

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.00
red = above chance (real)

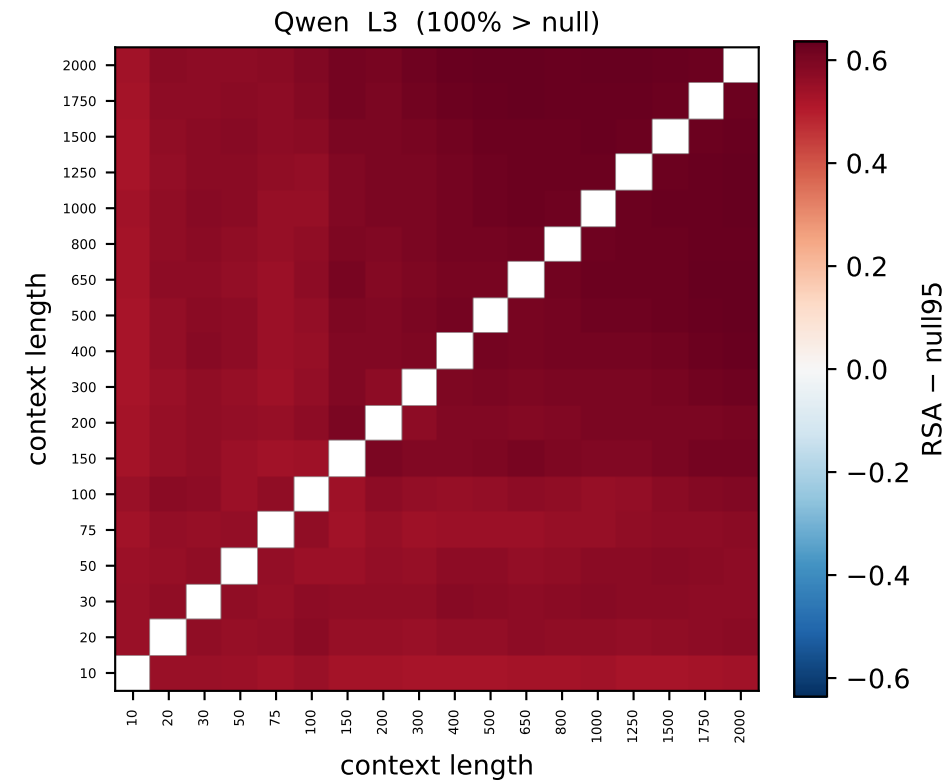

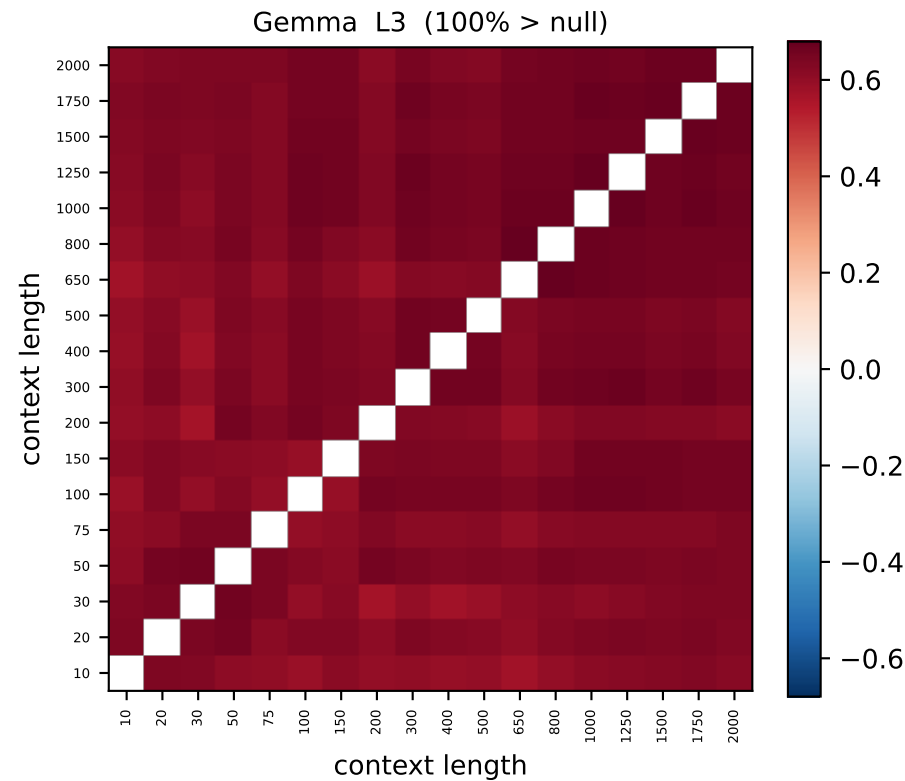

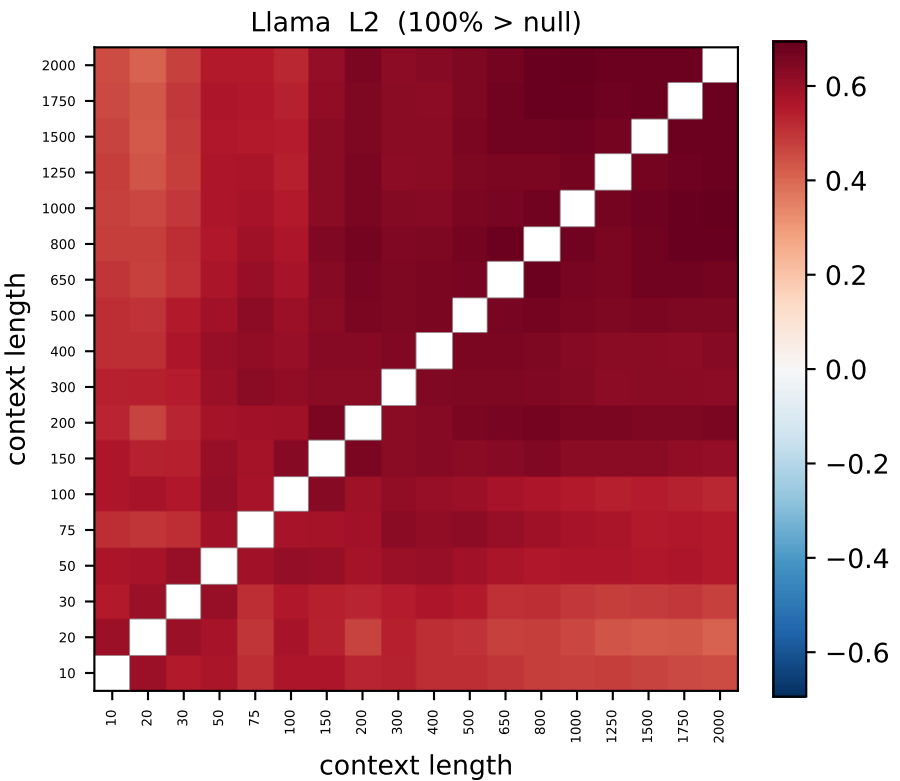

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.02
red = above chance (real)

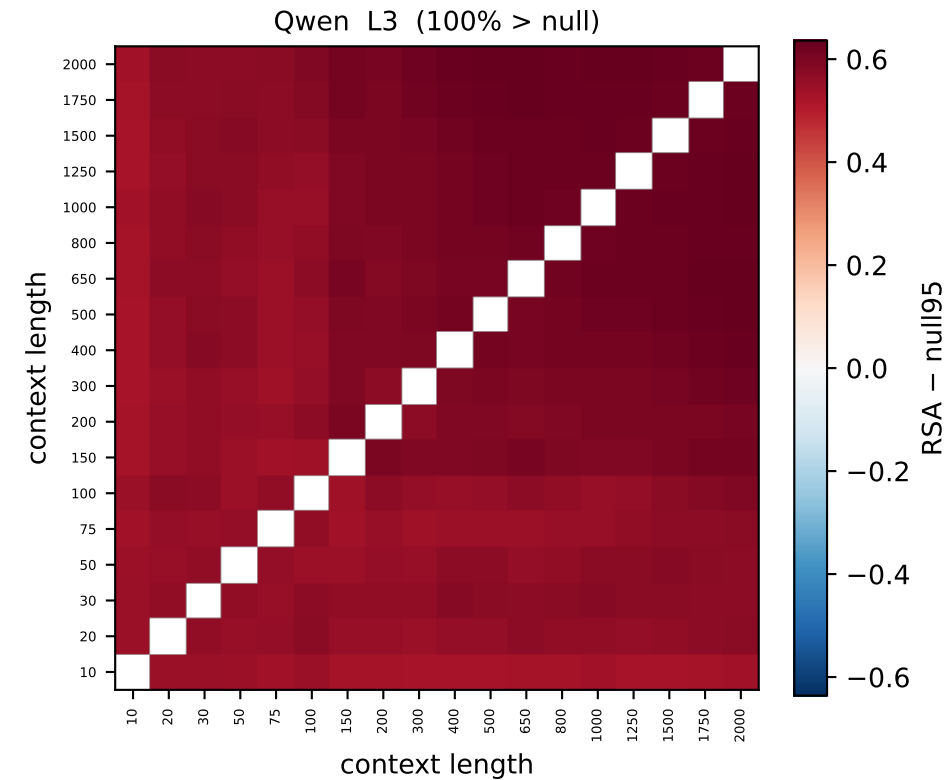

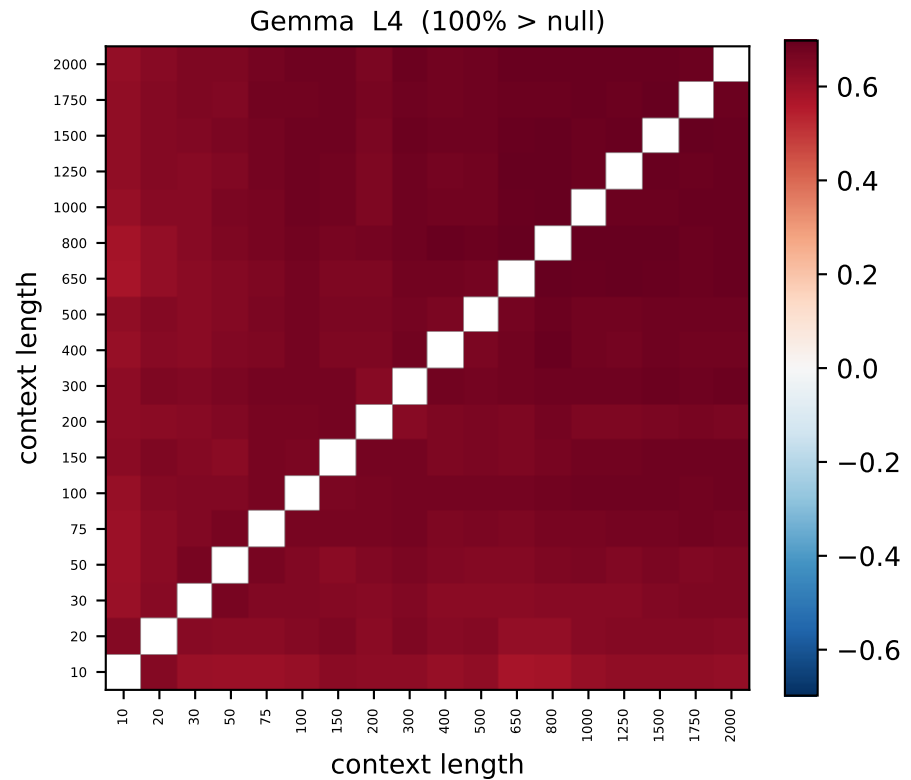

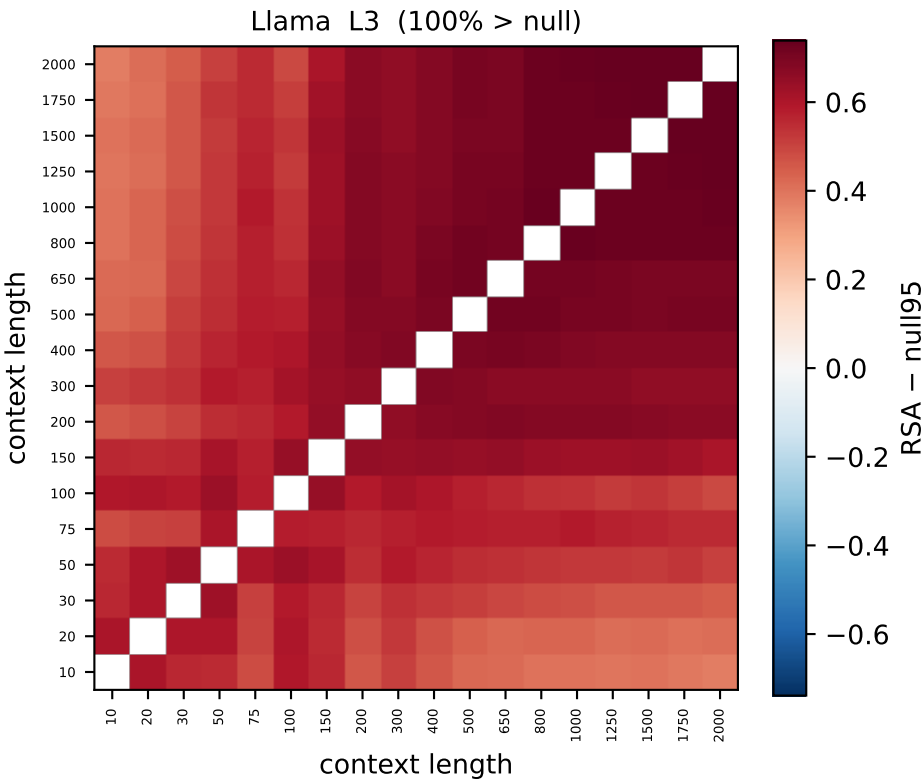

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.05
red = above chance (real)

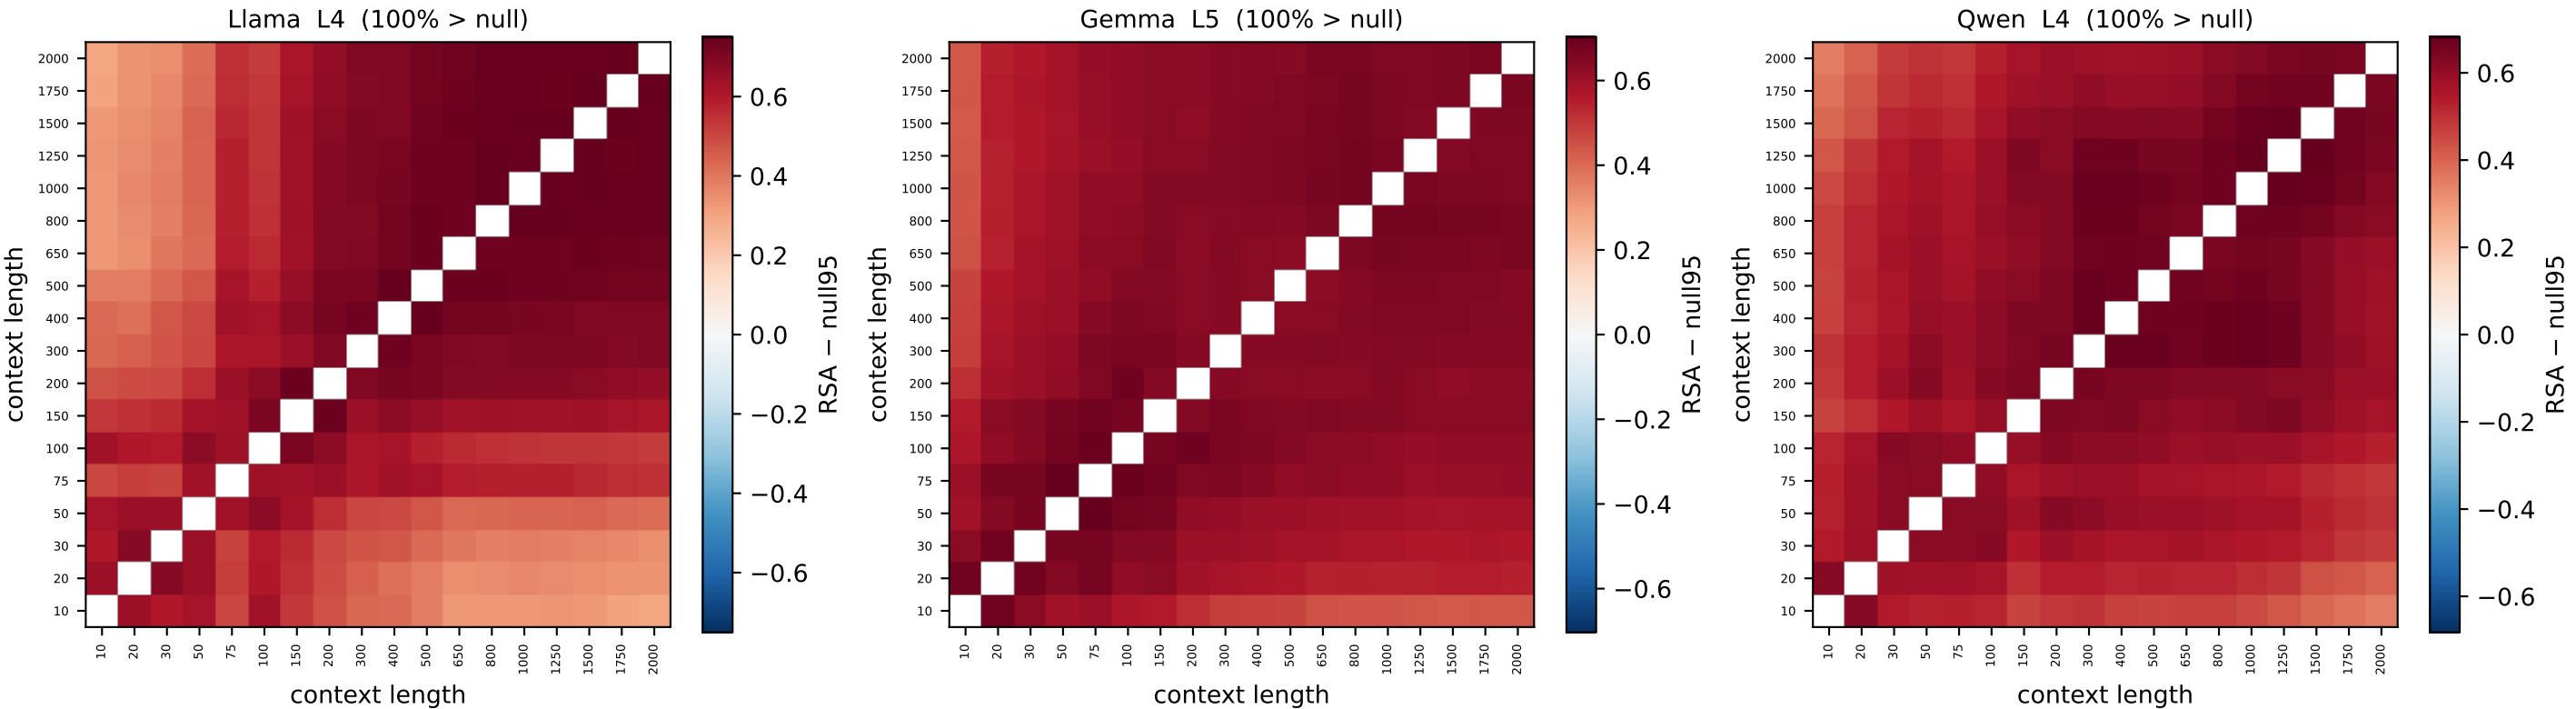

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.07
red = above chance (real)

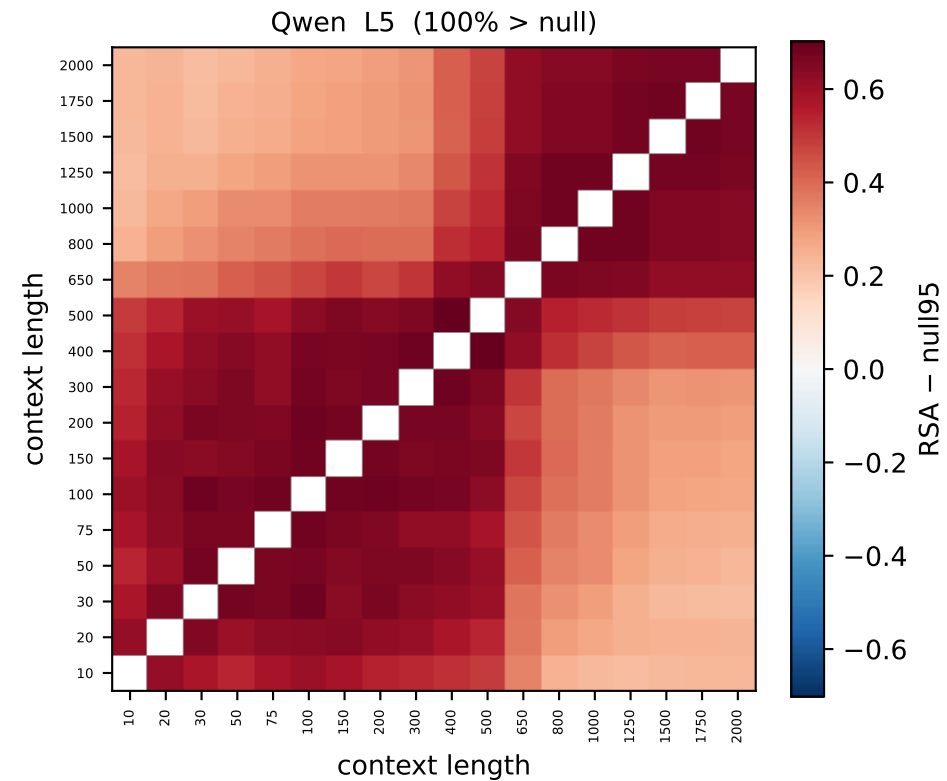

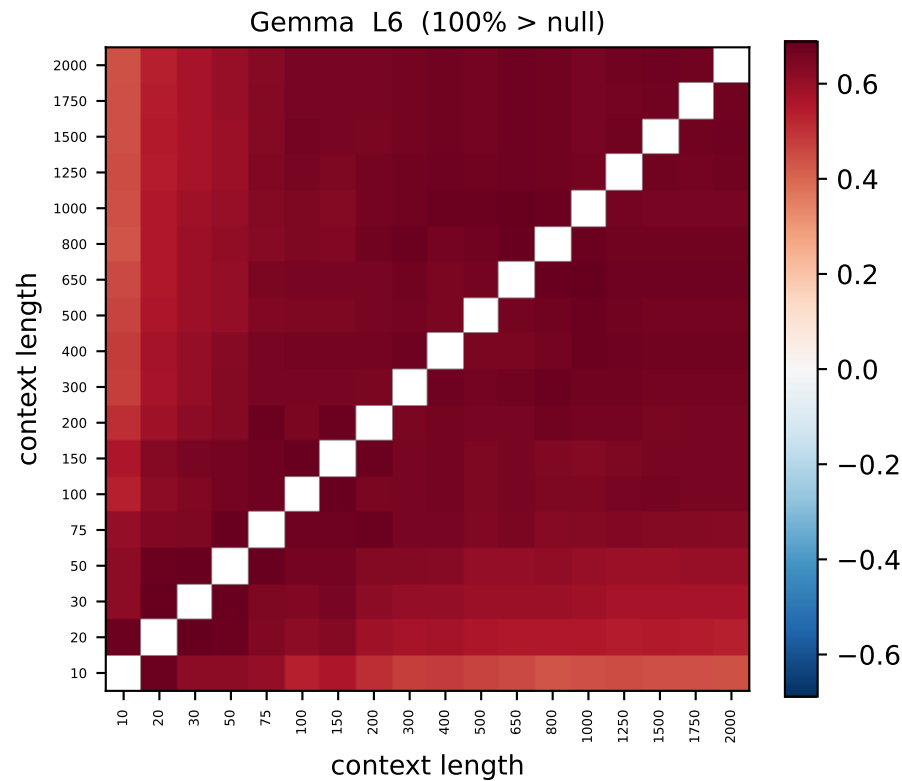

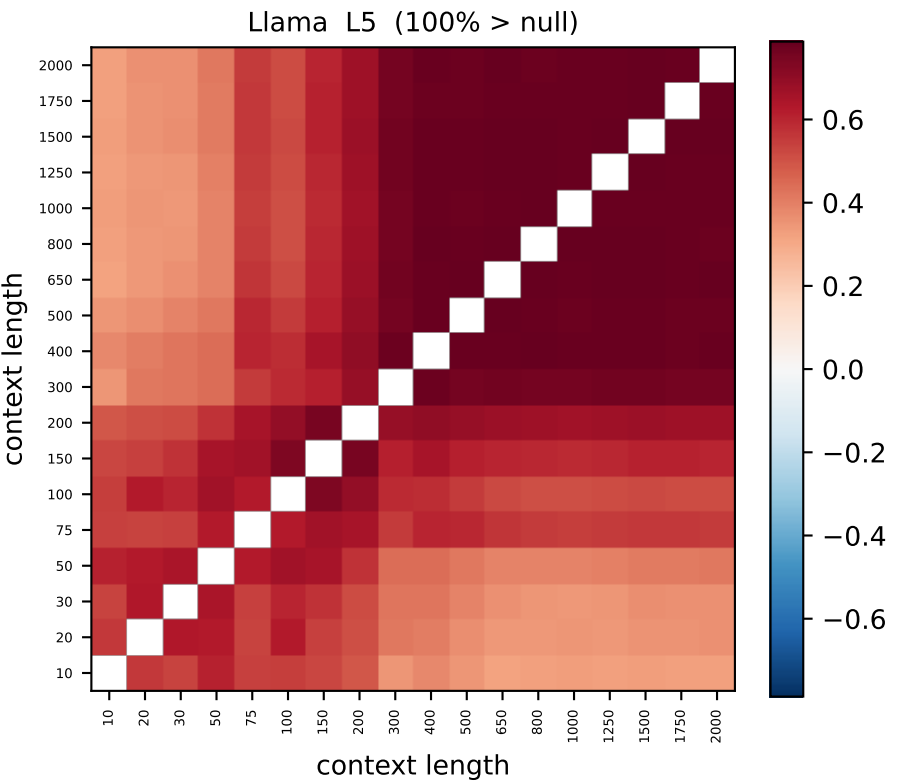

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.10
red = above chance (real)

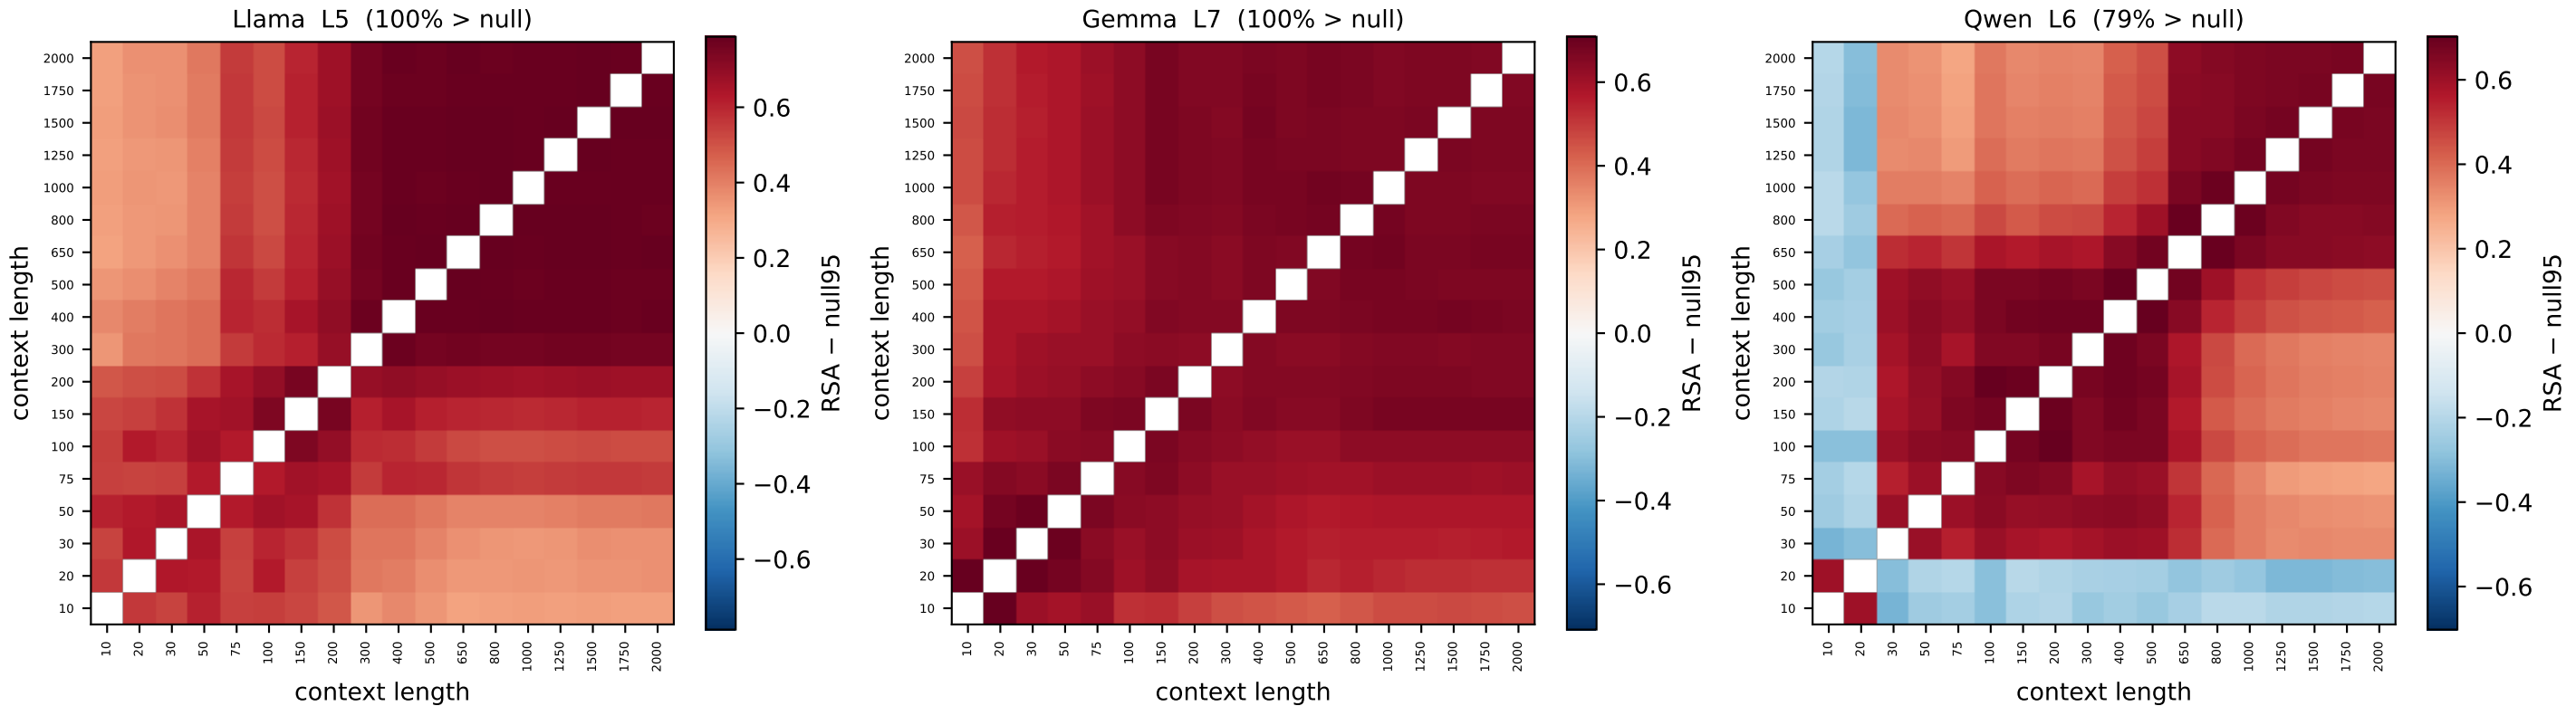

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.12
red = above chance (real)

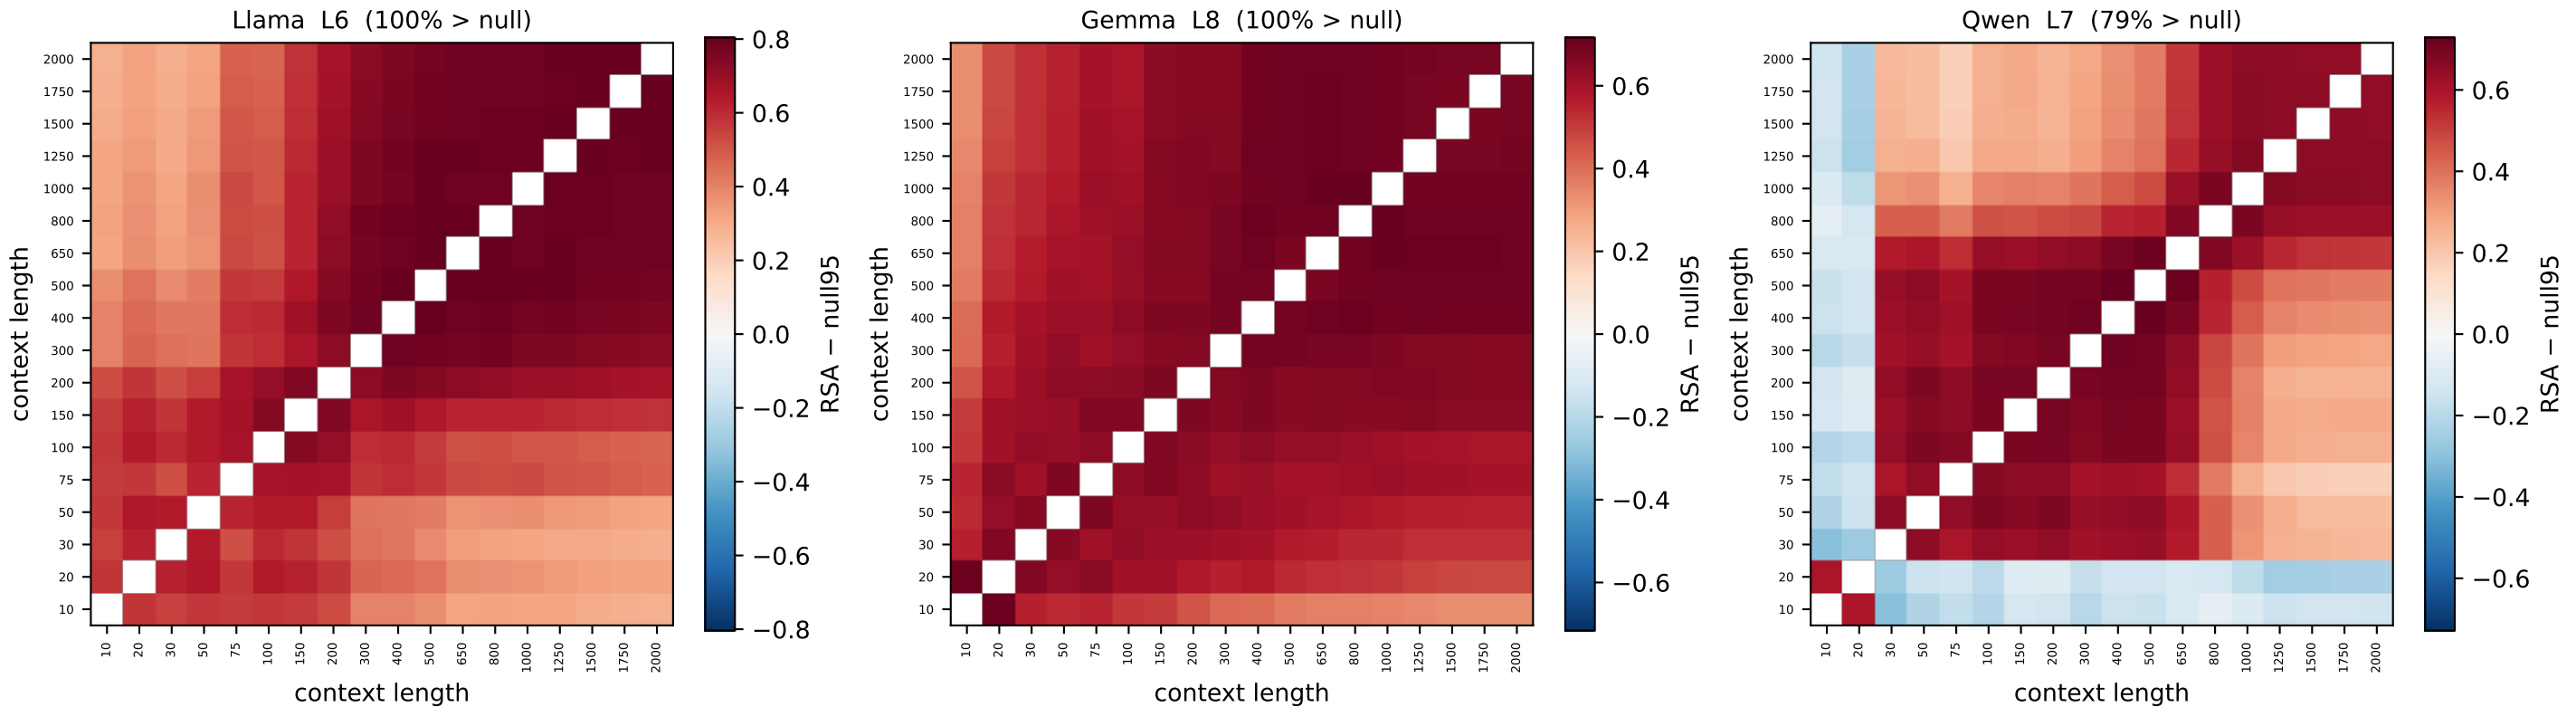

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.15
red = above chance (real)

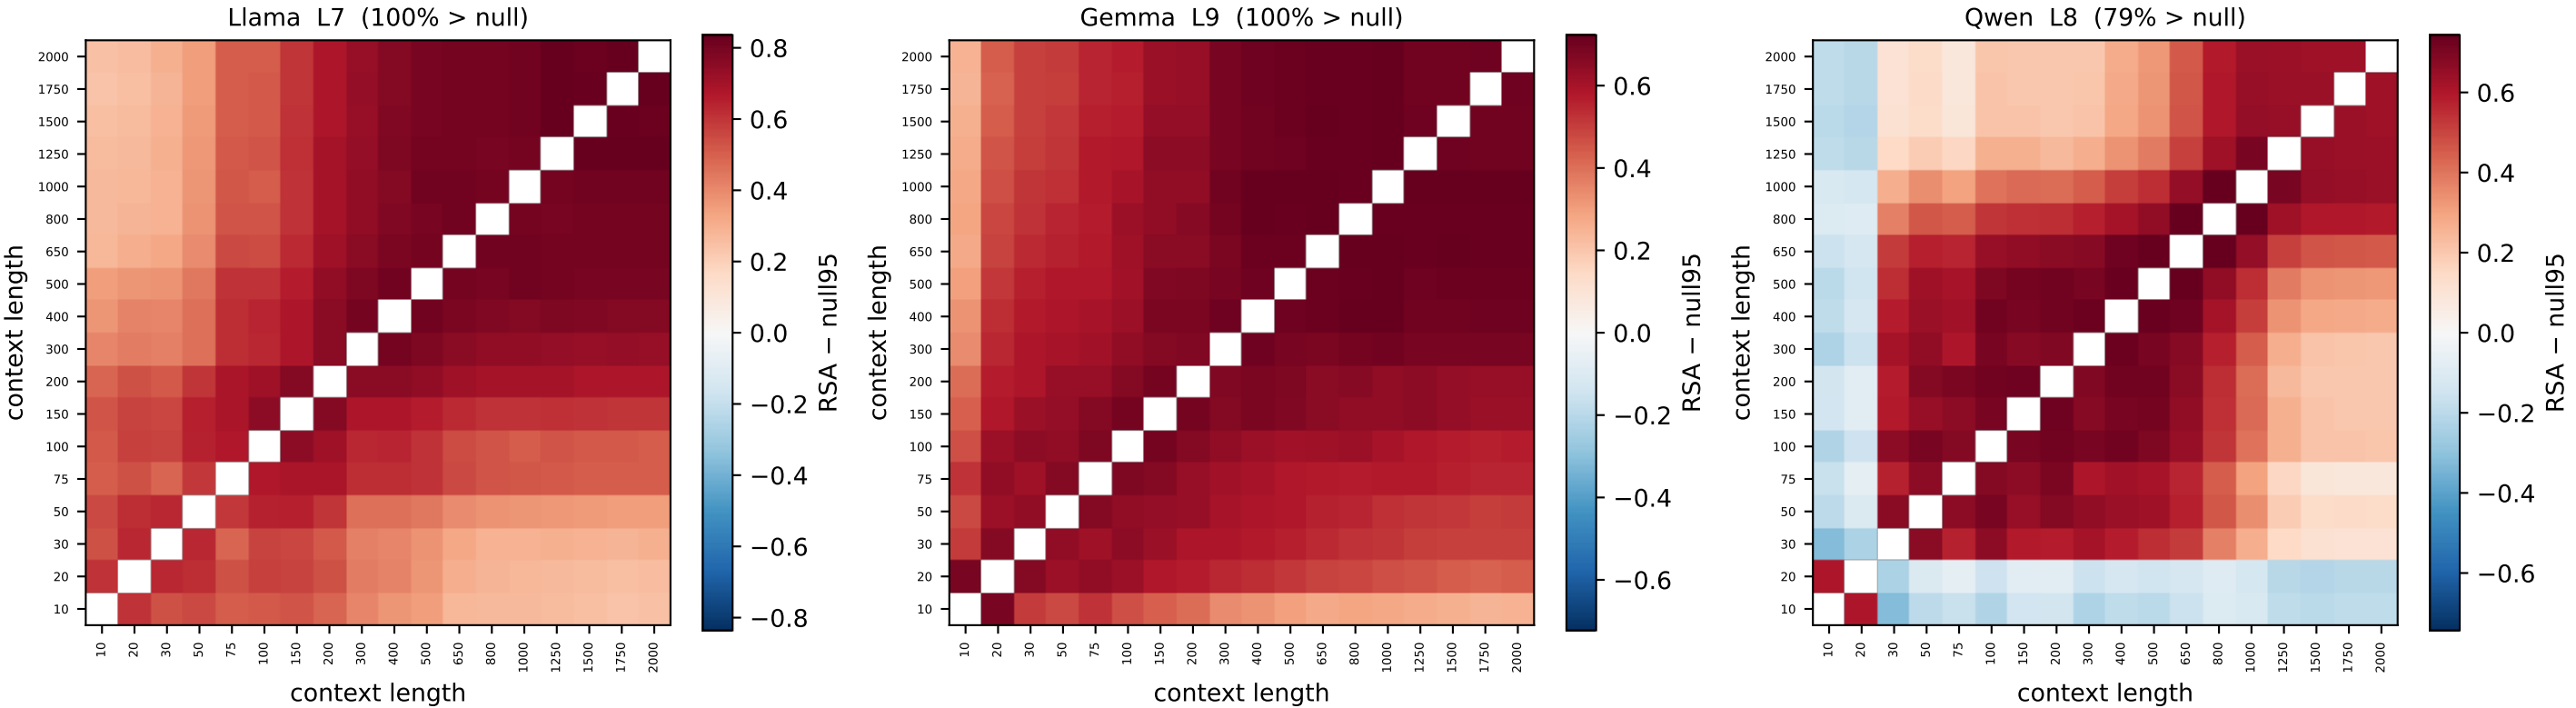

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.17
red = above chance (real)

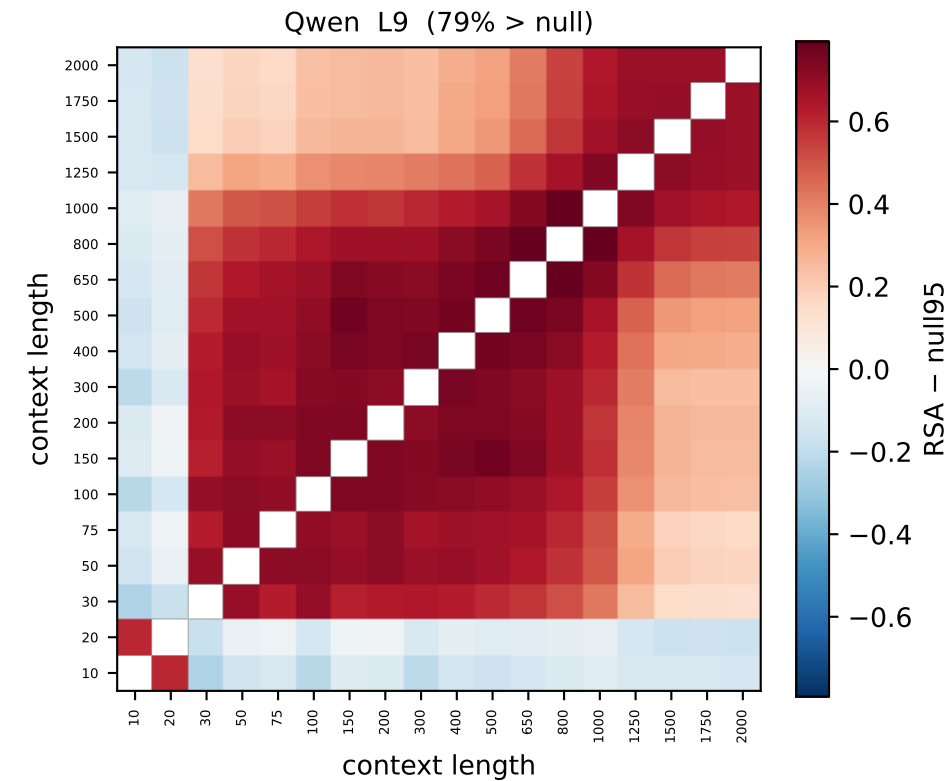

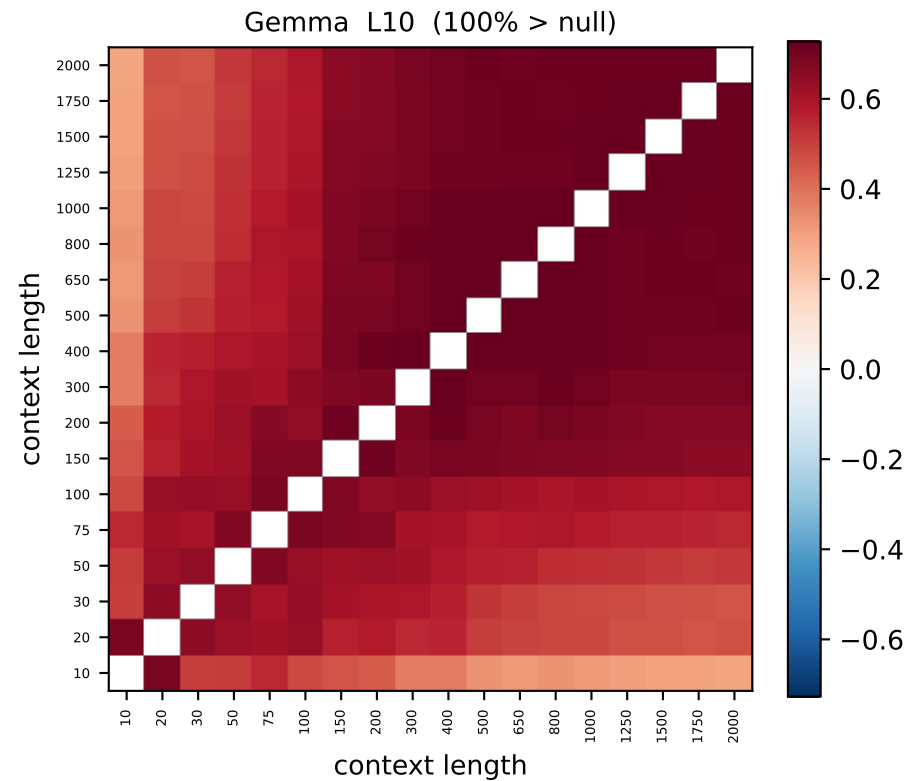

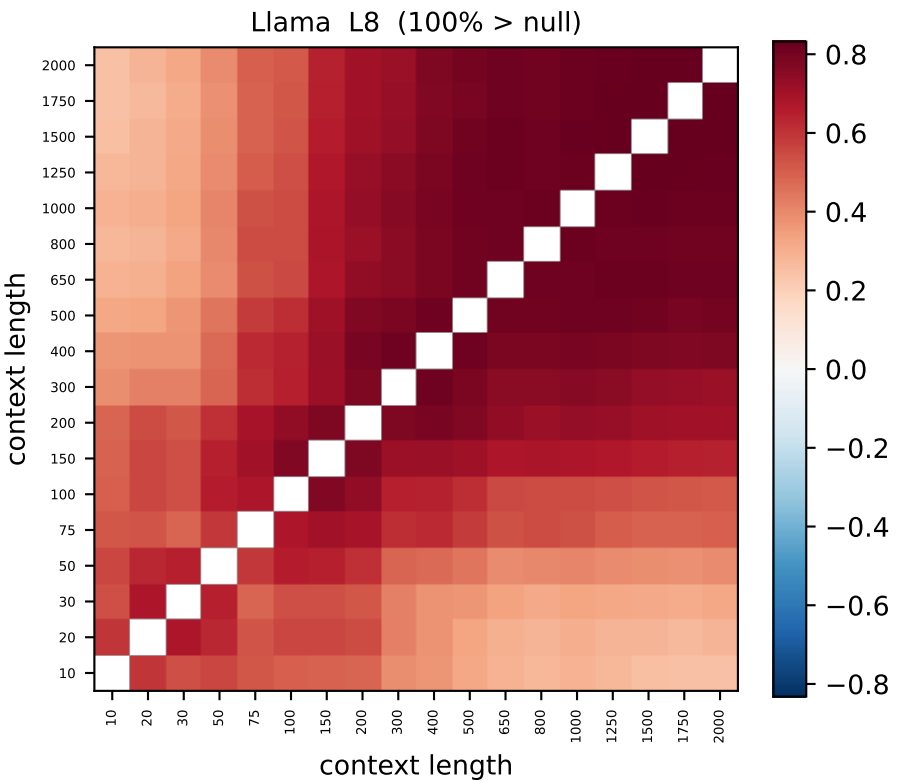

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.20
red = above chance (real)

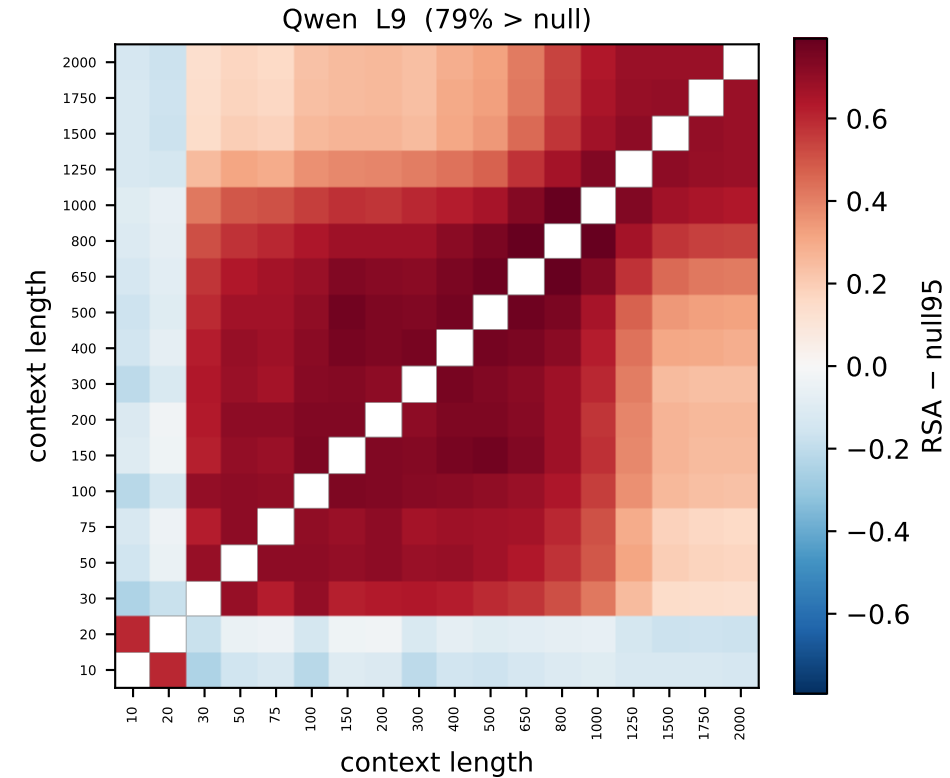

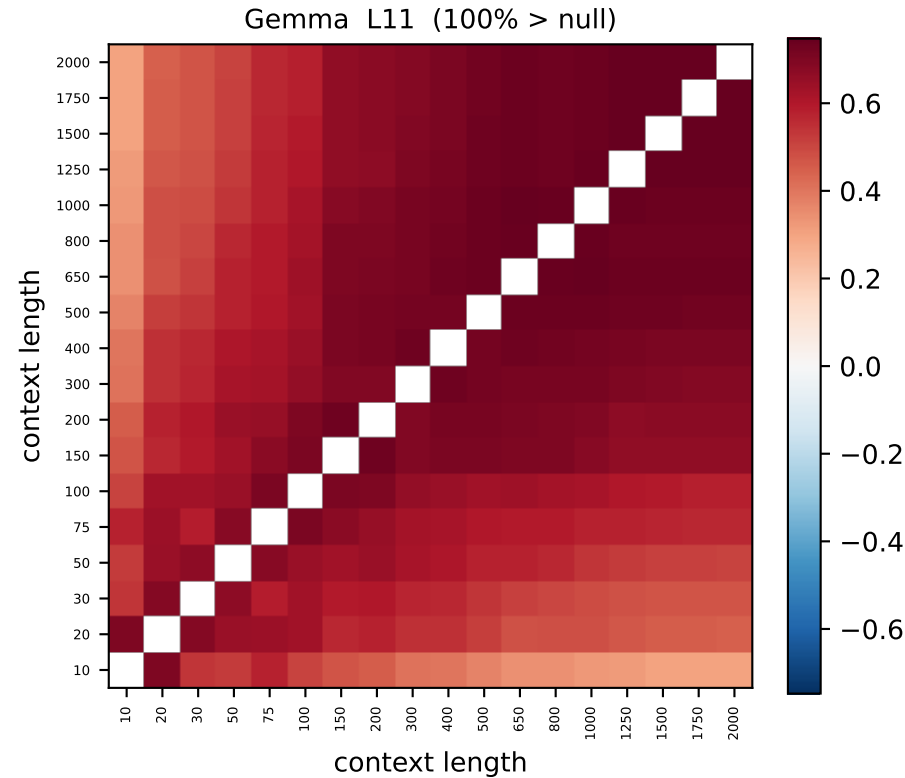

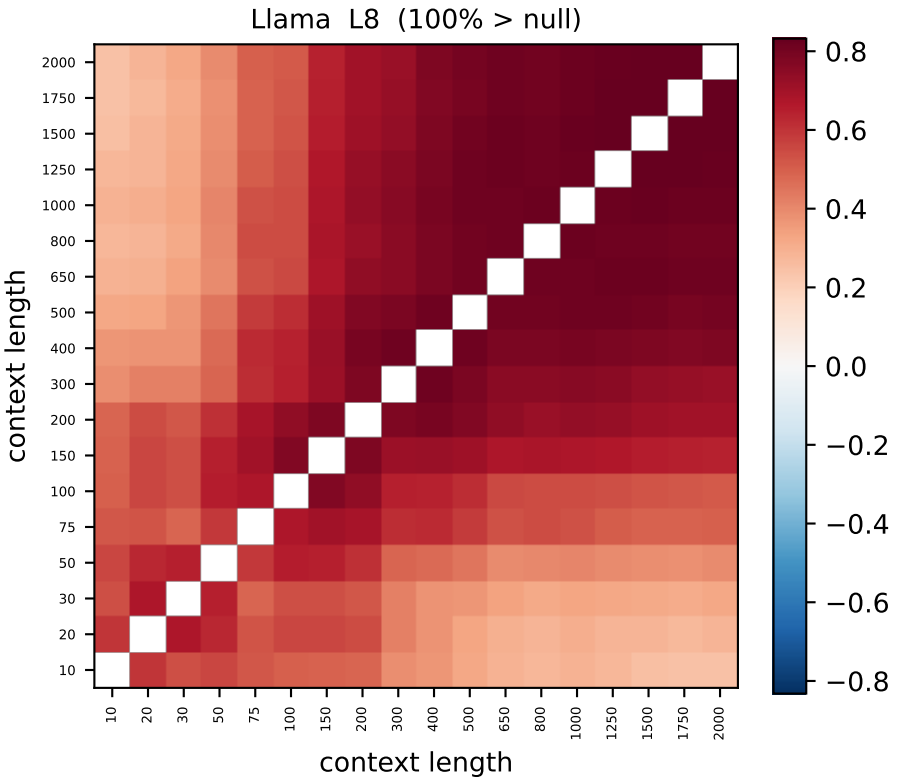

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.22
red = above chance (real)

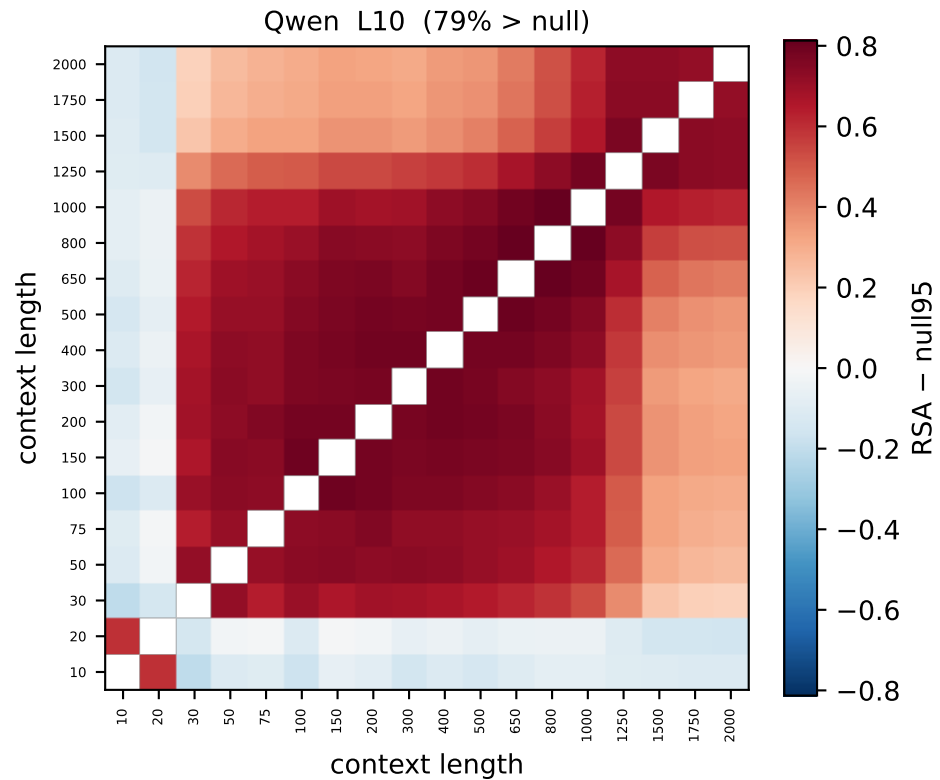

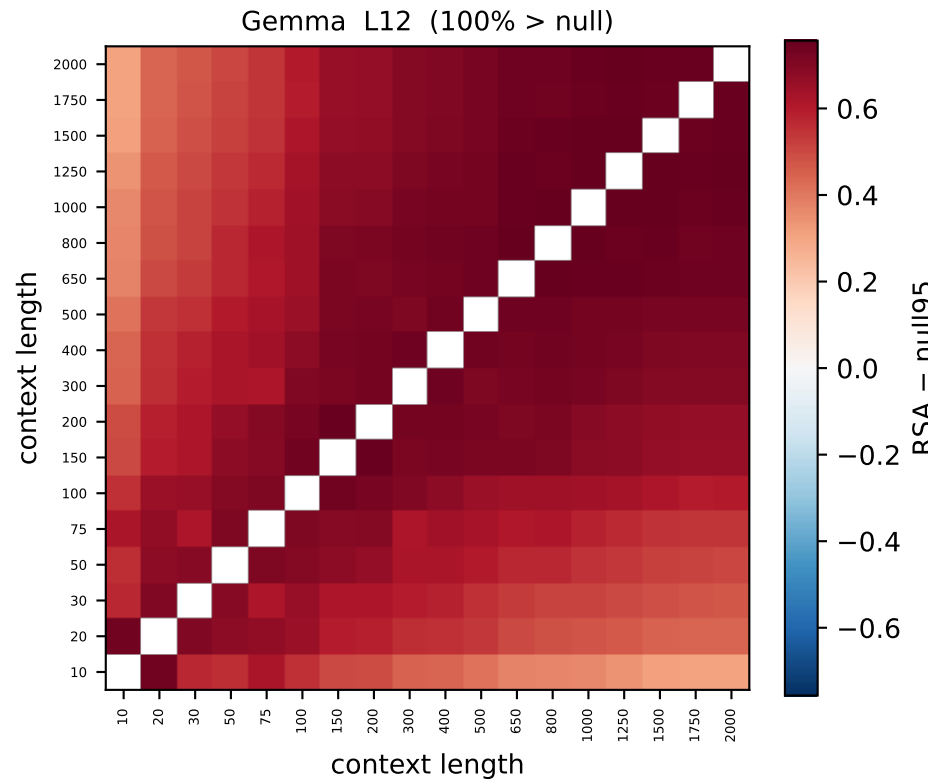

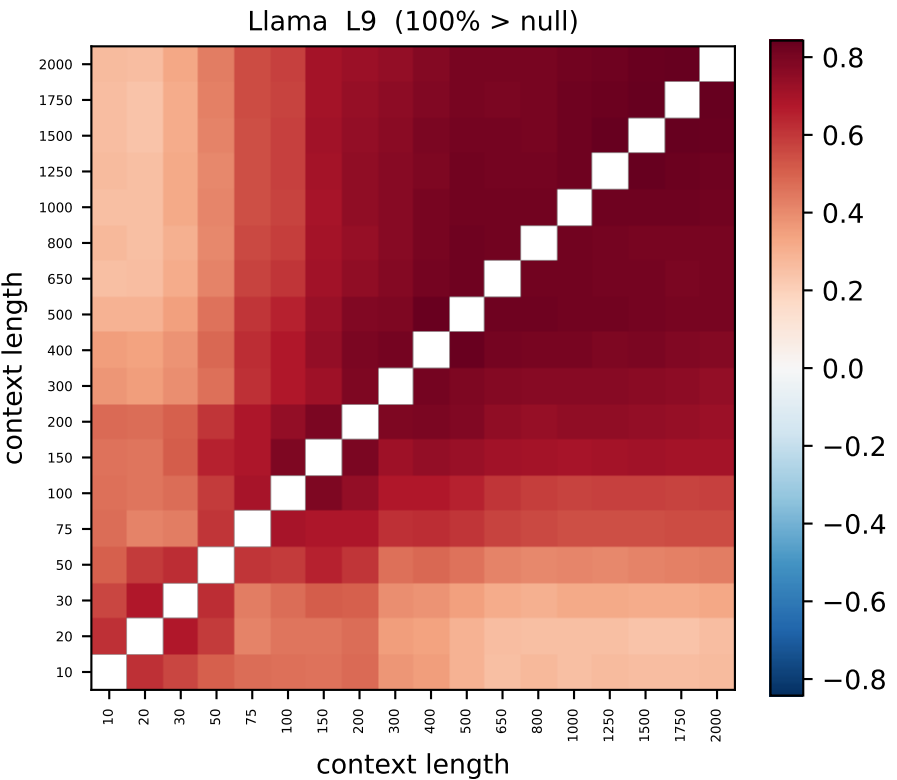

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.24
red = above chance (real)

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.27
red = above chance (real)

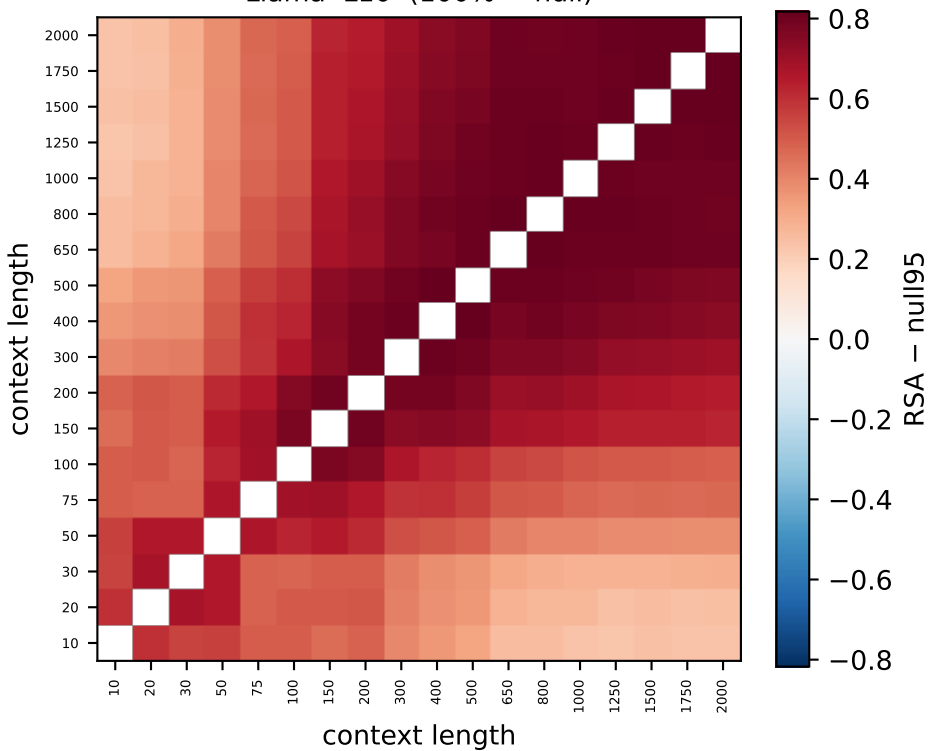

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.29
red = above chance (real)

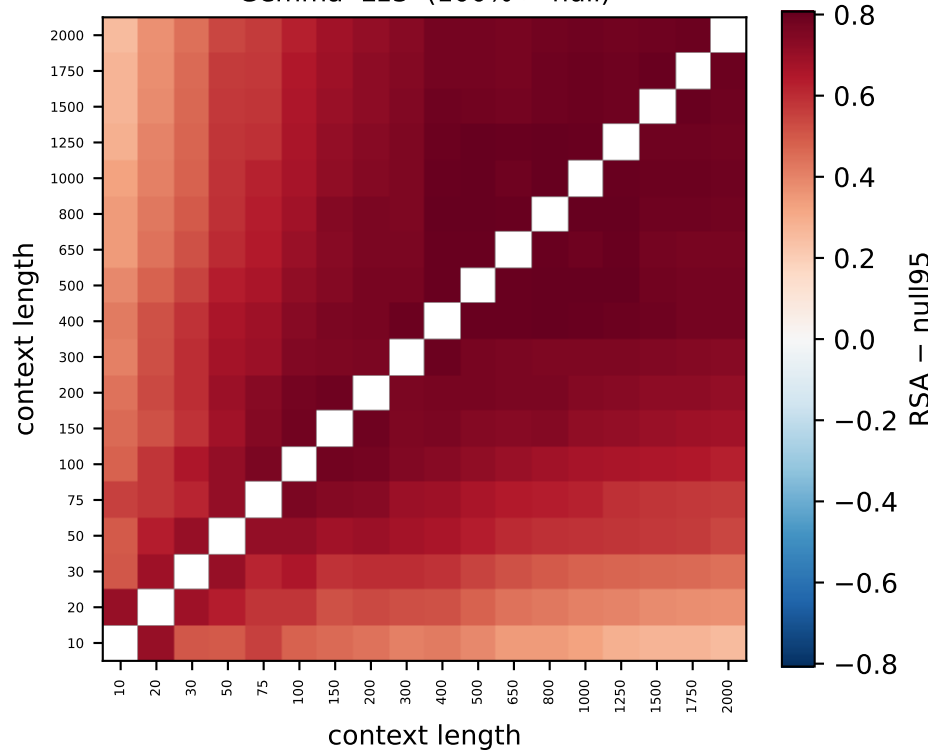

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.32
red = above chance (real)

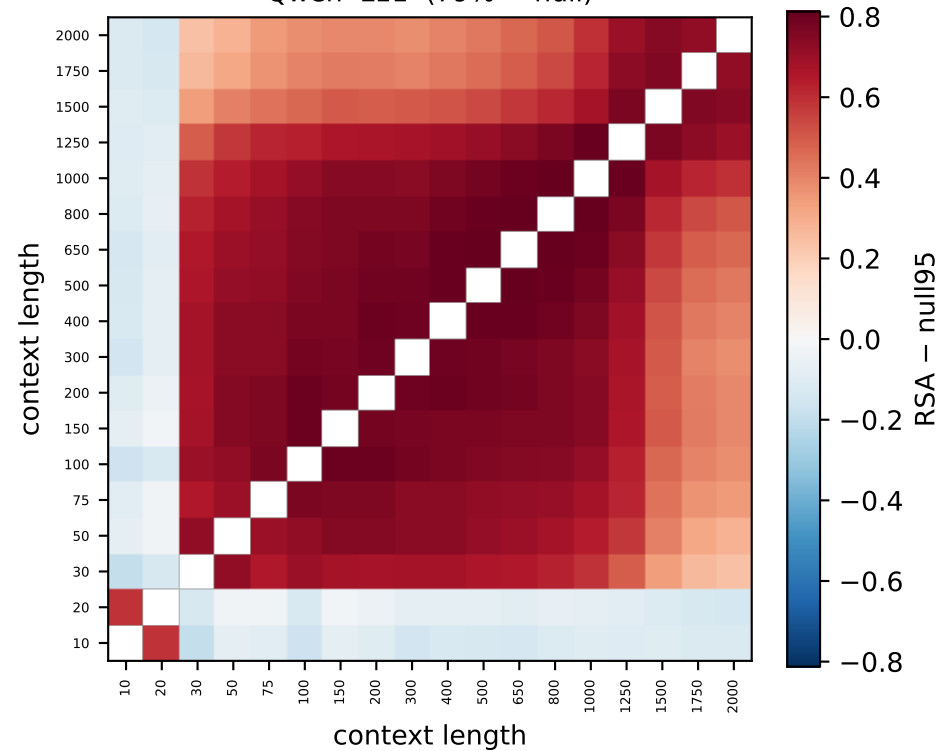

Llama L10 (100% > null)

Gemma L13 (100% > null)

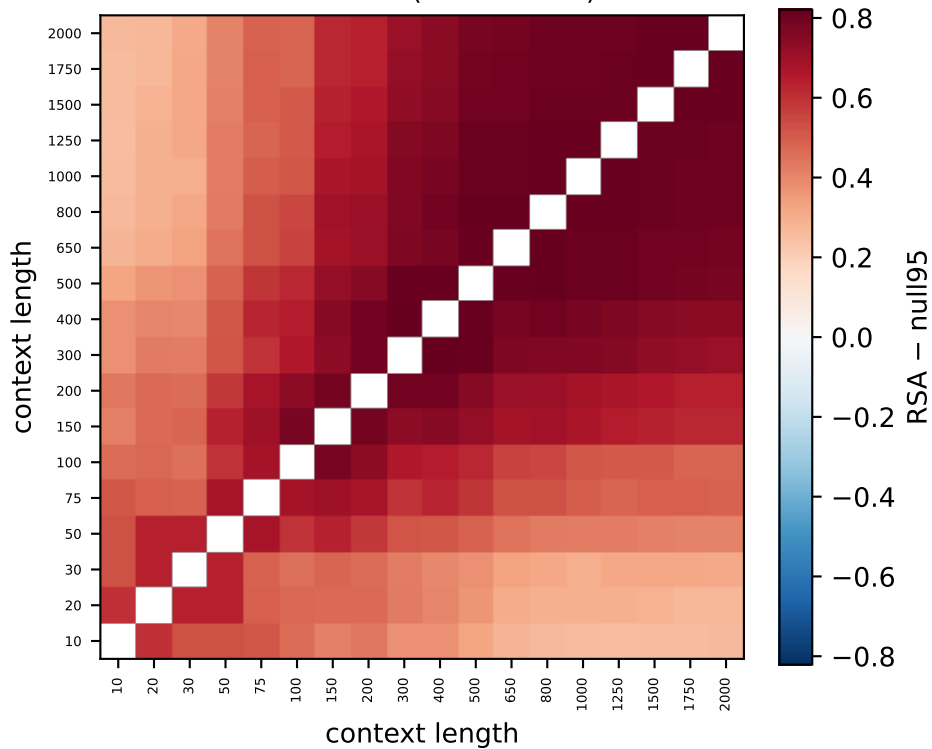

Qwen L11 (79% > null)

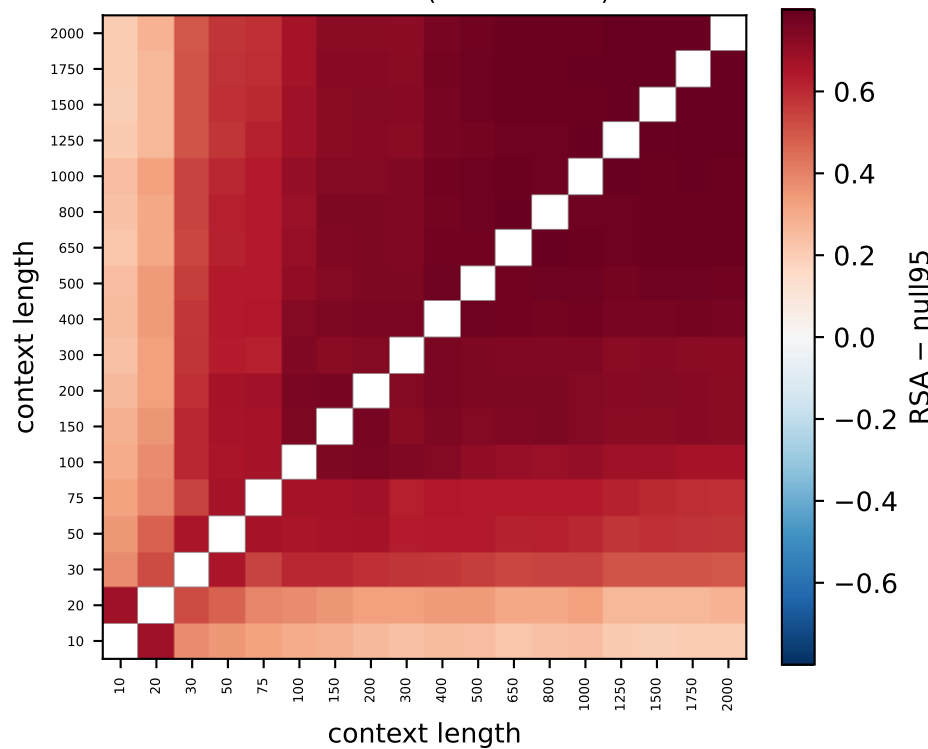

square_grid [v2] context-RSA significance (observed – perm-null95) — relative depth 0.34
red = above chance (real)
