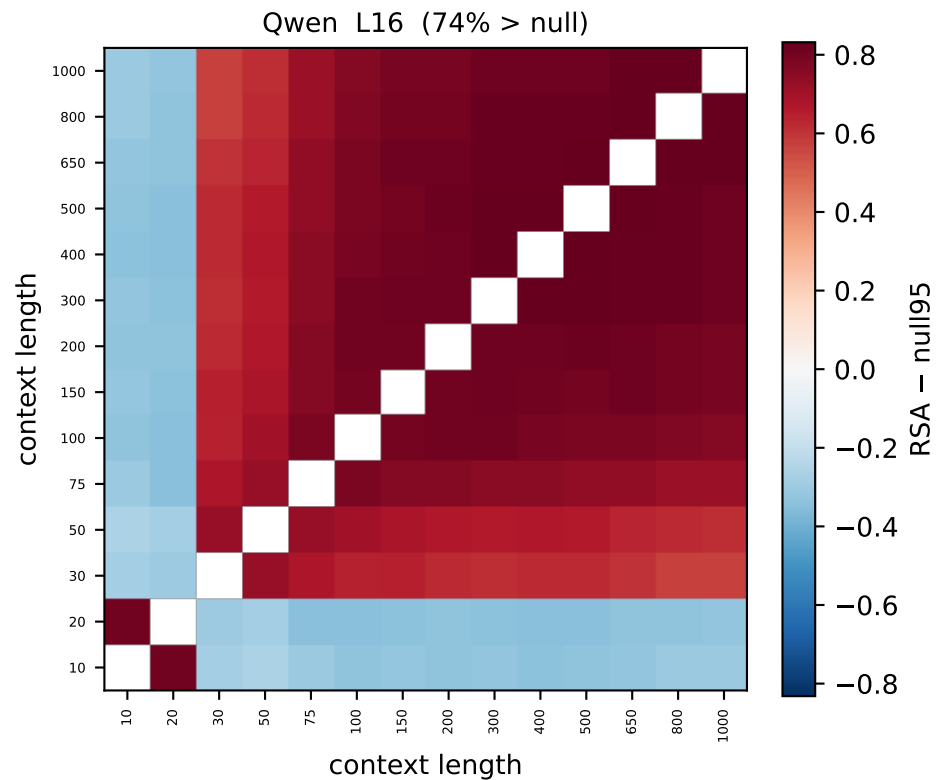

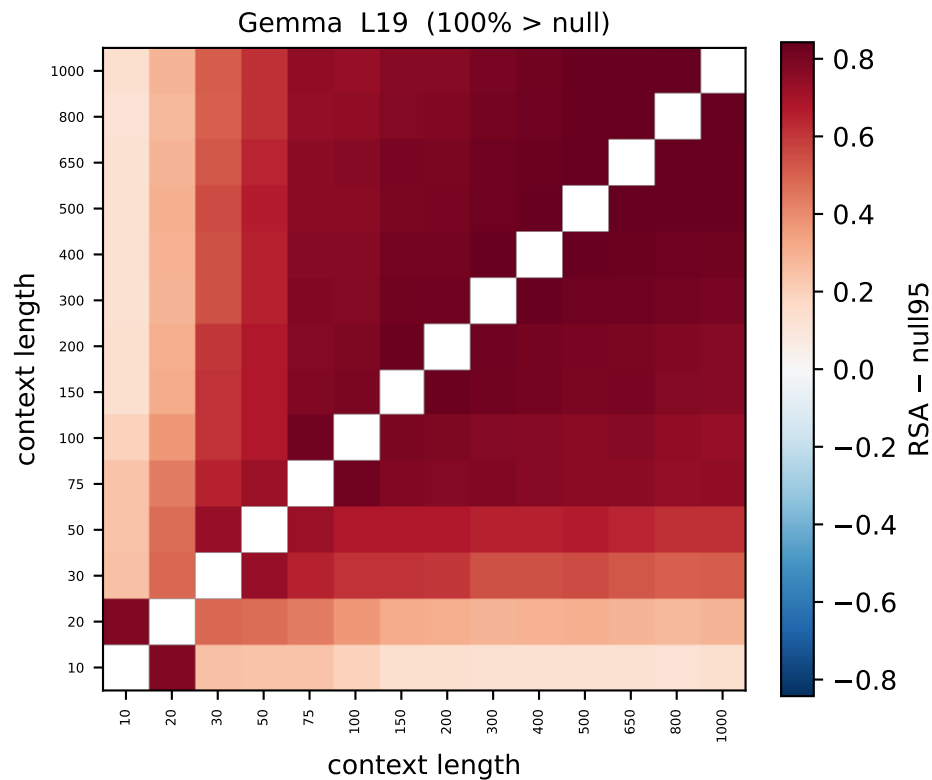

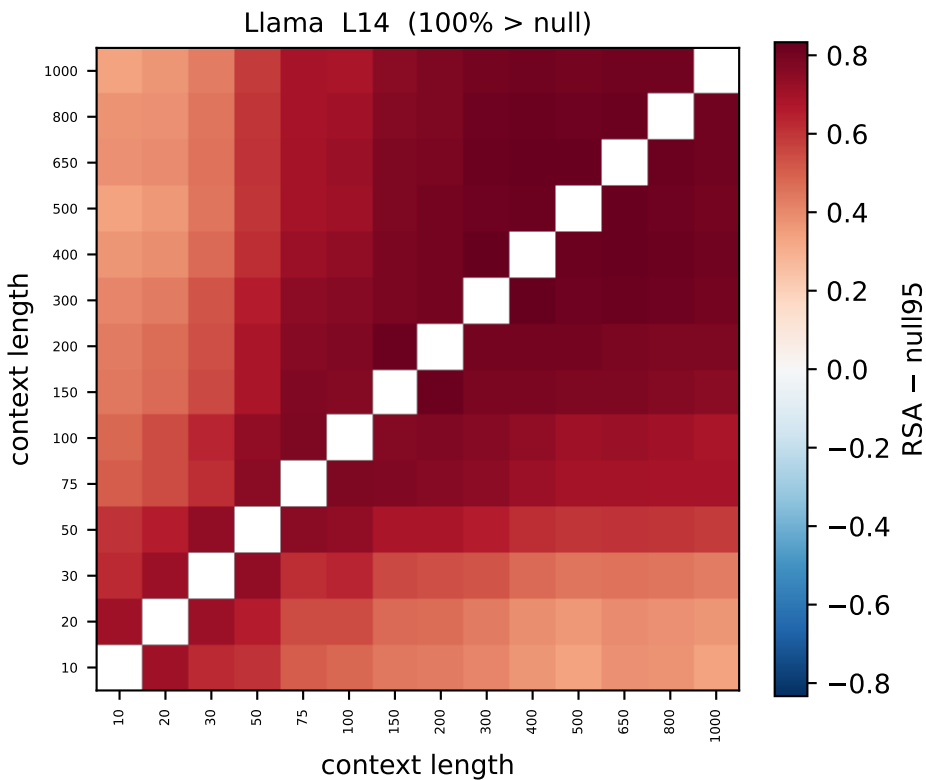

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.41
red = above chance (real)

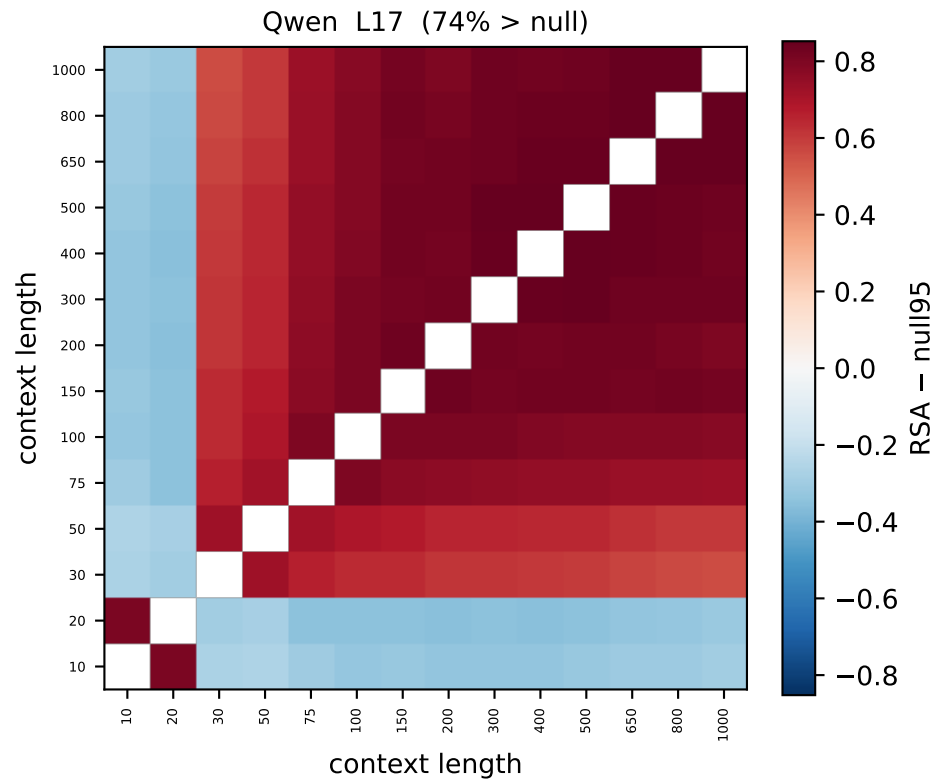

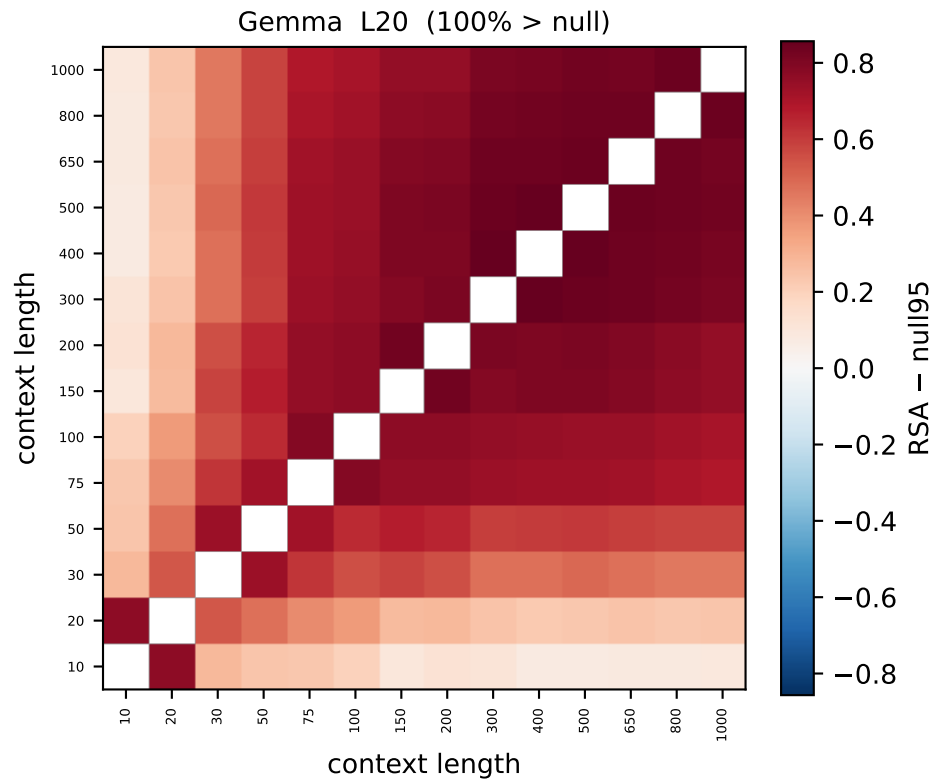

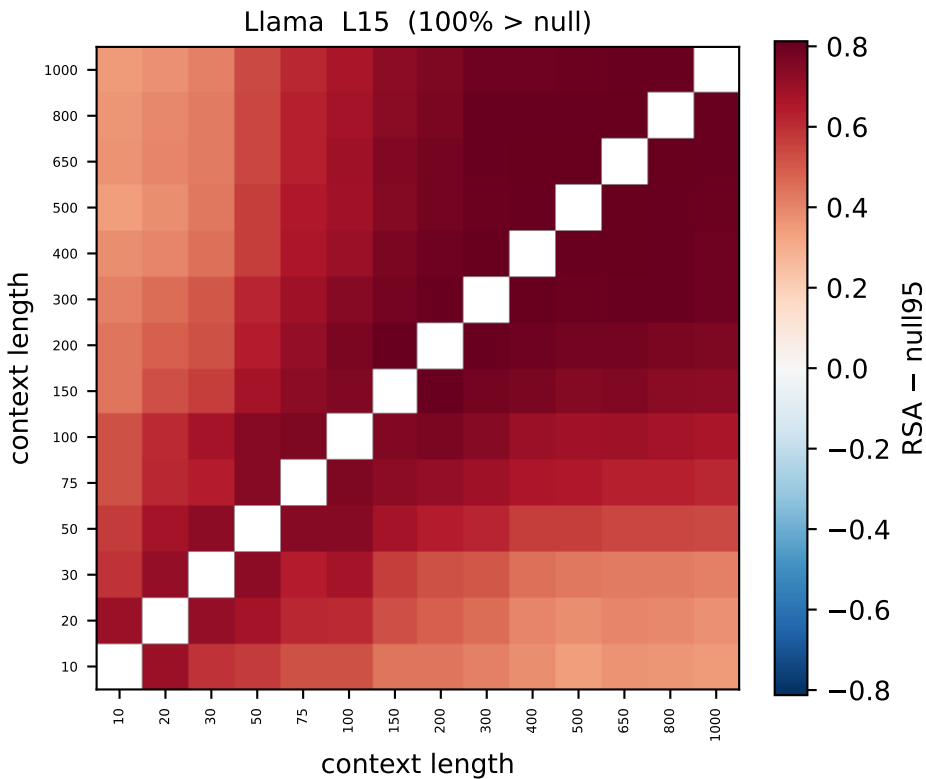

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.44
red = above chance (real)

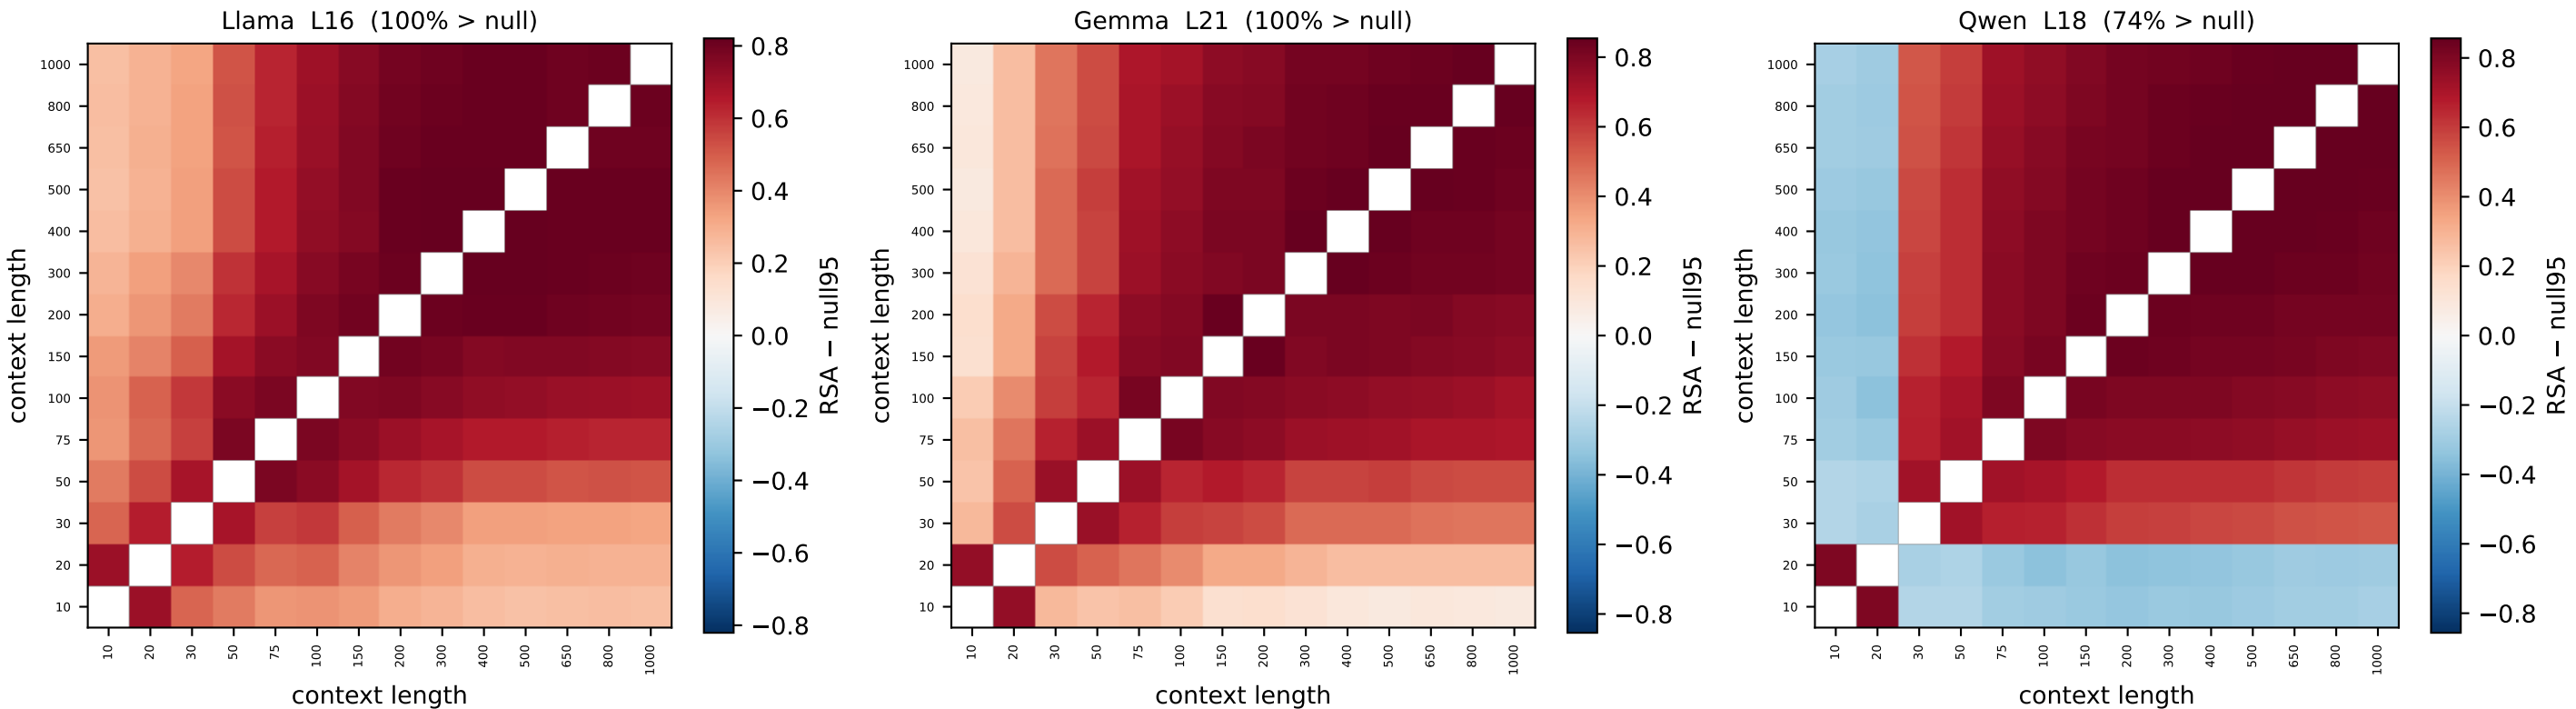

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.46
red = above chance (real)

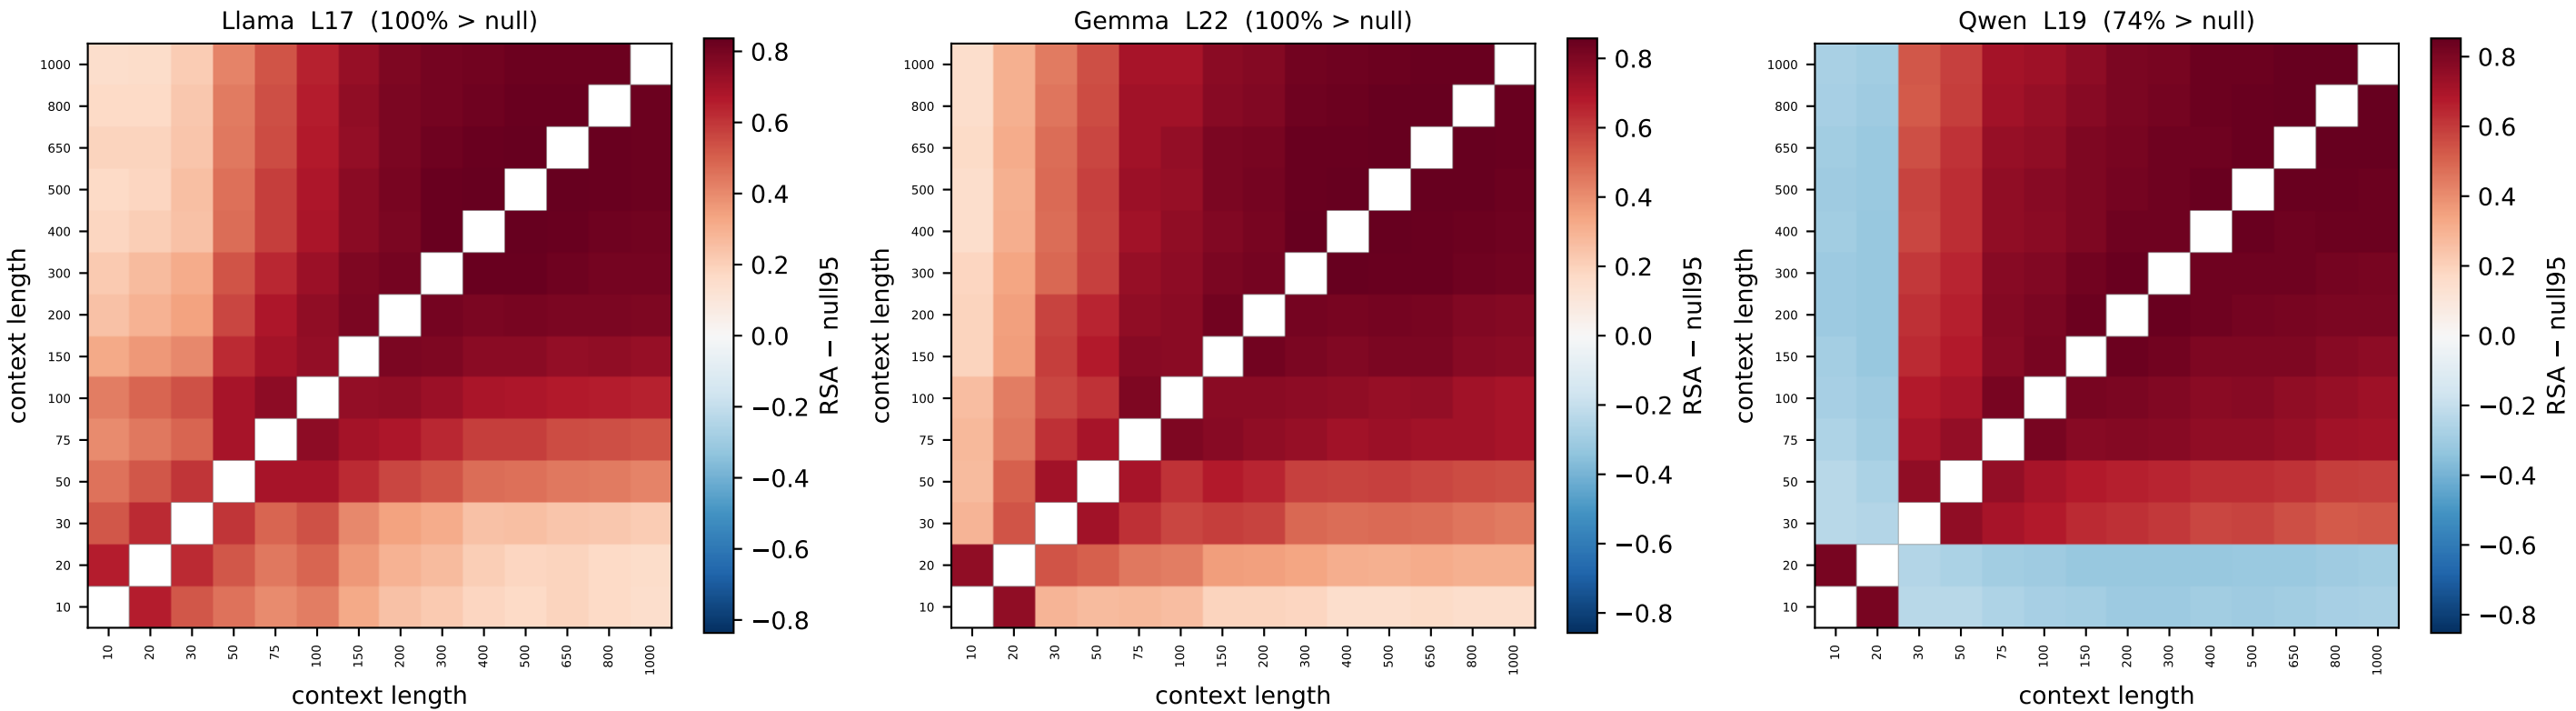

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.49
red = above chance (real)

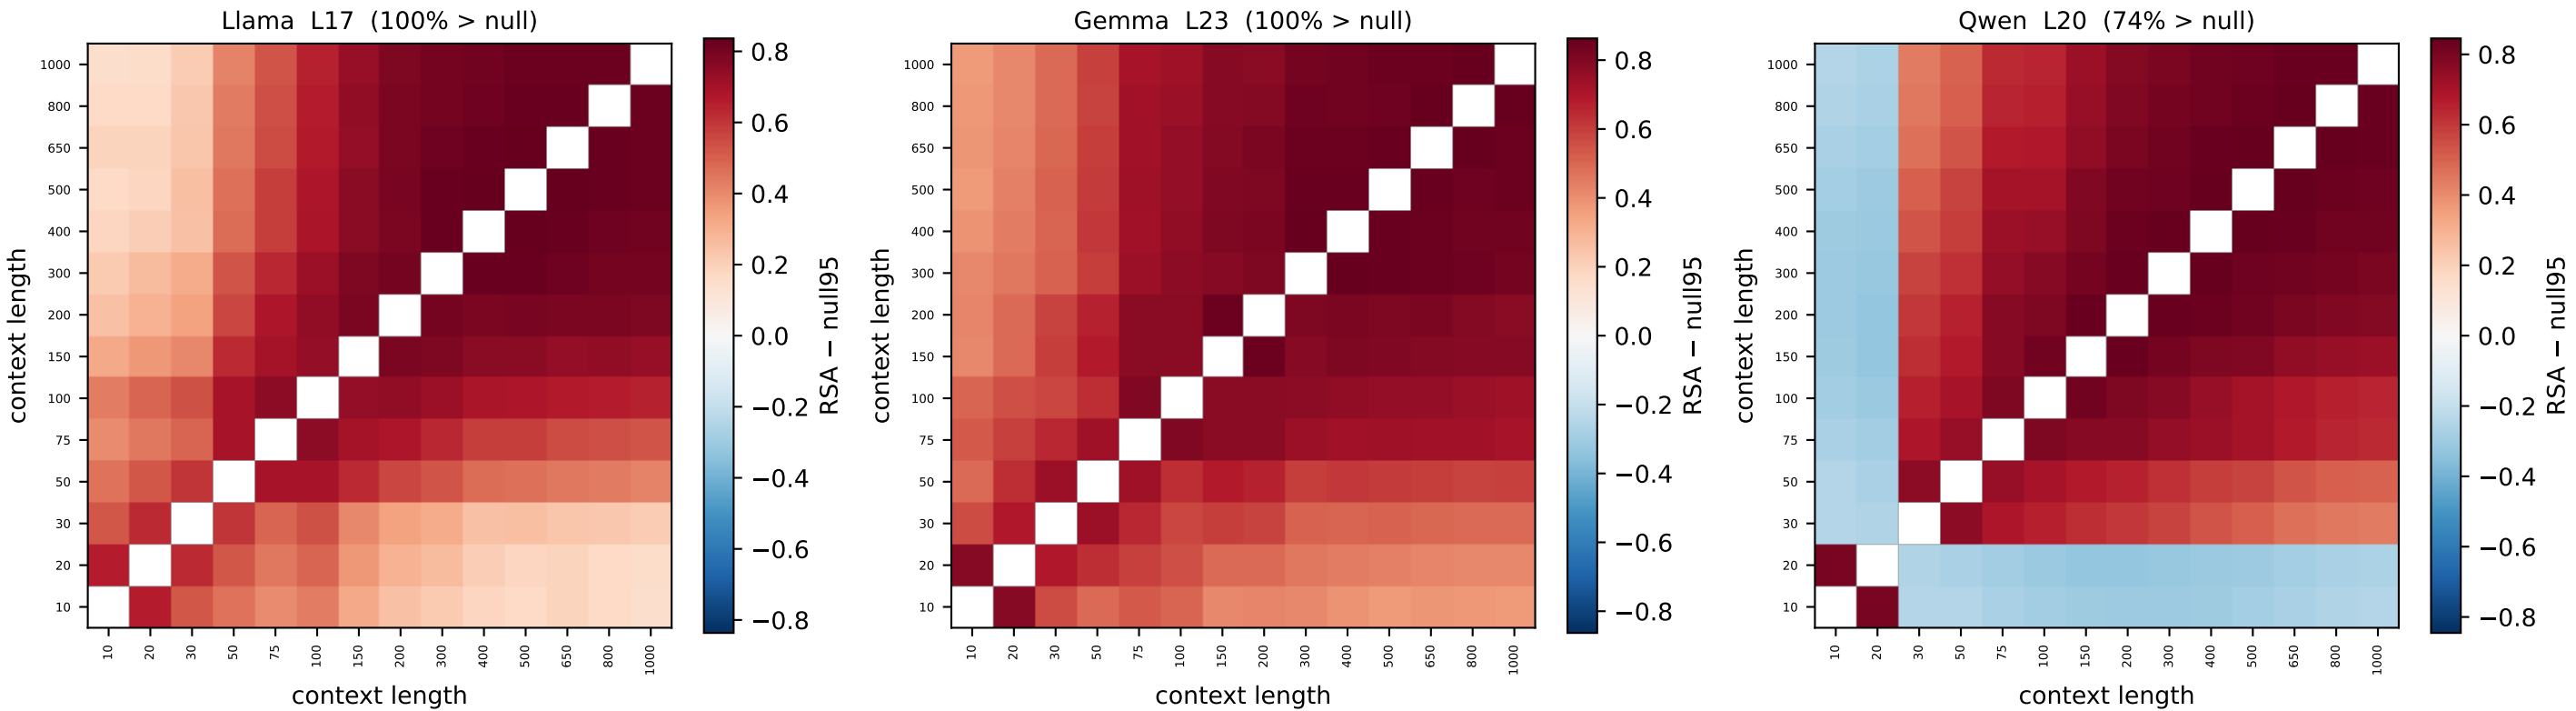

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.51
red = above chance (real)

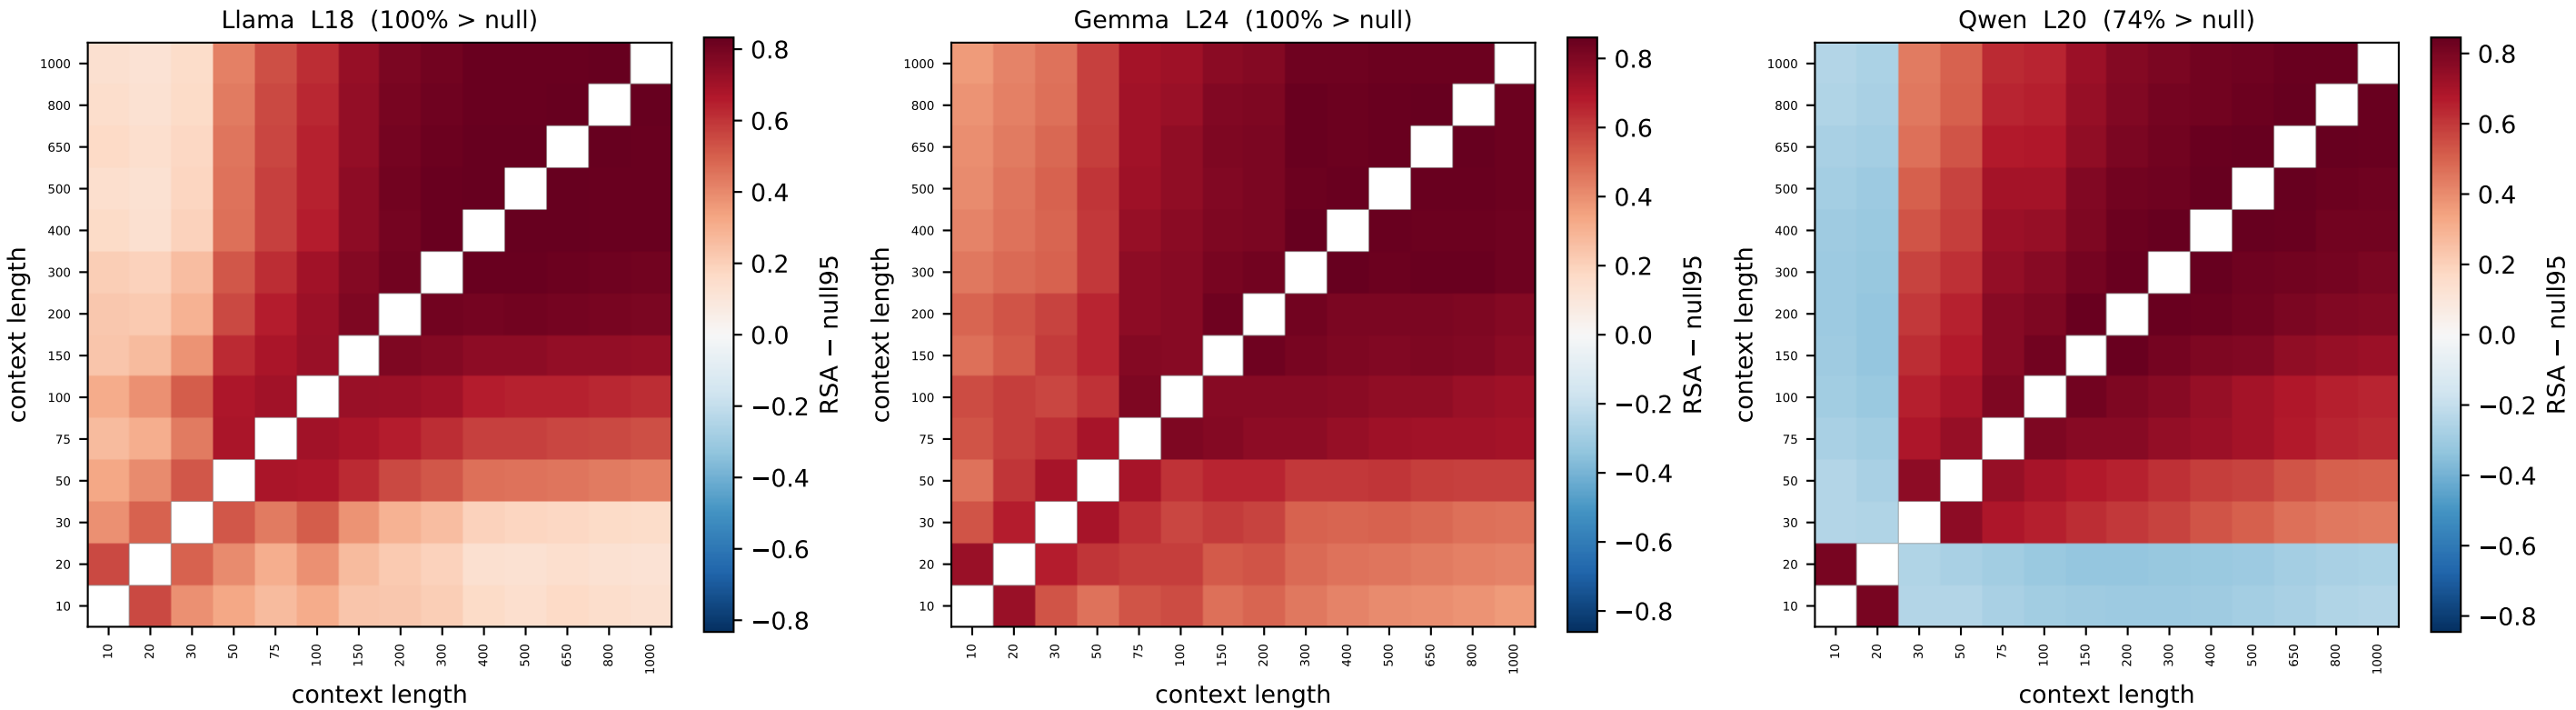

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.54
red = above chance (real)

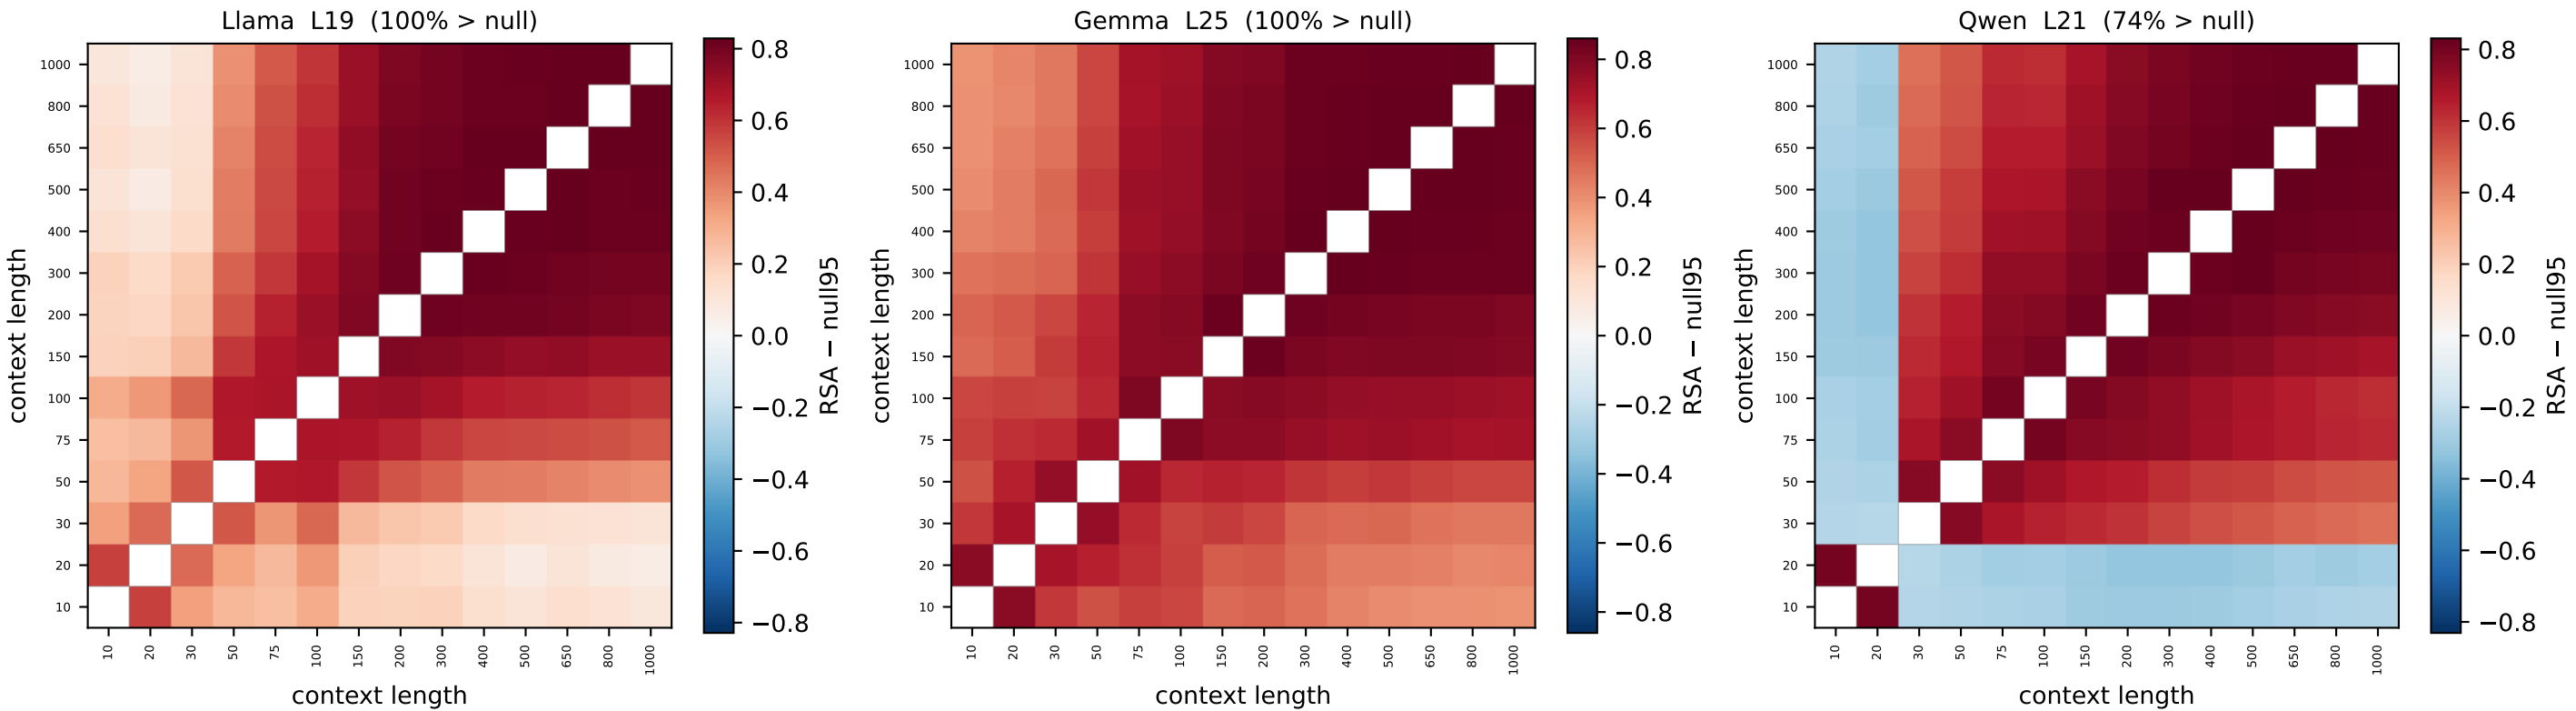

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.56
red = above chance (real)

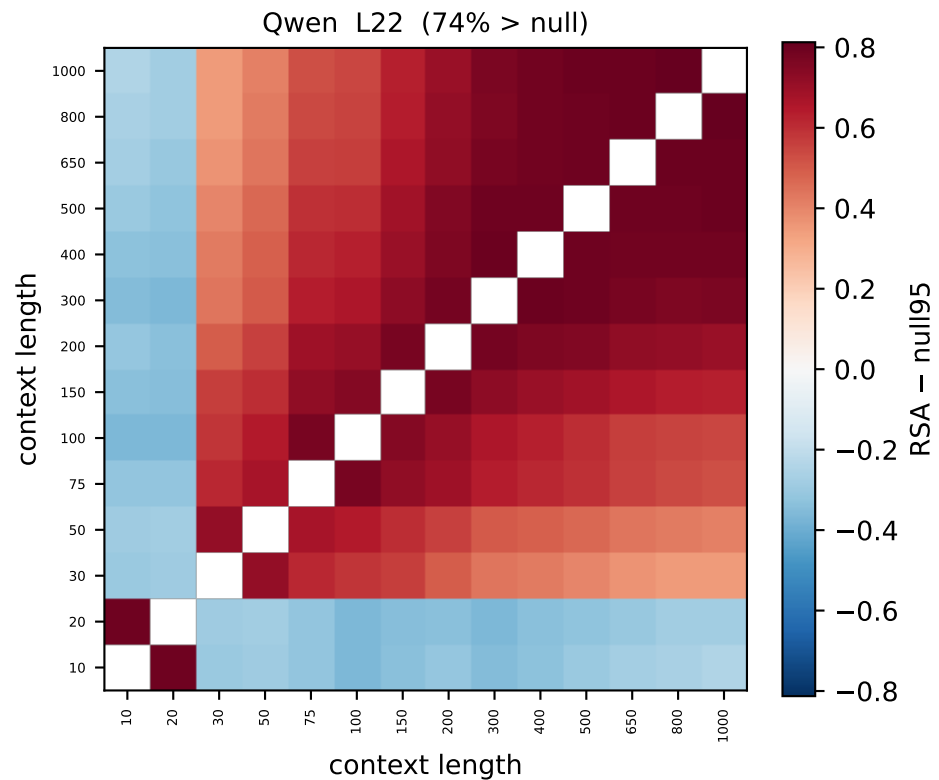

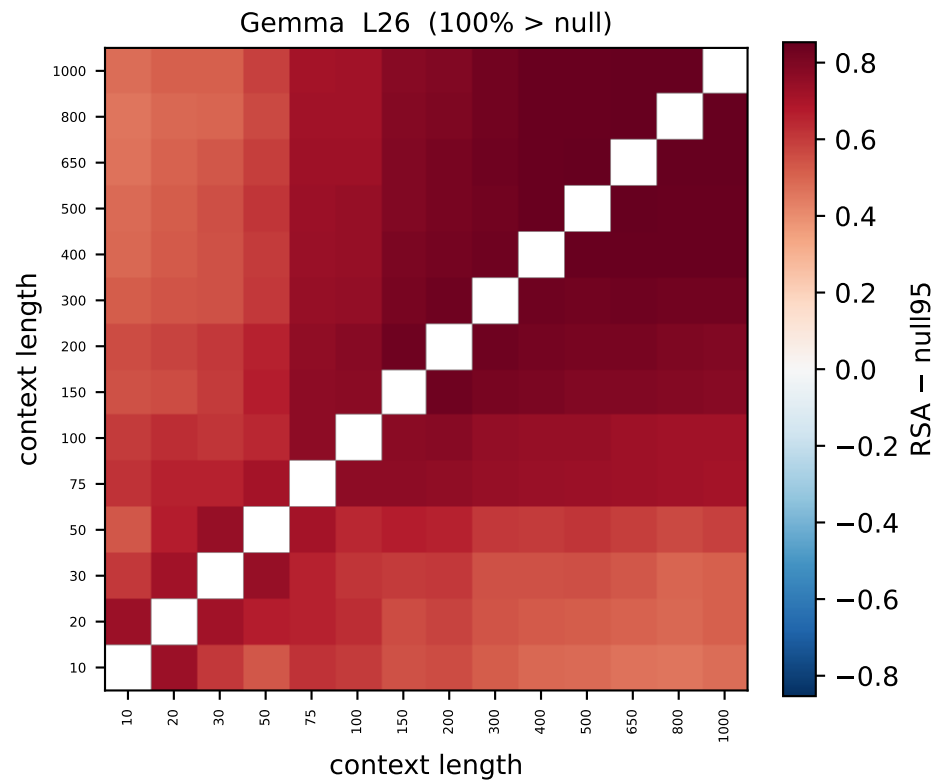

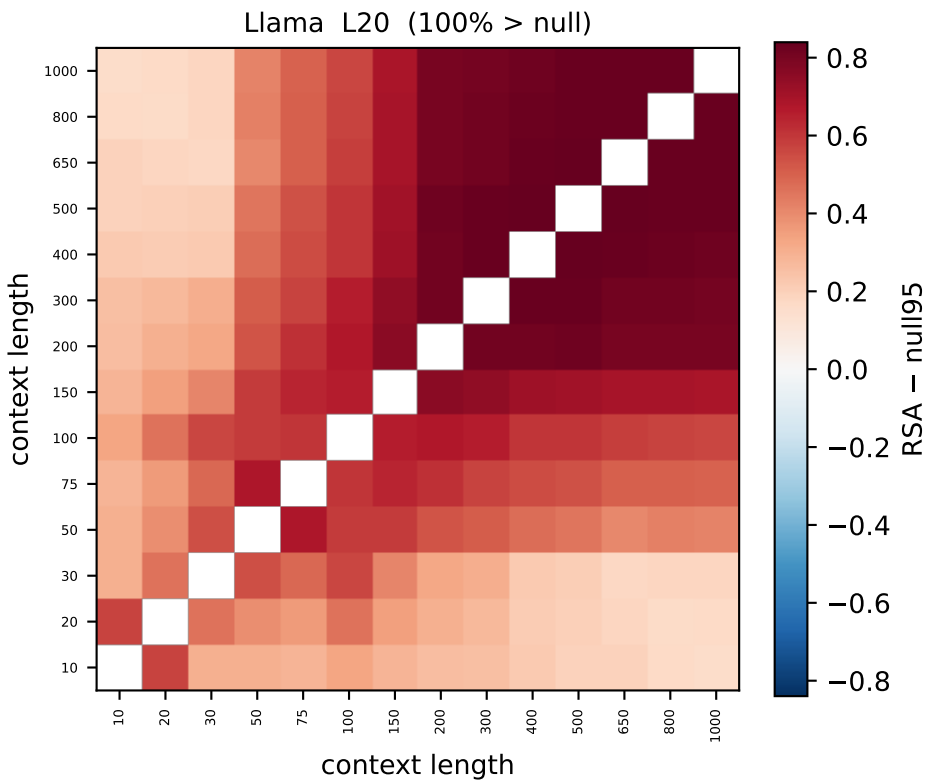

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.59
red = above chance (real)

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.61
red = above chance (real)

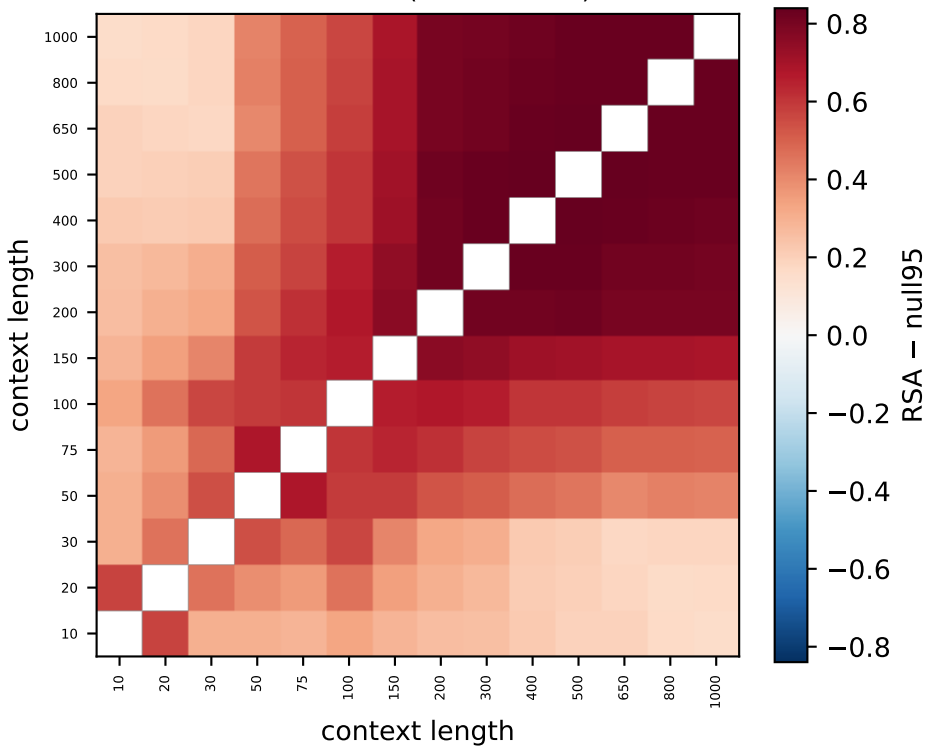

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.63
red = above chance (real)

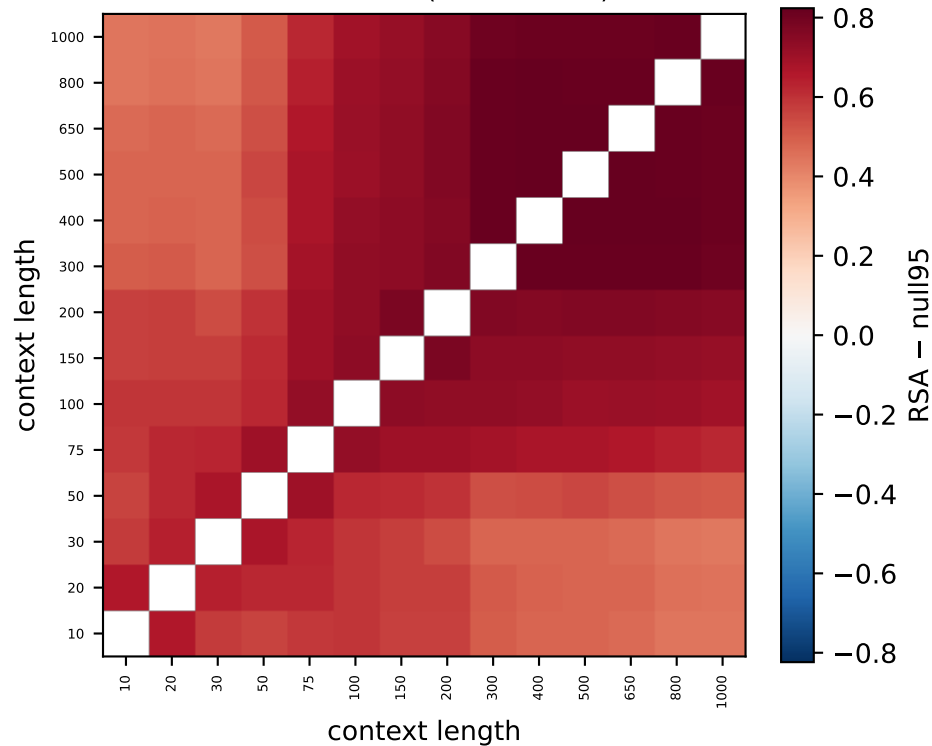

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.66
red = above chance (real)

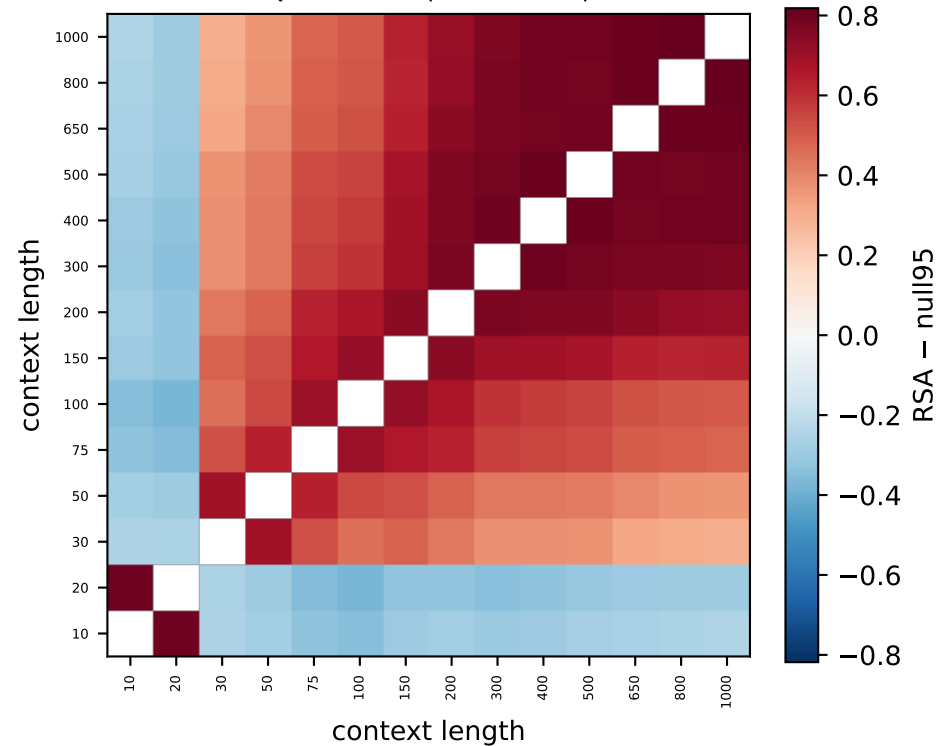

Llama L20 (100% > null)

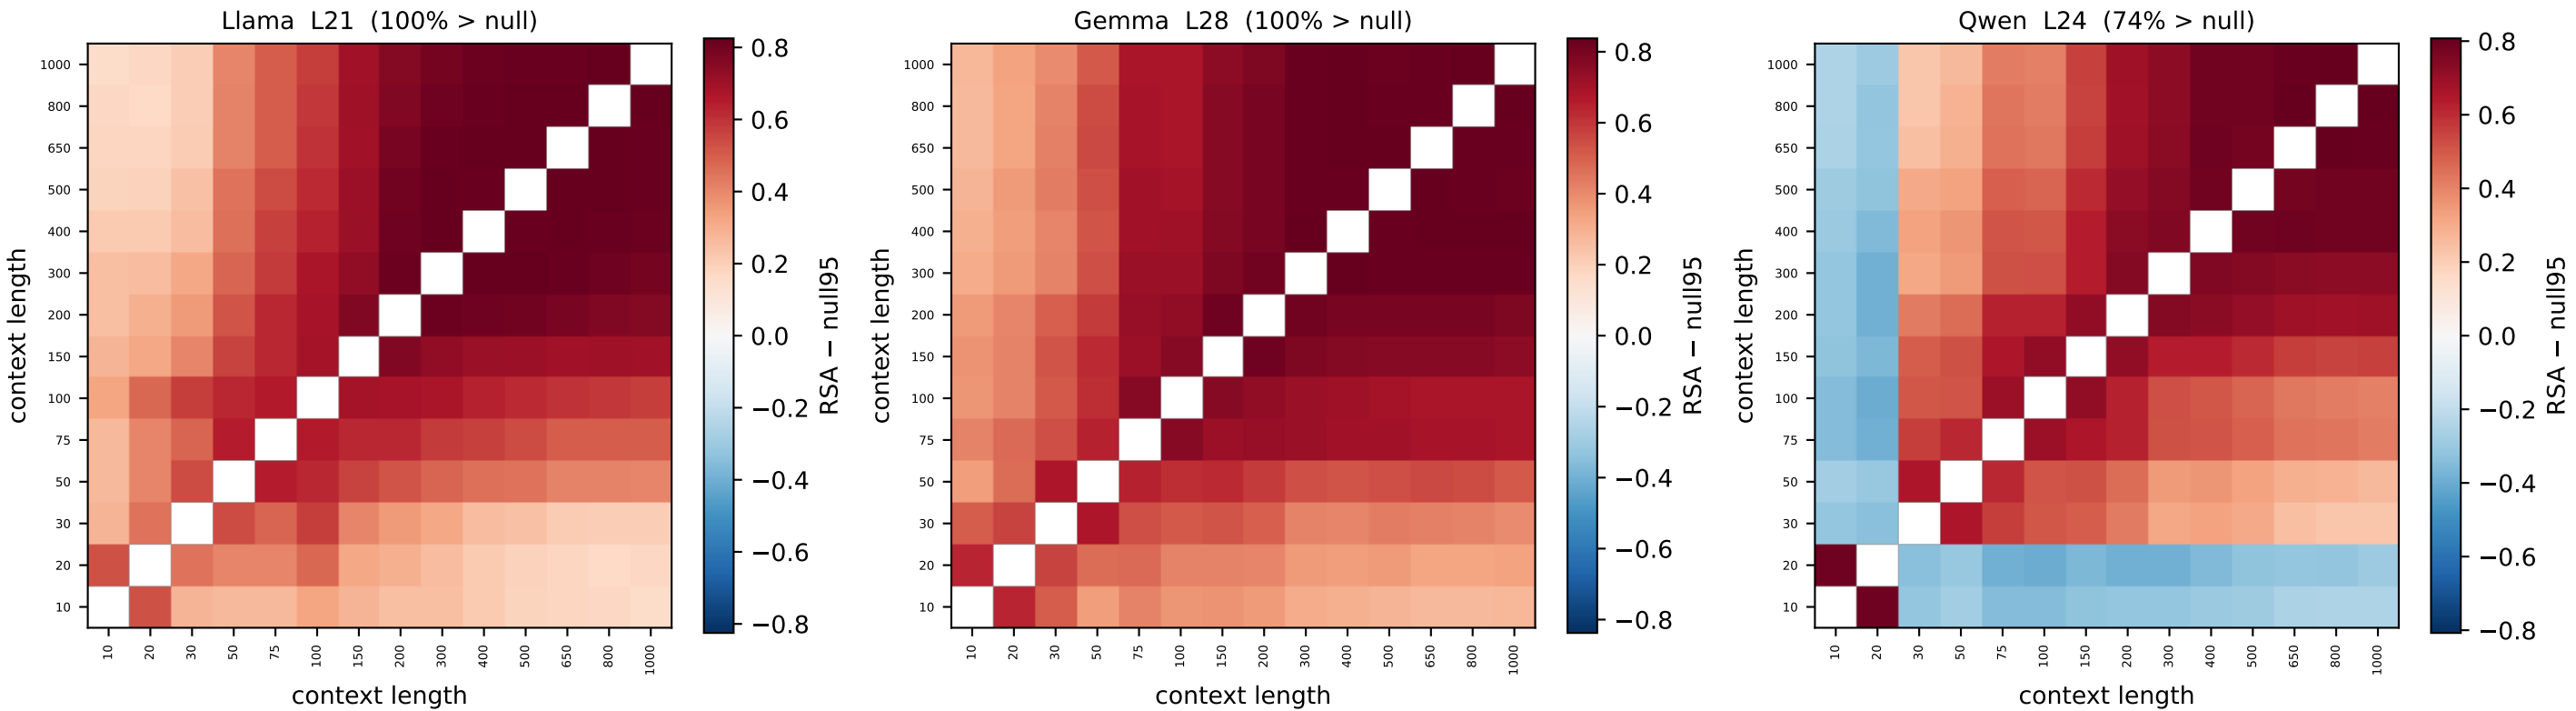

Gemma L27 (100% > null)

Qwen L23 (74% > null)

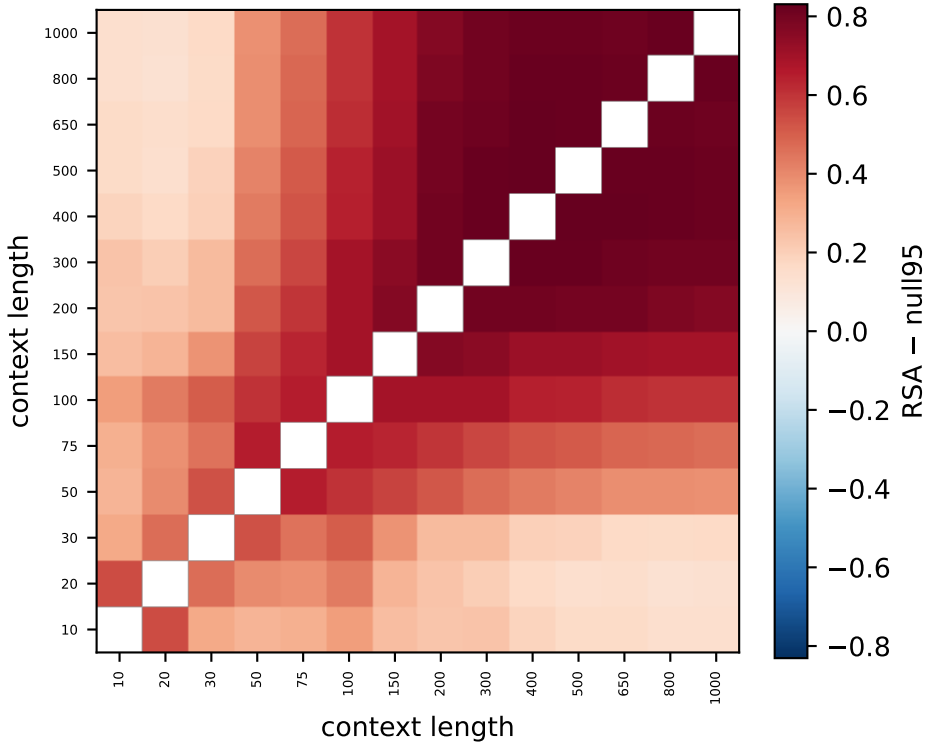

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.68
red = above chance (real)

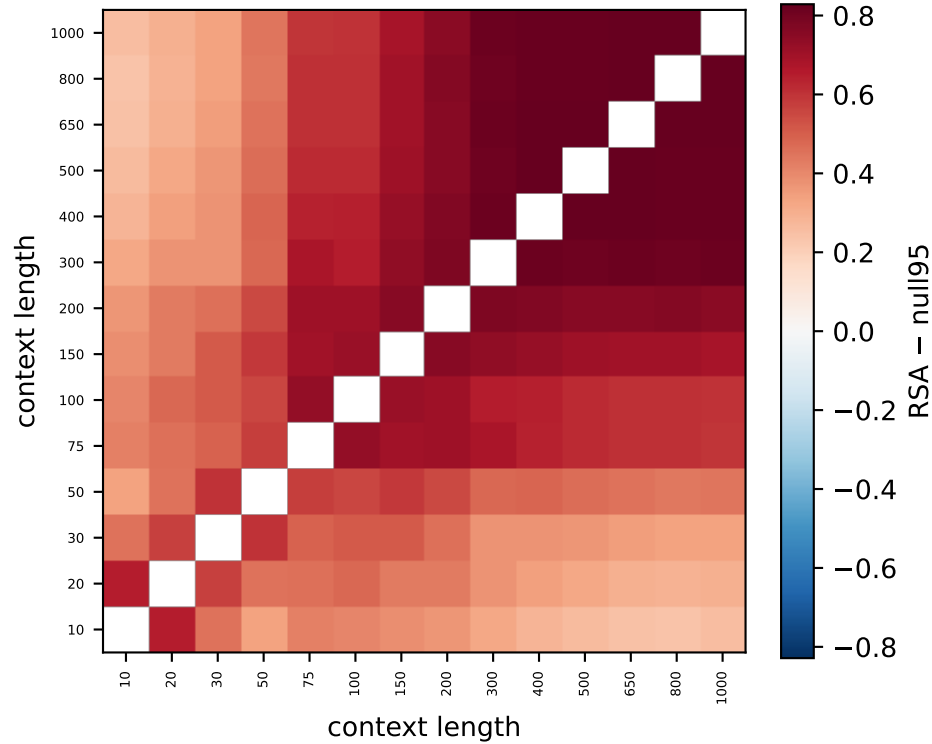

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.71
red = above chance (real)

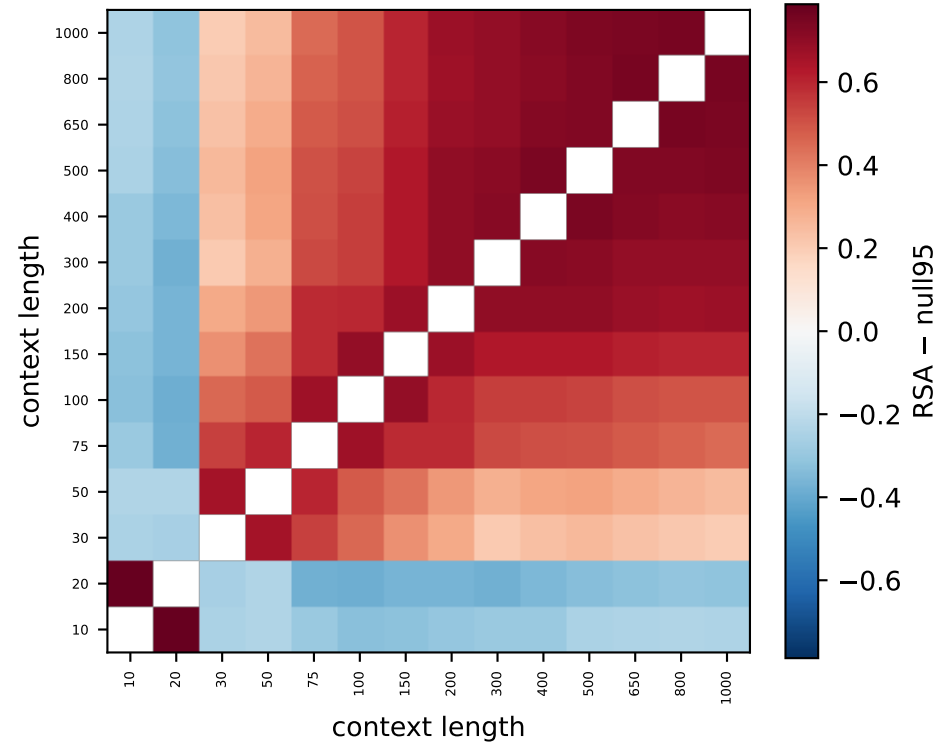

Llama L22 (100% > null)

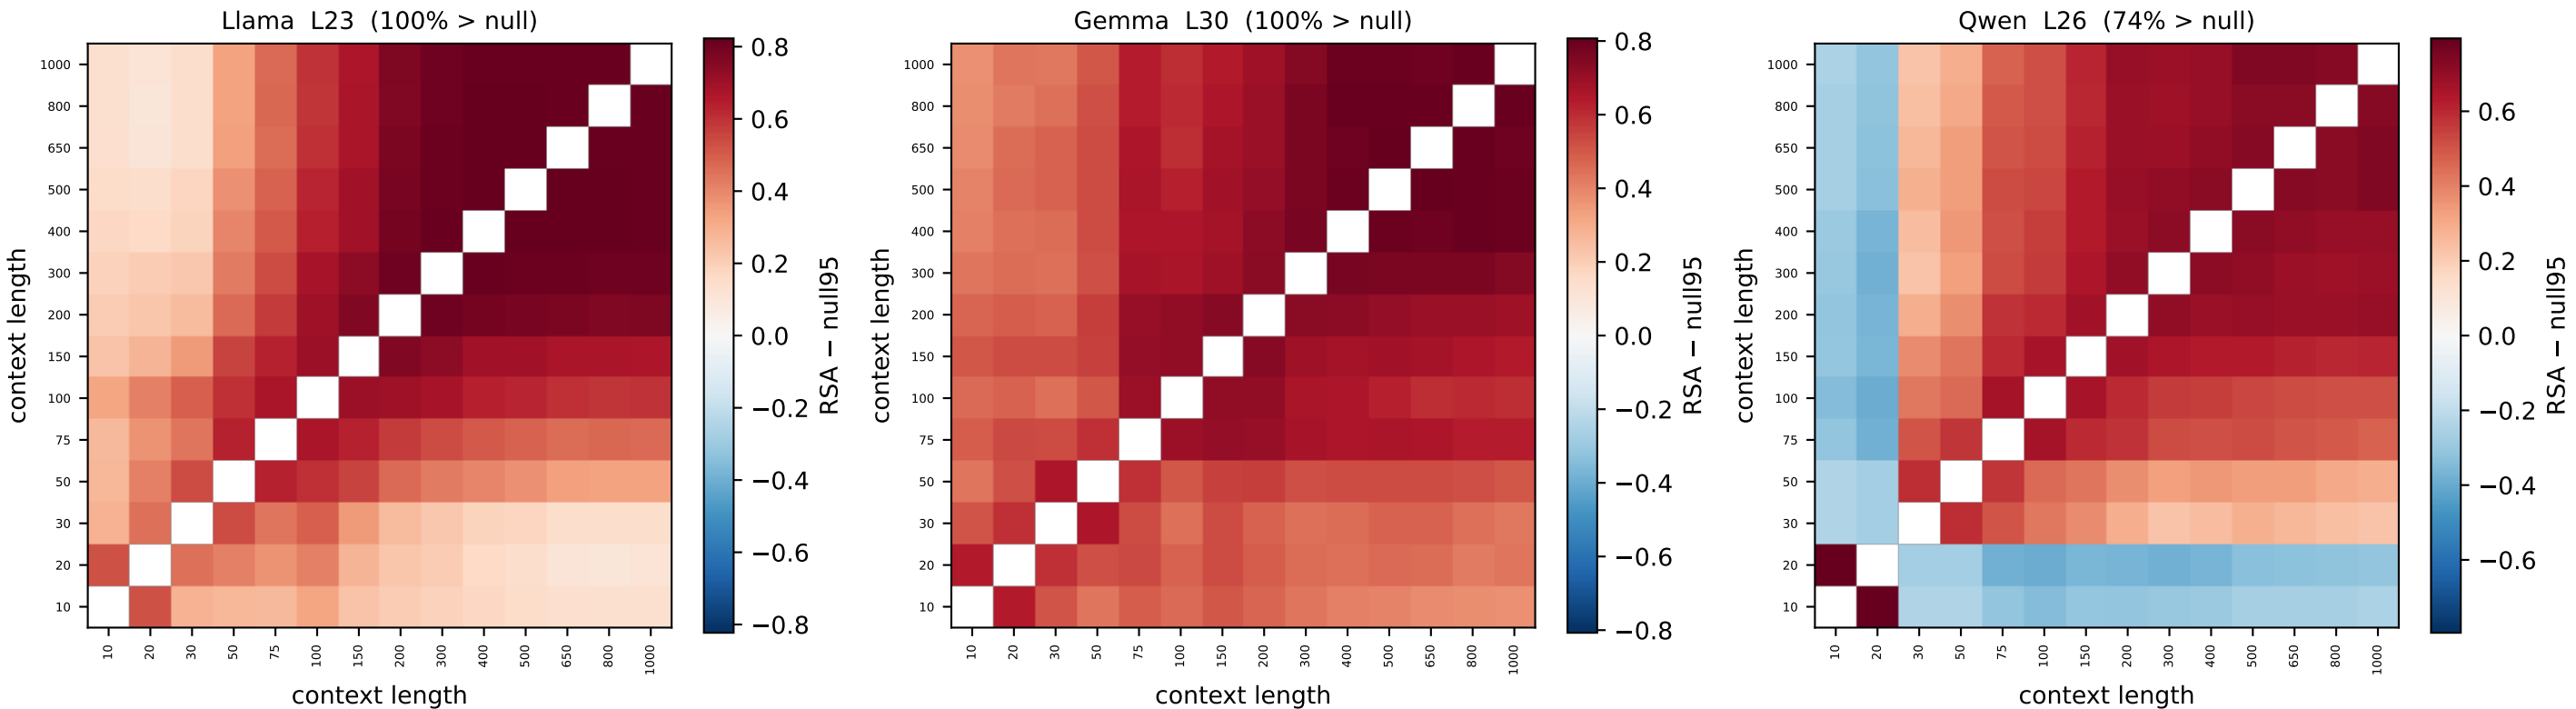

Gemma L29 (100% > null)

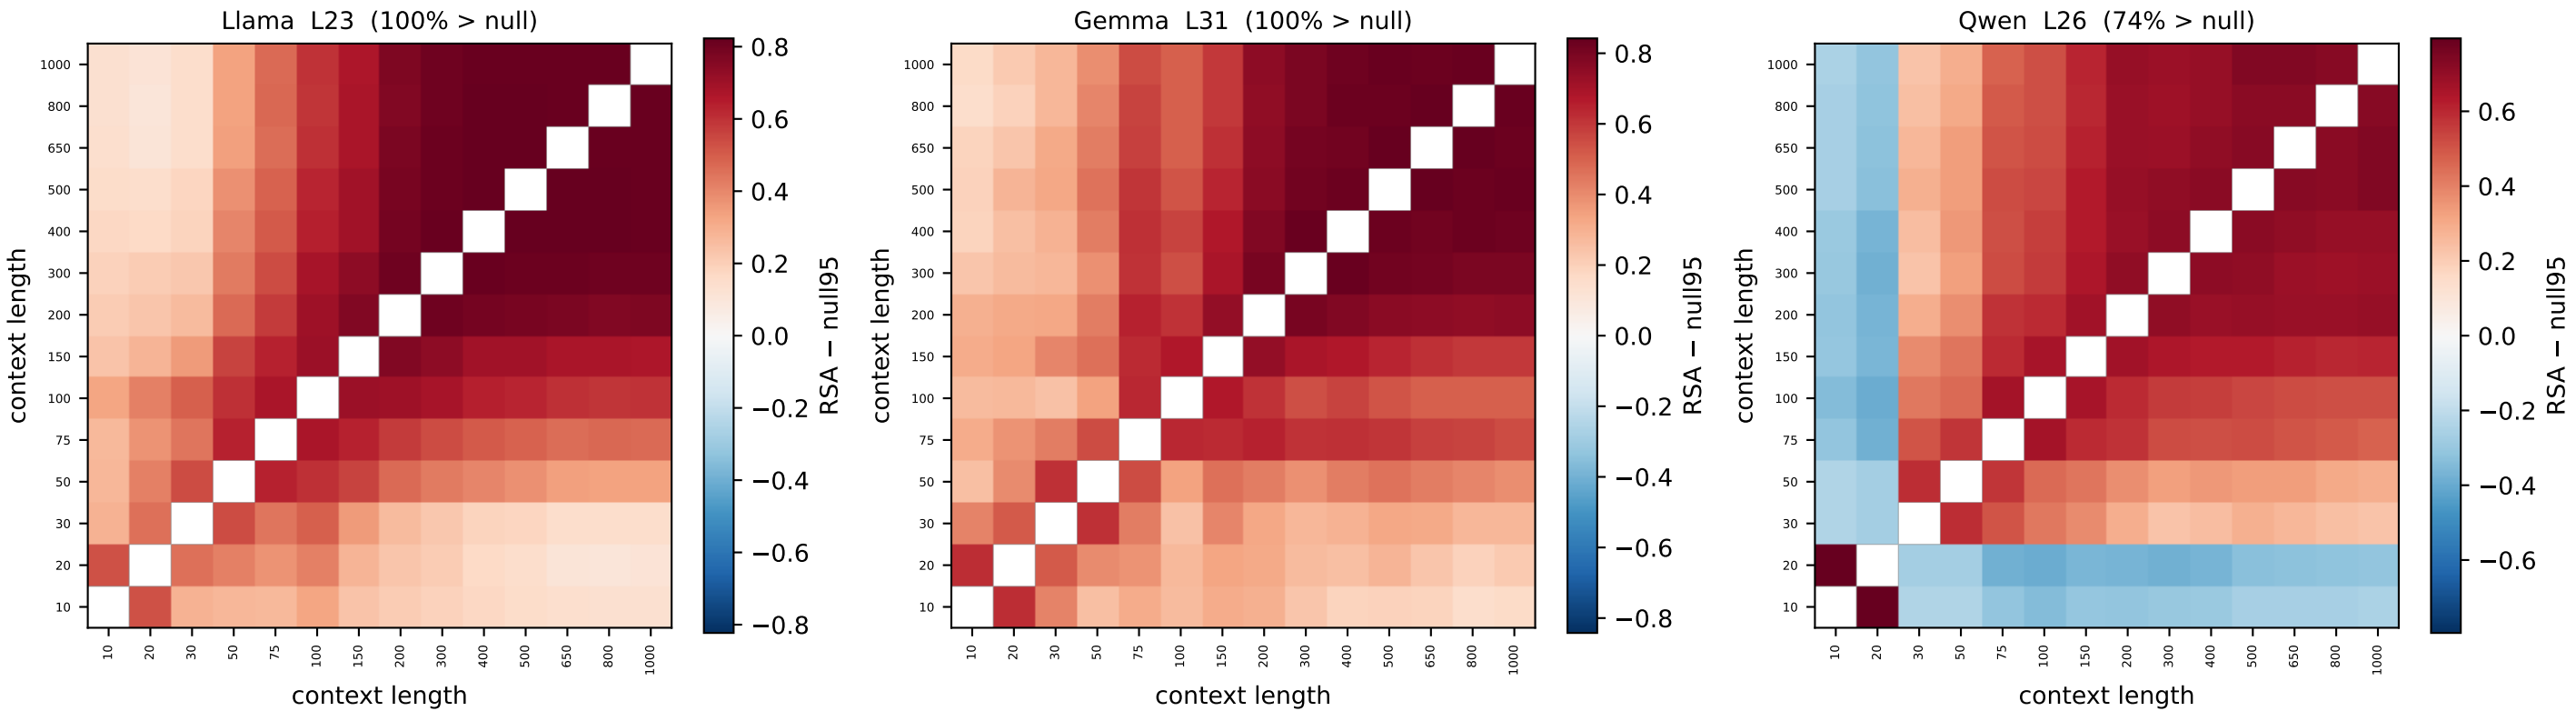

Qwen L25 (74% > null)

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.73
red = above chance (real)

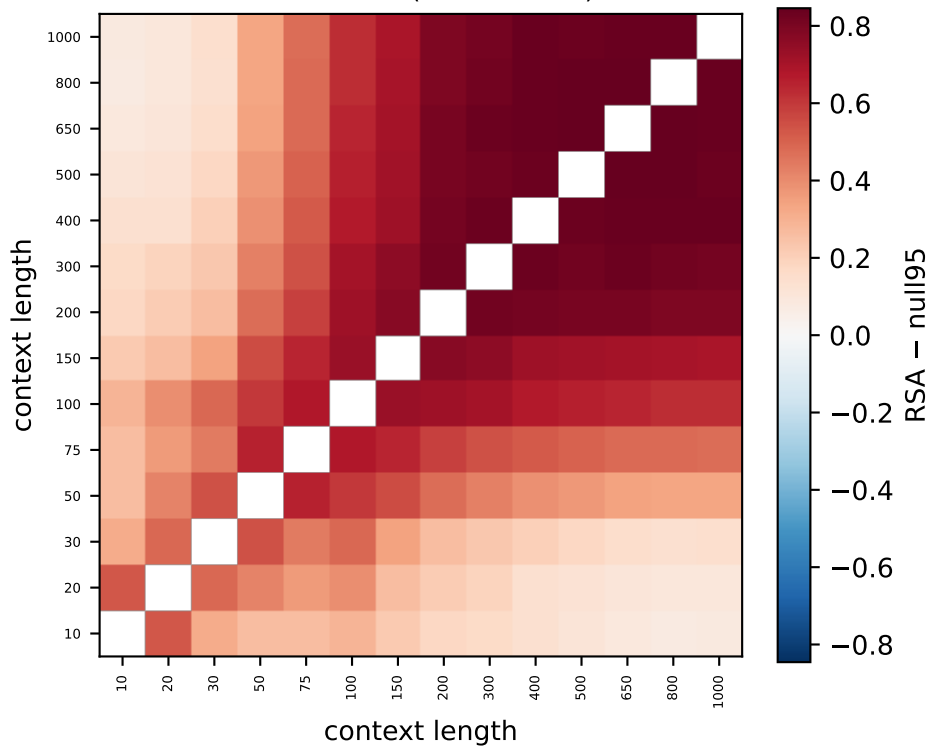

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.76
red = above chance (real)

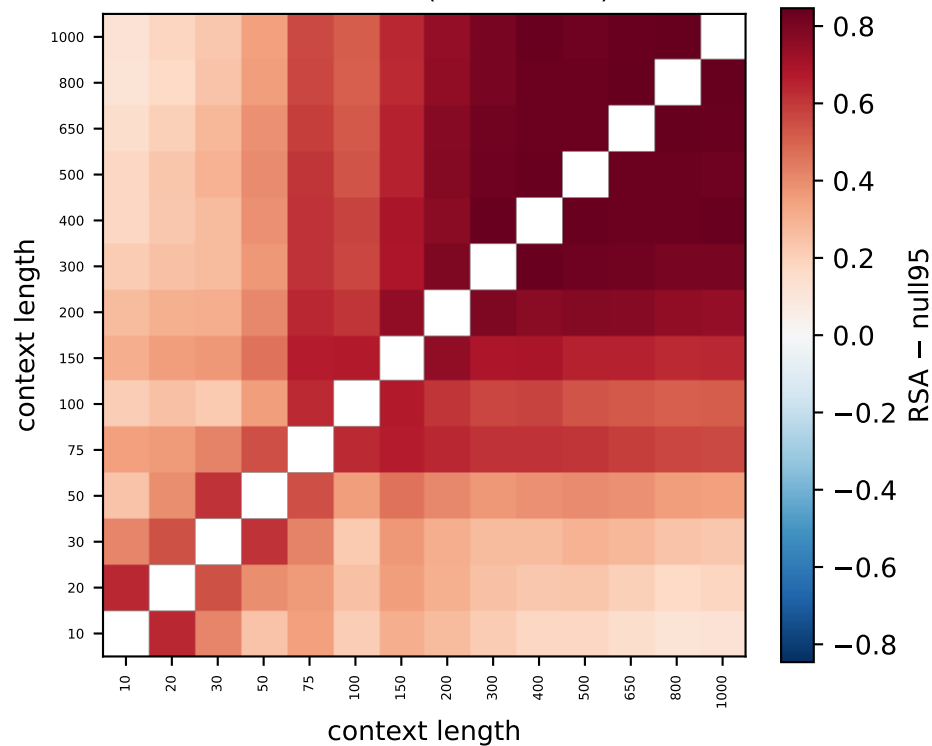

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.78
red = above chance (real)

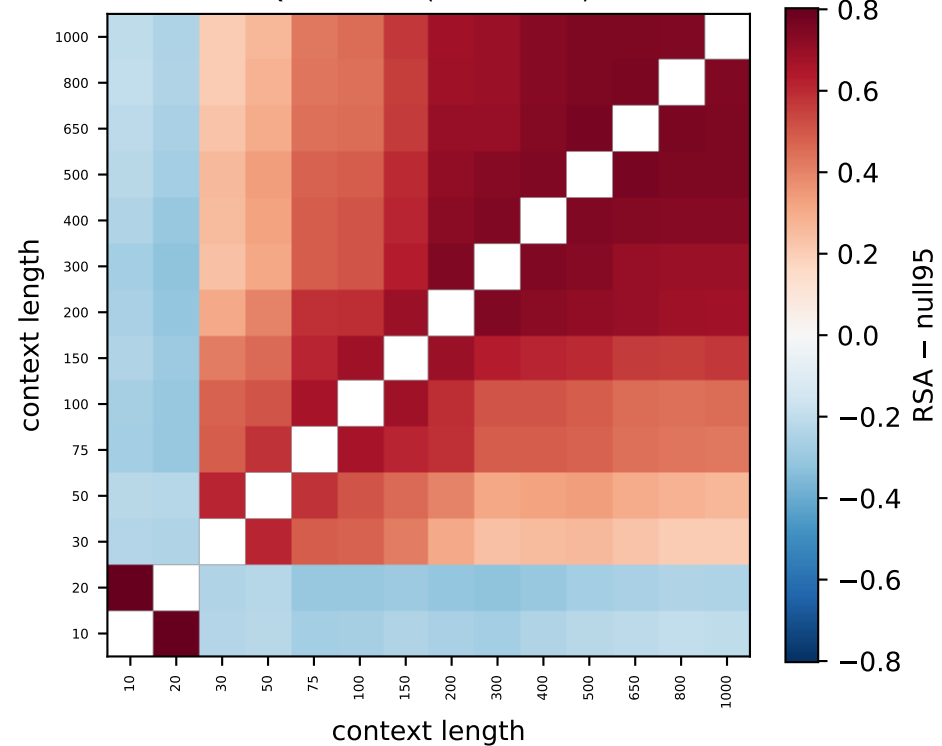

Llama L24 (100% > null)

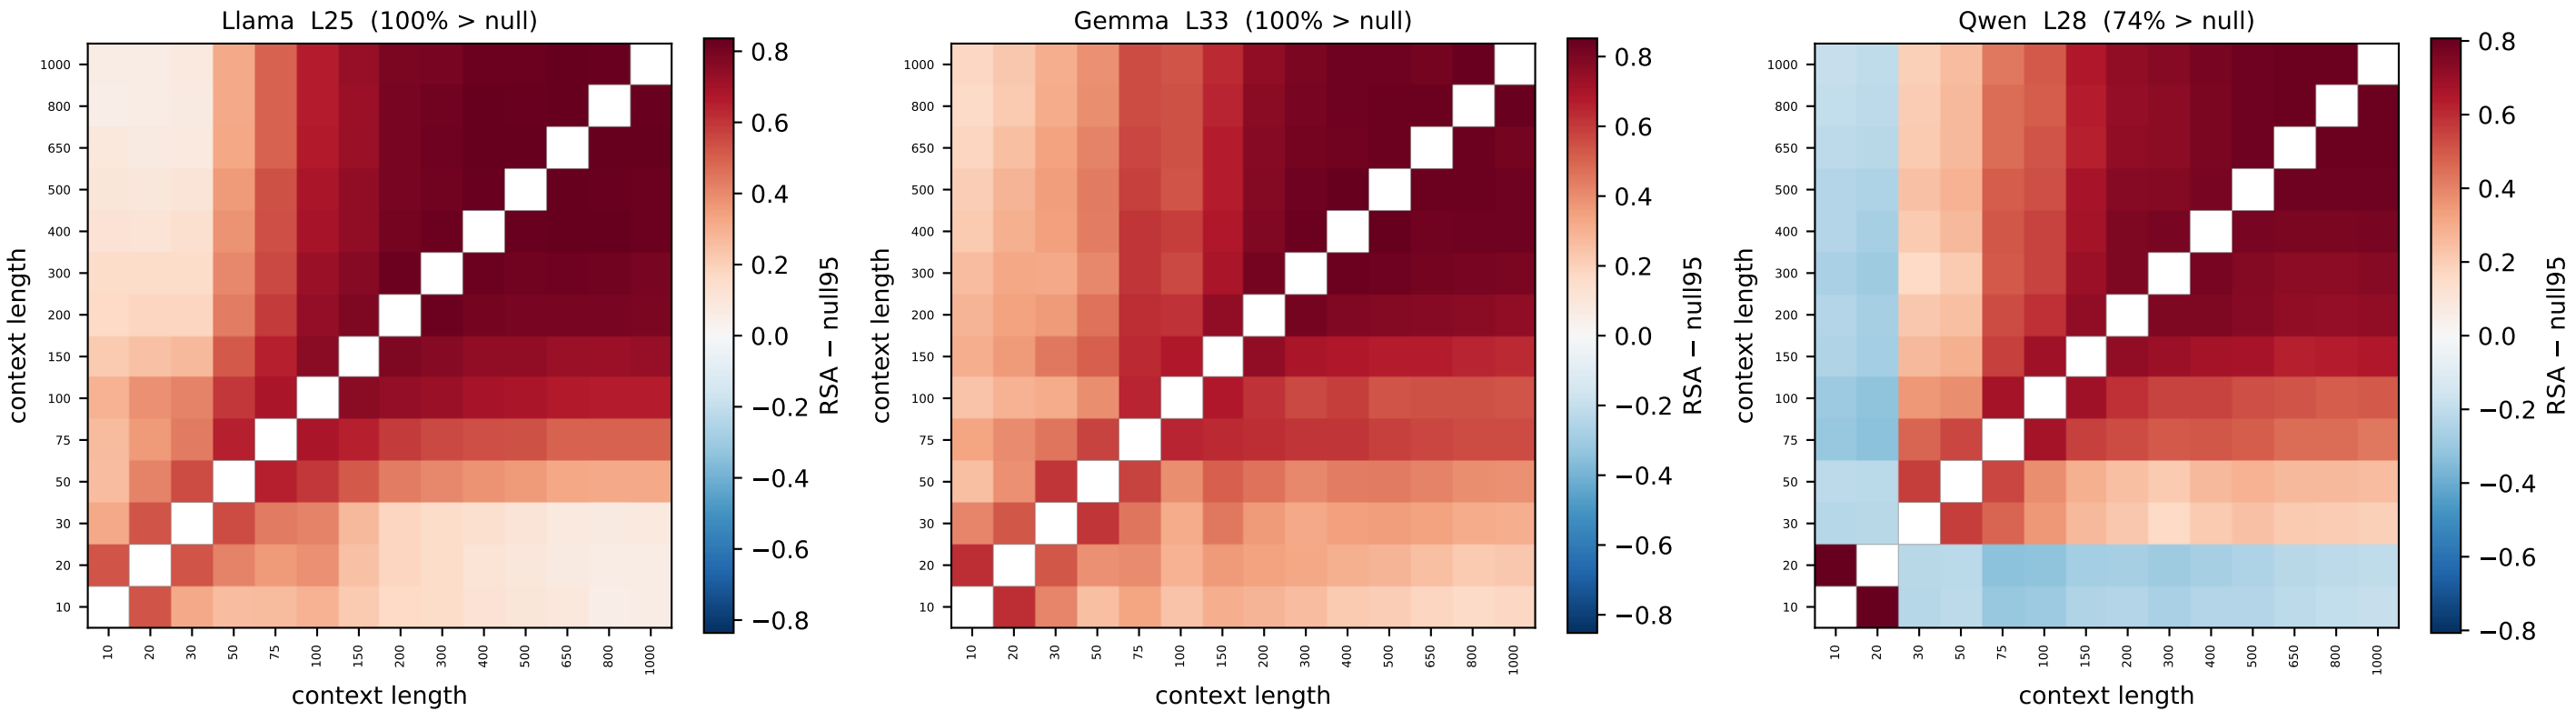

Gemma L32 (100% > null)

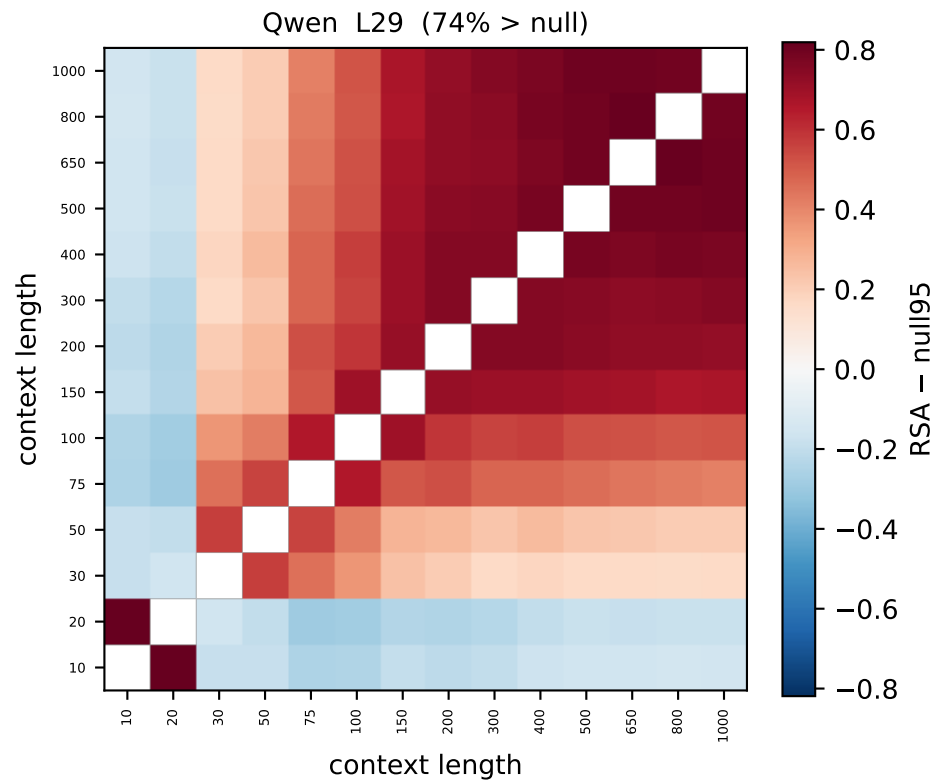

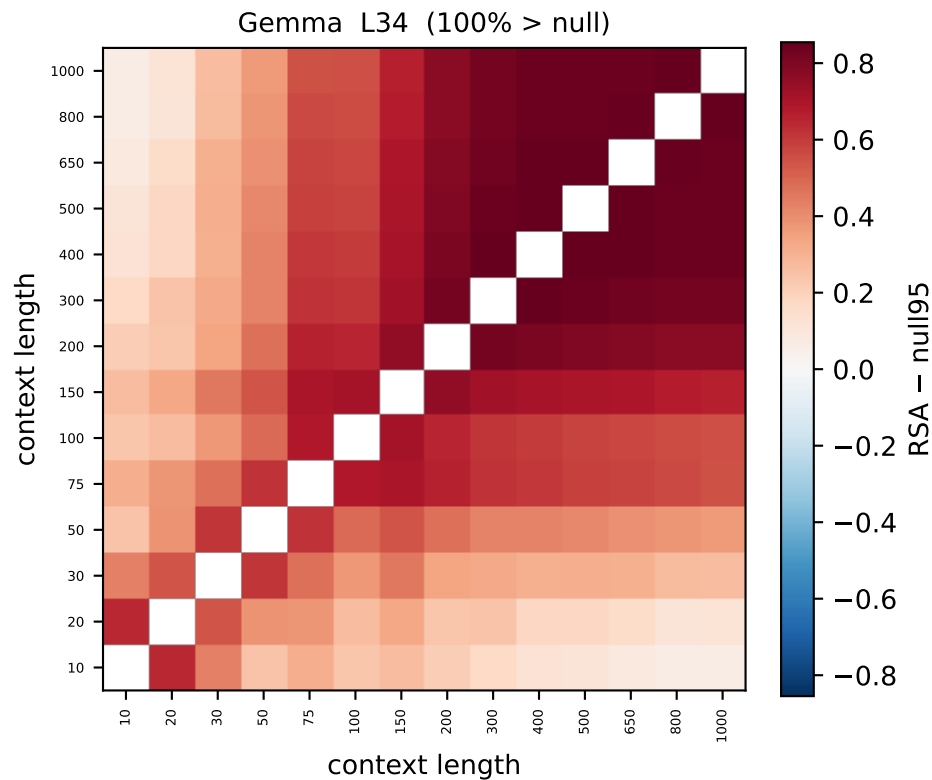

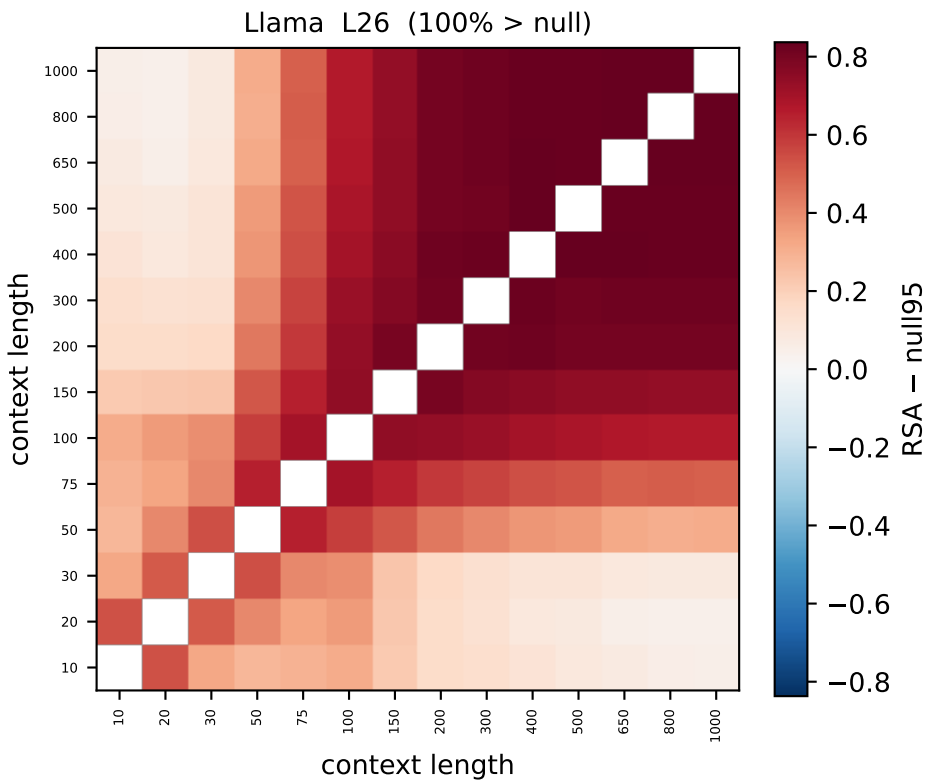

Qwen L27 (74% > null)

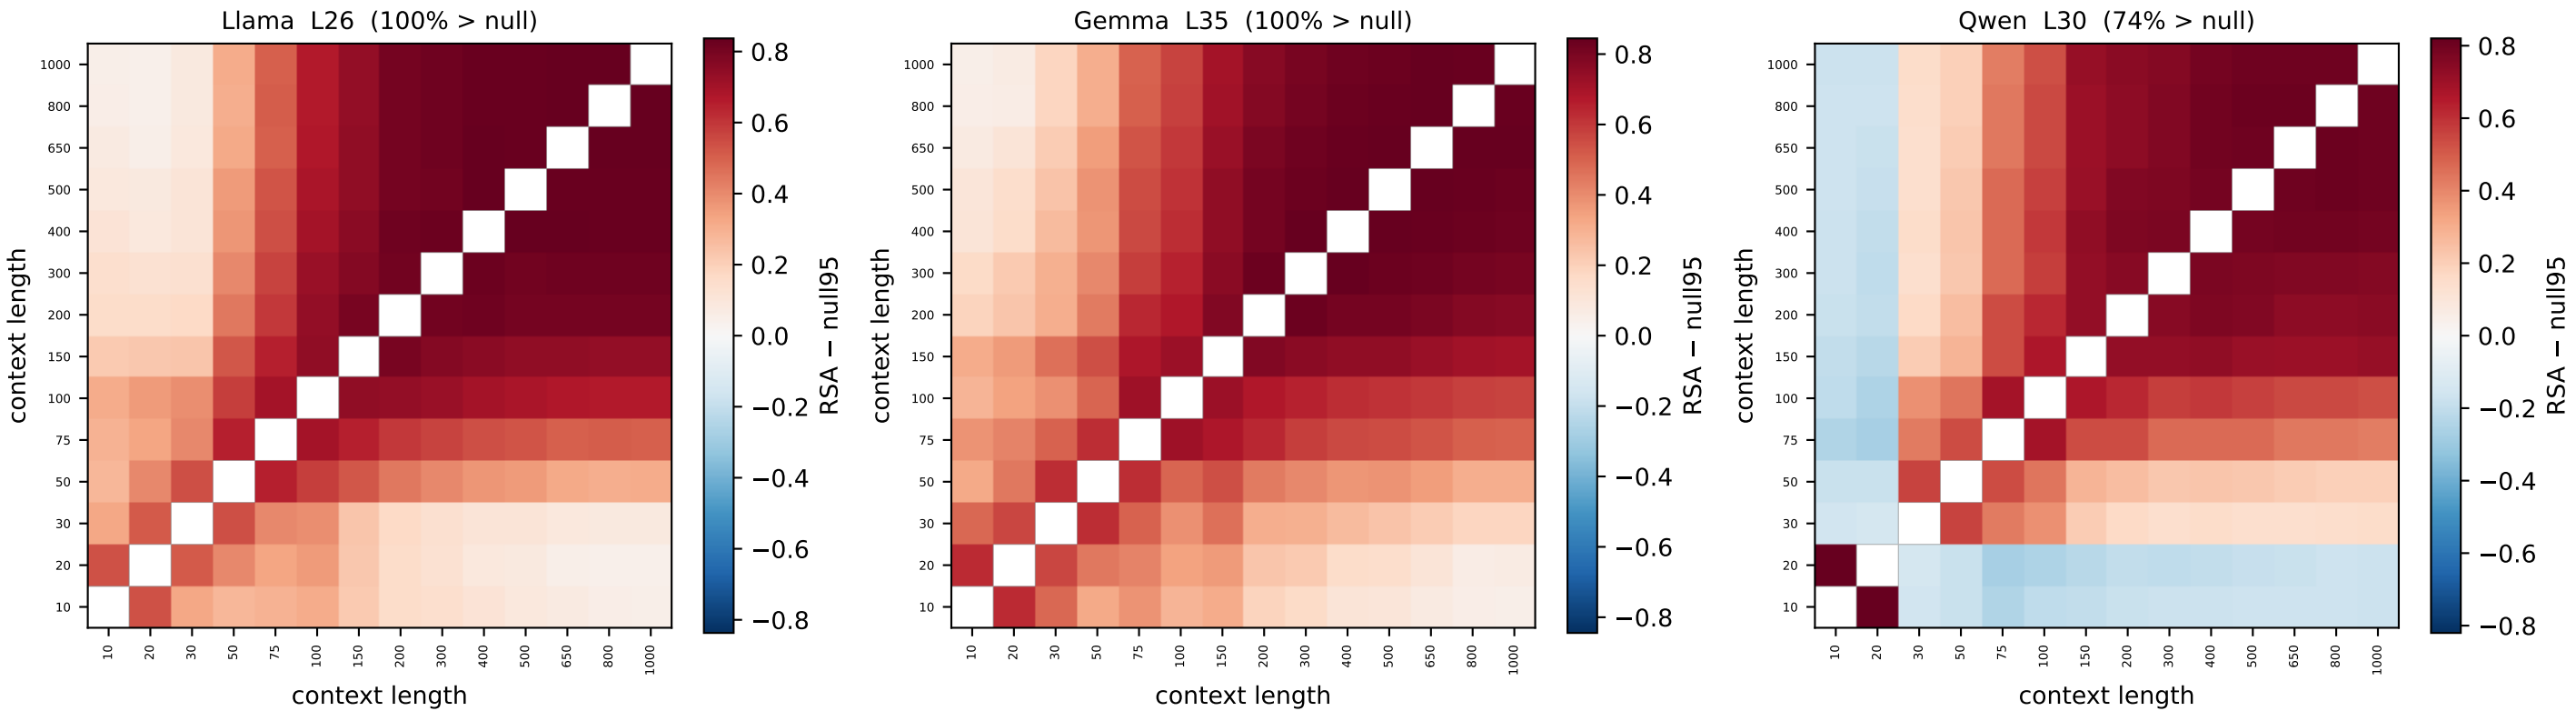

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.80
red = above chance (real)

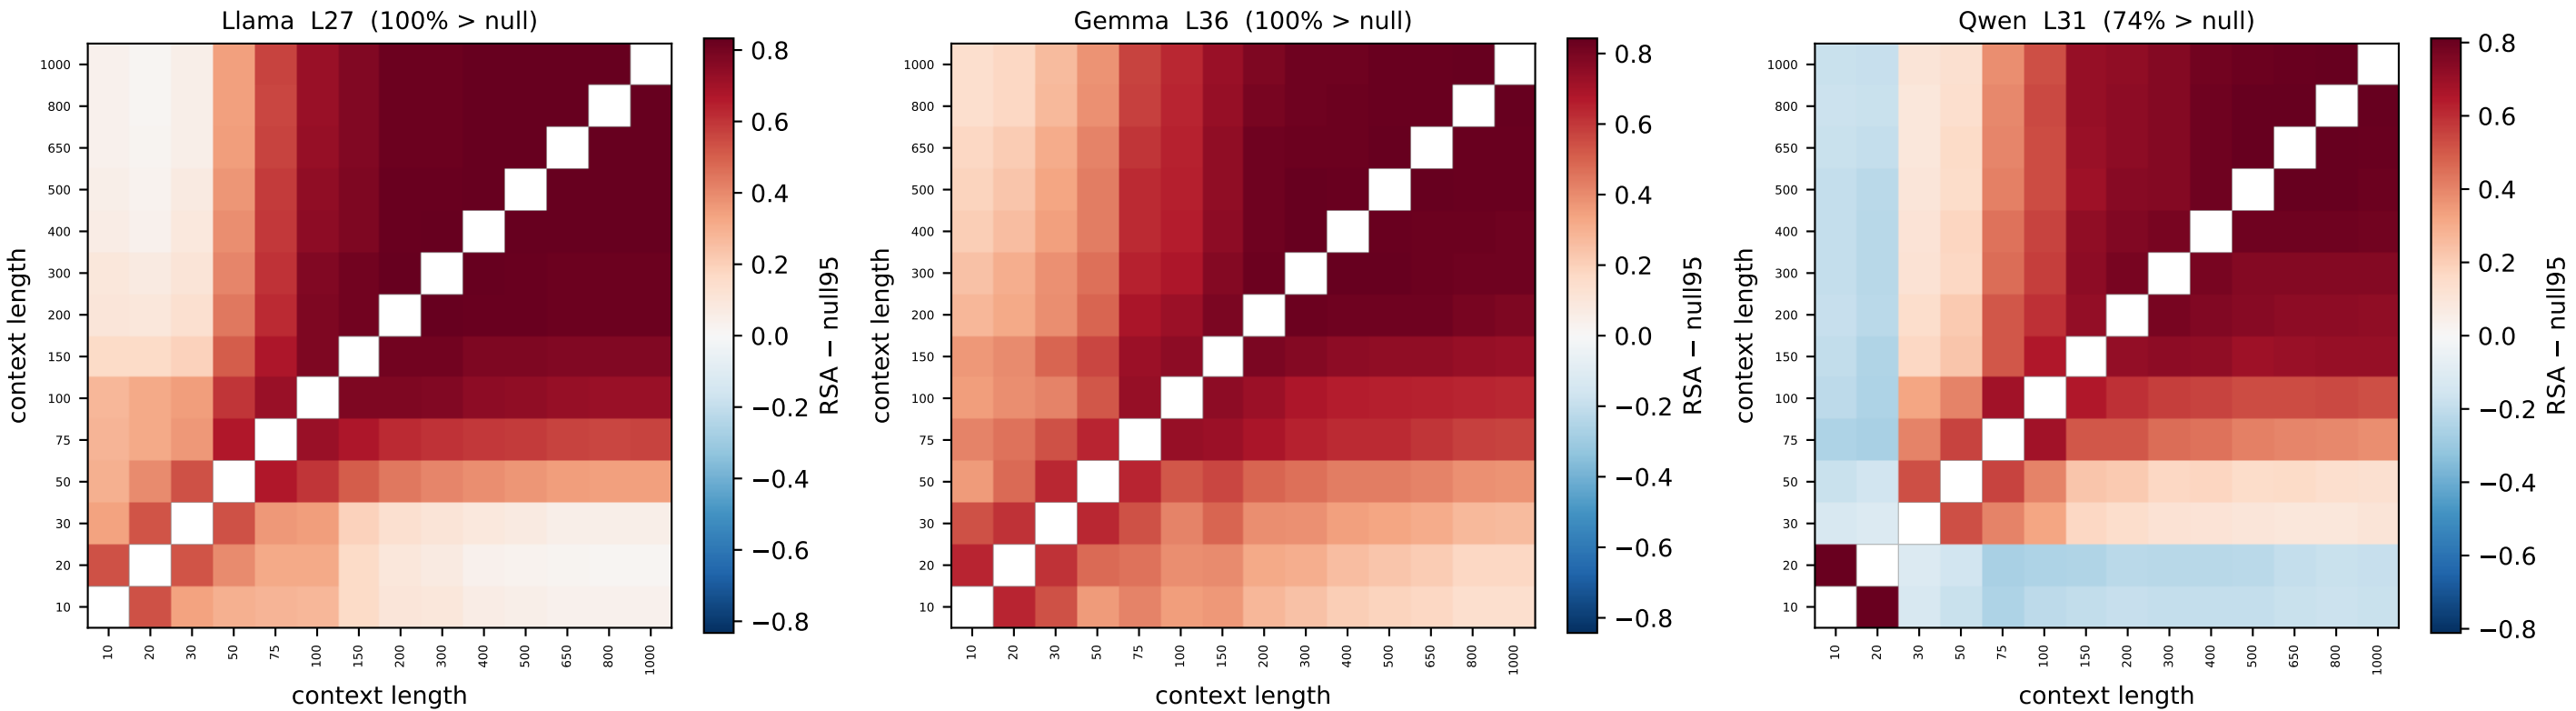

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.83
red = above chance (real)

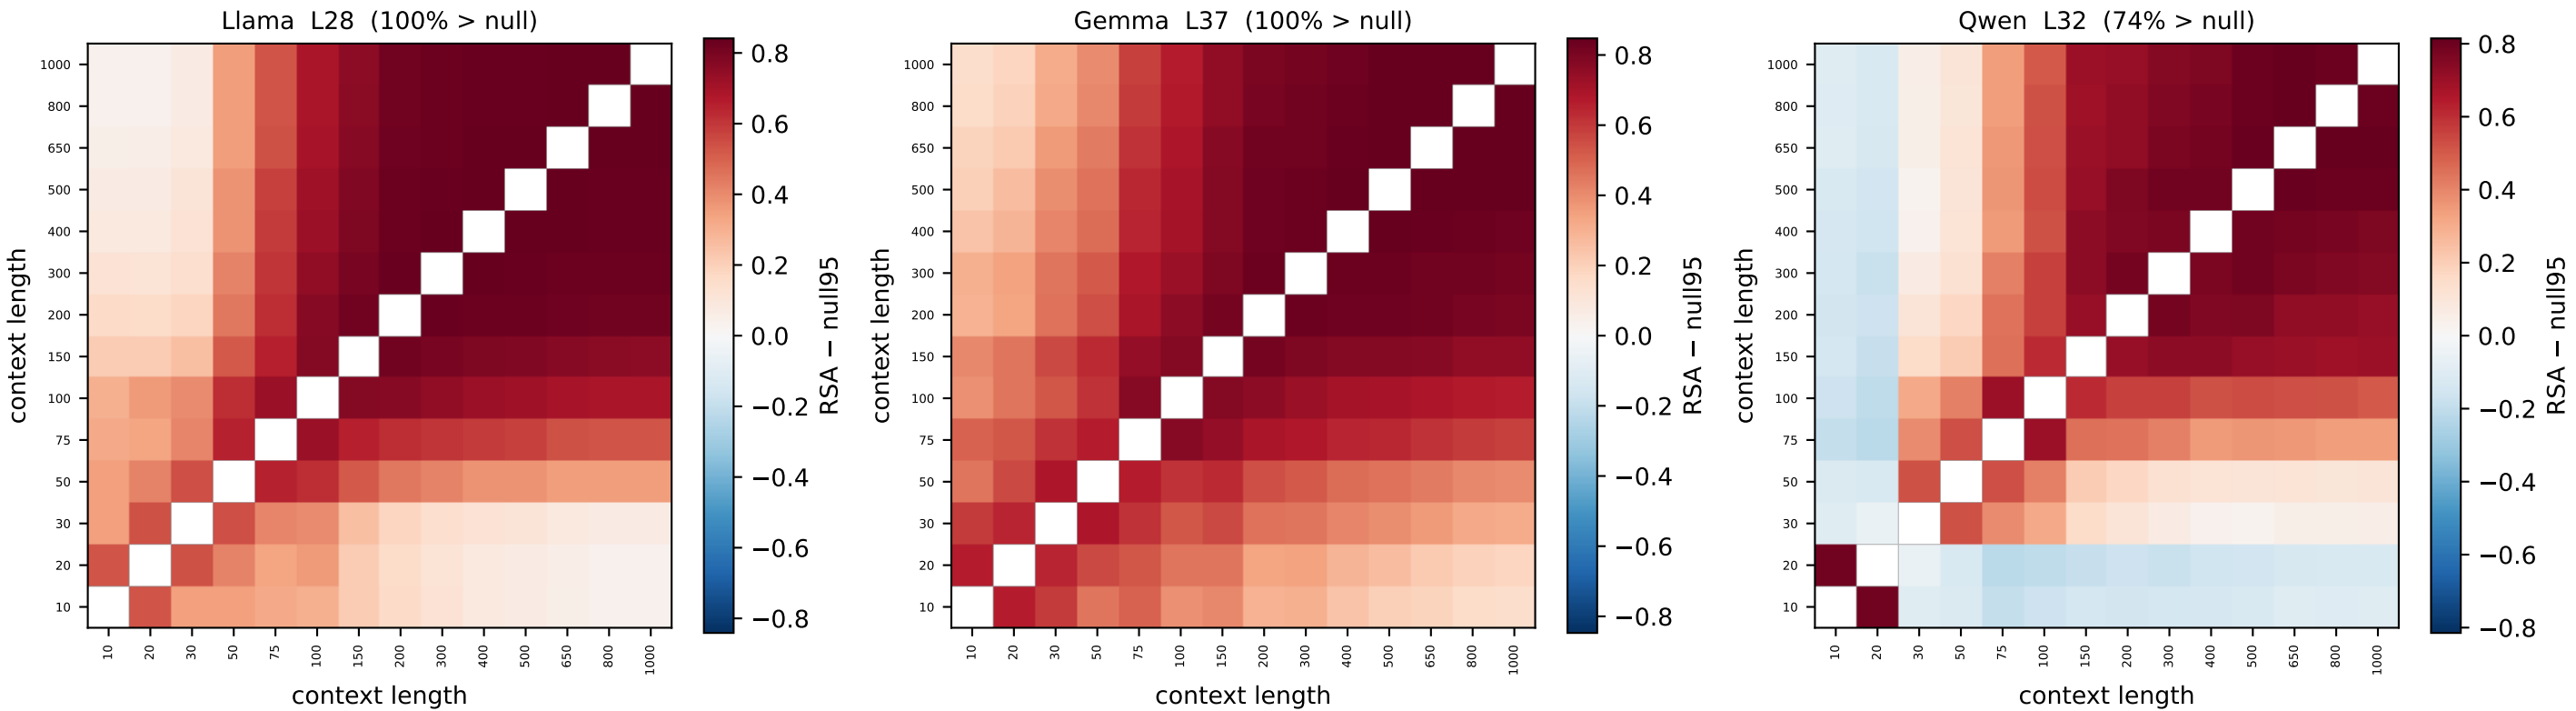

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.85
red = above chance (real)

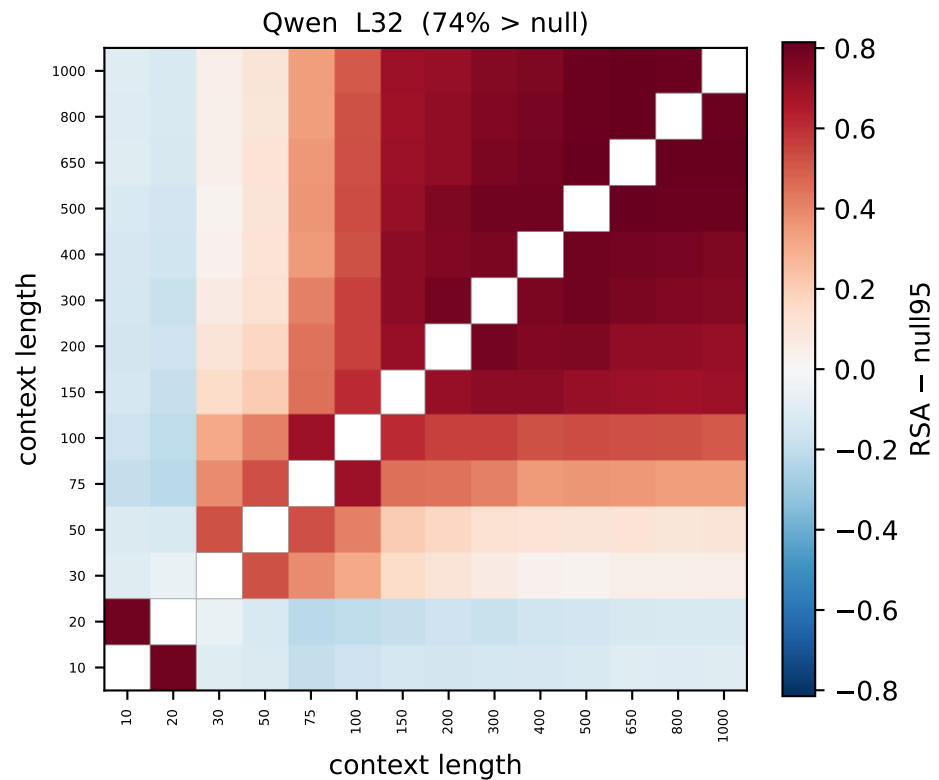

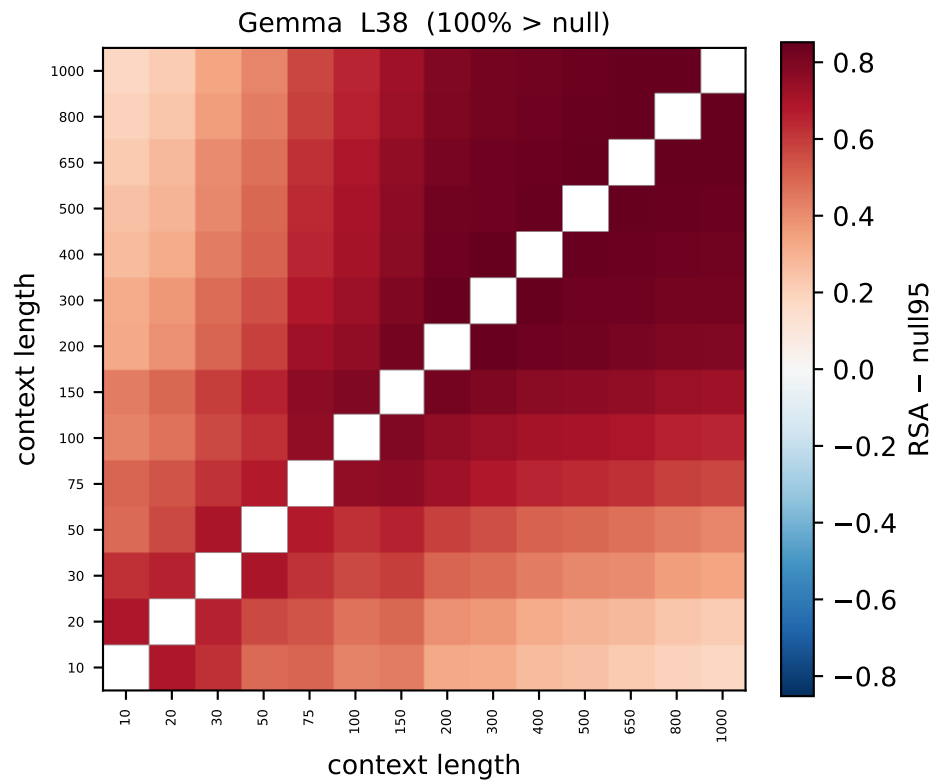

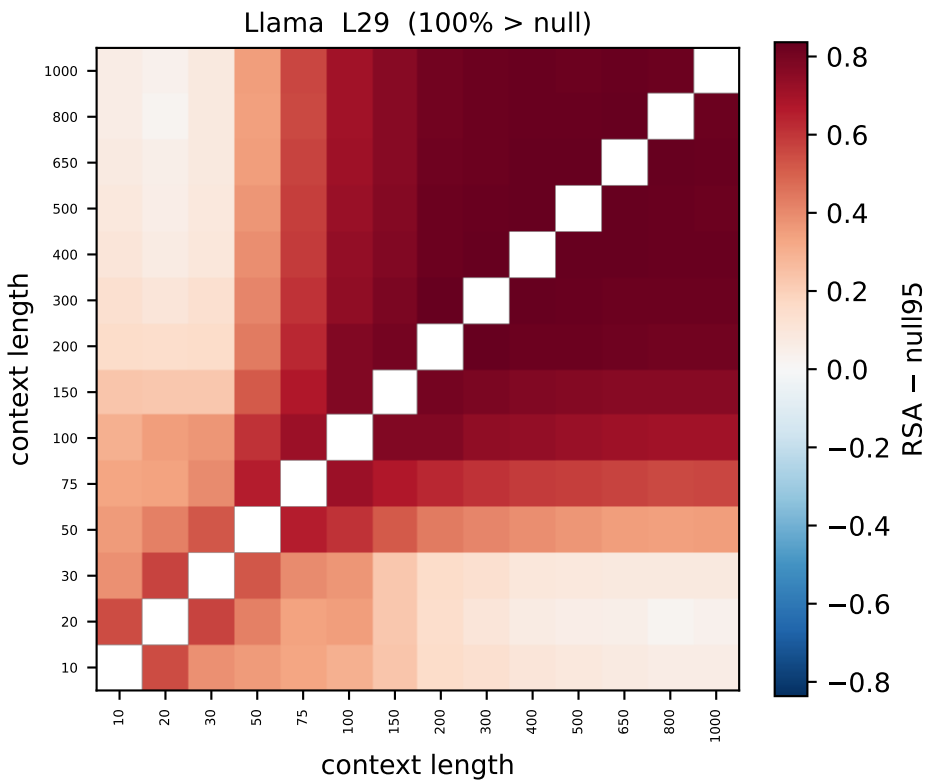

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.88
red = above chance (real)

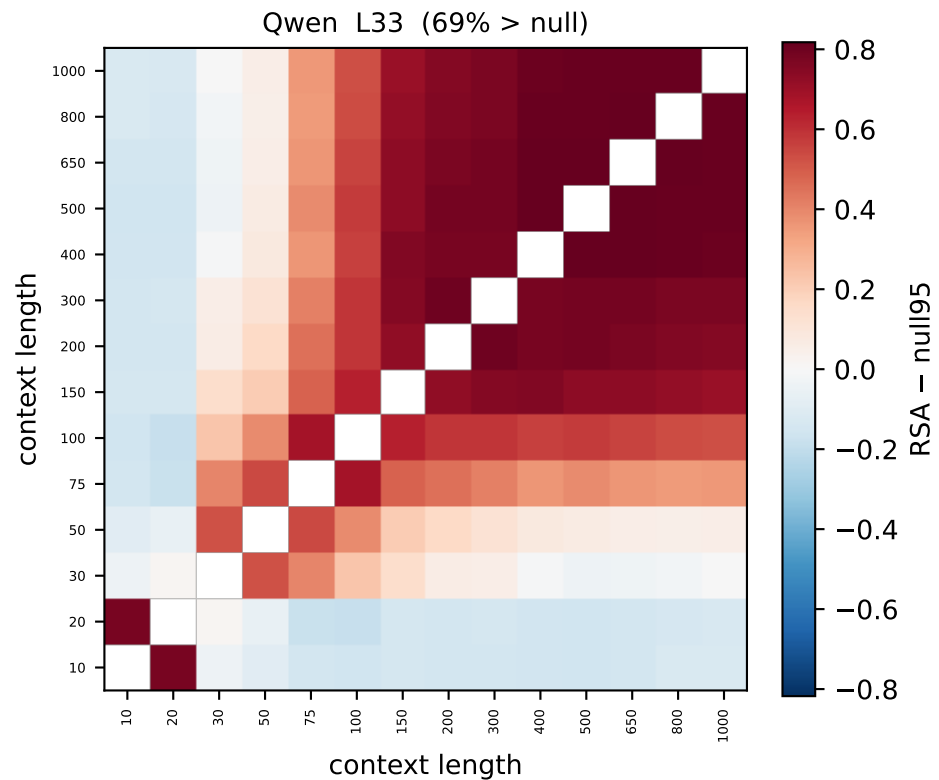

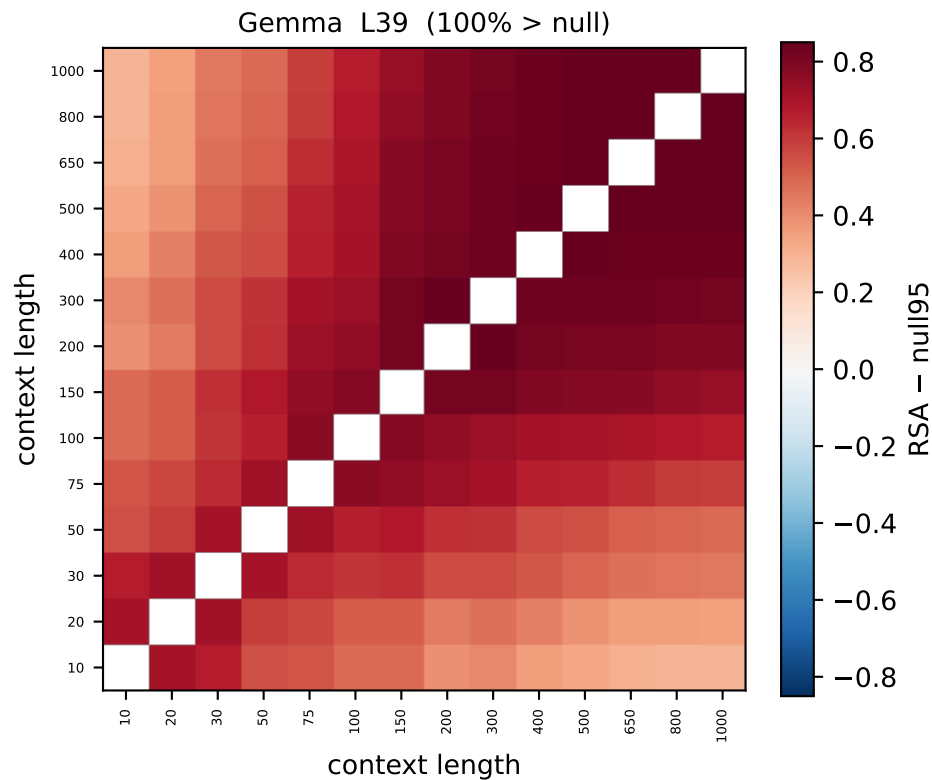

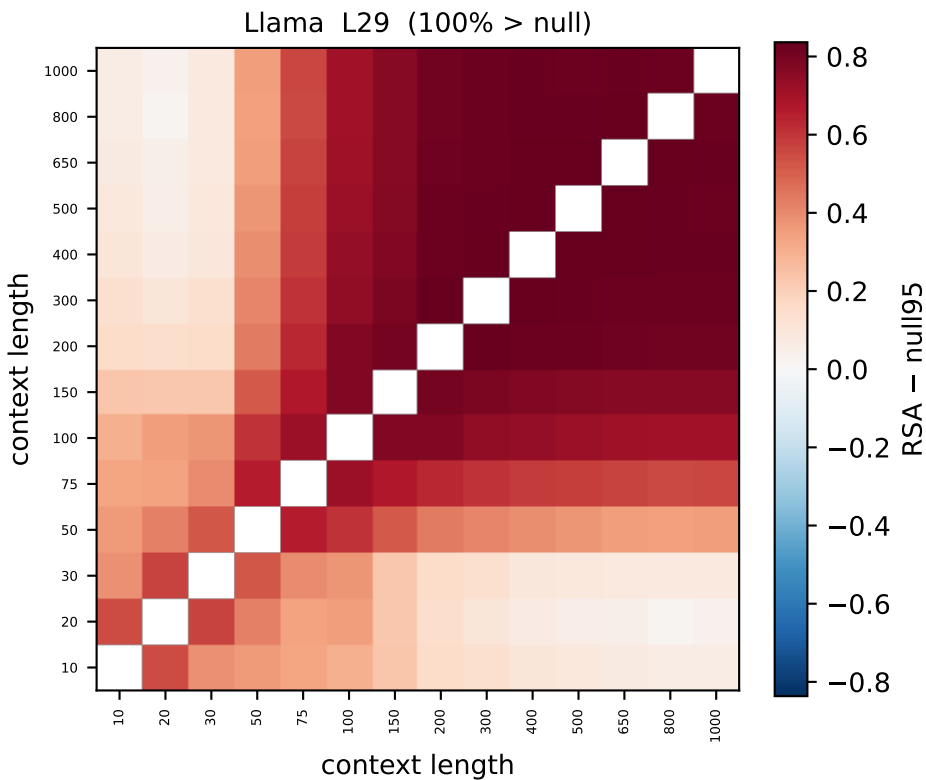

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.90
red = above chance (real)

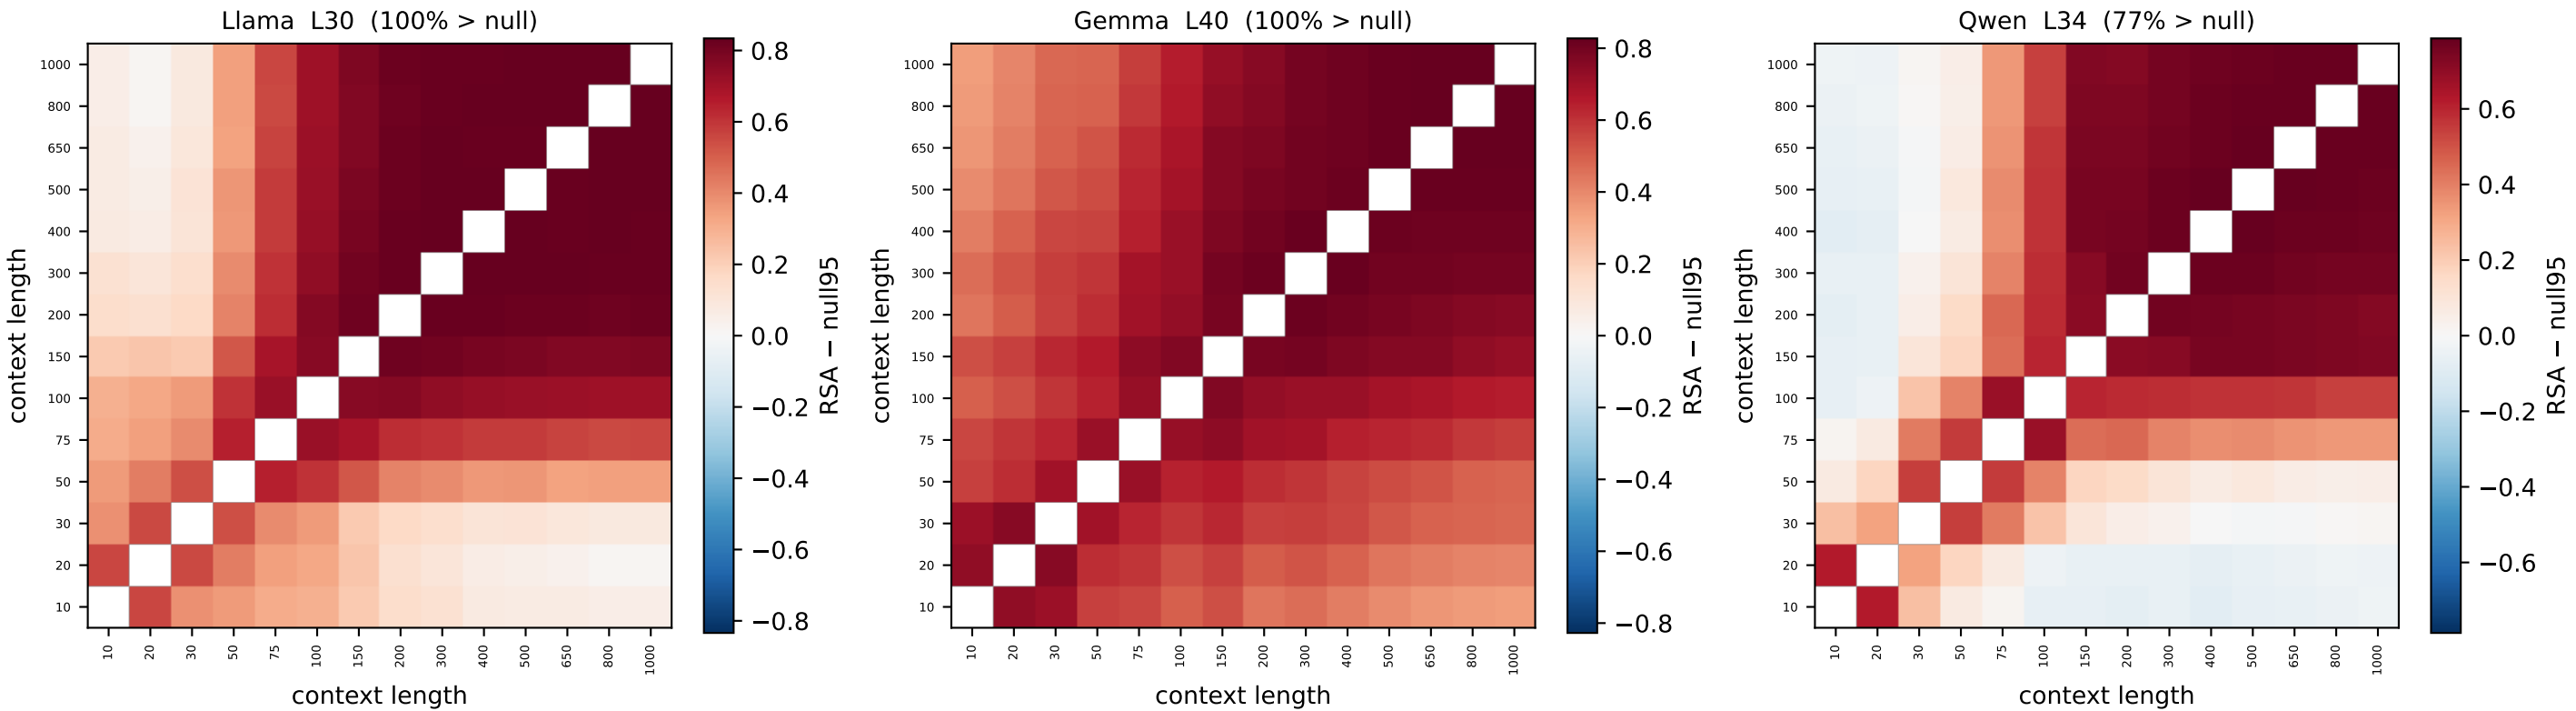

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.93
red = above chance (real)

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.95
red = above chance (real)

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 0.98
red = above chance (real)

square_grid [v1] context-RSA significance (observed – perm-null95) — relative depth 1.00
red = above chance (real)
